PICKLED CONDIMENTS.

This City Now a Leading Source of Supply, East and West, in

THE PICKLE AND PRESERVE LINES.

Prices Lower Than last Year, and the Demand Very Active.

THE COFFEE SITUATION AND OUTLOOK

OFFICE OF PITTSHURG DISPATCH, P TUESDAY, December 1. There are five firms in this city, or rather Allegheny, engaged in the manufacture of pickles, catsup, preserves, fruit butters, etc. Trade in these lines has been unusually active this fall, and prices are lower than they have been for a season or two past. Last season the cost of materials was high throughout this section. This season there were abundant fruit and garden crops, and opportunities for laying in supplies at low prices were never better. With reduced prices comes larger demand for goods. The trade in this line is now approaching its best time of the year, as the season for domestic fruits and garden stuff is practical-

So long as stuff could be gathered from garden and orchard, which was the situation up till within a few weeks past, demand for pickles and preserves was slow. Now, that winter is here demand has very much increased. Pittsburg has of late years become a center for this class of goods as well as for heavy weight products. A Large Quantity Exported.

The amount going out from this city to the different parts of the country is simply immense. A representative of one of our principal firms, had this to say: "Our shipments of pickles, preserves and mineemeat the past week or two are equal to five or six carloads daily. Our goods go princi-pally to the far West, as far as to the Papally to the far West, as far as to the Pa-cific coast. But the Eastern markets are also extensively supplied from this source. Within the past week we have shipped a half dozen cardoads to the Eastern cities and a number of ears to the far South. and a number of ears to the far South. There have recently come to us as a result of displays at Atlanta and Augusta fairs four gold medals. Chicago is the leading competitor in our line of goods, and, that we are making inroads on Chicago's territory is proved by the fact that from that source heavy complaints have come of late against the railroads of the country on account of the low freight rates granted to our and other Eastern firms." It is well known that in such heavy weight goods as iron, steel, coal and coke Pittsburg leads all American cities in volume of trade, but the fact that over 40 car loads of pickles, preserves, mincement, etc., are going out from our city weekly to the world's markets is not so well known. Pittsburg is proverbially modest in assert-ing its claims as a center for the manufacture of light-weight goods. The Coffee Situation.

The following is the latest report of the outlook, from the Boston Herald, which is authority on this question:

authority on this question:

There has been a good movement in coffee in New York of late, and that market is telegraphed as firm. Trade here has also been good, the principal roasters and grinders working to their full capacity. At present the market is firm, but as to the future of the market there is a wide diversity of oninion. One prominent coffee merchant in New York advises his correspondents here in the strongest terms as to the extremely firm outlook of the market, from the fact of the exceedingly small crop and supply of mild coffees. He claims that the idea of Santos taking the place of these mild coffees is simply absurd, and that there must be a great shortage of mild goods. He goes further, and claims that the outlook for even Rio coffees is very firm, and that immediately on any improvement in business prices are bound to advance.

But in the same mail as the above advices, a leading coffee house here gets a letter from one of the most carreful houses in New York, and a house noted for its conservatism; the letter advising caution, and claiming that as soon as the great crop of Rio and Santos coffees begins to again move freely there cannot otherwise than be a decline in prices. It even goes on to show that prospects for the next crop of both Rio and

prices. It even goes on to show that prospects for the next crop of both Rio and Santos coffees are most brilliant, and that easier prices are bound to result, as soon as the untrammeled movement of coffees from the war-clouded South American States

Saturday's New York market was reported sturday's New York market was reported strong, with 10 to 15 paints advance. The daily Rio cable gave that market strong, with receipts of 14,000 bags in Rio and of 24,000 bags in Santos. The total Elo stock is cabled at 225,000 bags; same time a year ago, 350,000 largs.

cabled at 228,000 bags; same time a year ago, 220,000 bags.

The further statistical features are shown in the weekly Rio cable to be a steady market, with exchange up to 123,4. The daily average of receipts for the week was 10,009 bags; shipments to Lurope, 24,000 bags; to the United States, 66,000 bags. The total visible supply is now 164,800 bags; same time last year, 225,123 bags; same time in 1889, 416, 247 bags. The total receipts at Rio on the crop, up to November 27, had been 1,849,000 bags; same time last year, 177,000 bags; same time in 1889, 861,000 bags.

WHEAT CLOSES WITH A DROP.

It Is Strong and Advancing Until Lat Unfavorable Cable News Strikes It-Disappointed Corn Operators Close Out Their Deals-Provisions Easy and Declining.

CHICAGO-Wheat was strong and advance ing during the forenoon, but later it grew weak and made a decided slump, closing materially lower. The influences which governed its movements were chiefly local The early news was chiefly of a bearish character. Then, too, the fear of December liquidation, which has been a depressing factor for some time, lost its influence after the deliveries to-day, and this, with the steady decline which has been going on for some time, led to some buying by the friends of wheat, while the selling furore was somewhat checked.

