

BRAZIL'S NEW RULER.

President Peixoto Now Trying to Form a Sound Government.

THE STATE OF SIEGE IS RAISED.

As in the Downfall of the Late Emperor, Only One Life Was Lost.

SETTLED BY A FEW HARMLESS SHOTS

RIO JANEIRO, Nov. 24.—The revolution in this city by Fonseca's dictatorship was overthrown, was almost as peaceful as that by which Dom Pedro was deposed.

Yesterday morning a strong force made an attack upon the naval arsenal where the arms and ammunition of the Government were stored, and after a half-hearted attempt at defense the garrison gave up.

The news of the uprising had a very disquieting effect and caused the greatest alarm in this city among women and children and those citizens who had not taken arms in support of either party.

The merchants and shopkeepers, fearful that their places would be looted by the insurgents, or by thieves, individuals, who would take advantage of the confusion and excitement to pilage their stock, made haste to close their establishments and securely bolt and bar doors and windows and take such other measures for safety of their property as the occasion warranted.

The members of the Senate which had been organized by President Da Fonseca resigned when the triumph of the revolutionists became an established fact, and the siege which had been proclaimed was at once raised when the insurgents obtained control of the government.

A cable dispatch from London says: An official telegram has been received in this city from the Brazilian Minister of Foreign Affairs, stating that the late Emperor had resigned the dictatorship and that he has been succeeded by Senor Floriano Peixoto, the Vice Chief of the provisional government.

Recent telegrams from the British Minister in Brazil, having been altered in transmission, the British Foreign Office protested against the liberties taken by the Brazilian authorities. This protest had the desired effect, and the British Minister telegraphed to-day that Marshal Da Fonseca's readiness to abdicate was due to the fact that he is in good health.

The Rio Grande Revolt Ended. A dispatch from Buenos Ayres says: The news of the abdication of Fonseca was received in Rio Grande do Sul with general satisfaction, and has put an end to the revolutionary movement in that State.

OFFICIAL NEWS IN WASHINGTON. Minister Mendonca Pleaded, as It Assures a Restoration of Harmony.

WASHINGTON, Nov. 24.—Senor Mendonca, the Brazilian Minister, to-day received a cable dispatch, dated yesterday, from the Brazilian Minister of Foreign Affairs, continuing the press dispatches announcing the resignation of President Fonseca, of Brazil, and the assumption of the office by Vice President Peixoto.

Minister Mendonca has retrofitted because of the opinion that dissatisfaction with the present Fonseca's policy was only local in its character, and was confined to the province of Rio Grande do Sul; but when the peaceful district of Rio Janeiro revolted it showed, he said, that his dissatisfaction was becoming national.

The only course, therefore, left to the President was to resign, and in doing this he acted very patriotically. The Minister received the news with pleasure, and he thinks it means the reconciliation of all the dissatisfied parties and a complete restoration of harmony throughout the country.

A DISTRESSED FAMILY. The Police Discover a Miserable Group and They Are All Arrested.

The case of seven sadly neglected small children was developed at the Seventeenth ward station house last night. Early in the evening it was reported that James McDonough, who, when at home, lives on Pearl street, Bloomfield, had been neglecting his family for over a week; that his children were starving and almost barefooted.

GRAVES TO BE TRIED.

The Alleged Colorado Poisoner Is Denied a Continuance.

THE DECISIONS HEARD IN DISMAY.

A History of the Celebrated Murder Is Briefly Narrated.

FRIENDS PROTEST HIS INNOCENCE

DENVER, Nov. 24.—The District Court was packed to suffocation this morning, when Judge Hise rendered his decision on the motion of Dr. Thacher Graves for a continuance of 90 days in the case wherein he is charged with poisoning Mrs. Josephine Barnaby, of Providence. The court, in rendering his decision, reviewed the motion of the defense in detail, and in conclusion said:

"I must come to the conclusion that, upon the question of fact, the grounds of the motion are not well taken, and the motion must be denied. At those words, Dr. Graves trembled, turned pale and looked appealingly at his attorneys, but, receiving no hope from them, with a sigh of resignation he accepted the unpleasant fact that the trial for his life must go on. His attorney, Judge Furman, immediately took an exception to the decision and the court then announced that the work of selecting a jury would begin to-morrow morning.

The History of the Crime. The crime for which Dr. Graves is on trial took place in the city last April, but the history leading up to it dates back for a number of years. Mrs. Barnaby was the wife of J. H. Barnaby, a wealthy merchant of Providence, who secured a divorce from his wife, leaving her a fortune of \$100,000. Dr. Graves was her intimate friend and financial adviser on a salary of \$3,000 a year.

