Carnegie Said to Be Negotiating for the O'Hara Glass Plant.

THE WINDOW GLASS MEN TO MEET.

Extra Good Results From the Builders' Ex- taken up. change School.

Local manufacturers are now talking about a reported deal between Carnegie, Phipps & Co. and the United States Glass Company. A DISPATCH reporter was informed by a prominent glass manufacturer that Factory L on the books of the company, formerly O'Hara's establishment, was nbout to pass into the hands of the Carnegies.

This factory is situated on Thirtieth street.

Mr. Wilson moved that the ordinance be

This factory is situated on Thirtieth street. It is a valuable piece of property and would be especially so to the Carnegie interests. It is adjacent to the lower Union mills and extends from Smallman street to the river. The lower Union mills extend from Twentyeighth street to Twenty-ninth, along both sides of the latter thoroughfare. If the glass factory were to be purchased it would open Thirtieth street as an outlet for the great fron firm. There would still lie between their lower Union mills and their upper Union mills the works of Park Brothers.

Factory L is a valuable plant. It is a 20pot establishment. It formerly belonged to O'Hara brothers, but of course it is now the property of the United States Glass Company since the firm joined the great Flint

Captain Anderson, who has charge of the & Co. He said he knew nothing of any proposals that had been made, but said:

This is a valuable site, and no doubt Carnegie would be glad to have it. We would likely sell it to them. No offers, however, of purchase have been made to my knowledge. We have leased to Carnegie, Phipps & Co., considerable land along the river front. They have desired to lease more at If we should ever sell it would be to dispose of the plant outright.'

Captain Anderson refused to say how much would be required to purchase the

At the office of Carnegie, Phipps & Co. no information could be gained of the pur-chase of the glass factory. Chairman W. L. Abbott is sick and was not at the office. The Vice Chairman and Secretary were both out of town and could not be seen.

Other manufacturers, when spoken to, said it was not unlikely the sale would take place. The glass factory, they say, is so situated that sooner or later it will pass into the hands of the Carnegie interests when the latter require more room for their

GAS TOO UNCERTAIN.

Glass Factories Must Go Back to Coal Another Year.

"Natural gas is too uncertain to be used much longer in the mill and glass houses," remarked M. J. Alexander, of the Charleroi still have a good supply for our factory, but I can see it slowly declining. I think it will last another year, and at the end of that time all the plate glass companies will be back to coal. The fields in Indiana are about exhausted also, and the plate glass

cold days the people are almost frozen. Some gas is found in the oil fields, but I believe the great reservoirs in the earth are almost exhausted."

Piling Up Iron in the Valleys.

C. Seymour Dutton, a Youngstown iron agent, was in the city yesterday. "The fornacemen are accumulating some stock in the valleys," he said, "but they all hope that the consumption and prices will increase after the first of the year. The furnaces are in such a condition that they can be closed down at any time without much loss. No body is thinking of stopping, but the valley furnacemen don't have to continue operations to pay their bills. They are in good financial standing, and content to work along on little profit even if the stock must be piled up. At present the furnaces are using up the iron ore on hand. The indications are that the raw material won't be so them pays year. I don't think the precheap next year. I don't think the ore men have had a square deal. The price of pig iron is so low now that I can't see how it could be sold any cheaper."

Good Results From the Bricklayers' School The first class of the bricklayers' school of the Builders' Exchange will begin outside work on January 1. The apprentices will then have been three months under inlay brick almost as well as journeymen so Only a few of them are mentioned below: far as workmanship is concerned, but they cannot lay them quickly owing to their lack

There are now between 30 and 40 applicants for places during the next term. As the present school on Seventh street will only accommodate 12 pupils the Exchange is discussing a plan to build a large school. As soon as the boys have been three months in the school they are employed among the members of the Bricklayers' Associa-

Meeting of Window Glass Manufacturers. Next Tuesday the Window Glass Manufacturers' Association will hold its regular meeting at Columbus, O. The principal business to come before the meeting is the report of the committee which was an nted some time ago to arrange for a close combination among all the factories.

Another Bond Issue Boom.

A paper worded as follows is being circulated among the members of the Builders' "We, after reading the address of the Mayor and Controller, and on 89 Fur-trimmed Jackets, \$5 75. examination into the subject, most heartily recommend the issue of bonds to pay the street indebtedness."

The paper has been at the exchange head quarters only a short time, and as yet has not been signed by many members.

GOURLEY'S NEW ORDINANCE.

It Is After Discussion Referred to a Sub Committee - The West End Railway Granted Some Privileges-Wants the

People Protected, as Well. The Committee on Corporations met yesterday afternoon with Mr. Robertson in the chair. The meeting was a largely attended one, as there was important business to be

The ordinance to protect the efficiency of the different departments of the city government and proscribing the duties of the INDUSTRIAL MATTERS OF INTEREST heads of the departments under the direction of the Mayor was first considered. Mr. Magee raised the point that the ordi-

namee was before the wrong committee and that the Committee on Corporations had nothing to do with the matter.

