TROUBLE IS BREWING.

An Official of the Three A's Talks in Very Plain Terms.

There is now little chance of a game be tween the football teams of the Three A's and the East End Gyms this season. It is understood that the former do not intend to play any more this season, and this resolve caused considerable dissatisfaction

that is not done now. Without any reason at all these rulers have declined to allow our seam to meet the East End Gyms, but when we have needed good players they have gone and borrowed them from the Gyms. This is neither right nor fair. "Why, we could have arranged a game with the Gyms instead of bringing the Day-tons here. The Gyms would have cost us nothing, but we had to puy about \$100 for the Paytons. A policy of this kind has used up every dollar in our treasury, and now we haven't a cent. About \$2,000 have disap-parted since the end of last season, and where it has gone I don't know. mine, and something will have to be done shortly." There is apparently considerable truth in the above statement, because the official forferred to is a very reliable gentleman, and one who has done much for amateur sports in this city. But it may not be too have yet for a gaue between the two teams. Both parties need money, and a contest between the teams would cortainly attract an im-mense crowd if the weather was at all favor-tile. The Three A's can certainly get their best team together in time to play a game, and even if they were beaten they would merit public favor more than by ignoring the Gyms altogether. There is nothing to think shame of in defeat, and if seems as if the Three A's were only afraid of being batter. Let the Three A's get their team in mense the Three A's get their team in the and meet the Gyms between now and christmas bay.
