### TO-DAY WILL DECIDE.

Amalgamated Workers Will Hold a Big Meeting This Afternoon.

MILL OFFICIALS MAY BE PRESENT.

Treasurer Penny, of the Amalgamated Association, Dead.

SOME GENERAL INDUSTRIAL GOSSIP

Yesterday morning long before the entrance gate of Jones & Laughlins' mill was opened, a big crowd of laborers of many nationalties had gathered and were clamor-ing for admission. Only about 100 men out of the crowd were given employment, as the large majority of them were not fitted to do the work. All day long large crowds were gathered about the mill, discussing matters. Although there was an unusually large crowd of people on the streets the day passed off very quietly.

Yesterday afternoon the committees from the different branches of the Amalgamated Association employed in the mill held a conference with the firm. It lasted for over two hours, but ended with matters just in the same position as they have been for several days. To-day a mass meeting of all the employes of the mill who are connected with the Amalgamated, will be held. Vice President Carney, of the Amalgamated Association, will be pres-ent and address the meeting. This meeting will decide finally whether the men will strike. In the meantime the men will work right along. The laborers will meet again this morning, but will not do anything definite until they see what action the skilled workman take. Wm. Jones was seen yesterday evening after the conference, but had nothing to say further than that the firm did not consider the present trouble of any account, and that the greater number of the laborers who refused to work last week

laborers who refused to work last week were now at work.

One of the puddlers said yesterday that there could not help but be a strike since foreigners were being employed to fill the places of the laborers. He said it was against the rules of the Amalgamated Association for its members to work where "scab" labor was employed. He also said the men did not understand the work and were a hindrance to have around.

### THE AMALGAMATED'S LOSS.

Treasurer Penny Dies After an Illness of Two Weeks-He Was One of the Oldes: Labor Leaders-The Amalgamated Association Passes Resolutions.

Treasurer James Penny, of the Amalgamated Association, died at his home on Wharton street, Southside, yesterday morning. The announcement of his death was a great shock to all, and especially to organized labor, as he was one of the oldest and best known labor leaders in America. Mr. Penny was born in England 63 years ago. He settled in Pittsburg in 1853, and had lived here ever since. For the past 30 years he had been employed in the rolling department of Chess, Cook & Co.'s works. His remains will be buried from the Walton Methodist Church, to-morrow afternoon, at 2 o'clock. All the national officers of the association will attend the

The board of officers of the National Lodge met at the general office on Smith-field street yesterday afternoon, and unan-imously adopted the following resolutions:

Whereas, We have just learned of the death, of our co-officer, Treasurer James Penny, and that this sad news conveys to us the sorrowful intelligence that there has been removed from our side, one who, since the formation of our organization, has been a familiar and honored person at all the principal gatherings of our members, and Whereas, He has always been found giving the men of our craft valuable service and assistance, often exposing himself to inconvenience and injury to the end that the organization that he loved so well, and with the success of which his name is inseparable, should attain that position that afterwards was his pride to behold; therefore, be it Resolved, That while we bow in humble submission to the will of the omnipotent, He whom in life he so faithfully served and to whom he has been called, we feel keenly the loss we have sustained in his death.

Resolved, That by his death his wife has lost a devoted husband and the members of his family an unsurpassed parent, and that

Resolved, That by his death his wife has lost a devoted husband and the members of his family an unsurpassed parent, and that in this their hour of grief we extend to them and to his more immediate friends our heartfelt condolence, and pray that he to whom we all look for mercy will give them strength to sustain them over their irreparable loss; be it further

Resolved, That by his death there has been created in the official ranks of our organization a void that only that gentle and pleasing form, which endeared him to all who knew him, could have enabled him to so successfully fill, and that in his demise a source of counselt that has been invaluable is forever denied us, and upon whom it was a pleasure for the members to look, will be seen no more: be it furthe.

Resolved, That out of respect to his memory that the charters of all subordinate lodges be draped in mourning for the period of 60 days; that these resolutions be printed in all the morning papers in Pittsburg and also in the Notional Labor Tribune and a copy of them be given to the family of the deceased, and they be entered upon the records of the National Lodge.

