Mr. Parnell, however, made the presidency of Mr. O'Brien an absolute condition. Mr. O'Brien thereupon wrote a letter in which he proposed that his election to the chairmanship be effected without public condition of any kind being exacted, and solely under a private understanding. Mr. O'Brien said he would seek an interview with Mr. Gladstone immediately after his election for the purpose of obtaining decla-rations from the leader of the Liberals as to what the future action of the Liberal party was to be. If the replies to these inquirie were of an unsatisfactory nature Mr. O'Brien was to resign the chairmanship in Mr. Parnell's favor and to declare himself for Mr. Parnell as the leader of the Irish Nationalists. SCANT NEWS FROM BRAZIL

Director Fonesca Suspends Every Newspaper in Rio Janeiro but Three.

LONDON Nov. 11 -News from Bravil is awaited with great interest. The dispatches reporting the revolt of the important provinces of the Rio Grande do Sul and Grao Para have prepared those who are watching the progress of events in the United States of Brazil for further reports of disintegration. The strict censorship at Rio Janeiro accounts for nothing coming through from there, but surprise is exd that no further word has come from Pernambuco, where much discontent at Fonseca's dictatorship is known to prevail. Some Brazilian news appears to be getting across the Andes to Santiago, Chilian capital. A dispatch from that city which reached London this afternoon, de clares that Dictator Fonseca has not contented himself with a strict enforcement of a press censorship. He has now gone one step further and has required all the news-papers in Rio Janeiro who do not fully sup-

port his autocratic pretension to suspend publication. The only papers which are allowed to continue to appear regularly are three which are supporting his dictatorship.

THE DEADLY CAR-STOVE ABROAD.

Part of the Crew of the Wrecked Crimes Freight Train Burned to Death.

ST. PETERSBURG, Nov. 11.-A dispatch from Melitopo, in the Crimen, brings intelligence of a railroad disaster there. A freight train was passing the town when, through some unknown cause, one of the cars was thrown from the track. The derailed car dragged the others after it, and the whole train was totally wrecked.

A number of the train hands were caught in the debris, and their appeals for help were heartrending. To add to the horror of the scene, the overturned and wrecked cars caught fire, and the flames spread with such trightful rapidity that it was impossible to make any attempt to extricate the imprisound men. The fire also spread to the rail-road station, which was also destroyed.

Goldstein became very tired during the proceedings, and asked the rabbi to hurry, saying he would lose his dinner.

MORMON PROPERTY ESCHEATED.

The United States to Get Possession of All the Law Allows.

SALT LAKE CITY, Nov. 11.-[Special.]-Judge Zane this morning handed down a decision which delares the tithing office, the Gardo House, the historian's office, the Church farm and a half interest in valuable coal lands, property of the late corthe Church of Jesus poration of Christ of Latter Day Sain's escheated to the United States. In reviewing these cases the Court said they came under the laws of Congress, approved March 3, 1887, which prescribe that it shall be the duty of the Attorney General to proceed with such steps as are necessary to escheat any and all property of the Mormon church, in violation of the law of 1862, which de in violation of the naw of 1862, which de-clares that it shall not be lawful for the church to hold property in excess of \$50,000. "Two of the tracts," said the court, "were taken possession of before the act of 1862, and held by the church at the time.

It appears that the Gardo House has been occupied by the President of the church up to the time the United States receiver tool possession. There is a question whether this property and the historian's office should be forfeited, but the Supreme decree, under section 17 of the act of March 17, 1887, leaves no discretion with this court, and it is declared escheated to

the United States. If not found by

decree, I would say the President of the church had a right to a parsonage.

AN EXPRESS OFFICE ROBBED.

The Eandits Expected to Find a Valuab Package Which Wasn't There.

KANSAS CITY, Nov. 11 .- The Chicago and Alton station at Independence, Mo., was robbed by two men this evening about 7 o'clock. The contents of the cash drawer, \$35 70, \$12 of which belonged to J. C- Mar-shall, the agent, and a watch, the property

of John A. Campbell, a farmer, was all they got for their trouble. The robbers acted according to a pre-arranged programme evidently, for they waited till Marshall was called into the baggage room, then covering the lower part of their faces with handker chiefs, drew their revolvers and ordered Campbell, who was in the station, to throw up his hands.

After relieving him of his watch and a hitle money they crawled through a small window in the office. When Marshall re-turned they compelled him to deliver the keys to the cash drawer, the contents of which they secured, also the contents of

Marshall's pockets. They examined the express books for a package they asserted should be in the office and which was sup-

REPORTED IN WASHINGTON The Belgium Minister Receives His First

News of the Revolution. WASHINGTON, Nov. 11 .- The first intimation the Brazilian Minister here has re-

ceived of the reported secession of some of the provinces in Brazil was in the form of an unofficial dispatch to-day to the effect that an unomenal dispatch to day to the effect that it was reported in Rio that the State of Rio Grande do Sal had renounced aliegiance to the Government and had seconded. As this dispatch came from a reliable source, the Minister believes, in the absence of any con tradictory statement from his government,

that the province has revolted. The Minister stated to-night that if the province had seceded there was not the least chance of the revolt extending to the other States of the Republic; that the Gov ernment of Brazil was as stable as this Gov ernment, and there need be no fear of a gen eral revolution. The disaffection in the Province of Rio Grande do Sul, he said, was probably due to the members of the dissolved Congress representing that part of the country, who endeavored to cause dis-

sension among the people because of the dissolution of Congress. The financial con-dition of the Republic, the Minister said, was firm, and there was really nothing to cause a rovolution.

A WESTERN RAILBOAD SCANDAL

The Retiring Purchasing Agent of the Union Pacific Accused of Corruption.

OMAHA, Nov. 11 .- About 18 months ag C. H. McKibben, purchasing agent for the Union Pacific Railroad, resigned and left the city. Almost immediately suit was instituted by the railway company to recover \$60,000, alleged to have been received by McKibben as bribes from supply companies and on false vouchers, at-taching the property of the defendant in Omaha. McKibben remained away from the city, but secured an attorney, who claimed his client was innocent, and that if there

did exist any irregularities, as charged, other officers of the company were to blame. To-day the attorney for the rail-road company dismissed the suit. McKibben is well known in Eastern railroad circles, having been connected with several Pennsylvania lines before coming to the Union Pacific under the Adams regime.

Eating Hogs That Had Cholera,

FRANKLIN, Nov. 11.-[Special.]-Late last night a physician from this city was hastily summoned to the home of George R. Webber, nine miles north of this city, where he found both Mr. and Mrs. Webbe in an almost dying condition. The couple that day had dressed a hog and eaten a por-tion of the animal, which had evidently been afflicted with hog cholera. The physician also says that the disease had affected many swine in this section. He believes that many of the infected swine had been killed, dressed and either shipped away or the meat sold for home consumption. The Webber family are all still dangerously ill. An investigation has been started by the ealth authorities.

In Ashtabula, Cleveland, Salem, Youngstown, Canton and this city

his creditors are many. When met by officers in hotels he would unbutton his coat and show a badge of a United States detective. Inquiries were made of the United States Marshal as to whether such a man was in the Government employ. The answer came that no such man was to be found. The Government was apprised that such a man was in the country, but had as yet not made him self liable by collecting money on pretense of being a detective. Officers are on the lookout for him. It is supposed that he has gone to Buffalo.
