LIVE STOCK STEADY.

The Run of Cattle at East Liberty Larger This Week Than Last.

PRIMES FIRM AND COMMON LOWER.

Heavy Prime Beeves Scarce at All Live Stock Centers.

SWINE HIGHER, AND SHEEP STEADY

OFFICE OF PITTSBURG DISPATCE WEDNESDAY, November 11.

There have been on sale this week at the East Liberty yards almost 130 carloads of cattle, against 115 loads last week, and 150 the week before. The receipts from Chicago this week were smaller than for months past. Quality of offerings was slightly better this week than last, but there were no heavy prime beeves on sale. The latter are worth about 6c per pound in Chicago, and yet nothing offered at East Liberty brought above 5c per pound. The great bulk of the offerings consisted of com-

mon and low grade stock.

Market opened slow on Monday at about last week's prices for good butcher stock. On low grades buyers demanded concessions, which were submitted to, and on these grades markets have declined fully 15c per cwt since Monday. There was a large run of common tresh cows, which only could be sold at a sacrifice. There were sales considerably below \$20 per head. Choice fresh cows were scarce, and found ready sale at \$50 per head. Vealers were in fair supply, and sold at about last week's prices.

There have been about 35 loads of sheep and lambs on the market this week. Good

sheep held up well to last week's prices, top price being \$5 10. Lambs were slow and dull, with \$5 15 as the top of market. Re-ceipts of hay were 65 carloads against 75 loads last week. Quality of offerings in this line shows great improvement of late. At the opening of markets Monday morn-ing top price was \$4 15. Since then there has been a gain and top price this morning a gain and top price this morning

A Live Stock Firm's Review.

Following is the week's review of Holmes, Lowler, Briggs & Co.: We report 120 loads of cattle on sale Monday, which graded very low in quality and flesh. There were no prime heavy beeves on sale and but few fairly fat steers, and such were steady to strong at prices of last week, while compon rough grades and stockers were very mon rough grades and stockers were very dull and a shade lower than last week. Since Monday there have arrived about 12 cars of fresh cattle and all sold at 10 to 20 cents lower than opening price: Monday. We quote good, 1,300 to 1,400 steers at 4½ to 5c; good 1,100 to 1,200 at 3½ to 4c, 900 to 1,000, \$3 00@\$3 40; mixed and rough, 900 to 1,200 234 to 314c; good Ohio feeders, 1,000 to 1,200, \$3 40@\$3 90; stockers, 600 to 900, 21,4@3c; cows and bulls, 2@3c; fresh cows and springers, \$20 00@45 00 per head; veal caives, 5666. Receipts of hogs are light and prices steady to strong at opening prices Monday. We quote: Select tops at 4.10694.20c; best Yorkers, 3.906.45c; com-mon Yorkers and pigs; 3.606.33c; roughs. 36:35 c. Receipts of sheep and lambs are fair, with prices stead: to strong on good stuff, while common thin stuff is very hard to dispose of. We quote: Prime 100 to 110 wethers at \$5 00@5 10; good 80 to 90 at \$4 00@4 65, and 70 to 80 at \$3 25@3 75; culls, \$2 00@3 00; spring lambs, \$4 50@5 25. Some of the Sales Reported.

TWO OPPOSING FORCES.

They Cause Numerous and Rather Violent Pluctuations in the Wheat Pit, but the Chilly Winds of November Give the

Bears the Advantage at Last. CRICAGO-The wheat market to-day was characterized by two dinmetrically opposconnecterized by two defined opposing influences, which were at work from the opening to close, and one of which was responsible for every fluctuation. The bull influence was the cold and snowy weather in the Northwest, and the bear influence was lower cables and generally depressing reports from European markets. Each of these predominating influences controlled the market in turn, but the cool breezes that whistled through the exchange were nearer home, and in the end domestic influences prevsiled and advances ruled. A general breeze just at this time would be destruction to the sprouting crop in the wheat belt, and Government weather reports indicated that this freeze might come.

Receipts continue quite large, and stocks are increasing both in this country and abroad. Braddsreef's reported an increase in the visible supply of 3,885,000 bushels on both coasts, and on this the market sold off a fraction. The opening was unsettled, and prices soon advanced %@le, then eased off some but held quite firm and closed about \$\lambda \frac{1}{2} \lambda \text{higher than yesterday.}

The opening price for November corn was ing influences, which were at work from the

some but held quite firm and closed about the first chigher than yesterday.

