Reviewing past social events always reminds me of going through a bouquet of faded flowers. All that remains is the sroma of memory and the only beauty that which comes from the recollection of beauty. But if we must, we must. To continue the simile, last week's social duties could have been bunched into a very small boutonniere, and in truth, socially speaking, a very insignificant one at that. The turkey on Thanksgiving was all that saved the polite world from falling into a state of inaneness. And so, thank heaven for the turkey's moral qualities as well as for and nicely hidden behind high plants was its fine white neck and its well-covered Gernert's Orchestra, which rendered good music. Dancing was largely entered into by

drumstick. Beauty Valued According to Length. -Possibly tall girls will be glad to know that florists estimate certain of their flowers by the lengths of their stems. The Ameri-can Beauty rose, for instance, costs a good deal more when its stem is three feet than when it is an inch long, as it sometimes is. It would be very nice for human bodies if their merits could be estimated as easily and still be unfailingly correct. How easy to know that Miss Smith is one inch sweeter, human state of the stem and their stem and the set of the state of the stem and the Messre Wilson, Batchelor and Hal Kel-ter. There would no longer be any work for that fiend who prides himself upon reading human nature, and consequently he would starve to nature, and consequently he would starve to ter Grace May. Music and games were the death; a fate which ought to have overtaken principal features of the evening. In the him long ago.

Several Events to Come.

-The Orinda Cotillion gives its second dance in the Linden Club parlors next Friday evening, December 4. Interesting Debutantes This Season.

-The debutantes of this season are interesting from their number and personality, and probably every one of them will be socially successful, especially as they make a year of plenty after several years of famine. Among the young buds definitely mentioned as coming out, though the dates of their balls have not been set yet, are: Miss Clara Childs, Miss Belle Phillips, Miss Nins King, Miss Alice Willard, Miss Mary Seibeneck, Miss Julia Watson, Miss Lucy Haworth, Miss Nora Oliver, Miss Dora and Miss Emma Price, Miss Amelia Oliver, Miss Susie Dilworth, Miss Myrtie Bakewell, Miss Anna Repinson and Miss Daisy

When "The Senator" was played here last season by Mr. Crane and an excellent company Pittsburgers liked it very much. Now it returns to the Duquesne Theater, and apparently it should command greater attention than it did last year. It is clean, bright and human little comedy, in which a very pleasant type of United States Senator very pleasant type of United States Senator is the central figure. There is a romantic love story woven through the fun and the moral of the play is excellent. William H. Crane as Senator Rivers is delicious-I said so last year and I don't suppose he has altered unless for the better. The company contains most of last year's cast, excepting the winsome little package of originality, Miss Stuart, and one or two others less important. They say that Miss Gladys Wallis, who takes Miss Stuart's place, is very preity and charming, and the papers everywhere have been giv-ing "The Senator" monotonously laudatory notices. It is unquestionably the best fitted of the farce of place in such a weak variety show as "A Jolly Surprise," with the accent off the jolly comedies to have a long life, and, with two such comedians as Evans and Hoey, a merry one. Monday night's performance of "A Parlor Match" will be the 2,174th by Evans and Hoey in this country, a record surely without a parallel in the history of the farce comedy. The truth of the matter is that "A Parlor Match" is not to be classed with the variety shows in disgoise that have tired theatergoers of late; it is very different for instance from "A City Directory," "Hoss and Hoss" or "A Jolly Surprise," and perhaps it would be better to call it a farce, without the word comedy, which seems in this connection to contaminate the laughable play of the older fashion. comedies to have a long life, and, with two that Frank Daniels is as amusing as ever, hough he needs a new play and a stronger ompany, that Charles Gardner is no more orth talking about as an actor than he ever was, criticism upon the chief theatrical features of the week just ended is ex-hausted. A man is pretty sure to be entertained satisfactorily at any theater he may visit in Pittsburg this week. The follow-ing is the story of "The Louisianian": Louis Saint-Armand, "The Louisianian": Louis Saint-Armand, "The Louisianian." is in love with a very sweet girl, Ruth Caulome, but a bold, bad woman in the person of the Constess Marguerite Dellue puts in an appear-ance at an carly stage of the game, and makes things so very lively for Louis Saint-Armand that he leaves his native country to go and fight under the Imperial engles of Napoleon in France. He wins honor and re-nown, but the Countess, whose love he has already spurned, follows him and makes it still more lively for him in France than she did in America. She goes too far, however, and when she finds she has been caught in a trap of her own making, she commits suicide in the apartments of the man she aimed to rufh. All things, however, came out right in the end, and Louis Saint-Armand got back to America just in the nick of time, as Ruth's father, after hearing some very disparaging stories about Louis, and believing them true, determined to break off the relations be-tween his danghter and Soint-Armand. But the clouds of distrust rolled by and the lovers were reunited.

Marie Wainwright, as a beautiful woman and an actress of singular charm, has many dmirers here and she will be seen at the Grand Opera House this week in a worthy revival of "Amy Robsart." This drama is founded upon Sir Walter Scott's "Kenil-worth," and is at least a deeply interesting romance to which the Elizabethian sge in which it is placed lends the brightest color.

Adelaide Neilson was the creator of Amy Robeart, and is is chiefly her version that Robert, and it is chiefly her version that Miss Wainwright hus used. In New York the play had a long and prosperous run at Palmer's Theater, and the scenery and accessories that contributed to the success there will be used, it is promised here. The scenery painted by Richard Marston and J. H. Young is, I have heard on really good authority, as beautiful as any ever set upon the stage. Miss Wainwright's company is undoubtedly a good one, for it contains Henry Miller, who has not been seed in romantic drama before, although in