William Weihe, President; Stephen Madden, Secretary; M. M. Garland, Assistant President; J. C. Kligallom, Assistant Secretary; Ed A. Keil, John Pierce, Thomas Mansel, Trustees; W. A. Carney, John P. Sheehan, Harry Hawking, Reese W. Prosser, J. D. Hickey, John Martin, P. H. McEvey, Thomas Cunningham, John Gallagher, Vice Presidents.

### They Join the K. of L.

The employers of the Pittsburg, Allegheny & Manchester Traction road have formed an Assembly of the K. of L. with a membership of 125. This was done to put them on a firmer basis in case their trouble with the officials cannot be amicably settled. A committee waited on President Dalzell yesterday and the members were satisfied with the terms be offered them. A general meeting of the men was held last night after they went off duty, to hear the nittee's report, and decide what action would be taken.

The Miners' Strike Practically Ended. The strike in the Pittsburg district is practically over, or at least it would seem so from the small amout of in-terest that is being taken in it by the district officials. President Costello is in Ohio, and all day yesterday Secretary McQuade stayed at his home in Manchester. It is the opinion of all who have been following the details closely in the past six weeks that the strike was practically set-tled after the result of Sunday's meeting at

### Doing a Good Business.

The United States Iron and Tin Plate Manufacturing Company, of McKeesport, has for months been turning out 60 boxes of tin plate daily, and when its additions are completed next month, it will turn out 500 boxes daily and will furnish 200 more men with work. The additions will be finished by January 1, and will include a rolling mill, a tinning house and a bar mill. When all is completed the plant will cover six

### A Beneficial Society Formed.

Two hundred conductors and gripmen of the Citizens' line met in Vaughn's Hall, Penn avenue, at 12 o'clock last night and formed a temporary beneficial society, to be composed only of their craft. The idea be composed only of their craft. The idea is to tax each man a small sum monthly to create a disability and funeral fund. It is proposed to pay \$10 a week sick benefits and \$200 in case of death.

day to elect a successor to its late Treasurer, James Penny. Considerable difficulty is anticipated in making this selection. The nature of the duties required render it neces-sary that the Treasurer should be a local member. No one has been mentioned for the office as yet, so that it is impossible to say who is the most likely to be named.

THE FRICK COMPANY'S IDEA. Davy Safety Miners' Lamp to Be Su

planted by Electricity. Electricity is beginning to play an im-portant part in coal mining, and the chief engineer of the H. C. Frick Coke Company has about decided upon another innovation which will play an important part in the handling of coal and the manufacture of coke. The Connellsville, New Haven and Leisenring Electric Street Railroad runs past two of their plants. It is his proposition to secure from them the motor power to run the lahry cars over the ovens by electricity. This will enable them to do away with the mules, and, at the same time, not place steam engines, which are costly and unsatisfactory, upon the ovens. The power will not be nearly so expensive as the mules, and can be operated by anyone after a few days' instruction. This will be the first time that any mine has been operated by electrical power, and the result will be watched with interest by miners.

The Frick mines have for some time been contemplating placing the electric light in their pits and shafts. At the Leisenring No. 2 this has been in operation for some time, and the end of the shaft, 350 feet below ground, is as brilliant as a ballroom, the Edison incandescent system being used. The Davidson and Mt. Pleasant, Standard and Leisenring No. 3 are also being equipped with this light. coke. The Connellsville, New Haven

### EMPEROR WILLIAM'S ORDER.

The Pittsburg Reduction Company Will Furnish Him 500 Tons of Aluminum. Yesterday, Emperor William, of Germa ny, placed an order with the Pittsburg Reductive Company for over 500 tons of aluminum. This is the largest order of this article ever made but aluminum promises to make quite a change in the trappings of a soldier in the future.

The Emperor will have the canteens of all his soldiers made of this material in the fut-ure, because of its lightness and cleanliness. It will be used in the manufacture of many of the other trapsprings. It may be also used in making cartridge shells. It is now being used in manufacturing the new smokeless powder cartridge, and the European powers are considering the advisability of adopting it altogether.