The opening price for November corn was from 38 (2032), the lower quotation being universal? bid and little sold under the higher of these two points. There was a quied decline to 53% a little later, after which the price inclined to advance, although liaving several sharp reactions to near the opening figures. Near the close it weakened again and closed at 53% after selling at 54% Carr opened at 48%, sold as high as 48% for a moment and closed at 40% May, from 43% and 43% near the opening, advanced to 43% and closed at 43%.

404c. May, from 43%c and 43%c near the opening, advanced to 43%c and closed at 43%c.

Prices in the oats market were confined within a range of 140%. The market opened 14c lower at 31%c for November and 33%c for May. November sold at 31%c32c, and then declined to 31%c, closing at 3%c lower at that price bid. May advanced to 33c, reacted to 33%c and was offered at 32%c on the closs.

December pork opened at \$8.3%, and after selling at \$8.32% it advanced to \$8.45 and closed at \$8.42% or 2%c improvement on its value—the corresponding time yesterday. At the same time that December pork was selling at \$8.35 as ale of old pork for March was recorded at \$8.81. January pork made a gain for the day of 5c, and May advanced 71%c since yesterday. Lard was extremely dull and fluctuations were willing a range of 21%c. Closing prices were the best of the day, and 23%c in advance of the latest quotations of the day before. Ribs are almost 21%c higher than at the close yesterday.

The Drygoods Market.

New York, Nov. II.—Drygood—Warm and wet weather continued to have some depressing effect upon trade and to delay developments, but the market was not materially changed in any direction. The tone was steady with an improving tendency. Thorndyke ticks were advanced 1/2 a yard. The attention of buyers in the market was again taken up by the continued auction sale of carpets of the Alexander Smith & Son Manufacturing Company, the sale attended about as yesterday and the bidding and prices were about the same. As a result there is more confidence in regard to carpets and to woolen fabrics generally. The sale continues to-morrow. The Drygoods Market.

Baltimore, Nov. 11.—Coffee active; Rio car-goes, fair, 17c; No. 7, 13%c. New ORLEANS, Nov. 11.—Coffee quiet; Rio, ordinary to fair, Himleyc.

New York, Nov. II.—Coffee — Options opened steady and unchanged to 15 points up; closed steady, 20@30 points up; sales, 20@60 bags, including November, 12.20c; December, 11.35@11.15c; January, II.75@12.00c; March, 11.35@12.55c; May, 11.20@11.40c; Jane, 11.25@11.40c. Spot Rio quiet and firm; No. 7, 134.c.

Improvement in the Demand for High-Class Residence Property.

NO SPECULATION IN THE MARKET.

Pittsburg Capitalist Makes a Handsome Investment at Latrobe. HIGHER VALUES ON CARSON STREET

> While nothing especially new in the real estate market has occurred so far this week, it may be noted as an interesting fact that a good demand has sprung up within the past month or two for high-class residence property. Men who can afford to pay fancy prices for ground upon which to build homes are multiplying in Pittsburg. This is a feature of the situation that is too often overlooked in forecasting the trend of values. With this kind of backing it is impossible for the market to react. The prospect is that this demand will increase as plethoric pocketbooks become more numerous. Another fact worthy of notice is that there is practically no speculation in the market, buying being almost entirely for

investment and use. These are solid fea-tures, with which no one cau fairly find

Quite an important event with the Quite an important event with the Bridgewater Gas Company occurred at the recent meeting of the company at the office of Whitney & Stevenson, of which this is the first announcement to the public. Hon. Henry Hire, who had long and efficiently served the company as their President, re-signed, and Merritt Greene was unanimously selected in his place. Mr. Greene is secreelected in his place. Mr. Greene is secretary and general manager of the Pittsburg Company, the concern which owns the various water works plants of the Beaver Valley, and is identified with various enter-prises connected with the new town of Ell-wood. His business experience will make him a valuable acquisition to the Bridgewater company.

Carson Street Owners Bullish.

The quantity of West Carson street property on the market is limited. Owners are holding back with the expectation of an advance to follow the introduction of rapid transit. Occasionally, however, a transaction occurs. James W. Drape & Co. sold No. 144 on that part of the great Southside street. Let 257250 with two deadlines and artery, lot 25x250, with two dwellings and outbuildings for \$10,000. This is at the rate of \$400 a foot front—not a fancy figure when the depth of the lot is considered. Railroads in Clover.