Mrs. Barnaby was a great traveler and spent a portion of each summer at the residence of Edward Bennett at Blue Mountain. Last spring, while there, she and Dr. Graves had a misunderstanding, and Mrs. Barnaby immediately started West and eventually arrived in this city, where she visited the Worralls.

On April 3, six days before she arrived here, a package came to her address which contained a bottle of liquid, labeled, "Fine whisky for your friend in the woods."

The Women Drink the Poison. On the night of the 13th after a drive she and Mrs. Worrall drank the contents of the bottle and became violently ill. Mrs. Barnaby after suffering terrible agonies died. Mrs. Worrall recovered at the end of a few days.

Physicians declared that the woman suffered from arsenic poisoning, and the detectives were set to work. The Worralls were beneficiaries in Mrs. Barnaby's will to the extent of \$10,000 and Dr. Graves for \$25,000. Suspicion was cast upon the Worralls, but no charge was made against them. The writing upon the package resembled that of Dr. Graves, and he was indicted for murder and released on \$30,000 bonds. Dr. Graves has many friends here who protest his innocence.

A WHOLE SCHOOL POISONED. Teacher and Pupils Sickened From Drinking Water From a Well.

FRANKFORT, Ind., Nov. 24.—Information has been brought to County Superintendent Lydy that one of the public schools in Forest township, in the eastern part of this (Clinton) county, has been closed by the wholesale poisoning of the pupils and also the teacher. The teacher and 15 of his pupils are in a critical condition, while two others are dead. The school is in the country, and a few weeks ago the township trustee caused a well to be driven on the premises from which the school got its supply of water. For the past three weeks the teacher, Joseph Groat, has noticed the attendance going gradually less, all caused by sickness. One week ago he was taken ill and compelled to close the school.

It was found upon investigation that all the pupils who had regularly drank of the water from the well were sick, while a few pupils who lived near the school, and who went home for their meals were not affected. The symptoms developed are similar to those of typhoid fever. Thursday a child named Robert Dillon, then about seven years of age, died. Several other pupils, and several other children of the township, died Friday. On Saturday another of the pupils, a 10-year-old daughter of John Burgett, became suddenly worse and died Sunday. Last evening 15 other pupils and the teacher were decidedly worse, and several more deaths are expected. The doctors say it is a clear case of water poisoning. They say that the water possessed some peculiar chemical property which in connection with the water pipes generated the poison.

A Pittsburg Firm's Large Order. The Totten & Hogg Iron and Steel Foundry Company has received the contract for the principal part of the rolling mill machinery for the new rolling mill of the Aquipita Steel Company, which they are now building at Aliquippa, on the Lake Erie Railroad, a few miles from this city. This is one of the largest orders that has been placed in Pittsburg for rolling mill machinery for some time.

Several other large orders on hand, one of which is a blooming mill table for the Ft. Payne Rolling Mill Company, Ft. Payne, Ala.

Rod and Gun Club Musical. An excellent musical and one that was highly enjoyed by about 200 people, last evening, was that of the Pittsburg Rod and Gun Club. The rooms of the club were beautifully decorated with tropical plants and emblems of the chase. Among those who contributed to the enjoyment of the evening were Misses Blackwell, Richards and Fennis, and Messrs. D. C. Potter, Allen Hagen, Charles K. Smith, L. L. Littell, Deniroth and Urban, and Buscher and Siegritz. The club's choruses were excellent.

The Coal Output Restricted. NEW YORK, Nov. 24.—The representatives of the coal roads met to-day and decided to restrict the production of coal during December to 3,250,000 tons. No formal claim for increased percentage was made by the Reading Company, but it is generally believed that some arrangement has been made by which the Reading will be given an increase of allotment.

Patrol Wagon Inspection. At 9:30 to-morrow morning all the patrol wagons in the city will be ordered to Seventh avenue, where they will be inspected by Chief Brown, Superintendent of Police Weir and the different inspectors. After the inspection the wagons will parade through the principal streets of the city.

No Strike on the Lake Shore. TOLEDO, Nov. 24.—(Special.)—The threatened strike on the Lake Shore was this afternoon averted by the railroad company employing more men, thus shortening the working hours of switchmen and trainmen. The employees still show a determination not to yield to any appearance of oppression.

Carnegie, Phillips & Co.'s Manager Ill. H. W. Borringer, general manager of Carnegie, Phillips & Co.'s interests, is quite ill. His doctors have advised him to leave his business for a while and rest, or his health may fail him entirely. He has been connected with the company for over 25 years.

CAN TAX ELECTRIC STOCKS.

All the Courts Decide Electricity Is Not a Substance or a Manufactured Product.

WAR ON SHOWBILLS.

Some of Sam Jack's Creole Company Posters Suffer in Paterson.

A WOMAN TEARS THEM INTO BITS.

