POINTS ON POLITICS IN OTHER PARTS

"SPECIAL TELEGRAM TO THE DISPATCH.I

BANGOR, Me., Nov. 10 .- The political situation in the Third Maine Congressional district continues to agitate all the Republican bosses from Belfast to Augusta, and if there are as many candidates in the nominating convention as there are now, it will be a lively gathering of the clans. There are at present four candidates in the field for the and compelling fair and just charges for the Republican nomination-Hon. Seth L. Milliken, who now holds the coveted posi-tion, and would like to hold it for life; discharged soldiers, their widows Governor Edwin C. Burleigh, who is anxions to step from Augusta to Washington; Hon. A. P. Wiswell, speaker of the last Maine Horse, who aspires to higher things,

Mane Ho'se, who aspires to higher todags, and the sagacious Vice-Boss of the Kenne-bec, Hon. Joseph H. Manley, Mr. Blaine's trusted right-hand man. It is thought by some that Manley's can-didacy is only a blind, and that he has en-tered the list simply to run the Governor off the track off the track

What Republicans Have to Say.

A leading Republican of the district says that the old Kennebec ring has decided that Governor Burleigh has gone far enough, and that they don't want him in Congress, "When the time comes," says this Repub-lican "the Manley and Wiswell forces will unite on Milliken and the latter will get the nomination. Blaine has no use for the Governor in Congress and Manley, his

lieutenant, will set accordingly." But opinions differ, and sympathies are various in the Third district. Another, and just as good a Republican as the one just quoted, says: "Governor Burleigh is going to win this fight. Among the common ele-ment of the Republican party he is strong. He has a consistent record on the prohibitory law question, and this gives him strength in the country towns. He is considered a man of the people, and will go in-to the convention with votes enough pledged to him to give him the nomination.

Fighting Against an Old Ring.

"It is a fight against the old Kenneber ring, which a great many people want to see smashed. The ring is strong, but not in-vincible, and I believe that it can and will be smashed. The late election in New York shows what people think of men who sent the World's Fair from the East to Chicago, and the people here will show to Mr. Mifi-ken what they think of his action in regard to that important matter. Burleigh is sure to win.

These opinions reflect the views of two leading factions in the third district's last fight, which is of national importance, for Blaine's hand is in it, and people all over the country will watch with interest to see whether or not the Plumed Knight still holds his sway in Maine and can pick out

Congressmen to suit himself. Meanwhile the earnest Democratic mi-nority in the Third is vastly entertain d, and will be ready to get in some effective work should the opportunity occur.

vocal chords are desirable, of course, but Mr. Cowles should study the Duquesne's dimensions. If the Penn avenue walls were not cracked last night Mr. Cowles is not to blame. In fact a little repression in several places would improve the Bostonians' performance. One of the surprises of the evening was the capital singing of a Miss May Ulmer, who sang in Miss Van Dyke's place, and figured wrongly on the programme as Miss Lillian Hawthorne. Miss Ulmer's song in the last act received the warmest applause of the evening, and properly, for it revealed a voice youthful, fresh and delicately man-aged. Miss Ulmer is a tyro and her timid-ity last night hampered her a good deal, but the sweetest song birds are often the shyest. If some singers had less confidence and more voice it would be just as well. Mr. Barnabee was funny enough in his quiet way as Lurcher, the disreputable sheriff, and the make-up of Mr. Frothing-ham as a double-chinned, rosy old innkeeper was in itself a work of art. Mr. Hoff's voice was very husky at the start, but im-proved rapidly, and in spite of his cold he sang with power as well as finish. Miss Lola Hawthorne's Lade Betty was a clever General Secretary-Treasurer Hayes next reported. Though the expenditures of the order for the past year were swelled by several extraordinary outlays, the revenues were sufficient to meet all demands. By order of the Executive Board he has exorder of the Executive Board he has ex-onerated a number of assemblies from pay-ment of the per capita tax, but urges that requests of this sort should be discouraged. He complained that some assemblies send in incorrect reports to the general offices to escape their full taxation, and asks that means be devised for preventing this. He closes with the hope that the order may have a respite from strikes and labor trou-bles so that the general officers can strand bles, so that the general officers can attend to educational work.

The total annual receipts were \$09,685 22; expenditures, \$102,474 36; balance on hand at beginning of year, \$13,053 13; balance now in Treasury, \$10,263 79.

The General Executive Board's report followed. It states there is a growing feel-ing in England and other countries in favor of autonomy, and recommends this should be granted. A number of letters were read from South Africa and New Zealand, where the order is growing rapidly. the order is growing rapidly.

