OVERCOMING A PREJUDICE.

Increased Demand for Cottonseed Oil—It Is Now Taking the Place of Lard—What the Change Will Mean to Pork Growers.

Realizing that all flesh is grass, and therefore there is a relation more or less distant between them and the hog, Americans are justly jealous of the American-reared animal of foreign countries, and they are determined that he shall be given a clean bill of health under penalty of retaliation, but the bar on the animals' behalf against cottonseed oil languishes to an extent sufficient to arouse the suspicion that Chicago lard industries have ended it by going into partnership with the oil manufacturers and make lard productions more profitable.

COMMITTEES AT WAR.

Allegheny Auditors and Financiers Draw Their Swords.

WHITEWASH SAID TO BE IN STOCK.

A Compromise That, It Is Feared, Will Be a Precedent.

CHAIRMAN WERTHEIMER EXPLAINS

There is war between the Allegheny Auditing and Finance committees.

The heated debate in the latter committee meeting last Tuesday night between Dr. Gillfill and Arthur Kennedy was simply the forerunner of the lively times that will follow.

Mr. Kennedy and other members of the Finance Committee are looked upon by the reformers as champions of Mayor Wyman, and whatever steps they take are watched with suspicion.

Politics is said to be the potent factor, and every move which Kennedy makes for the protection of the accused officials is heralded by the other side as a bid for support in the coming mayoralty canvass.

This Kennedy makes a vigorous denial. He declares he is not a candidate for any office and that he only wants fair play.

The reformers claim he will be a candidate, however, and to prove that he and the majority of the Finance Committee intend to cover up as much as possible the facts laid bare by the Auditing Committee, the statement is made that a discrepancy of \$14,850 discovered by the auditors in the settlement of weigh scale funds was compromised by the Finance Committee for \$4,500.

The money's run from the Herr's Island and Woods' Run stock yards.

Didn't Pay for the Privilege.

The manner in which the debt was incurred was explained yesterday by Mr. Henricks, who was Chairman of the subcommittee which, in 1886, made an agreement with the stock yard companies where by they were to pay \$2,400 per year for the privilege of weighing their own cattle.

Previous to that time, while the stock yards were on Buena Vista street, all cattle sold in the city were weighed on the Second street scales, and the weight was collected there from the stock yards.

When the stock yards were started at Herr's Island and Woods' Run, the city, in driving cattle to the center of the city, an agreement was made whereby \$2,400 was to be paid annually for the privilege of weighing their own cattle.

The contract was signed by Mr. Greenwald for the Woods' Run yards and Mr. Gallery for the yards at Herr's Island. No money was ever paid, however, and the bill, with interest, now amounts to \$14,850.

Mr. Greenwald, Mr. Henricks said, was recently arrested for share, and judgment was secured. A compromise was afterward made by the Finance Committee whereby he was to pay \$1,000 on the Herr's Island yard, and \$500 on the Woods' Run yard.

The former has paid his share, but the latter bill is still hanging fire.

From this and the coming down which Dr. Gillfill got in the Finance Committee reformers have formed a conclusion that the city watchdogs are disposed to let the discoveries of the auditors slide quietly by.

The work of the auditors ends when a report is made to Councils, and it is then for the Finance Committee to make a collection.

Secret of the Committee War.

There is little objection to the settlement of the bills against the stock yard companies, but the reformers are afraid it will be a precedent which will be used to let down Mayor Wyman when their claims against him are ready for collection.

It is asserted that they will be about \$25,000. Whatever other proceedings are taken will emanate in the Citizens' Reform Association, but the Finance Committee is already charged with having a coat of whitewash in stock for the accused officials.

The claim has been made by Mr. Wertheimer, Chairman of the Finance Committee, that the compromise with the stockyard companies was made previous to the time the Auditing Committee reported. This Mr. Henricks denies, and says that steps were taken by the Finance Committee until September 8, while the Auditing Committee reported August 4.

Mr. Wertheimer also gives an explanation for the settlement that the money could not be collected and that a compromise was made as a good business move.
