#### STARVING IN RUSSIA.

A Polish Merchant Says the Famine Is Growing Worse and a Peasant Revolt Is Feared.

#### HEBREWS NOT BADLY PERSECUTED

An Episcopal Minister Claims Fonseca's Downfall Was the Consequence of Reckless Speculation.

CURES SUGGESTED FOR RHEUMATISM.

ntatives of Phole Sam Inspecting Rank Safe

Charles Starnowski, a Polish merchant, was in the city yesterday on his way to Chicago. He says the famine in Russia is becoming worse every day and the Czar is in mortal fear of a peasant revolt. The people are slowly starving, though the Government and charitable people in Europe and America are doing a great deal

to relieve the suffering. He states that the bad crops are due to lack of cultivation of the lands. The people are naturally sluggish and their property is heavily taxed. The collectors show little mercy and in the case of the poor their horses and agricultural implements are the first taken. This summer a number of the pensant farmers were without plows, and the lands were not planted. In Poland the crops are fair, but nothing unusual. A great many Hebrews are leaving Russia and settling in the Polish province. From what Mr. Starnowski says the Poles don't like it, and they urge the Hebrews to continue to Germany and the United States.

"I haven't much love for the Russians, sald Mr. Starnowski, "but the persecution of the Hebrews is not as bad as reported. The Government compels them to live in 16 provinces near our borders, and they are not allowed to wander over the kingdom. They must close their stores on Sunday, and they don't like this very well. I see the Hebrews claim that they are forced to trade under laws that make it almost impossible for them to sell their wares. This is not true. They have the same business regulations that we have in their territory, but, of course, they are limited to that section. This prevents them from branching out, and the most enterprising soon quit the country. Some of the Hebrews and the starving peasants want to go into Siberia to live, but at this time of the year it is cold and food is scarce. There are fertile spots in the country, and during the summer it is a delightful place to live in."

Dr. M. Shamosky, Counsellor to the Russian Imperial Foreign Office, has been in Mexico this summer. He is now on his way to Washington, and is expected to pass through Pittsburg in a few days. He claims that Kennan's stories about Siberian prisons are the baldest kind of fairy tales. He says the criminals are well treated, and instead of putting them in penitentiaries as is done in America, they are transported into Asia, supplied with tools and land and are compelled to earn their living. The doctor has no fear of a peasant rebellion growing out of the failure of the crops.

#### A VALUABLE BUSINESS

From 300 to 400 Theatrical People Com and Go Here Every Week.

With six regular play houses in town the theatrical business has grown to be very valuable to the railroads. From 300 to 400 people are carried in and out of the city every week. The passenger agents have a busy time wrestling with the managers, and offering inducements to secure the traffic. The Baltimore and Ohio made itself solid with the profession several years ago, and this line retains its prestige. When other roads refused to sell party tickets under the inter-State law, the Baltimore and Ohio ignored the lawyers, and claimed their interpretation of the act was not correct. The Commission afterward sustained the road, and the Baltimore and Ohio has always offered the party rate.

This week the Baltimore and Ohio cap-tured the bulk of the theatrical business coming and going. According to Division Passenger Agent Smith's record his road had Fanny Rice and her company, 21 peo-ple, to Columbus; Williams & Orr's Meteors, 23 in number, to Cincinnati: Charles A. Gardner's company to Akron, and ten specialty people from the World's Museum to Philadelphia. Coming in the Raltimore and Ohio will have Evans & Hoey, 24 people, from Chicago; Robert Mantell, from Wheeling; Marie Wainwright, 26 in number, from Washington, and the Howard Burlesque Company, 30 people, from New York. The Baltimore and Ohio is certainly in it this week.

#### INSPECTED BANK SAFES.

Uncle Sam Sends a Commission to Pittsburg for Information.

