ALARMING DEFECTS IN NAVAL GUNS

[COPYRIGHT, 1891, BY THE NEW YORK ASSOCIATED PRESS.

LONDON, Nov. 13 .- The Executive Com mittee of the Conservative associations have drafted a platform to be adopted at the great party caucus which opens in Birmingham on the 23d inst, as the final programme of the party for the coming elections. The distinctive name given to the meeting, "National Union Conference," does not imply the inclusion of the Liberal Unionist element. The caucus will be purely Conservative and will consist of joint delegates drawn from the English and Welsh con-

The Executive Committee, in view of the momentous character of the resolutions as embodying an authoritative party utterance, have been long discussing them and finally approved them yesterday. A perusal of advance proofs of the resolutions show that the leading proposal concerns Ireland, and discloses the fact that the Conservative leaders have resisted the appeal of an influential section of the party to ignore Irish affairs.

Cutting Down Irish Representation. The conference will be asked to indorse the intention of the Ministers to extend local government and promote technical education in Ireland. At the same time, it is declared that the inequalities arising from according Ireland a disproportionate representation in Parliament ought to be

Other important planks provide for the extension of the franchise to women land-owners and house occupants; the creation of a Labor Department under a member of the Cabinet, to be termed the Labor Minister; and legislation to enable local authorities to acquire land to facilitate the creation of

small rural holdings.

As a further concession to the labor vote the conference will declare in favor of the will iple of labor representation, and will urg Conservatives to support labor candi-mass everywhere, who appeal to enter public life upon no party lines. The plank is deftly contrived to encourage a split in the Radi-cal workmen's vote. Next, the Government is requested to increase the number of appointments of workmen as factory inspe ors, and to appoint women inspectors. A Step in the Direction of Protection.

A resolution proposed by Howard Vincent, M. P., an eager advocate of in perial federation, who has just returned from America full of wrath against the Me-Kinley law, favors a preferential tariff throughout the British Empire, the adop-tion of which will not commit the party leaders. Next, the "one man, one vote", principle is denounced, while it is declared

Lord Salisbury, Home Secretary Mat-thews and Sir J. E. Gorst will deliver adlain, will entertain the delegates.

The Conservative bribes to the labor vote

will energize the Gladstonian movement to establish a "labor candidate fund." Mr. Schnadhorst finds that grants of money to labor aspirants are largely wanted. It is reported that Andrew Carnegie offers to place in the hands of a trustee a large sum as a nucleus for the proposed fund. Abuses on English Workingmen.

Startling evidence has been laid before the Labor Commission in regard to the condition of the operatives in the textile trades in Lancashire and Yorkshire. Of the workers' scant wages, ranging from 16 shillings weekly upward, a system of relentless fines absorbs a large percentage. The manufacturers hold the workers responsible for spoiled material. A single fine sometimes absorbs a whole week's wages, and any excess of fine over wages is carried forward until the whole fine is worked off. Many workmen live in a state of semi-starvation bound hand and foot by the accruings of their employers' illegal fines.

Truck abuses, supposed to have been sup-pressed, are still in active existence and the ctory acts are openly defied. Factory inspectors deposed that spies were sent to watch for and announce their coming in order to prevent them from getting com-

Alarming Defects in Big Naval Guns. The British Admiralty is much excited over the growing record of defects in great guns on English warships. Five vessels have recently been officially declared to be carrying unreliable guns. In the 110-ton gun ironclad Benbow, which has been in commission only a few weeks, a crack developed in the inner tubes after firing a few rounds of 960 pounds each, constituting the full charge. Similar accidents have happened to guns on the Victoria and Sans Pareil. Generally the heaviest weapone are becoming distrusted, and the Admiralty has ordered that a number of them be taken to the ordnance works to be strengthened. Meanwhile the 75-ton guns of the French fleet are acting perfectly. The Duc d' Orleans Scandal.

The Duc de la Tremouille and the Duc de

Noailles, prominent Orleanists, have arrived at Sheen House for a conference with the Comte de Paris in regard to the charges against the Duc d'Orleans in connectior with the Melba divorce case. The Duc d Orleans persists that his relations with Mme. Melba have been purely platonic. Political clubs are interested in a controversy raised by T. P. O'Conner, M. P., in accusing Mr. Stuart, M. P., of originating the split in the Parnellite party by injudicious haste in publishing Mr. Gladstone's November letter to Mr. Parnell. Mr. O'Connor's abuse of Mr. Stuart, who succeeded him as manager of the London Star has led to the disclosure that Arnold Mor ley, the liberal whip, gave to the press the etter referred to under the authority of Mr. Gladstone. Mr. O'Connor is, therefore, left in the position of charging Mr. Gladstone with the initiative of the rupture in the irish party.

