# OFF TO WASHINGTON. Pittsburg Sends an Enthusiastic Del-

egation to Make a Plea for the Convention.

NEW YORK THE STRONGEST RIVAL

A Wrangle Expected Over the Western Towns Which May End in a Compromise on This City.

PEIVATE DALZELL CHASING FORAKER. He Claims the Cincinnati Man Is Scheming for the

Vice Presidency.

Pittsburg may be slow in making a start, but she is a good finisher. This used to be the reputation of her baseball club until the star aggregation struck town last spring. The delegation that the city sent to Washington last night to present its claims for the Republican National Convention was large and enthusiastic. The amount of surprising and commendable.

Long before the B. & O. express started for the capital, the members of the committer appointed by Mayor Gourley commenced to gather in the Monongahela House. The lobby was soon filled, and the floors were covered with grips. There were Democrats and Republicans and three Congressmen and two Mayors in the party, making 35 in all. Mayor Gourley headed the delegation. Only four members of the committee failed to go. John H. Ricketson, Senator Nech and B F Jones sent their regrets and explained why they couldn't be with their fellow-citizens. Ex-Sheriff Mc-Candless went in Senator Neeb's place. Chie: Bigelow appeared at the depot about the time the train was starting, and said he had an appointment to visit Chicago to-day with Henry Phipps, Jr., to inspect the conservatories in the Windy City's parks.

Congressman John Dalzell bearded the train a: Braddock, and Colonel Andrew Stewart left for Washington on Saturday State on the national committee for this meeting at least.

Mayor Gourley thought there was plenty of time, and he didn't think that the other cities had gained anything by an early start. He claimed that with New York out of the road Pittsburg stood the best chance to secure the honor. He has great faith in the persuasive eloquence good impression on the committee

Ex-Postmaster Larkin remarked that his politics was against him, but he would do that he could to present the city's elaims. Collector Dravo was among the first to reach the Monongahela House. He said he joined the movement early and he would stay with it to the end. He thinks Pittsburg will be popular with the Southern representatives, and the city will get some votes from that section. As for the hotel accommodations, the city is well supplied, but it lacks some of the doubling up capacity of Chicago.

The B. & O. officials spent Sunda lounging in the lobby of the Monongahela House. President Mayer, in keeping with his position, remained in the background, and put in the greater part of the day in his

room. He is an exceedingly nervous man, and his fussy style is just the opposite of the cool and collected manner of Thomas M. King.

When asked for something new, Mr. King replied that they were making the annual nspection of the road, and the party would go over the Pittsburg and Western and the Valley to-day, reaching Cleveland this evening. He added that a number of improvements were contemplated, but it would be determined finally on this trip what would have to be done to make the main line pass through Pittsburg.
