From North and South the Fame Reports

Are New Coming in. FEW CHANGES IN FOREIGN FIGURES

SPECIAL TELEGRAM TO THE DISPATCE. NEW YORK, Nov. 19.—The Iron Age for to-morrow reports the New York iron and

steel markets as follows: · American Pig-As indicating the position of the leading producer for this market we may note that the Thomas Iron Company has this week sold 2000 tons of foundry from to a consumer at a price to be determined later on. Mr. Clarke, President of the com pany states, however, that he has guaran-teed that there shall be no advance above the price now ruling. Southern agents re-port the market very dull. We quote North por: the market very dull. We quote Northern brands \$16 756/18 00 for No. 1; \$16 006/16 50 for No. 2, and \$14 006/14 50 for gray forge. Southern iron sells at \$16 256/17 00 for No. 1; \$15 506/16 00 for Nr. 2, and \$14 506/14 75 for No. 3 foundry, and \$14 256/14 50 for gray forge. Spiegeleisen and Ferro-Manganese—In all manganiferous material the market is very dull. Consumers have been filled up with ferro-manganese before the combination was broken, and in some cases deliveries on contracts then made are being settled for at present quotations. We quote 10 to 12 per cent, \$25 006/24 (6; 20 per cent, \$27 006/28 00, and \$9 per cent ferro, \$62 006/25 (6).

Billet and Rod Market Lifeless, Billets and Rods-The market is lifeless, no transactions of any consequence having been closed in this section, while Pittsburg drags along on a \$24 basis for 4-inch ordinary orage along on a \$23 basis for 4 anch ordinary billets. We quote: Domestic billets, \$27,00@ 27,50 delivered; foreign billets nominarly \$31,00@31,50, and domestic rods, \$36,50@37,50 tidewater. Steel Bails—In the East business has been

Steel Rails—In the East business has been very quiet during the past week, no transactions of magnitude having been closed. There is some inquiryand some negotiations are pending, but there is not much prospect of booking heavy orders in the immediate future. The market, however, has been very active in the West. A representative of one of the large mills figures up that in the past two weeks the Western mills have closed for about 15,000 tons, winter and spring delivery, the quantity stated not including the Pennsylvania order. Even running at record rate, this would amount to three months' rolling for the two great mills. We understand that practically all of these orders are for renewal work, so these orders are for renewal work, s that the requirements for extensions have not yet appeared in the market. The No-vember report of the Board of Control shows vember report of the Board of Control shows shipments up to the 1st instant of 899.98 gross ions, standard sections, and orders booked up to the same date for 1891 delivery, amounting to 1,002.075 tons. The deliveries during October were, therefore, 190,000 tons, while the sales footed up to 85,537 gross tons, Quotations remain stendy at 830 006:30 59 at Eastean mill, standard sections.

Nothing Big in Manufactured Goods. Manufactured Iron and Steel-Only a moderate amount of new work is coming forward. During the week the smaller power house of the Broadway cable road has been placed. The larger house will soon be contracted for, and it is expected to require several thousand tons of iron work. The plate market centinues in a very unsatisantory condition, with reports of low prices. It is reported that the plates for a large vessel have been taken at a very low figure. We continue to quote Augles, 13062.10c; sheared plates, 1.8562.25c; tees, 24062.75c, and beams and channes, 3.1c on dock. Steel plates are 1.962.1c for tank, 2.1562.30c for shell, 24062.5c for flange, 2.66.25c for marine and 360.25c for figure, 2.66.25c for marine and 360.25c for flange, 2.66.25c for marine and flange at 2.1562.20c delivered. Steel axies, 2.1562.25c, and links and plus, 2.1562.20c. tracted for, and it is expected to require sev-

Stee axies, 2.15@2.25c, and links and pins, 2.15@2.20c.
Track Material—We quote 2.15@2.25c for spikes, 1.70@1.85c for fishplates, and 2.80@3c for holts delivered.

Merchant Steel—We quote hot-rolled shafain, 2.26.2.10c; machinery, 2.10@2.25c; tire, 2.15@2.25c, and toe calk, 2.20@2.30c, delivered.