BOBERT RAY HAMILTON'S DEATH.

One Who Has Investigated Says It Was Probably Due to Foul Play. SIGNIFICANT LETTERS RECEIVED.

A CHANGE OF COURSE FOR THE PETREL

FROM A STAFF CORRESPONDENT. WASHINGTON, Nov. 13 .- The Chilean mail, which arrived in Washington to-day, brought letters from a large number of officers and men on board the Baltimore within up to a few days before the brawl in Valparaiso, in which two American seamen lost their lives. Each of these letters speaks of the bad feeling of the Chileans toward the United States, and especially toward the sailors of the Baltimore and the

San Francisco. Up to the time that these letters were written there had already been several fights between the Valparaiso mob and sailors ashore from the vessels. According to one letter received by a man here from his brother, a more than ordinarily intelligent seaman, a party of men from the San Francisco got into a row on shore one night just before that vessel sailed, and had to fight their way back to the wharf. In the fight, according to this story, several of the men belonging to the San Francisco, were badly used up, but two of the Chileans were killed.

Where Captain Schley Made a Mistake. As this story is not substantiated by any official reports, it is probably an exaggeration, so far as the killing of the Chileans is concerned. It shows, however, that the fight in which the men from the Baltimore were killed was not by any means the first encounter between American seamen and the Valparaiso mob, and keeping this in mind, together with the bad feeling against Ameri-

cans generally, it is surprising that Captain Schley, of the Baltimore, should have let any of his men go ashore at that port.

Since the formal organization of the new Government of Chile, and the accrediting of Senor Montt as Minister to the United States it has been evident in Washington. States, it has been evident in Washington that the relations between the two countries have been less strained, and though Senor Montt has not yet been formally presented to the President, there is reason to believe that he has already taken occasion to assure Mr. Blaine that his country will take a reasonable view of the situation, will make a killing of the American seamen, and will punish the guilty persons and do whatever

Indications of a Better Feeling. Among the indications of better feeling between the two Governments is the re-laxation of the extraordinary rush of preparations in the navy yards. The Atlanta, Newark, Concord and Bennington were all to have gone to sea this week, but now none of them will get off until next week, and while they will go to the West Indies and the South Atlantic, and thus be much nearer Chile than at present, there will be no extraordinary haste in sending

It is significant that the Petrel, which arrived to-day at San Lucia, in the West Indies, on her way to China via the South Atlantic and the South Pacific, touching at Valparaiso, was ordered by cable to change her course and go by way of the Mediter-ranean and the Suez canal.

If any other ship than those now attached to the Pacific is ordered to Valparaiso in the near future it will probably be the Philadel-phia, Admiral Gherardi's flagship, now at St. Thomas. The Admiral is anxious to go to Chile. He went so far, in fact, as to ask as his right as senior officer of the navy affoat, to be sent to Chile and put in charge of operations, if there was any danger of hostilities, and, though there is no such danger yet, Admiral Brown is so specially disliked by the Chileans that Secretary Tracy may couclude it is good policy to end an entirely new man to take charge.

ADMIRAL BROWN'S FLAT DENIAL Of the Statement That He Gave Away Any

State Secrets. WASHINGTON, Nov. 13 .- In view of the repeated statement that Admiral Brown or some of his ship's company informed the Balmacedan Government of the landing of the Congressional forces at Quinteros, last August, Secretary Tracy seized the opportunity afforded by the presence of the Admiral with the San Francisco, at Acapulco, Mexico, a few days ago, and addressed the following telegram to him:

WASHINGTON, NOV. 10. To Admiral Brown, Steamer San Francisco, Acapulco:
Did you invite any Chileau officer to accompany you on board the San Francisco to witness the landing of Chileans at Quinteros? Did you or any of the officers of your crew on your return on that occasion to Valnaraiso communicate information about what you saw to any person not connected with your vessel?

CHILE'S CABINET MUDDLE.

A Compromise Reached and the Resigna tions Are Not Accepted.

VALPARAISO, Nov. 13 .- The complications that have arisen in the Provisional Government of Chile, on account of the resignations of Minister of the Interior Irrerazafal and Minister of Agriculture Josquin Walker-Martinez, seem in a fair way of being straightened out. The resignations have not been accepted by the Junta. It is expected that in view of the oncessions made to their party they will

retake their portfolios.