Big railroad earnings more than counter-balance the "small afflictions of the passing hour." In the first week of October the roads reporting made a 6.20 per cent better showing this year than last; in the second week this had increased to 6.82 per cent, in the third week to 10.36 and in the last week the improvement shown was represented by the figures 10.67 per cent. In the last mentioned period only 47 roads reported, while the reports of the previous weeks ex-hibited the earnings of from 82 to 85 roads, yet the 47 roads make a better showing than the 88 roads by \$1,500,000. These gains show that the railroads are beginning to obtain their share of the rewards of the har-

Latrobe has caught the spirit of improve nent, and progress is the order of the day. Two or three manufacturing concerns have plants under way and others are talked of.
The streets are being graded preparatory to
paving. Mr. E. H. Watkins went up there
about two weeks ago and purchased 26
acres, paying \$1,000 an acre. He has since
sold between \$8,000 and \$10,000 worth of lots. This property will be extensively improved next year.

Business News and Gossip. An addition to Knoxville borough will be

laid out next spring. The growth of that place is rapid and steady. uses have become a feature of the East End. Plans are under way for a large number next year. They are also on Perrysville avenue. Official estimates have it that the increase

in the value of the year's agricultural products over last year's will not be less than \$700,000,000.

One of the povelties in the new Ferguson

one of the novemes in the new Ferguson building will be a barber shop on the eighth floor. From its elevation this will necessar-ily be a high-class place.

The dividend declared last week by the Enterprise Mining Company will amount to

Comptroller Lacey thinks the Maverick Bank will pay depositors about 85 per cent. The Investigator says: "In Southwestern Pennsylvania the aim of the petroleum producers would seem to be to rob the earth has quickly as possible. The McDonald pool has furnished wells that challange the supremacy of the mighty 'fountains' of the Baku field. It dwarfs Cherry Grove almost

to insignificance." There is some tall talk of a dividend on People's Pipeage. There is probably something in it.

At the last call vesterday 16% was bid for Birmingham Traction. It was offered at

17]4.
Res Bros. & Co. yesterday sold \$10,000
Duquesne Traction bonds at 90. In regard to the statement that the Splane property is too small for hotel purposes, investigation shows that it has a frontage of 120 feet on Fifth avenue and a triangular depth of 120, with 45 feet on Smithfield street. The frontage on this street could be increased by the purchase of the Murdoch and Melion properties, about 60 feet. This would afford sufficient room for a first-class hotel, and overcomes the objection that the

The annual meeting of the Fidelity Title and Trust Company will be held to-day.

A counterfeit on the \$10 United States note, Webster head, series of 1880, has been detected at the United States Sub-Tressury at San Francisco.

Eight permits were taken out yesterday for the same number of improvements, all of small value, ranging from \$1,400 to \$150, the total being estimated at \$5,300. Move rents in Realty.

John K. Ewing & Co. sold for Miss S. Mc-Intyre to Benjamin Kuam a vacant lot, 35x 120, on McIntyre street, Tenth ward, Allegheny, for \$950.

Black & Baird sold to John Moriarity lot

Black & Baird sold to John Moriarity lot No. 40 in the Adam Row plan, Twenty-second ward, fronting 40 feet on Forbes avenue and extending back 94 feet, for \$574 75.

W. A. Herrun & Sons sold a downtown res'dence on Locust street, near Miltenberger, a modern brick house of nine rooms, lot 25 feet front, to a prominent business man for \$5,700.

The Burrell Improvement Company report the following sale of lots at Kensington: Thomas Horne, Natrona, Pa., lots 32 and 33, block 9, for \$377 50; Philip Murphy, Pittsburg, Ph., lot 97, block 2, for \$532 22; Joseph L. Salyard, Butler, Pa., lot S. half 6, block 8, for \$303 38.

ENNUI IN WALL STREET.

THE VIGOR OF TUESDAY IN STOCKS LACKING YESTERDAY.

Prices Hold Their Own and a Few Small Gains Made-Northern Pacific Preferred the Only Weak Point-Advances in Chicago Gas, Reading and Sugar.

New York, Nov. 11 .- The stock market to-

day lacked the vigor and snap of that of yesterday, and there was not only less business but the movements, aside from those in a very few stocks, were devoid of interest and were confined within the narrowest limits. and while a few material gains were made, they were the exception and not the rule. The foreign situation remains practically unchanged. Domestic affairs were uniformly favorable to higher figures and the crop report was very favorably received. The buying power, however, lacked the very efficent support of the shorts, and while there was still a great deal of that kind of buying it had ceased to have the effect it had yesterday. Western operators were most prominent in the buying line, and Chicago Gas and Union Pacific showed the side taken by this interest. The foreign situation remains practically

inent in the buying line, and Chicago Gas and Union Pacific showed the side taken by this interest.

