Lorraine has been regarded as an act of weakness, but a continuance of that system as a permanency was impossible. The as-similation of Reichsland with Germany was progressing surely. There was no cause for uneasiness on account of the army, although a certain military pessi-mism had lately become apparent. The world's habit of estimating the worth of an army according to its numbers was wrong. Germany never before possessed so many capable military leaders, and no other nation had such chances for the pext war

Referring to the movement of troops in the Russian and French frontiers, the Chancellor said that Germany, as well as Austria, had in this respect possibly exceeded their duty.

No Real Cause for Alarm.

Too much anxiety had prevailed because Russia had dispatched an army corps to a place as near the German frontier as Coblentz was to the Russian frontier. The newspapers, moreover, ought to be better unloyed than in alarming their readers by ublishing reports calculated to interfere with commerce and damaging the credit of the country. Germany is in a fortunate position in being able to rely upon a fine army. He could not see why this policy cattle disease in New Jersey with a view to enforcing the argument that before the would not be able to protect the interests of Germany in any circumstances.

The Chancellor, in referring to his journey Russia with Emperor William, said he knew that the interview between the two Emperors had given great satisfaction to Russia. Nothing, he said, could shake his convictions that the personal intentions of the Czar were the most pacific in the world. "No existing Government," he added, "has sufficient military preponderance to induce it to provoke war with a light heart. The stronger a Government is the more easily will it avoid a dangerous contretemps. It is a source of satisfaction to know that Russis possesses this strength. France would not have sought the Cronstadt meeting had she doubted that Russia was strong enough to be relied upon.

The debate on the budget began in the Reichstag to-day. The Secretary of the Treasury said that it was expected that there would be a deficit of 8,000,000 marks during the present fiscal year. The yield derived from customs showed the effect of the commercial treaties in restricting ex-ports. The Secretary of the Treasury also said that nothing as yet had been decided regarding a new loan.

of the way would be to hang him, and this was finally decided upon. As the corporal was going his rounds he was seized by the men. He was dragged to a convenient spot. Here a noose was thrown around his neck and willing hands soon had him suspended in the air. He had been hanging only a short time when a sergeant discovered him. The latter immediately cut the rope and notified the surgeon of the regiment, who hurried to the place. The corporal was nearly dead, and it required the most stren-uous efforts on the part of the surgeon, assisted by others, to resuscitate him.