Prof. R. H. Thurston, of Cornell College, returned to Ithaca last evening. He is on a Government commission with T. N. Elv. superintendent of the motive power for the Pennsylvania road; and F. H. Pratt, a Hartford business man, to examine safes and vaults for the intended changes in the Treasury Department. The professor said they inspected the vaults in the Fidelity Title and Trust Company's building and in the Farmers' Bank. Both places have the same kind of depositories, made out of chilled steel. Mr. Thurston stated that they were much pleased with what they saw. The chilled steel vault is very strong, deposits and not expensive. They bere as durable and not expensive. They have examined the new globular safe, which is made in Hartford. It will do well enough for country banks, where large safes are not needed, but the arrangement wouldn't work in the Treasury.

The professor added that they had no recommendations at present to make. Secretary Foster expects them to visit the best financial institutions in the country and furnish the Government with the information gathered. As they are all busy men they take a trip when it is possible for

them to get together.

McKinley's Style of Shaking Hands. About the only objection people make to Major McKinley personally is his manner of shaking hands. He learned it in Washington, and the style is considered fashionable, but the people don't like it. The Major holds his hand almost on a level with his shoulder, and turns the palm toward the sky. It is difficult to take hold, and only a gentle grip can be given. The shake lacks the hearty sincerity of the old-fashioned way, and raising the arm makes those who meet him feel rather cheap. Strangers not accustomed to the style grab for the hand about the waist line, and they are surprised when they miss it, and discover the pro-jecting fingers of the Major a few feet above. It is a good habit, however, for a politician to cultivate to save his hand from being crushed. Enthusiastic admirers can't squeeze the life out of it, and this probably

Local Theaters Complimented. John H. Havlin, the Cincinnati theatrical manager, is building a playhouse in the Queen City. He came to Pittsburg yester-

day to look over the local houses for any information he might gain. He was pleased with the Alvin, and pronounced it the finest theater in the country. He said his house would not be on such an elaborate scale, but it would be comfortable and cosy. Mr. Hav-lin thinks Pittsburg is a bustling city, and has enough theater-loving people to support all the theatrical enterprises here.

#### RECKLESS SPECULATION.

This Is What Caused Ex-President Fon seca's Downfall in Brazil. Rev. Lucian Lee Kinsolving, of Porto Alegre, Brazil, registered at the Monongahela House last evening. He was one of two missionaries sent out to establish churches in Brazil for the Episcopal de nomination. He says he was very successful in his work, and this evening he will tell what was accomplished at St. Addrew's

Mr. Kinsolving left Brazil last August, but the recent bloodless revolution did not but the recent bloodless revolution did not surprise him. He pever expected war, as the average Brazilian is too lazy or indif-ferent to fight. The trouble with ex-Presi-dent Fonseca's Government was caused by reckless speculation. His Cabinet engaged in children and foolish projects, in which large sums of money were spent, and they finally wrecked Fonseca. The people got tired of the useless and extravagant expenditure. Mr. Kinsolving thinks his successor, who is a conservative man, will do

It is said that Commodore Cochran insisted on the ancient formula winding up with "God save this honorable court" and Mr. McCall could not get rid of the formula he learned as an auctioneer, "Going, going,

Mr. Soffel refused to talk, but Harry Armstrong insists that Soffel's tribula-tion was greater then than when he at-tempted to reduce Texas steers to subjection on the grasshopper-bitten plains of Kansas. In this connection it might be apropos to state that a movement is on foot to increase the stipend of these ministers of justice. In Philadelphia they get as much as \$1,500 a year, while here they receive but \$900. It is held that the dignity requisite to fill the posts cannot be supported on \$900

Organizing Chrysanthemum Societies. It is said that one of the results of the rage for chrysanthemums along the line of the West Penn Railroad, is that many roung ladies who have hitherto devoted their energies to the cultivation of poultry, especially geese and ducks, have diverted them to the culture of the flower, and the late successful show has furnished an increased impetus. A society for promotion of the culture of afore-mentioned flower has been established with its centers at Harmersville and Ches wick. The business is said to pay largely and is so stimulating that lanes which here tofore were redolent of dog fennel and jim son (Jamestown) weed are now filled with chrysanthemums, and the ladies of that section would put to flight Prof. Guttenberg, of the High School, in their specialty.