Old Material—There is nothing doing in old iron ralls; there is no stock offering and little demand, with quotations nominally at \$20.00@21.00. Low sales in the Mahoning Valley recently cut off the Western market completely. In old steel rails business is detely. In old steel rails business is light, and very low prices are named as those which might tempt buyers. The views of the latter do not seem to be above \$14.00

No Decided Change Abroad. The foreign iron and metal markets are

reported by special cable from London as follows: The situation in the pig iron market is without decided change. Hematite warrants are receiving more attention, but Scotch and Cleveland are traded in very in-differently, and the demand for maker's brands drags wearily, although favorable reports as to sales of several descriptions of finished iron are still given. Stocks in warrant stores include 40,000 tons Scotch and 149,000 tons Cleveland. Latest sales of warrants were at 47s for Scotch, 38s 49,46338s 6d for Cleveland, and 48s 41 for hematite. Liberal buying in part for speculative second. eral buying, in part for speculative account, caused an advance of 30s in the price of piz tim, prompt delivery selling at £81 12s 6d. At the advance the demand stackened, however, and in the absence of support from previous conspicuous buyers, prices receded be 3.5 6d from the highest point, despite the samouncement that shipments from the Straits during the first half month were

Straits during the first half month were only 599 tens.

Copper prices have fluctuated within nar-row limits, and the market is steadier. There is now very little pressure to sell, and lower prices are attracting fresh purchases for speculative account and for consump-tion. Europeon spot stocks have increased 1,917 toos and the visible supply 800 tons dur-ing the past fortnight. Chile charters dur-ing the first half of the month were 850 fons. The tin plate market remains quiet, and no improvement is looked for until American stocks show signs of more rapid deple-tion. Prices are rather weak and unsettled.

The Metal Markets.

New York, Nov. 19.—Pig iron dull; American, \$15 75@18 00. Copper steady; lake, November and December, \$11 15. Tin dull and steady: Straits, \$19 85. Lead quiet and firm; domestic, \$4 35.

THAT FAKED CABLEGRAM

Concerning the Immediate Issuance of the Russian Wheat Ukase Still Demoralizes the Wheat Market-Corn Opens Badly,

but Improves-Oats and Provisions Dull, CHICAGO-The wheat market was demornlized over the effects of yesterday's false report announcing the promulgation of the Russian edict prohibiting the exportation of wheat. The attention of many of the traders was directed in attempting to ferrot out the author of yesterday's false report, and the market for a few hours received but little of their attention. As a consequence, the business was very light, there being a general disinclination to buy on account of the unsettled and somewhat timid feeling which prevailed. The market, therefore, was naturally weaker, and prices were lower all around.

One reason for the decline, no doubt, was the positive contradiction of the dispatch received yesterday, which claimed that the edict prohibiting the exportation of wheat had been signed. To-day's cable says: "The issuance of the decree forbidding the ex-portation of wheat was postnoned until De-cember." However, should the exportation of wheat from Bussia become a law it is doubtful if it would have any material effect denbiful if it would have any material effect in lessening , the exports, of which is is claimed about 75 per cent of Russia's surplus has already been exported.

The opening was \$4.0 to lower than the closing figures of vesterday, and, with slight fluctuations, declined 160 to more, then fluctuations, declined 160 to more, then fluctuations, declined 160 to enough \$4.0 to the closing was about 2c lower than yesterday.

The corn market was weak at the start, but later developed considerable strength on demand from shippers. November opened at 52c and closed at 53c; year, from around 44% to 64% at the opening moment, advanced by irregular stages to 45% and

around 41% e to 41% c at the opening moment, advanced by irregular stages to 45% c and closed at 45% c, and May, from 42% c, sold up to 42% and closed with sellers at the latter price, which, as regards the latter month, shows scarcely any change since yesterday. The cats market was extremely dull. Prices were confined within a range of \$1.60% c. November selling at \$2.60 32% c and May at \$2% 0.32% c. The market closed stendy at \$2% 0.32% c. The market opened weak and closed at considerably lower prices than yesterday, except December pork, in which there was a slight recovery from the lowest

The Bears Get Control and Give Local Stocks a Severe Shaking Up.

OFFICE AND STREET NEWS AND GOSSIP

The most important transaction in real estate that reached the final stage yesterday was the sale by Black & Baird, through W. A. Herron & Sons, for Mrs. Mary B. Foster to Dr. A. Fleming, of Nos. 420 and 422 Penn avenue, corner of Evans alley, consisting of a lot 39x115 and two two-story brick buildings, for \$34,000.

It is understood the purchaser bought this property strictly as an investment, and will neither occupy nor improve it at present. It is part of the historic "Honeymoon Square," which was at one time the most ashionable residence quarter of the city. It is near the Leonard property, about which so much has been said, and will be the scene of some very important improvements before another year rolls round.

It may be interesting to note in this con-

nection that a few years ago Mr. J. W. Arrott purchased two adjoining properties, of equal size and similar improvements, for about \$18,000. Since that time, as shown by the recent sales, values in that locality have een marked up 100 per cent.