### Industrial Notes.

To-DAY President Smith and Secretary Dillon, of the American Flint Glass Workers' Union, will hold a conference with the Associated Glass Manufacturers, and try to bridge over the trouble concerning factory rules.

JOEEPH VAUNCOUSH and Edward Klein, of luchart, Germany, are in the city. They are here to investigate the progress made in the use of mining machinery. Before their return to Germany they will visit all the principal mines in the United States and Canada.

### PATTISON'S PROCLAMATION,

Illinois, which is to be formally dedicated on the twelfth day of October, A. D., 18 on the twelfth day of October, A. D., 1892, and regularly opened to the public on the first day of May, A. D., 1893, and to continue open for the period of six months: and Whereas, In obedience to the President's proclamation, it is expected that every State in the Union and the people of every State shall contribute their due share to the success of said exhibition, to the end that it may redound to the honor of the nation and advance its general welfare; and

cess of said exhibition, to the end that it may redound to the honor of the nation and advance its general welfare; and

Whereas, The Commonwealth of Pennsylvania is specially bound, in remembrance of the generous disposition that was displayed by her sister States and many of their citizens in her behalf and that of her principal city when the centennial of our national independence was celebrated in Philadelphia, A. D. 1876, to do her utmost part toward making said Exposition what every true American must desire it shall be;

Now, therefore, I, Robert E. Pattison, Governor of said Commonwealth, in response to the patrictic sentiment that has always characterized her people, and in accord with the laudable motive which prompted the last General Assembly to make liberal revision "for the collection, arrangement and display of the products of the State" at the World's Columbian Exposition, do hereby issue this, my proclamation, calling upon the citizens thereof, without distinction or race, creed or sex, to prepare for furnishing

World's Columbian Exposition, do hereby issue this, my proclamation, calling upon the citizens thereof, without distinction or race, creed or sex, to prepare for furnishing their full proportion to the interest, value and financial prosperity of said Exposition; and I do particularly request all railroad and transportation companies, all mining, manufacturing, shipbuilding and other industrial firms and corporations, all operators in and producers of natural cits and gases, all agricultural, horticultural, floricultural, botanical, geological and similar associations; all churches, schools, seminaries, colleges and universities; all historical, archeological, religious, literary and library societies; all fine art galleries, museums and places of public instruction and amusement; all editors, publishers and printers and bookbinders; all ministers, physicians and attorneys; all banks, bankers and capitalists; ali painters, scuiptors, architects, designers, decorators and photographers; all who produce superior butter, cheese, grain, fruits, flowers, vines, vegetables, etc.; all inventors and skilled artisans; all trades unions and commercial organizations; all who possess articles of beauty, novelty, rarity or striking merit; all State, county and municipal offices; all trust and insurance companies; all persons in every avenue of life who may have something in their respective lines to present that is worthy of public notice and consideration, to lend their assistance in making the exhibit one that will be a source of pride to every Pennsylvanian, and a revelation to the world of the enterprise, progress and unrivaled resources of the State.

And I do further request all citizens who may wish to take part in said Exposition to communicate at an early date with Benjamin Whitman, Executive Commissioner of the Board of World's Fair Managers of Pennsylvania, at his office, in the city of Harrisburg, in order that he may be enabled to learn their views and purposes on the subject, and to sid in making such arrangeme

results.

Given under my hand and the Great Seal of the State, at the city of Harrisburg, this ninth day of November, in the year of our Lord one thousand eight hundred and ninetyone, and of the Commonwealth the one hundred and sixteenth.

By the Governor: WM. F. HARRITY, Secretary of the Commonwealth.

Fharpsburg Branch Almost Opened. The Citizens' Traction Company is making rapid progress in the transformation of ing rapid progress in the Aransformation of its Sharpsburg branch from a horse car to an electric line, and the new motive power will probably be in operation within two weeks. The tracks are all completed except the railroad crossings at the bridge, and a large force of men are working on them day and night. The erection of the overhead wires is now going on, one wire being practically completed. As soon as these details are finished nothing will stand in the way of start. ished nothing will stand in the way of start-

ing the new system, and the people of Sharpsburg are happy in consequence. A Woman Stranded in Pittsburg.

