Another Mystery of Death for the Chicago Folice to Unravel.
CHICAGO, Nov. 22. - [Special.] - The bruised and lifeless body of Carrie Smith, the pretty 19-year-old daughter of a prom-inent citizen of Mt. Mr. DeYoung says it was not made in the nature of a bribe. But the news got out somehow a little later in the evening. As soon as it reached the ears of Governor Lounsbury, Colonel Shepard, Senator Hiscock and other New Yorkers, they lost no time in calling on Mr. Clarkson, to whom they were told the offer had been made. They took that gentleman severely to task. He declined to offer any explanation, and charged them with insulting him.

"I would rather pay the last dollar out of my own pocket to settle the committee's for New York, and that a conservative, or debt than to have the least shadow of surpicion cast upon the integrity of our choice of the convention's location," said Mr. Clarkson, passionately, "and I say now to you that we will not for a moment consider the acceptance of such an offer from any of the cities."

He then showed the New Yorkers the dear.

Watres Will Represent Pennsylvania

Pennsylvania will be represented by Chairman Watres himself, and he arrived this afternoon for that purpose. This explains why he did not reply to telegrams vesterday, though this morning he telegraphed the correspondent of THE DIS-PATCH, in answer to an inquiry, that he would shortly reach the capital and would go into the committee himself. He does this to avoid complications in the election of a successor to Senator Quay on the State Committee.

Lieutenant Governor Watres' own er planation is that he did not desire to call the State Committee together at this time merely for the purpose of electing a member of the National Committee, but, according to Mr. Clarkson's statement, this was not processary.

The truth is, there has been for some tim a very earnest though quiet discussion as to the successor of Senator Quay. Ex-Chairman Andrews, of the State Committee, is anxious to be the man, but there are strenuous objections to him, and no less among the supporters of Senator Quay than else where. It was therefore thought by Mr. Watres' friends that it would be best to act himself for this occasion on the National Committee and leave the election of a member to be settled after further discussion, and not to possibly excite misunderstanding by the designation of a temporary member of the committee.

The West Is Gaining Ground.

As to the general situation this evening no light can be thrown on it except to say that the convention is almost certain to go West. Some very shrewd guessers who are pretty close to Chairman Clarkson predict that finally Chicago will again be selected at the most convenient and best equipped of the Western cities.

It is asserted by those who are accustomed to close calculations in such matters that none of the contesting cities will have more than 12 votes on the first ballot. San Francisco, however, claims, and with good reason, 14; Minnespolis, with less reason, claims 22; Omaha claims 15. These three aggregate 51, which is two more than the whole number of votes. This shows the absurdity of claims.

Pittsburg will have at least two votes on the first ballot, those of Watres, and Mr. Scott, of West Virginia, Many Pennsylvanians waited all evening at the Arlington A JUGGLE FOR JOBS.

MILLS AND CRISP NECK AND NECK FOR THE SPEAKERSHIP. ials of a Deal With Tammany by the

Georgia Man's Friends-Mills' Tariff Views Too Lond for New York-Kerr's Show for the Clerkship.

WASHINGTON, Nov. 22-[Special.]-It is a pretty general impression to-day that the result of the visit of Messrs. Mills and Crisp to New York is favorable to the latter, by a large majority, in his race for the Speakership. At any rate, the Mills men are depressed and the Crisp contingent are correspondingly elated. It is asserted by some that Mills was flatly told that his tariff reform convictions were too radical reformation. The reformers refused to de-fine questions of biblical criticism, or in

low tariff man, as Crisp is said to be at heart, will be more acceptable. On the other hand, the Mills people assert that any apparent advantage gained by Crisp in New York is the result of a deal

with Tammany, which will do Mills more good in the State at large than it will Crisp, and that the deal will in other ways injure Crisp with respectable Democrats all over

Mr. Crisp's friends indignantly deny that

there has been anything like a "deal" in his interest in New York. They say that Tammany, as an organization, is for him; the Tammany Congressmen are for him; but so are most of the Democratic Congressmen from the State outside of New York City, The influence that has brought these men to Crisp is stronger than Tammany. This in-fluence, Crisp's supporters say, is the con-viction that Crisp is the best man for the Speakership. It should not be understood from this that

Mills' supporters are discouraged. They still stick to it that their man will show up at the caucus with enough votes to elect

All the other candidates, McMillin, Springer and Bynum, are still in the race, and there seems no reason to doubt that the two former, at least, will stay to the end. There is not much talk of the min

West Virginia and Ohio Democrats. In New York he has many friends, and he is on all hands admitted to be a first-rate man for the place. The Westminster confession clearly teaches that the church is a great source of divine authority. There is divine au-thority in the church. It is Christ's kingdom. He reigns over it. He in-habits it by His spirit. He makes is institutions efficacions. He grants access to himself through His church. Those who deny the divine authority of the church take away from the Presbyterian Church the only grounds for its existence. Those who deny that there is divine authority in the church, deny the sacraments as divine institutions, rob them of the presence of Christ and the Holy Spirit, and make them of no effect as means of grace. The Holy Scriptures clearly teach the divine authority of the church. nknown persons broke in a window at K. Smit's pawnshop and jewelry store and stole goods valued at nearly \$500. There is no clew to who the robbers are. The theft was first discovered by Officer M. Costello, who was standing at Grant and Liberty streets when he heard the window glass fall on the pavement. Before he could get to the scene the goods were taken and no traces of any person could be found.

Some people standing at the Seventh Avenue Hotel saw two suspicious characters in the neighborhood shortly before the Dr. Briggs read a number of passages from the Bible and said: window breaking was heard. These two persons disappeared suddenly. In addition to the loss of jewelry the pane of glass broken is worth \$200 or \$300. from the Bible and said: The Church is the great fountain of divine authority for a practical reason. The Bible cannot exert its full power on men unless the divine authority in the church sings to the soul with responsive voice.
