FEATURES OF CITY REAL ESTATE.

The Week Closes With Several Good-Sized Sales in the Fast End.

A MOVEMENT ON DIAMOND STREET

There was no important change in the business situation last week. Improvement was noted in spots, due to better local condisions, but taking the country through trade was quiet, with about the usual volume of transactions. This was almost equal to the heaviest on record. Keeping this important fact in view, there was nothing movement or environment to justify fault-finding. Locally, trade was in good shape, money easy, no calamities, a good stock of confidence, and prospects favorable for an active winter and spring. The country never had more abundant reason to give thanks to the Author of all good. Next