Mr. Warmcastle stated that he had presented the ordinance at the request of the Mayor. There was no committee that it

referred to a sub-committee of five. Mr. Magee said the matter was one that should be looked square in the face, and it should not be put off until after the elections. The speaker thought the committee that makes up the appropriation ordinance and has the welfare of the city in its hands was the proper committee for the ordinance. The ordinance was finally referred to a sub-committee.

An ordinance granting the Mt Oliver

An ordinance granting the Mt. Oliver Incline Railway Company rights over certain streets was affirmatively returned to Councils. Also, an ordinance granting Armour & Co. the right to lay a switch

track on South Twenty-first street. The ordinance granting the Pittsburg and West End Railway Company right of way over certain streets was next taken up. Mr. Fox moved to amend that right of way on Steuben street, from West Carson street to city line, be stricken out. He claimed Captain Anderson, who has charge of the manufacturing department at Factory L, was spoken to y sterday in regard to the reported negotiations with Carnegie, Phipps left open so that there could be compe-

Prof. S. Andrews, representing the citizens and property owners, wanted Steuben street left out of the ordinance. What the people of the West End wanted was com-petition. The property in the West End has not increased in value in 15 years, and would not increase until they had competi-tion in the way of travel, and by passing the present ordinance the people would be left at the mercy of one company. T. P. Hershberger spoke in the same strain.

A. M. Neeper, Esq., representing the company, said that the company was now taking the first steps toward benefiting that end of town as well as the surrounding townships and boroughs. The road will not pay at first, and as a matter of protection the company should be granted what it

asks for.

Mr. Trusch thought the people should be protected as well as the company.

The question, on Mr. Fox's motion, was The question, on Mr. Fox's motion, was then put, and it was lost by a vote of 10 to 9. These voting aye were as follows: Messrs. Trusch, Fox, McGunnigle, Magee, Wilson, Flinn, Shannon, Pitcairn and Robertson—9. Noes—Messrs. Paul, Doyle, Collins, Warren, Warmcastle, Gillespie. Williams, Ferguson, Elliott and Johnson—10.

The ordinance was then amended that

The ordinance was then amended that there should be 5-cent fares during the day and 10 cents after midnight; also that the line should be paved with rectangular block and that work shall be commenced within remarked M. J. Alexander, of the Charlerol one year and completed within two years. Plate Glass Company, yesterday. "We The ordinance was then affirmatively returned to Councils

A Preventive for Croup

plants there will have to find another fuel. I suppose on an average using coal will increase the cost of making glass from 6 to 8 per cent. Fortunately, the Charleroi and Pittsburg companies are favorbly situated in the center of the coal fields, and the change will not hurt us very much.

"The gas in Murraysville is nearly played out, and Grapeville is at low ebb. I don't believe the Philadelphia Company will have another winter's supply unless some new fields are discovered and developed. We haven't enough gas in Greensburg, and on cold days the people are almost frozen.

A Preventive for Croup.

We want every mother to know that croup can be prevented. True croup never appears without a warning. The first symptom is hoarseness; then the child appears to have taken a cold or a cold may have accompanied the hoarseness from the start. After that a peculiar rough cough is developed, which is followed by the croup. The time to act is when the child first becomes hoarse; a few doses of Chamberlain's Cough Remedy will prevent the attack. Even after a rough cough has appeared the disease may be prevented by using this remedy as directed. It has never been known to fail. known to fail. 50 cent and \$1 bottles for

SEE James H. Aiken & Co.'s novelties in men's fine neckwear, 100 Fifth ave.

Ex-Senator B. K. Bruce, Recorder of Deeds for the District of Columbia, was in Pittaburg yesterday on private business. The Mississippi colored man says he has gotten into trouble so often by expressing his views that he has decided not to talk any more for publication In the next breath he spoke of the wonderful hold that Blaine has on the American people, and then he added that he never saw anything

then he added that he never saw anything like it. He says the President and Blaine understand each other thoroughly, and the most cordial relations exist between them.

"If a Southern man is elected Speaker," he continued, "Mills will be the one. I am afraid the fight between Crisp and the Texan has been carried to such an extent that neither stand much show to win. I understand their forces are commencing to knife each other, and when bitterness enters a contest there is no prospect of a withdrawal in favor of another. Sweet William Springer, of Illinois, has been playing a quiet game, and I thought he would get the prize, but I am told his chances are not considered good now. I don't think Carlisle's letter has helped the Mills cause."

A POEM by Sir Edwin Arnold is a feature of THE DISPATCH to-morrow.

CHEEKS A RAW SORE

Worse Under 3 Doctors-Cured

For one year my little boy was troubled with eczema. After trying three eminent physicians, the disease grew worse; both cheeks became a raw sore. Then spots began to break out on his body; and I am of an opinion that if I had not tried CUTICURA REMEDIES, my boy would to-day have been covered from head to foot with the terrible disease. After using the remedies for two months, he was entirely cured, and is now as fair as any boy. I send you this testimounia, in hope some poor afflicted one may see this cure and obtain CUTICURA REMEDIES at once.