He was Balmaceda's Minister of Agriculture in the first Cabinet formed by the Dictator. The cause of his suicide was the fear of persecution on the part of the Junta. He did not dare to stand

Further fighting is reported in Brazil, and the opposition forces are again credited with victory. The place where the battle was fought is not stated; but it is supposed to have been in the vicinity of Santa Ana, near Porto Alegre, the capital of Rio Grande Do Sul. A number of other towns, in addition to Porto Alegre, are reported to have hoisted the flag of the National party of Brazil, and large bodies of troops are being raised in the provinces with the ultimate intention, it is said, of advancing upon the Dictator's offeet, while the vehicle, freed of its burden, had rushed to the top of the shaft and become immovable in the tower. The only other way to reach the surface was to face the raging waters, pass through them and reach a narrow passageway which led to the shaft of the Vonstorch mine.

With stern-set faces the miners advanced toward the incoming stream. They waded into the water, which grew deeper every step. Soon it reached their knees, then their hips and then their shoulders, but still they went on. To turn back meant death, while shead was hope of safety. The Story of a Westmoreland Constable's Cruelty to a Woman Retold. GREENSBURG, Nov. 13.-Alexander Mc-Crady, the constable of Rostraver township, this county, will be tried for murder. The grand jury in its deliberations to-day returned a true bill against the officer, but NEWSY NOTES FROM NEARBY TOWNS the case has been postponed until the Feb-

ruary term of court.

Several months ago Constable McCrady was given a warrant by a justice at Webster, on the Baltimore and Ohio Railroad, for the arrest of Henrietta Ludwig, the wife of a German residing in that neighborhood. The woman was charged by a neighbor with quarreling with children. McCrady went to the house to make the arrest and found Mrs. Ludwig in attendance upon a sick child. The officer insisted upon the woman accompanying him, however, but she refused. The officer went to the attending physician and consulted him, and the doctor told the officer, it appears, that the woman should not leave the bed of the child. The constable appeared again at the house of Mrs. Ludwig, and, it is alleged, pulled a revolver and compelled the woman to go with him, she carrying the sick baby in her arms. They went to the office of the magistrate, and upon the return of the poor woman to her home the baby died, as the physician stated, from exposure. McCrady was arrested charged with murder.

CORRY DEPOSITORS ARE HOPEFUL

Still No Official Report as to the Defunct Bank's Condition.

CORRY, Nov. 13 .- [Special.] - The committee appointed at the meeting of depositors of the Corry National Bank last Wednesday evening met the directors this afternoon. Yet Await Dr. McGlynn, Whenever He Is Ready to Go After Them.

THE ULTIMATUM OF THE HOLY SEE.

The Excommunicated Priest Has No Answer to Make Just Yet.

HOW HE RECEIVED THE INFORMATION PEPECIAL TELEGRAM TO THE DISPATCH. NEW YORK, Nov. 13 .- Ever since the

visit of Bishop Moore, of Florida, to Rome,

not long after the excommunication of Dr.

McGlynn, of this city, reports have been

circulated periodically that the McGlynn

case is to be reopened. One of these re-

ports was submitted to-day to Archbishop Corrigan and he made the following state-The position of the church with regard to Dr. McGlynn has been misunderstood, and I wish to set the matter aright, so that there may be no misapprehension or false concep-tion of the attitude of the Holy See. In regard to the case of Dr. McGlynn, it will suffice to quote a letter sent to me some time ago, by the sacred congregation, with permission to publish it whenever such a step should seem advisable. This letter has been approved, word for word, by the Holy Father, and the public may rest assured that no departure will be made from its pro-visions.

isions. Referring to the efforts made by a friendly Referring to the efforts made by a friendly prelate in behalf of Dr. McGlynn, the sacred congresation says: "They make him reflect that the propaganda came to the decision reached by them with regard to McGlynn on the strength of incontestable documents, after long and patient waiting, and after having employed in the case the means that the wisdom and patience of the Holy See could suggest."

Merits of the Case Not Entered Into. With this view a brief history was given of the action of the sacred congregation in the premises, from which it is made manifest that the propaganda punished Mc-Glynn for disobedience of the orders of the Holy Father, without entering into the to still be disposed to use mercy, should be recur to the indulgence of the Holy See. In this case the request would not be considered as an appeal, but a petition for the review of his case to be granted only by submitting to the following conditions:

First—That McGlynn himself make the recuest and state his grievances.

First—That McGlynn himself make the request and state his grievances.

Secondly—That he publicly condemn all that he has said and done of an insulting character as against the Archbishop and as against the Holy Sec.

Thirdly—That he be ready to abide by the orders and submit to the judgment of the Apostolic Sec.

Fourthly—That he promise to abstain from any public utterance or assistance at any meeting on the matter under consideration.