Mrs. Annie Montgomery, an Alabama roman, reached Pittsburg last evening, and proposed to pay \$10 a week sick benefits and \$200 in case of death.

To Elect Treasurer Penny's Successor.

The Advisory Board of the Amalgamated Association will meet in Pittsburg Thurs
woman, reacted Fitzsurg Feature Penng, and in common parlance was dead broke. She was on the way to join her husband at Shamokin, who is employed in a coal mine there. She was allowed to spend the night in the depot and was given a supper in the restaurant. It is expected the company will send her to Shamokin this morning STREET LINES

Prepare to Compete for Traffic to Knoxville and Mt. Oliver.

POSSIBLE CONSOLIDATION. The Transverse Road Preparing to Cross

the Allegheny.

OTHER INTERESTING RAILWAY NEWS

Bids were received yesterday for building an addition to the Suburban Rapid Transit road from Eighteenth and Jane streets to connect at Arlington avenue. Thomas A. Noble, President of the company, stated yesterday that the road is now assured. Work will be commenced in a few weeks. It is also announced that the Pittsburg and Birmingham Traction Company will secure rights of way on Knoxville and Mt. Oliver and will compete with the Suburban line. The two companies are bristling with predictions of what they are going to do, but in reality they are believed to be bluffing on both sides. The Birmingham road claims it will utilize the Knoxville incline plane to get to the top of the hill, and that passengers will be carried for one fare.

Chances of a Southside Combine. The plan proposed is to strengthen the incline and carry cars and passengers with-out a transfer, but it has been found that the cars used are so heavy that it will incur a great expense to prepare the incline for carrying them, and that when they get on the hill the grade is too great to permit the hill the grade is too great to permit rapid enough transit to compete with the single truck cars of the Suburban line. The latter road is said to have offered stock to the Birmingham in the hope of consolidation and the Birmingham is believed to have been equally anxious to get it, but each is holding out for its own terms, and at the same time trying to scare the other. The Suburban has determined to build, however, and with only a 6 per cent grade up the Birmingham and Brownsville macadamized road, they claim they can make good time and can compete with whatever plan the Birmingham will adopt. The fare to be charged is 8 cents with whatever plan the Birmingham will adopt. The fare to be charged is 8 cents from Sarah and Eighteenth streets, which, added to a 5-cent fare on the Birmingham to reach the city, will make the cost of transit from Knoxville and Mt. Oliver to Pittsburg 13 cents. This price is too high to become popular and the hope of citizens on the Heights is that the two companies will consolidate, and, by extending the proposed Suburban branch one square from Sarah to Carson on Eighteenth street, make a continuous line on which single-truck cars could make good time.

could make good time. Rebuilding of the Tenth Street Bridge. Another new scheme talked of in street railway circles is the elevating of the tracks of the transverse road over the Tenth street bridge. To do this it will be necessary to put new piers under the bridge and strengthen it in other ways, but before electricity is introduced the company has determined to either build a new bridge or run the tracks above the regular driveway.

PATTISON'S PROCLAMATION,

CALLING ON PENNSYLVANIANS TO WORK FOR THE FAIR.

The Governor Wants All Exertions Put Forth to Make the Columbian Exposition a Success—How to Go at the Work—State Pride at Stake.

HARRISBURG, Nov. 9.—At noon to-day Governor Pattison issued the following proclamation:

WHERKAS, The Congress of the United States has provided for the celebration of the four hundredth anniversary of the discovery of America by the holding of a great International Fair, under the name and style of the "World's Columbian Exposition," in the city of Chicago, in the State of Illinois, which is to be formally dedicated on the twelfth day of Cottobar A. D. 1890.

WORK FOR THE FAIR.

