

CRISP THE SPEAKER.

Mr. Peale for Hatch, but He Thinks the Georgia Judge Will Win.

HE WILL VOTE FOR CHAIRMAN KERR

A Free Silver Bill and a Reduction in the Tariff Promised.

DEMOCRATS WILL BE CONSERVATIVE

Washington is now the Mecca for the Democratic politicians. They have been moving in the direction of the capital since the election.

"The Speaker is the first problem," said Mr. Peale. "The Southern Congressmen are in a peculiar position. Four candidates come from the South, and they are all men."

Expected the Defeat in Ohio. "Yes, I get a good deal of comfort out of the recent elections. We expected to see McKinley elected Governor in Ohio. The Democrats figured on this possibility when he was defeated in Congress."

"The Democratic policy in the next House will be conservative. A tariff bill will be introduced reducing the McKinley duties from 2 to 4 per cent on an average."

"The Alliance members will try to push their resolutions in both Houses. But their talk will be confined to the committee. The Democrats will be very conservative, for we hope to elect the next President."

Expect to Pass a Free Silver Bill. "A free silver bill will be prepared and will make its way through the House. It is good Democratic principle. I know of 17 Republican Senators who will vote for such a bill, but Harrison will veto it, and he would veto it in the Senate."

"A general election will be held in the hands of the Bank of Commerce. This is the one officers took possession on a chattel mortgage for \$42,000, covering the stock and fixtures. The mortgage was given to secure a loan executed to the bank during the last few months."

Mr. Shann was looking pale, but he said he felt quite well. SEWICKLEY IN PERIL

Fire Wipes Out Mr. Bailey's Mansion and Threatens the Neighborhood—Need of a Modern Fire Department—A Plan to Raise the Necessary Funds.

Sewickley needs a fire department. Everybody in the village yesterday was talking of the narrow escape. Beaver street had had in the early morning from a sweeping conflagration. Only the absence of a high wind prevented the fire which consumed Mr. R. P. Bailey's house from spreading indefinitely on either side, to the neighboring houses on three sides are all of frame. The fire, which broke out about 1 o'clock, originated it is supposed in the cellar, from a defective gas pipe, and made such rapid progress that the family had only just time to escape, and one of the servants was overcome by the smoke and was rescued by Mr. C. A. Carpenter, a neighbor, at the risk of his life. The fire broke out in the kitchen, and the alarm had to be sounded on the bell of the Presbyterian Church. This unusual clangor brought the hose carriage and plenty of volunteer firemen, to say nothing of scores of spectators. Sewickley has no fire department beyond an antiquated hose reel and a few lengths of hose, but the pluck of the fellows who went to the rescue of the fire with it made up for the brevity of one line of hose and the unyielding length of the other. The water pressure was not sufficient to open the hydrant at the corner of the road, and in fact, the firemen were put upon the defensive early in the struggle, and devoted most of their attention to preserving the McMillan residence, which the flames, because of the westerly wind that was blowing, threatened most. In two hours all that was left of the Bailey mansion was a pile of bricks and mortar, and the brick chimneys and a big bonfire. Only the skillful and plucky fight made by the volunteer firemen preserved the neighboring houses.

The insurance on the building amounts to \$25,000, placed as follows: Northern Insurance Company, of England, \$10,000; Citizens of Pittsburgh, \$5,000; German-American, of Pittsburgh, \$5,000; and the Sewickley Fire Insurance, of Sewickley, \$5,000 on the building. The insurance men on the risk as an entire loss. This is the second considerable fire in Sewickley within a month; Mr. Miller's house on Beaver street being the first. The fire to the flames. But Sewickley's losses are recalling the fires of the last nine months yesterday, and including Mr. Warden's house on Beaver street, the total loss by fire as at least \$75,000. Much, if not all, of this loss might have been prevented if modern appliances for fighting fires had been used. The Sewickley fire department, grown from a mere village to almost a town in the last 20 years, the fire department, the fire department, has remained a weakly infant. Now it is proposed to purchase a modern fire engine, and Sewickley Councils are very loudly abused for not caring for the borough's safety, but they are not to blame, apparently, for the fire, but the fire department, through the borough improvement consume every cent of the \$10,000 or so which the tax levy produces. Burgess George H. Anderson said yesterday that he would like to see anyone who would improve the fire department, and would favor the purchase of a hand fire engine and sufficient hose, if the fire department could provide the funds. It is probable that Mr. Anderson will make a public recommendation to Councils on this subject in the near future.