Realty Under the Hammer. A large and evidently interested audience greeted the combined efforts of three prominent real estate firms to dispose of valuable property at the Real Estate Auction Board rooms yesterday afternoon.

Eight parcels were offered, four of which were sold. The bidding at times was quite snimated.

Liggett Bros. sold two lots on Atlantic avenue, East End, each 50x100 at \$57 50 a foot front. A. Leggate & Son sold a lot on the Perrysville road, Tenth ward, Allegheny, 78x138, for \$1,600. Black & Baird sold No. 605 Grant street for \$11,000. The results fully confirm the wisdom of this method of handling property.

A BAD DAY FOR BOOMS IN THE STREET RAILWAY STOCKS.

uquesne Gets a Very Black Eye and Some of the Others Damaged-A Natural Reaction From Too Rapid a Pace-Other Features. All the booms exploded yesterday, and the

market was dull and weak throughout. Nearly everything on the active list was marked down. It was bargain day.

The Tractions had been for several days the backbone of the market, and when they gave way nearly everything else went off in sympathy. They had struck a too rapid gait for the capacity of the speculative public, and their decline was only a natural re-action. There was nothing in conditions or even rumor to affect them for better or

The lowest figures of the day were named at the last call. Blocks of 100 to 500 Duquesne were offered at 16%, with 15 bid. Manchester vas offered at 37 and Birmingham at 19% 18½ bid. Duquesne, as will be seen, suffered most from the reaction. Pittsburg Traction finished a big fraction

better than the opening, but Pleasant Val-ley lost ground. There was no change in the natural gas list, except that Manufac-turers' was more bullish in the talk. Elec-tric was a back number. Switch and Signal went off half a point and Airbrake a full Pittsburg Traction at 47, and 5 Manchester at 38. Closing bids and offers follow.

GENERAL STAGNATION.

STRICTLY PROFESSIONAL DAY IN THE STOCK MARKET.

ugar Leads a Marked Improvement in the Last Hour-A Better Feeling in Richmond and West Point-Chicago Gas One of the Features.

NEW YORK, Nov. 19 .- The stock market today was very dull throughout the greater portion of the day, and the strictly professional character of the dealings was empha-

as a consequence, duliness was the only marked feature of the trading for the most of the day. A better feeling existed in Richmond and West Point.

The Industrials, and especially Sugar and Chicago Gas, were the prominent specialties to-day, and Sugar responded to a rise in the price of the refined and the reiteration of the rumors of an increase in the dividend of the rumors of an increase in the dividend by a rise of 3 per cent. The improvement in the others was more moderate, and outside of Richmond preferred, which, after open-ing down 1 per cent, recovered the loss and 3 per cent additional, closed at about first

price.

The general list opened with firmness, prices moving upward during the first hours, after which a partial reaction was followed by general stagnation, only the shares mentioned showing any animation. The bears attacked everything, especially Northern Pacific preferred, Atchison, Reading and Lackawanna, and while the first-named retired I per cent and Sugar reacted.

sional character of the dealings was emphasized by the marked increase in the amount of business done in the last hour, when the market was subjected to severe pressure to sell by the traders and bears who were desirous of making a quick turn on the bear side.

The news of the day was uniformly of an encouraging nature. These influences, however, failed to stimulate either buying or selling in a legitimate way, and the trading in the market was left almost entirely to the professional element, which was inclined to be more cautious than of late, and, as a consequence, dullness was the only marked feature of the trading for the most.

OFFICE OF PITTSBURG DISPATCH, } TRURSDAY, NOV. 19.

COUNTRY PRODUCE (Jobbing prices)-Creamery butter, cheese and eggs all show an upward tendency under the influence of the cold wave. Strictly fresh eggs are growing very scarce, and outside quotations are easily obtained. Markets are abundantly supplied with fall vegetables, and the situation is still in favor of the buyer. Potatoes and cabbage are particularly dull. Sweet potatoes are beavy stock at present prices. Poultry is not so plentiful as it has been of late, and markets are steadier. There is, however, little doubt that Thanksgiving week will bring supplies sufficient for all the needs of trade. Supply of bananas is not so large as it has been for a week or two past, and quality shows decided improve-ment. Choice stock is firm. The same is true of Malaga grapes. Oranges and lemons are weak, with a tendency toward lower-prices.

—Judge Hudson, at Newberry, S. C., has made an important decision in regard to the taxation of bank stock. The Controller General ordered all bank stock returned at its market price insetad of its face value, as had hitherto been the rule. The banks all over the State resisted the change, and the test case yesterday was decided in favor of the banks. A similar case will soon come up in regard to the taxation of railroads. The Controller has raised the returns of the railroads in the State.