Huntray Verner has been instructed to look into the proposal of elevating the tracks above the regular driveway. Murray Verner has been instructed to look into the proposal of elevating the tracks and will make a report at the next meeting of the Board of Directors.

John G. Trimble, the Pittsburg civil engineer, has just completed a new electric road at Beaver Falls, which will begin operation this week. The road is nine miles in length, and connects Beaver Falls, Brighton, Bridgewater, Rochester and Beaver. It was formerly a horse road over about one-third of the distance. Ten electric cars of the ame construction as the single truck cars on the Duquesne road will be used. J. C. Whitney is president of the company. The stockholders are principally Boston, Cincinnati and Beaver Falls, make a report at the next meeting of the Board of Directors.

### NOT AFTER CASHIER LIVSEY.

George Hutchinson Says Pattison Is Responsible for the Democratic Defeat. George W. Hutchinson, Sergeant at Arms of the Senate, was in the city yesterday on private business. He declared that he had given up the hunt for Livsey, and he was probably in England or beyond the reach of the law. Mr. Hutchinson says they had no authority to go outside of the United States to get him. He remarked that Livsey was a very foolish man to run away. In the light of subsequent events it would have been much better for him to have stayed and faced the music. Outside of several letters which he wrote to Bardsley, there is nothing of a damaging character against

"The Democratic defeat is not hard to ex-lain," continued Mr. Hutchinson. "I have always found it a good rule in politics to stick to your friends and try to make more. The Democrats who helped Pattièon and were ignored by him felt sore, and put in the knife wherever they could. It is notorious that the friends of the Governor got nothing from him, while the offices and soft snaps went to the fellows who were opposed to him. This accounts for the fall-ing off in the vote in such Democratic strongolds as Clearfield and Center counties. I know that the Pattison men in Blair county got tired of their treatment, and I can see where they exerted their influence against the ticket. Then the extra session was a blunder, but I lay more stress on the cause I have mentioned. Pattison's boom is dead." Local Democrats do not hold Harrity re-sponsible for the disastrous knockout of the party. Goodness knows, Harrity feels badly enough about it, and now it is said he badly enough about it, and now it is said he won't accept Scott's place on the National Committee. J. M. Guffey is mentioned these days as the probable successor of the late lamented Eric hustier. Sam Josephs and McMullin are accused of treachery in Philadelphia, but the explanation given by Mr. Hutchinson sounds quite reasonable.

Colorado Still Republican.

J. W. Wingste, of Silverton, Col., is registered at the Anderson. He says the people of his State are red hot for free silver, but Colorado is Republican and he doesn't think it will go Democratic on this issue in 1892. While the people are free silverites, they are strong protectionists, and as neither party offers them any inducements they will stick to the Republicans.

There's danger

There's danger in a cough—more than ever when your blood is "bad," It makes things easy for Consumption. But there's a cure for it in Dr. Pierce's Golden Medical Discovery. A positive cure—not only for Weak Lungs, Spitting of Blood, Bronchitis, Asthma and all lingering Coughs, but for Consumption itself in all its earlier stages. It's reasonable. All these diseases depend on tainted blood. Consumption is simply Lung-scrofula. And for every form of scrofula and blood-taint, the "Discovery" is a certain remedy. It's so certain, that its makers guarantee it to benefit or cure, in every case, or the money is refunded. With a medicine that is certain, this can be done.

There's a cure for Catarrh, too, no matter what you've been led to believe. If there isn't, in your case, you'll get \$500 cash. It's a bona fide offer that's made by the proprietors of Dr. Sage's Catarrh Remedy.

They are willing to take the risk—you ought to be glad to take the medicina.

We have often, by reason of our policy of close buying and close selling, been able to save the clothing buyers of Pittsburg and Allegheny from 25 per cent to 33 per cent on their purchases, but this great November Sale beats all our previous records in this respect. We will not go into details, but submit the prices named below to the judg-

## MEN'S SUITS AND OVERCOATS

ment of an impartial and intelligent public. Figures don't lie, and fig-

Our suits at this price will win the eye of every working man who loves to dress in style at small expense. They are in quiet colors of Scotches, Tweeds, Bannockburns, and the like, in sacks and cutaways; full finished, every stitch true, pockets strong and well made, cut very neatly, in short, the best \$8 suits ever shown in Pittsburg.