John A. Robb's Dramatic Pose.

Only those who have witnessed Attorney John S. Robb, Sr., in moments of supreme and intense effort in the courts can appreciate the painting of his effort in the case of Yee Tang, the Christianized Chinaman, now doing time in the workhouse. Mr. Robb was associated with W. H. McGary in the Robb that it was necessary to throw him-self, and they say Mr. Robb did so. Just in this attitude Mr. Long caught his subject ecution of the case, and McGary told in a rear view, and only, as stated before, those who have seen Mr. Robb when worked up can appreciate the portrait to the full. So great is the hit that the artist can scarce supply the demand for copies. Several have been framed and one will be hung in the Law Library room.

An Old Statute That Will Settle the Fire Bureau Trouble.

MUST DECLARE PEACE OR GET OUT.

FIRE MARSHAL M'FADDEN AS DICTATOR

Another Hunter Resolution Likely to Be Offered in Councils.

"Has the Fire Marshal the power to take charge of a fire department whose operation is clearly shown to be inefficient?" is a question that caused much discussion among Allegheny Councilmen yesterday. The question was raised by a Councilman who said that members of the Board of Uunderwriters had unearthed an old statute which provided that the Fire Marshal, under the

Board of Underwriters, had the authority

to take charge if the authorities were con

sidered unfit for their positions.

The question was raised as a result of the on introduced into Common Couneil Friday night, demanding that Chief Murphy, of the Department of Public Safety, see that harmony shall exist in the Bureau of Fire. The only action that can result in harmony is the removal of Superintendent Jones or Assistant Superintendent Hunter, who are not on good terms. Chief Murphy has the power, under the city charter, to remove either officer. It is claimed by the reformers that Chief Murphy, should it become necessary to make a change, would remove the Superintendent and promote Assistant Superintendent Hunter, who is a brother of ex-President James Hunter,

of Common Council. Can Take Charge of the Department. When some of the members of the Board of Underwriters heard of these prospects it is said they set to work to find a plan to retain Superintendent Jones, in whom they have great confidence as a fireman. The statutes were hastily examined and some of them thought that what was wanted had been found. Councilman Drum, who is one of the oldest insurance men in the city,

one of the oldest insurance men in the city, said yesterday in regard to this search:

"It is a long time since I read the law which applies to the Fire Marshal, but I recollect that he has been given wonderful powers. The statute is very old, and I cannot give you the date of its passage or the details. I know that provision is made for the Board of Underwriters and the Fire Marshal to take action if the city fire department is shown to be inefficient.

Major William G. McCandless, President of the Board of Underwriters, said last of the Board of Underwriters, said last night that no action had been taken by the board as a body. He had not heard of the statute that gave Fire Marshal so much power that he could take charge of the fire

Offered the Wrong Resolution. Had one of the members of Common council been present at the meeting on Friday night the question as to whether or no Superintendent Jones or Assistant Superin tendent Hunter should be removed would not have arisen. Instead of the resolution that was presented, one had been prepared providing for the abolishment of the office of Assistant Fire Chief. It provided that Superintendent Jones be empowered to select his assistants at a fire from among the most efficient men in his department. This resolution may yet be offered as a substitute if the law spoken of by Captain Drum and other members of the Board of Underwriters is not found to cover the case as fully as it not found to cover the case as fully as it

Bethel Home Is Now Deserted. The Bethel Home on Duquesne way is doing very little business just now. They have all secured work during the rise and will now have a short season of prosperity. It is seldom that persons who are truly specimens of the genus tramp make their appearance at the home. #### A RING FOR RHEUMATISM.

Metalic Combination.