Among the many Sewickleyans who discussed the matter with a representative of THE DISPATCH yesterday more than one suggested that the way to increase the borough revenue without adding unfairly to the tax payers' burden is to levy a heavy tax on the property. At present there is a very unjust variation in the tax rates in the borough. The largest estates are assessed at a ridiculous low figure, while others, generally small holdings, are assessed right up to their full value. If this equalization were effected it would result in a larger revenue surely, it is said, without increasing the taxpayers' burdens unduly. Then funds for a fire department equal to protecting the borough would be available. The borough is thoroughly stirred up over the matter, and Councils will be called upon to more if they do not do so of their own accord. In the meantime, the fire department cannot be given to the men who serve Sewickley whenever a fire occurs at a risk of health and often of life itself.

Lives might have been sacrificed in the fire if the fire department had not been given by a strange chance, before the flames had cut off the inmates' escape. A Sewickleyan on the late Chicago express was carried past his destination, and jumping from the train at Quaker Valley station, broke his leg. It was a messenger sent to summon a doctor for this injured man who saw the flames in the basement of Mr. Bailey's house, and it was he who gave the first alarm and aroused the sleeping household.

SPORT AT PRINCETON.

A Regular Old-Time Cane Rush Held, Despite Its Prohibition.

THE FRESHMEN COME OUT ON TOP.

They Secure Two Canes to One Gathered in by the Sophomores.

ROUGH FUN IN THE CLEAR MOONLIGHT

(SPECIAL TELEGRAM TO THE DISPATCH.) PRINCETON, Nov. 13.—Last year the faculty of Princeton College decided to abolish cane rushes, and no cane rush took place that year. This year one took place. About 4 o'clock yesterday afternoon a few upper-class men notified two score or more of the Sophomores and Freshmen classes, cautioning them to see that Mat Goddard did not learn the secret.

At 10 o'clock at night the beating of drums, the firing of guns, the blowing of horns and the yells of brass-lunged young men from each class told that the event was about to come off. Even the theologians came out in force, and when time was called, near midnight, a thousand students and townspeople stood in a circle on the campus, under the light of a clear moon, to witness three couples of the best men of '33 and '35 fight for all the rest.

Jack McMasters was umpire, and Sport Donnelly was timekeeper. The second was Frederick Bucher, '33, and G. M. Davis, '32, both of whom won their battles for their class from '31 and '33. For the freshmen, King, '33, star football player, and Chapin, '32, star basketball player, and the sophomore, Turner, a half back player on the scrub football team. As they stepped into the ring they were cheered to the stars.

The first pair to appear in canvas jackets and knee breeches were the lightweight, Turner (sophomore) and Lewis (freshman). They were of equal size, and had been in training for the event. Turner is a half back player on the scrub football team. As they stepped into the ring they were cheered to the stars.

Next came the middle weights, Mann, '35, and Farnum, '34. Farnum, it is said, was chosen at the last hour, the regular sophomore wrestler, who had been in training, having been ordered not to wrestle, as Mann and Farnum play on the scrub team both were supposed to be in good condition. The contest was the most exciting and best of the three. Farnum showed great strength, but he did not use his strength so well as did Mann.

Mann Gets the Second Canes. Both men fell shortly after the contest started. Mann on top. Farnum saved himself all he could but by a well-executed trick, Mann turned him over and wrenched the cane from him. Then the freshmen yelled, and pandemonium reigned again.

WASHINGTON, Nov. 13.—The Light House Board has directed that the light buoys and other aids to navigation on the lakes be continued in operation until the close of navigation. As the board has no definite information as to when the season closes, it has opened correspondence with northern underwriters on that subject, with the view of regarding the season open so long as the agents will write insurance on vessels engaged in the lake trade.