There was only one really weak point in the list, Northern Pacific preferred, but the efforts to get that stock down were most apparent, and with the cessation of the pressure it recovered handsomely. The market as a rule, was unsettled and showed a narrowing tendency, although the transactions reached fully as large a number of stocks as on any day recently. The general list, however, failed to show any life and the interest in the market was entirely monopolized by a few shares.

The foreigners disappointed the bulls in that they were sellers for a time in the forenoon, and London prices were lower this morning, encouraging renewed sales by the bears, while some selling to realize made a feverish and irregular market for some time after the opening. The strength of the general list then became apparent, but the advances were all small aside from those in Chicago Gas, Reading, Sugar and some of the low priced and inactive stocks. After the first half hour the activity died away, and with the cessation of the enry demand a drooping tendency appeared, which, however, made losses only in one or two important cases.

The afternoon saw a renewal of the cover-

ever, made losses only in one of two impor-tant cases.

The afternoon saw a renewal of the cover-ing movement, and especially in the late dealings marked strength was shown, Mis-sourl Pacific becoming one of the features at this time, but its final improvement was fractional only. The market finally closed quiet but generally firm at small gains for the day, but the only advantages of note were 1½ each in Union Pacific and Chicago Gas.

were 11% each in Union Pacific and Chicago Gas.

Railroad bonds, even more than stocks, showed the falling off of interest from the evening up of contracts during the last two days, and business fell away to \$1,049,000. The decrease was naturally chiefly among the speculative issues, and Atchison incomes was the only really active bond, though at one time Texas Pacific 2nds were largely traded in. The same lack of movement as in the general stock list was noticeable, and the final changes are in all cases for fractional amounts only, both the active issues fluctuating within a range of only \$\frac{5}{2}\$ issues fluctuating within a range of only % per cent. The market was barely firm, and remained without feature. The highest and

their investments.

The Company has returned to its common shareholders during the last two years 35 per cent of their invested capital, that is to say, for every \$100 invested they have received \$35 in dividends, besides having the value of their shares increased by the cancellation of nearly one-half the Company's Debentures, and the accumulation of a reserve.

The Statement of profits, both before and since capitalization, as given elsewhere in this prospectus, shows that the business is a progressive one; and it is believed that the inture will show even largely increased profits from the fact that the European business is growing rapidly.

ness is growing rapidly.

The future earning power of the business is assured by the fact that the majority of the Common Stock is held by the men who originated it, and under whose careful management it has been so successful in the past.

NATURE OF THE BUSINESS.

The business of H. H. Warner & Co., Limited, consists of the manufacture of proprietary medicines and preparations, known as Warner's "Safe" Remedies and Warner's "Safe" Remedies and Warner's "Safe" Remedies and Warner's Offices and Laboratories are established in Rochester, N. Y., in 1879, Offices and Laboratories are established in Rochester, N. Y., Toronto, Canada, London, England, Frankfort-on-the-Main, Germany, Kreuzlingen, Switzerland, Melbourne, Australia, and Dunedin, New Zealand. The establishment of the offices and laboratories outside of Rochester, N. Y., was rendered necessary owing to the enormous increase of the business and the widespread demand for the preparations. The business of H. H. Warner & Co., Lim-

PROPERTY CONVEYED. The price paid by the Company for the entire business as on July 31, 1889, including the good will, trade marks in all principal countries and which are perpetual, prescriptions and recipes, real estate and leasehold properties and buildings in America and elsewhere, fixed and movable plant and machinery at Rochester and the different branch houses, cash in hands and at banks, the stocks in trade (consisting of wholly and partly manufactured stock), raw material and advertising matter, furniture and all property ertising matter, furniture and all property sed in connection with the business in all Varner in relation thereto, was \$3,395,000 ince that time the increase of business and

ARNINGS BEFORE CAPITALIZATION

Prior to its capitalization and organiza-tion as an English Company in November, 1829, the business was thoroughly exam-ined by English accountants. The real es-tate and plant were valued by competent appraisers, and the past history of the busi-ness, especially in the way of profits, was subjected to the most rigid scrutiny. Ac-cording to the certified a atement made by these accountants the average yearly profit. ese accountants, the average yearly profit the UNITED STATES BUSINESS ALONE or the seven years prior to its capitaliza-on was sufficient to pay 6 per cent in-

The 10,000 shares of Common Stock offered for subscription are fully paid and non-assessable. During the past two years dividends of 17½ per cent per annum have been paid upon the stock, and for the last fiscal year, ending July 31, 1891, over 35 per cent could have been paid had the directors not called in and canceled \$306,000 worth of the debentures of the Company.

