REPORTS OF FRATERNAL DELEGATES

BOSTON, Nov. 14.—The scenes of yesterday were repeated at the opening of today's session of the convention of the National W. C. T. U. Miss Willard called the assembly to order. It was announced that a telegram was received late last night from the Governor of Washington asking that the next convention be held in Seattle.

Mrs. Caroline B. Bael, Chairman of the Department of Organization, spoke of the relation of the organization to the extension of the temperance cause and the progress made. She reported that the number of unions organized was 150; number of young women's unions organized, 14; number of Loyal Legions organized, 9.

Mrs. Frances J. Barnes, of New York, next told of the "Young Women's Work." Mrs. Barnes, who is National Superintendent of the Young Women's Temperance Work, spoke of a petition, bearing the names of 20,000 young women, to college students and graduates, asking that wine be banished from class suppers.

The Work in Foreign Lands. In regard to the work of the World's Women's Christian Temperance Union, Mrs. James reported that in New Zealand and other countries, including South Africa, many of the "W" unions have been formed.

Mrs. Helen G. Rice, of Massachusetts, reported for the juvenile work. She said that the Women's Christian Temperance Union has the signatures of the confederates of the city that they would sell no alcoholic confederacy.

The Work of the Department of Prevention was next presented, the topic being: "What are the relations of health, hereditary and physical culture to the battle against intemperance, and what is each department doing to prevent it?" Dr. Annette J. Shaw, of Wisconsin, came first, her subject being "Health." She said: "It is our aim to make the people at large healthy, and if we are only steadfast in our purpose such will be accomplished."

"Physical Culture" was taken up by Mrs. Frances W. Letter, of Ohio. She said: "Our last fight will be, I believe, with our physicians and our drug shops. We are proving in Chicago, in our Temperance Hospital, that alcohol is not essential, not even of advantage, in treating disease. Physical education should be the curriculum in every school."

An Essay From Johnstown Ther. At 2 P. M. the Catholic delegates, Rev. Father Cleary and Miss Sadie McNeilis, of Johnstown, were introduced, who represented the Total Abstinence Union of America, the audience rising to greet them with the "Old Oaken Bucket." Father McNeilis presented the greetings of the Total Abstinence Union and had the women of the W. C. T. U. God speed. Said he: "We are all one in the great work of fallen humanity. There is something in your organization that appeals to the heart of the Catholic, who knows no caste and no color when men are to be redeemed."

The representatives of the Good Templars were introduced and gave fraternal greetings. Then came the report of Mrs. Mary Clem-

The men were partners in their work, and when a settlement took place Henry claimed that Sutton owed him 25 cents more, whereupon Sutton killed him. CENTRAL AMERICAN TROUBLE.

Barillas Alert Against Revolutionists and Salvador About Bankrupt. CITY OF MEXICO, Nov. 14.—Dispatches received here to-day from Guatemala say that President Barillas is sending troops to the north from Quetzaltenango to intercept the revolutionists if they should attempt to cross over Mexico. The Mexican Government denies that it has been asked to stop revolutionists from crossing the Mexican frontier into Guatemala, and says that it has no knowledge of any revolutionary movement against that country. Dispatches from Salvador are to the effect that the Government of the republic is in a bad financial state, and is unable to pay the salaries of its employees.

Baird, the Banking Forger.

It is also claimed that Baird forged a layout of heavy timber stock, which will aggregate 400 shares or more.