The board also complains that the labels of the order are counterfeited systemat-ically, and that as the law affords no sufficient protection, asks the appointment of a special committee to devise means of a special committee to devise means or remedy. The report congratulates the order on its membership of 270,000, but cautions against reckless admissions of members. It also explains that the power granted at the last session to sell the headquarters building at Philadelphia, which was asked for by the board for a reason it then refused to give, was required in order to enable them to remove a cloud on the title to the property. This having been done, it is now recommended the power to sell be with-

PEOPLE'S PARTY WON'T FUSE.

Its Leaders in Kan-a - Refuse a Bait Offered by the Democrats.

TOPEKA, KAS., Nov. 10.-[Special]-A number of the People's party leaders are holding a conference here to-night, with W. H. Utley, the Union Labor candidate for Congress in the Third district, as the central figure. Leading Democratic politicians have urged a combination with the People's party on the State ticket next fall, promis ing in exchange the Democratic vote for the People's electoral ticket. Dr. MacLallin editor of the Alliance Advocate, the official organ of the Farmers' Alliance, said to-night that the People's party would not

fuse. "We are not afraid of the Democrats in "We are not afraid of the Democrats in 1892," he said. "They cannot vote with the Republicans in a Presidental year, and the returns from the county elections show that the People's party polled a larger per cent of the total vote this fall than it did last. If the Democrats had nominated a ticket we would have swept the field." S. M. Scott, the Alliance State lecturer, said that he had talked with many Democrats, all of whom regretted that the Democrats had voted with the Republicans.

The total vote cast in the county is 74,376. The total vote for McKinley is 37,470; for Campbell, 31,694; for Ashenhurst, Pro., 326; for Seitz, Peoples', 3,182. McKinley's plurality over

Campbell is 5,776. The vote for Ligutenant Governor is: Harris, 35,841; Marquis, 29,647; Kirkendall, 32; Rist, 3,144. There were 2,047 more yotes for Campbell than for his Lieutenant lovernor, and 1,629 more for McKinley than for Harris. This is accounted for by voters marking the Governor's name and supposing they were thus casting a straight vote for all the candidates of the party.

A Blow to the Anti-Lottery Party.

NEW ORLEANS, Nov. 10 .- [Special.]-A primary election was held in this city today for the selection of delegates to the Democratic convention. The election, which was one of the most exciting and hotly contested ever held here, turned largely on the lottery issue. Anti-lot-tery Democrats who are opposed to the tery Democrats who are opposed to the re-charter of the lottery company put a full ticket in the field. The other faction, which was in favor of submitting the lot-tery question to the popular vote, carried the city by a majority of over 11,000 in the largest primary vote ever polled here, 27,-606, carrying all the 17 wards and electing the 139 delegates. It is considered a severe blow to the anti-lottery party.

He says that the leader of the scheme re-vealed to him a programme of his policy in the coming new empire, which provides limited boundaries, with consequent partition of the country; imports, foreign or native, would pay a single duty on arrival and then be free to more throughout the land untaxed; duty on tea to be experimentally reduced; rulways to be built, roads made and canals dredged; the employment of foreigners throughout in the army and navy.

BOSTON, Nov. 10.-[Special.]-The rather unusual spectacle of a daughter suing her father for breach of contract was what the people assembled in the fourth session of Superior Civil Court saw this morning. the plaintiff had allowed him to deposit \$20,000 for her in the company. The Smith family lived in Newton and were happy in their domestic relations. Miss Smith then married Mr. Holmes, and October 21, 1889, a credit was made to Mrs. Holmes, the plaintiff, on the books of the company, and June 30, 1890, a charge was made for nearly this entire amount now sued for. In the summer of 1890 Mrs. Holmes learned that her father had drawn this amount from the company and was trans-ferring real estate. He did this by means of an order which she had signed for him, relying on his integrity, but which she sup-posed was merely to secure to him the money in case of her death. He drew out all but \$816. Mrs. Holmes now claims that she did not give him the money.

HEALTH SUGGESTIONS.

Plenty of light is as essential to good health as pure air. Eat meals of good, plain food regularly. Mutton is the most digestible meat.

Mutton is the most digestible meat. In wet weather wear stout water-proof boots in preference to rubber overshoes. Dr. B. W. Richardson says that he has never known a death from bronchitis or pneumonia that did not spring from a cold. It follows then that a cold is a more danger-ous malady than is usually thought; so be careful of yourself. By far the best method of getting rid of a cold and consequent depression is to take a little pure whiskey in water. Such a stimu-lant promotes the circulation, which has been checked, and removes the effects of the chill.

chill. Great care should be exercised in buying whiskey. The presence of fusil oil or other impurities is a source of danger to those who imbibe it. The only whiskey that is manufactured for purely medicinal purposes is Duffy's Pure Malt and may be obtained from druggists and grocers. There is no other whiskey so free from fusil oil or so pure and beneficial. The leading scientists say so. ocl6-wzp