The Common Stock is entitled to the entire profits of the business each year after the debenture interest and 8 per cent dividend on the preferred stock have been paid. These fixed charges amount to \$102,890, while the average yearly profit for theipast nine years has never been less than four times this amount, and for the last two years has been nearly five.

The following facts may be mentioned among the many favorable features connected with the business of H. H. Warner & Co., Limited.

It is the largest house of its kind in the

the debenture interest and 8 per cent dividend on the preferred stock have been paid. These fixed charges amount to \$1c2,860, while the average yearly profit for theirast nine years has never been less than four times this amount, and for the last two years has been nearly five.

The following facts may be mentioned among the many favorable features connected with the business of H. H. Warner & Co., Limited.

It is the largest house of its kind in the world, its preparations being sold by nearly 1,000,000 druggists, chemists, grocers, and general store dealers in almost every civilized country on the globe. The widespread popularity of these preparations is the best evidence of their merits.

The business of the Company is virtually a monopoly, consisting as it does of the manufacture of specialties, the trade names and marks of which are secured and registered in all the principal countries of the world, and are the property of the Company for ever.

The Company has no liability beyond its Debentures, originally amounting to \$727,000, but reduced during the past year to \$421,500, and the current debt incident to all large concerns.

The enterprise is not a "one-man business." Although still under the management of the man who started and made it such a wonderful success, there is plenty of matterial in the employ of the Company to continue the business successfully should any unforseen accident change that management.

As the business is "a going concern," paying segment of widends a barysholders will represent the property of the Company to continue the business successfully should any unforseen accident change that management.

As the business is "a going concern," paying segment dividends a shareholders will steady the past prosperous condition, and is steadily improving. This is especially so in the such as the carrying for ward to next year of \$100,000 as undivided profits.

The success of the business since its captitalization has been enormous. The first providing of the English Company, after providing

recase in profit and a reduction in working expenses of the Company at present is in a most prosperous condition, and is steadily improving. This is especially so in Great Britain and the Continent. During the past year a branch was opened in Switzerland, which has already given a satisfactory return for the money invested. The German and English branches show a large increase in profit and a reduction in working expenses over previous years, and as an evidence of the prosperity of all branches it may be stated that the average yearly profits of the Australian house alone, since the capitalization of the business, has been sufficient to pay the whole of the Debenture interest, as well as 8 per cent. per annum on the Preferred Stock. The profits of the other branches, including the United States, consequently, can be applied to paying dividends on the Common Stock. Arrangements are now being perfected to introduce these preparations into France, Belgium, and other Continental countries, where the field is equally as promising; and while the business in Europe is slower in developing than in this country, it is at the same time far more profitable and permanent when established. The reduced cost of production and cheap advertising rates make the profits greater, while the conservatism of the people, although difficult to overcome at the outset, soon develops into a confidence which makes their patronage constant and durable.

The 8 per cent Cumulative, Preferred Stock of this Company, of which 2,000 shares only are offered for subscription, is a safe, high-class security, affording an assured rate of interest, worthy the attention of the most conservative investor.

SUBSCRIPTIONS.

The right is reserved to reject any sub-scription or to accept it in part. If any sub-scription is wholly rejected, the amount de-posited on application will be returned. If the whole amount applied for be not allotted, the amount paid on application will be applied on the sums to become due on allotment. on allotment.

Receipts will be given for all payments made, and engraved Trust Company Certificates issued by the Central Trust Company will be delivered at once after final

pany will be delivered at once after final payment is made.

Any installment may be paid in advance under discount at the rate of 6 per cent per annum, and Stock issued at once.

Failure to make a payment of any installment may operate as a forfeiture of all previous payments.

Dividends are declared and paid every six months by the English Board of Directors in London, after thorough examination of the books and business by chartered English accountants. In this country the semi-annual dividends are paid by the Central Trust Company, as soon as tievy are received from London, such dividends usually being paid in April and October of each year.