J. WILLARD CASE,

Shelter Island Heights, N. Y.

Skin Disease for Years

I have read a good deal about the CUTICUBA RENEDIES, but I did not take any stock in them until I saw it with my own eyes. My sister had skin disease for a large number of years. It broke out all over her body and face. Doctor did her no good. Tried everything. Used one set of CUTICURAS. It has all disappeared. You can take this for a testimonial. MISS MARY McCARTHY,
74 New York Ave., Ogdensburg, N. Y.

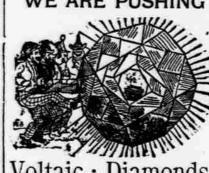

Cuticura Resolvent The new Blood and Skin Purifier and greatest o Humor Remedies, internally (to cleanse the blood of all impurities, and thus remove the cause, and CUTICURA, the great Skin Cure, and CUTICURA SOAP, the exquisite Skin Beautifier, externally to clear the skin and scalp and restore the hair), cure every species of agonizing, itching, burning, scaly, and pimbly diseases of the skin, scalp, and blood. CUTICURA REMEDIES are the greatest Skin Cure, Blood Purifiers, and Humor Remedies of modern times, and daily make more great cures than all other blood and skin remedies combined.

Sold everywhere. Price, Cuticura, 50c.; Soap, 25c.; Resolvent, \$1. Prepared by the Potter Drug and Chemical Corporation, Boston. Send for "How to Cure Skin Diseases," 64 pages, 50 illustrations, and 100 testin

PIMPLES, blackheads, red, rough, chapped, and oily skin cured by CUTICURA SOAP.

The assortment of these garments, as well as Capes and Cape Newmarkets, is unsurpassed, and everybody ean be suited.

RHEUMATISM.

Acute, Sub-Acute and Chronic-Mr. Spencer's Case--The Six-**Dollar Rate Continued for the** Rest of the Year.

Pain may be general or local, in the mus-cles or in the joints. When in the joints there is some swelling, tenderness and stiff-ness; the suffering is increased by motion, due to a deposit, which, if permitted to con-tinue, will produce a stiff and immovable joint. In the more acute state these symp-toms are aggravated, with fever and pers-niration.

joint. In the more acuse state these symptoms are aggravated, with fever and perpitation.

We do not know of a case of acute articular rheumatism we have treated in the past six years which was not arrested in 16 hours. At least, no case should be allowed to run on more than 48 hours because of the incurable heart complications that follow (roughness and insufficiency of the car diac valves), where the acute symptoms are permitted to exist for any considerable length of time. The physician who permits the symptoms of acute articular rheumatism to persist longer than 48 hours, nay, 24 hours, is not a good therapeutist. The sooner the acute symptoms are arrested the sooner the sub-acute symptoms subside and the less liable is the disease to recur. The past few years we have seen many deformed and crippled persons who would to-day have perfect use of their limbs if the necessary precautions had been taken during the first few hours of the disease.

Mr. D. W. Spencer's Case.

Mr. D. W. Spencer's Case.

"I had as severe an attack of sciatio rheumatism as ever anyone had. I was taken down about June land suffered tortures," says Mr. David W. Spencer, of Sunnyside, Westmoreland county, Pa.

"I heard of Dr. Davis and the other physicians in charge of the Electropathic Institute, of 507 Penn avenue, and as soon as I could possibly be moved was taken there for treatment. I was under their treatment but a short time, but I am entirely cured."

Diseases Mistaken for Rheumatism.

Diseases Mistaken for Rheumatism.

Rheumatism is often mistaken for other diseases, especially gout; but gout is periodic, lasts about a week, attacks the skaller ioints and affects the kidneys. Rheumatism attacks the Large joints, begins with exposure, lasts several weeks or months when not medically arrested, affects the heart but not the kidneys. Then there is the rheumatic disease and has to be treated on a different principle. In this there is enlargement of the knuckles, thickening of the skin, especially at the palms of the hands, procuring contraction of the fingers, pain in the heel tendon, burning pains in the soles of the feet and palms of the hands. Then again rheumatism is often mistaken for internal pain-protucing tumors, disease of the bones and membrane that covers them, chronic maiaria, lead poisoning, shingles, neuralgia, spinal disease and disease of the bindder. How many a poor patient has been burned and blistered along the sciatic nerve, had the nerve time and again injected with hypodermics, and the nerve as a last resort stretched, all for "sciatic rheumatism," when the seat of the trouble was at the neck of the bladder and the pain reflected down the thigh by a nerve indirectly connected with this great sciatic nerve. But a physician well up in his diagnosis is not very liable to mistake either of these diseases for rheumatism.

Dr. Davis has returned from a short vaca-

Dr. Davis has returned from a short vacation, and his many triends at the Electropathic Institute will be glad to see him personally in the chair again. He has decided to continue the \$6 rate for treatment and medicine to all persons and for all diseases for the rest of the year.

The lowest charges. The most skillful treatment. The most extensive and thoroughly equipped Electrical Institute in Pittsburg.
