### To-Dav's Game at the East End Grounds-General Sporting News of Interest.

ISPECIAL TELEGRAM TO THE DISPATCH. NEW YORK, Nov. 25 .- College men have taken this city by storm and to-night the streets were thronged with stalwart youths and men gleefully exhibiting the blue and the erange and black, significant of their adherence either to Vale or Princeton. The weather is very promising and the prospects are that fully 40,000 people will witness the great game between the crack elevens to-morrow on Manhattan field.

Within two weeks a complete transformation has been made in the appearance of the Manhattan field. No one who has been a stranger to that locality for that period of time will fail to be impressed by the remarkable change that has occurred in the condition of things. Where but a short time ago one stand, of a scating capacity estimated at 6,500, was adequate to accommodate an ordinary crowd of spectators to the well-known inclosure, additional structures have been erected capable of accommodating, at a conservative estimate, 35,000 persons.

## Pronounce It a Gem.

Football men who have seen the field pronounce it to be a gem, and as much superior to that upon which the Yale-Harvard match was played last Saturday as one field could possibly be over another. The playing of the Yale team on a whole has demonstrated its superiority over the Princetonians. Its team playing has reached perfection, and the superiority of the three center players is not to be denied. A comparison of individuals who will oppose each other to-mor-row shows a vast advantage in Yale's favor. It may be said that the game which the Harvard put up against the Yaleusians will Harvard put up against the Valeusians will have a tendency to militate against the lat-ter's work to-morrow, but the experts do not agree on this point, and the men them-selves who have been apoken to claim that they have not as yet felt any effects of the hard work they were compelled to undergo. Even among her friends the opinion pre-vails that Princeton is not in a condition this year to come with her rival this year to cope with her rival.

#### Not Very Satisfactory.

The final practice games have been played, and it is an unfortunate fact that they were not productive of as much satisfaction as it was expected they would be. The rough corners have been rounded off and the team is left in a condition which it would be impossible to better. The fault lies in the fact that many of Princeton's old favorite players graduated last year, and their places have been filled by men who are not to be considered in the same class. Princeton men will admit that the team has not been practicing as well as they would have de-sired. The vigor and snap and ability that was so characteristic of teams of former years has been noticeably lacking, and for once the Tigers will go into the struggle with little hope of coming out victorious. Even the assistance of such famous coachers as Moffitt, Harris, Edwards and Poe have

has been strengthened to win and will play in the following order: Goal, Pat Morris-sey; backs, John Kerr, Issae Hall, half backs, James Fleming, I. Burbridge, Charles Parker: forwards, John Goldie, Pat McAllieter Neil Melley Jake Smith. McAllister, Neil Malley, Jake Smith, James Slater, umpire, J. Beardmore; re-serves, J. Powers, A. Powers, T. Madden. The High School Won.

The High School boys have quite a fine football team, and yesterday they scored a creditable victory. They contested against Sophomore team of the Western University and won the game by 16 to 4. McNeil and Dilworth played very well indeed. The game was exceedingly interesting and was witnessed by a good crowd.

#### Lehigh Won.

WILKESBARRE, Nov. 25. - [Special.]-The Lafayette and Lehigh College footbal! teams played an inter-collegiate championship game at West Side Park this aftersup game at West Side Park this after-noon in the presence of 5,000 persons. The game was scientifically played on a rather poor field. Lehigh won by a score of 16 to 2.

Garfield, of Men-tor, O., son of ex-President Garfield, was elected captain for next season. Garfield plays half back. them, and Joe says he can steal about 25 meters easily in any race.

Mn. Wilson, of this city, ex-National League umpire, saw the Princeton team play recently, and says that it is safe to bet that they score to-day and that Yale do not score more than 20 points. WINTER racing still continues to be popu-ar in the East. PEART BELNONT has booked his great mare Magnetism to St. Blaise. GOODALE still heads the list of winning ockeys at Garfield Park.

Johns Horkins UNIVERSITY will be strong-ly represented at the Princeton-Yale foot-ball match to-day. Students intending to go are signing in numbers a paper to that effect and contributing the needful funds. It looks as if there will be more money for horses to run for next year in this country than during any previous year.

BEFORE 1883 Yale won two games to Princeton's three, one heing a draw. In 1883 some radical reforms were made, and since that time Yale won six games to Prince-ton's two, and has scored 75 points to Prince-ton's 20. FRANK B. ### THE ST. LOUIS PLAYERS.

#### Reason Why Some of Vondy's Stars Re fused to Remain With Him,

ST. LOUIS, Nov. 25-[Special.]-Stories in numerable have been told in regard to the cause of Comiskey, O'Neill, Boyle, McCarthy, Fuller and Hoy leaving St. Louis. Hoy's departure was no secret, as it was well known some time ago that he had

ary, and he was not stuck on getting him even then. He was a hard man to coach on

come as man as a normet if upbraided. He was not a disturber, yet he made more or less trouble for the captain of the team. Next the trouble with Stivetts was spoken of. He would not remain in St. Louis, and neither would McCarthy and Boyle. Mc-Carthy wanted \$800 to start in business with in Chicago, and he knew that he could not get any more than \$300 from Chris, so he signed and obtained \$500 from Boston, and when he returned Chris' leg was stretched

for a cold half thousand. O'Neill was out for the long green, and so was Boyle. They have both signed, but they imagine it is fashionable to keep the matter quiet, and it is sealed within their become of the pool. The betting was a trifle in

He took a walk with Chris one been ineffective in bringing the team around into championship form. The practice work has been loose and unsatisfactory. The fact can be explained by the number of new men who are playing in the team.

