He may say: "The shipwreck of Melita." He may say: "The thot of Ephesus." He may say: "The thot of Ephesus." He may say: "My last walk out on the road to Ostia." But I think he will say: "The day I stood on Mars Hill addressing the indigmant Arcopagites, and looking off upon the tow-ering form of the goddess Minerva, and the majesty of the Parthenon, and all the bril-liant divinities of the Acropols. That ac-count in the Bible was true. My spirit was stirred within me when I saw the city wholly given to idolatry." Noticeable Decrease in the General Pro-duction—A Number of Wells Which Are Drilling Near the Fifth Sand — The Gauges of the Wells and the Runs.
A noticeable feature of the Southwest field Saturday was the marked decrease in the general production. Without a moment's waring it fell from 62,500 barrels to 56,500 barrels, but the stock in the produc-tion went up from about 134,000 to 164,000. Yesterday, however, the produc-tion went up to 60,00° barrels. This was due to the agitation of a number of the old wells. Patterson & Jones drilder their weat to nearly 200 Darrels an hour. The Sam Shurgeon No. 2 of Guffey, Murphy & Gatey also made a big jump under agitation. Patterson & Jones are drilling Nos. 4, 5, 6 and 7 on the Kelso PHILADELPHIA-Flour firmer but quiet.