Our Overcoats at the same price of \$8 come in nearly every weight, shape, color and fashion, smooth and rough-faced goods, cut long or

## **MEN'S SUITS AND OVERCOATS**

Business Suits these, through and through smart sacks, nobby cutaways, warranted to fit equal to-anything a tailor can produce, finely finished and trimmed, coming in Worsteds, Cheviots, Cassimeres, Scotch Mixtures, Diagonals and other-durable materials. The bargain

of a lifetime for \$10. The Overcoats that we offer at this price are made according to the latest dictates of fashion, dark, rich colorings, or light, fashionable shades, light weight for fall, or heavy enough to protect you from a

### blizzard. **MEN'S SUITS AND OVERCOATS**

Dashing Business Suits are these, and they will cut quite a figure for street and home wear and in business circles. Made of Harris Doubleand Twist Cassimeres, and other fabrics equally as good, and cut in

very nobby single and double-breasted sacks and three-button cutaways. Our \$12 line of Overcoats is the wonder and admiration of all gentlemen who, in purchasing their clothing, seek to combine style and economy. The goods in this line are choice domestic Meltons. Kerseys and Cheviots, in Box or Prince Charles styles, lined with Italian

### cloth or fine all-wool flannel. **MEN'S SUITS AND OVERCOATS**

The most fashionable and particular dresser can with propriety wear the suits embraced in this line. There are Clay Diagonals, English Silk Mixed Cassimeres, Scotch Cheviots and Homespuns and French Diagonals, among them the fashionable solid brown colors now worn so ex-

tensively by ultra-fashionable young men. Our line of Overcoats at this price is nothing short of superb. It comprises fine imported Kerseys, Cheviots, Meltons, Chinchillas and Fur Beavers-just such garments as other clothing houses are now

### offering at \$20. MEN'S SUITS AND OVERCOATS

Our Men's \$18 Suits are cut in the most artistic styles from autumn fashion plates, the very perfection of high art. Made from rich fancy mixtures, superior grade Worsted and genuine Scotch Cheviots and Homespuns, in sacks, cutaways and Prince Alberts, trimmed, lined and

finished equal to merchant tailors' \$35 suits. Our Overcoats at \$18 are as fine and perfect as any tailor can turn out. They are made of Carr's English Meltons, English Kerseys and select Scotch Cheviots, also Elysians and Montagnacs. Some of them treble-milled, silk-lined, silk-faced and double-stitched, with raw or finished edges, collars of silk velvet or same as goods, in all fashionable and popular shades and colors. Merchant tailors cannot begin to equal

### these garments at \$35. **MEN'S SUITS AND OVERCOATS**

These suits represent the very peak and pinnacle of the tailor's art. This fact will occasion no surprise when it is understood that they were made in our own custom tailoring department, cut by our custom cutters and made by our journeymen tailors. The same degree of care and attention in the matter of trimmings, make, fit and finish has been bestowed on these garments as on the most expensive suits we make to

What we have said about \$20 suits applies with equal force to our superfine variety of \$20 Overcoats. They are ready made in name only. They are custom made in fact. Nothing approaching them in fineness and fashion can be found on the counters of any clothing house in this section. We earnestly invite all particular dressers to

### call and see these matchless garments. BOYS' AND CHILDREN'S CLOTHING!

The cause of our great and growing Boys' Clothing trade has long ago ceased to be a matter of confecture. Every mother, in search of the

best qualities for the least money, is our patron. Our present showing of Kilt Suits, Short-Pants Suits, Long-Pants Suits and Overcoats for Boys of all ages is simply beyond comparison or competition. Want of space prevents us from specializing to-day, but our most cordial and sincere invitation is extended to all purchasers of Boys' Clothing to call and convince themselves of the superior inducements and unequal benefits to be derived from patronizing us.