Fourthly—That he promise to abstain from any public utterance or assistance at any meeting on the matter under consideration. This is the ultimatum. I would be most happy to see Dr. McGlynn relieved from the penalties under which he is suffering, but I have no hope whatever that anything will be done for him until he submits to the authority of the Holy See. This can be no grievance to him, and it is a condition of the Catholic faith. Let him obey, therefore, as from the beginning of Christianity bishops, archbishops and patriarchs have obeyed the summons of the Sovereign Pontif calling them to Rome, and through obedience he will obtain pardon and penance.

Dr. McGlynn Has Nothing to Say.

A copy of this statement was shown to Dr. McGlynn. It was the first intimation he had had of the papal ultimatum, and, in-viting the reporter who had called to take a seat in the parlor, he retired to another room and read the article over carefully. It was nearly half an hour before he made up his mind what answer he would make, and by that time he had concluded to say nothing at all.

"You may say," said he, "that I have not seen or heard of the article before, and know nothing about it. I have nothing to say at present for publication.

THERE WERE NO FIREBUGS.

cause of the Lawrenceville Fires Satisfac torily Explained-One Started by a Cigar Stump-Another by a Piece of Clothing Falling in a Stove.

Notwithstanding various reports to the contrary, the loss by fire at Thirty-fourth street and Penn avenue yesterday morning will fall below \$20,000. In yesterday's DISPATCH the loss, figured within an hour after the fire was discovered, was fixed at \$15,000, and when the final totals are completed this estimate will be found nearly correct. The mysterious rumors of incen-diarism were traced down yesterday and found to have little or no foundation. It was established beyond a doubt that

the blaze originated in a small shed the blaze originated in a small shed on Thirty-fourth street, 20 feet in the rear of G. W. Tea's drugstore. Mr. Tea used this building for the storage of empty boxes, barrels and waste paper. No fire or light of any kind is ever used in it, no benzine or other combustible fluid was kept in it at any time, and no explosion occurred in it during the fire as has been reported.

The origin of the fire, according to the belief of more than a dozen persons whose opinions should have weight, is that some carcless smoker threw either a match or eigar stump against the rear of the shed in rear of Tea's store, and that it was fanned by the high wind blowing at the times of the shed in rear of Tea's store, and that it was fanned by the high wind blowing at the time and carried into the shed through a crack be-tween the boards. This theory is strengthened by the fact that the corner on which the shed is located was a favorite loafing place for men, who stopped there to light cigars. Wm. Gardner, secretary of the People's Insurance Co., visited the scenes of the fire vesterday and made an investigation. He yesterday and made an investigation. He said last evening, "We are interested in the loss of the Citizens' Traction Co., and in my investigation to-day I found no rea-

son to charge the fire to incendiaries."

Fire Marshal McFadden, has not yet made an investigation of the origin of the fire but will this morning. He has not been notified of any incendiary suspicions. Sup-erintendent of Police Weir, said last night that his police had satisfied themselves that there was no ground for suspecting anyone of setting fire to the buildings. Chief Humphries also investigated the matter and

was of the same opinion.

The losses incurred by the fire were as folows, figures being given by the owners: A. M. Krut, 3402 Penn avenue, wagon shop, \$2,000, and stock, machinery, ect., \$8,000; Citizens Traction Co., No. 3406, \$4,000 on office furniture, fixtures etc.; G. W. Tea, No. 3400, not over \$3,000 on building, house-No. 3400, not over \$3,000 on building, household goods and store, possibly less; J. J. Slattery, first floor, No. 3408, pool room, \$400; Wildwood Dairy, first floor, No. 3404, stock and fixtures, \$500; Mrs. Baits, three upper floors, No. 3408, bearding house, \$300. All the above losses are fully covered by insurance, except Mrs. Baits and Slattery. The insurance companies interested ap-pointed a committee yesterday to investigate the losses.

There is considerable indignation among

the people at the forks of the road, where the fire occurred. on account of Krut's building. They say Krut's shop, which was three stories high and 26x120 feet in size, was built entirely of rough boards and not even lined. They say, and Krut him-self admitted, that the building permit was secured last spring for political services rendered by him in the spring election. He says he intends to apply for a permit for mother wooden building on the same site. The kitchen in the rear of Frank Soevyn's tailor shop, No. 2607 Penn avenue, was slightly damaged by fire at 4 o'clock vesterday morning. An alarm was sent in, but the engines were all on duty at the Thirty-fourth street fire and Mr. Soevyn ex-tinguished the blaze with a few buckets of water. A report was published that the fire was of incendiary origin, but Chief Humphries made an investigation, which showed that an article of clothing which had been hanging on a line fell off on the kitchen stove and ignited. The loss was trifling.