Two Men Fined Heavily for Distributing the Offending Paper.

THE POLICE STAND BY THE CRUSADERS

(SPECIAL TELEGRAM TO THE DISPATCH.) PATERSON, N. J., Nov. 24.—Sam Jack's Creole Burlesque Company, which is playing this week at the People's Theater, is causing scandal by advertising its attractions with large, brilliantly colored posters showing the women of the troupe clad in scanty costumes. The inhabitants of Paterson have always been sensitive on this point. The Evangelical Alliance here, two years ago, had some bill posters fined for a similar offense, and Chief Grant, of the police force, at that time gave orders to his patrolmen to arrest anyone billing the town with pictures which to their mind seemed improper.

November 16 the first bills of the Creole's Company appeared in town. The women residents were scandalized, and complaints were heard on all sides, but it was not until Thursday last that the police took any steps in the matter. A Crusade on Loud Show Bills. Policeman John Taylor was on Main street on that day, when an elderly woman, dressed in black, came up to him, and pointing to the window of an unoccupied store, where hung several of the bills, she exclaimed: "Those disgusting pictures! Tear them down. They are disgraceful."

"You go ahead madam," replied the policeman, "and start the work, and I'll help." The woman did so. With the help of the officer she tore the bills to bits. Taylor then concluded to take an additional step. He arrested Ed. Philon and Abraham Heatly, two bill posters of the theater. They were arraigned yesterday before Recorder Stewart, and each was fined \$25 and costs. Why Joe Ziefle Is Tired. "These people here make me tired," said Joe Ziefle, the business representative of the theater, when he was questioned to-day in regard to the matter. "Anthony Comstock isn't in it with them. I took the bills to Chief Grant, and he said they were O. K., so I ordered the man to put them up. When I heard some kicking I sent men around and they covered the lower limits of the females on the pictures with small date bills, and yet we got into trouble."

Billposter Heatly said: "I've been in this business for 25 years, but this town is getting too moral for me." Chief Grant had told a reporter that Ziefle had brought a lot of posters to him, but not the ones on which the complaint was based. The Chief appeared to be very much outraged at what he called the "dirty, nasty things." "If that Ziefle," he added, significantly, "comes around here again, I'll pitch him out on his nose, and he'll be in the hospital."

The posters that have caused all the trouble have appeared every place where the show was billed this year, including Pittsburg. They caused no unusual comment in that town. A LECTURE ON TREES. An Interesting Discussion About American Fruit Monarchs.

Prof. J. H. Montgomery, Ph. D., of Allegheny College, Meadville, interested a gathering of botanical enthusiasts at the Academy of Science last night. "Some Forest Trees" was his subject, and the most common American trees were discussed; namely, the elm, beech, oak, walnut, chestnut, poplar and tamarack. The lecture was enhanced by stereoscopic views illustrating some remarkable specimens of trees, their growth, grain and minute features not discernible with the naked eye. The tamarack, upon which he dwelt at length, is a tree of much interest and grows in swamp. There are 30 acres of this species near Lineville, Pa., growing in a swamp, the latter, which Prof. Montgomery says, is part of an ancient lake. Some parts of it are impenetrable and for five days he was tramped, with some companions, through it, at the risk of his life.

The learned professor presented the society with some of his collections for which he received a vote of thanks. He has specimens of different woods which are only a four-hundredth of an inch thick. They are beautiful, and the process by which they are made is known only to one man—a New York chemist. MINOR NOTES ABOUT TOWN. Much of the material for the new bridge at Herr's Island is already on the ground.

Mrs. MARGARET PEPPER, who was injured in the West End storm Monday was still in a critical condition. D. C. LABRY, an Allegheny drug clerk, died at his home at Jackson and Arch streets yesterday of heart disease. The Pittsburg, Allegheny and Manchester Traction Company had a great deal of trouble yesterday morning, as the storm the day before caused many of its wires to break.

The Twenty-ninth Protective Association of the Twenty-ninth ward will hold a business meeting at the Bedford schoolhouse next Tuesday. It is probable that a candidate for Council will be nominated at that evening. APPLICATION was made yesterday to Governor Patterson for a charter for the Allegheny County Sanitary and Manufacturing Company. The following gentlemen compose the company: George Trautman, W. A. Hooveler, Joseph A. Brown, James Hempill and Robert Brown. FRANK WAGNER, a carpenter who lives at Locock and Arch streets, Allegheny, fell from a building yesterday afternoon. He was working on the house of James B. Brown, on Rebecca street, near Craig street, and while near the eaves fell. The distance was about 20 feet, and he landed on the roof of the skull. His condition is critical. MEN'S cork sole shoes at \$3 are the best, at Simen's, 78 Ohio street, Allegheny, Pa.