Gossip on the Wharf.

The lack of team work has been noticeable, particularly of late, and this element, more than any other, will doubtless have a bearing upon the result of the game. Comnared with last year's team the rush line is acknowledged to be somewhat heavier. Many of the positions are filled by men who have been quite ignorant of the game, and it is this lack of experience that will mili-tate against their making such a showing as their adherents could desire. The ten-dency of college boys to be unruly is well known, and while their weakness in this direction can be attributed to a desire to indulge in amusement, care must be taken to prevent their fun-loving tendencies reaching beyond reasonable extremes.

The vastness of the crowd will be such that pickpockets and thieves will be at-forded unlooked-for opportunities for prac-ticing their netarious schemes. To facilitate the safety as well as the comfort of the spectators, the police department will be called upon to exercise unwonted activity. The police arrangements will be under the personal supervision of Inspector Wil-liams.

#### Police Will Take Possession.

He and his men will take possession of the enclosure and surrounding neighborheed about noon, and when the spectators of the game reach the grounds inclosure they need not be suprised if received by 1,000 blue-coated minions of the law.

Inspector Byrnes will give the detective end of the situation his personal attention. For several days past his naiformed force of men have been satching the incoming trains for thieves, pickpockets and crooks of various kinds which such an event as the hig football game would have a tendency to stirnet to the metropolis. Already quite a number of arrests of suspicious characters have been made, and the eyes of the detective fraternity will be upon everybody to-morrow known to have thieving propensities. The greenbacks that have been dised is positively overwhelming.

played is positively overwhemming. The Princeton men are in the majority at the Hoffman House, and there the orange and black is displayed to much advantage The crimson of Harvard predominates at the Imperial and the Plaza, and in all of the uptown hotels bright bits of color hanging from the lapels of natty looking individuals denote the wearers to be representatives from the various institutions of learning all over the country. The betting is still in favor of Yale but Princeton is gaining ground.

#### TO-DAY'S LOCAL GAME.

#### The Media College Eleven Who Will Tackle the E. E. Gyms,

There is considerable interest in the football game which takes place to-day at Liberty Park, East End, between the Media College team, of Philadelphia, and the East End Gyms. The contest will be one of the most important that has taken place here this year, as it will to a great extent give an idea as to how the Gyms rank with acknowledged good teams. The visitors will arrive this morning, and

the game will commence at 2:30 in the afternoon. During the game the returns of the Princeton-Yale game will be bulletined on the grounds. The team of the Gyms have already been announced in this paper, and the Media team will be as follows: Center, Miller: right guard, Newell: left guard, Jushong: right tackle, Stewart: left tackle, took right end, Surmous: left end, Car-penter: quarter back, Brown: right haif back, Hughes; left half back, Jobson; full back, Bell.

make a contract soon for furnishing a few thousand rhododendrons to be planted in both Highland and Schenley Parks. "Rhododendrons," he said, "can be planted in the woods or any other part of the ground, and while making handsome shrub-bery give us the beautiful effect of their bright colors when they are in bloom. I have found also a beautiful species of begonia which I expect to introduce in our parks next season. Formerly the bloom of the begonia was a small, colorless, constipation. Syrup of Figs is the only remedy of its kind ever produced, pleasing to the taste and acceptable to the stomach, prompt in its action and truly beneficial in its effects, prepared only from the most healthy and agreeable substances, its bloom of the begonia was a small, colorless, insignificant flower, but now through the skill of the florist a species has been proto all and have made it the most popular remedy known.

Well and Working Hard. Mr. Fred Heer, 30 Louden street, East End, a stone entter by occupation, had ca-tarrh since childhood, and had been getting worse for the past 15 years. At the time he applied to the Institute for treatment he had been unable to work for some time, and for six weeks he was confined to beed with bronchits and chills and rheumatism. The tough phlegm in his throat was difficult to raise-his throat sore and dry with a raw feeling. He could not swallow without pain. He had ringing sounds in his ears, no appe-tite, coated tongue, dry, feveriah skin, cough, pulse 110 and irregular. He could get no refreshing sleep. He had pains across the small of his back, tornid liver and very sallow complexion. The following is his signed testimonial further describing his case: "Took treatment from different doctors, but found no one who could permanently "I took treatment from different doctors, but found no one who could permanently cure me. I grew worse, and at times was unable to work, and became very weak. My neighbors said that this fall when the leaves go I would die. I took three months' treat-ment from the specialists at 32: Penn ave-nue, and became cured, and instead of dying I feel as well as ever in my life and am working hard every day. I live at 33: Lou-den street, East End, and I shall always recommend these doctors for what they have done for me, for I did not think I could be cured.