A tired drummer leaned against the counter of the Anderson yesterday, and complained that he had the rheumatism. "Why lon't you wear a ring like this," said Chief Clerk Crosby, taking a little rim off his finger that looked like polished steel. "I dont't know what the ring 1s made of," he continued, "but it certainly does the work for me. I am always troubled more or less with rheumatism, but since I have worn the ring I haven't felt a twinge. It got too large for my finger, and I had to send it to New York to have it made smaller. It was gone for a few days, but in that time I felt the rheumatic pains. I have carried a buckeye and small potato in my pockets for years, but they have no poteney."

The drummer decided he would try the ring. As this is bad weather for rheumatism, an old doctor suggests that oil of winter green is a very simple, but sure remedy to relieve the aches. He condemns the practice of wearing slippers during the winter. The cold air in the rooms sinks to the floor, and the feet ought to be well prowith rheumatism, but since I have worn the

More Victims of Hourd, the Fruit Tree Man Turn Up.

L. L. Morris, one of the victims of the fruit tree man who did up McKee's Rocks people, called at THE DISPATCH office yesterday and stated that the case had been understated. Mr. Morris said the name the man gave was William G. Hourd instead of Allison. Mr. Morris said Hourd is supposed to have gone away on a towboat, as he was known to have been making over-tures to mariners. Hourd brought refer-ences from the Pittsburg, Ft. Wayne and Chicago Railway and from the Marine Naional Bank, now supposed to have been

orged. He had also been a conductor on- car No. of the Pittsburg Traction Railway. Mr. Morris, however, says that Hourd had one vice—he smoked—whether tobies or Henry Clays is not stated. He is described as being 5 feet 11 inches high, with black hair and mustache, brunette complexion, sharp nose small eyes and was always well dressed and had the general appearance of a gentluman. Mr. Morris, who was a much greater suf-ferer than at first reported, thinks that Hourd is in Cincinnati

#### AFTER THE CONTRACTORS.

Allegheny's Ordinance Officer Brings Suit Against Three Firms.

Ordinance Officer Barkley, of Allegheny, yesterday made an information before Mayor Wyman, charging three Allegheny contracting firms with a violation of a city ordinance. The firms are Hasting Bros., Dougherty Bros. and Eynon & Little, and their alleged offense has been a neglect to place danger lights in front of material on the streets used in construction of some of their work. It is said that they were frequently notified, but, paying no attention to the order, prosecution was begun. A hearing will be held to-morrow.

Officer Barkley stated yesterday that he will probably enter a great many similar

It is rumored that an additional reason for the interest shown in Eilwood lies in the fact that the Pittsburg and Western Railroad shops will in the near future be removed to that place, but as to this the officials of the Pittsburg Company—owners of the Ellwood properties—and the officers of the two railroads, now united, were equally reticent.

### KENSINGTON

People are flocking into the new city in such large numbers that the 300 houses already built are not sufficient to accommodate the steady increase in population. Every house erected is occupied by its owner and it is almost impossible to provide for new comers. In the spring a large number of the manufactories located will be in operation, which will run the population into the thousands.

There is a grand chance for making money in the building of dwellings or business houses at

## KENSINGTON

This is a matter worthy of consideration by builders or those who have money and want it well invested.

The class of tenants will be skilled workmen and command large salaries.

Houses can be sold or rented as fast as built, and the best prices can be obtained. To the parties who go into the building of houses at KENSINGTON in the right way, a large and lucrative business can be made and the money invested will be turned quickly and profitably. We would like to meet responsible builders with a view of erecting houses at KENSINGTON, and will give special inducements to those who start building at once. It is necessary that 300 more houses should be ready before the coming spring for the workmen who must live at

# KENSINGTON

Some of the choicest lots for business and homes are still for sale.

The most beautiful part of Kensington, lying above the railroad, has just been graded. It is naturally adapted for residences, having a slight elevation, giving a delightful view of the new city and surroundings. It was specially reserved and made ready for the better class of houses. Many inquiries were made by home seekers for lots in this section before it was graded and streets opened up, and we wish to acquaint such that purchases can be made now.

A visit to Kensington can be made profitable.