The result of it all was a steady advance. December opened 1/4 cent lower at 911/4 cents, and steadily advanced to 92 cents. Then the lower closing cables, together with in-creased stocks at Liverpool, created weak-ness. A dispatch was also received claimness. A dispatch was also received claiming that Beerbohm made the world's wheat supply 50,000,000 busheis larger than 1839, but why this comparison should have affected the market it is difficult to say. There was, no doubt, a good deal of wheat thrown upon the market, some on long account bought early, and some short wheat. Prices tumbled shortly before the close. December dropped in the last hour to 205,c, and closed at 205,c. Corn was strong early on covering by shorts who had miscalculated the effect of the November deal. They had sold short on the theory there would be a reaction after the deal was closed out. Finding that they were mistaken this morning, they began to buy in their shorts. December, which opened at 405,c, was bid up to 473,c, but broke with wheat at 485,c, at which it closed. Outs followed corn and were without independent feature.

Oats followed corn and were without independent feature.

Hog products opened easier, owing to the free deliveries and the continued enormous receipts and lower prices for hogs. There was rather free covering by shorts, however, and prices railied some after a time. Then there was another recession and the close was at or near the bottom, and at moderate declines from yesterday's close.

The leading futures ranged as follows, as corrected by John M. Oakley & Co., 48 Sixth street, members of the Chicago Board of Trade:

parts of the city and the entire East Liber valley is comparatively new, it has not be overlooked in the rush of improvemen Many fine homes have been erected and a number of others are in course of construction. That it is attracting the attention of home seekers is shown by a good inquiry for building sites. Peter Shields has disposed of \$20,000 worth of lots within the last few weeks. Sales amounting to as much or more have been made by other agents. The introduction of rapid transit will, it is safe to say, give it a fresh impetus.
In connection with the above, it may be noted as a matter of public interest that the bridge from Greenfield avenue to Schenley Park has been completed and opened to the public. It terminates at the menagerie building and other points of interest, and will save visitors both time and money.

Too Much of a Bulge, Sometimes owners of real estate "kill the goose that lays the golden eggs." Thinking they can get their own prices they put them so high as to discourage buyers Here is a case in point: An agent sold a piece of property on Fifth avenue about a year ago for \$19,000, but for some reason the deal fell through. Negotiations were resumed a few days ago, and the price put on it was \$27,000. This figure was considered exorbitant, and the deal stopped

Fifth avenue, Tenth ward, to cost \$5,000. Two others were taken out aggregating \$3,100. The following persons were yesterday chosen directors of the Monongahela Insurance Company: William A. AFTERNOON RAIDS RELIEVE THE MONOTONY IN STOCKS.

Richmond and West Point the Lowest in Its History-Missouri Pacific and the Coal Stocks Also Depressed-Good Morning

New York, Dec. 1.—The stock market to-day was still very dull, but there was a little life given to it in the afternoon by a renewal of the bear raids, with the effect of de-pressing a few stocks materially and the

by the report of the death of Cyrus w.

sidered exorbitant, and the deal stopped there and then.

There is no doubt that property values are enhancing in that ineighborhood, but a jump of nearly 100 per cent in a year without any special reason is entirely too much of a good thing and defeats its own object. This is not the way to encourage business.

Business at Denver.

The condition of the real estate market at Denver, where there are many Pittsburgers, is thus described by a broker who was there recently on business: "From such observation as I was able to make the market seemed to possess considerable strength. I was informed that there was a good investment demand, particularly for business properties. Dwellings were in active demand and rents were stiff. During the week that I was there 27 building permits were taken out, aggregating \$71,000."

Business News and Gossip.

A good sale in the Seventh ward is hung up on a difference of less than \$1,000.

Many think the improvement in local stocks has come to stay. Had it been deferred until after the helidays it would have been better.

Henry Witz has sold to John Reichle a residence property in the Twenty-ninth ward for \$5,300.

A gents think there will be no material advance in rents next spring, except perhaps for business stands on secount of their searcity.

The only important building permit issued yesterday was to C. G. Hussey for a brick addition fifth story business house on Fifth avenue, Tenth ward, to cost \$5,000.

Two others were taken out aggregating \$2.

The other and then.

The pressure on the market, with an in a year withen any include the afterneous trading, was also helped by the circulation of the afterneous trading, was also helped by the circulation of the afterneous of one house strength under the purchases of one house sufficient, as tong as prices were allowed to the market slower permits were taken out, aggre

MONETARY TENDENCIES. A Good Commercial Demand, With Some

Improvement in Collections. There was a rather better mercantile de mand for money yesterday than usual of late, but the market was easy at the regular 6 per cent. rate for nearly all loans. Depositng was good, showing healthy influences in regular trade lines. Reports from the West noted improvement in collections. The big crops are beginning to react on the market Prosperous farmers make prosperous trad-ers. Bank clearings aggregated \$2,114,634 90 and balances \$355,262 82. Business was well

and balances \$355,262.82. Business was well distributed.

In regard to silver, a New York authority says: "While fluctuations in the price of bar silver are of a fractional character, the market appears to have gained in steadiness of late. Prices, in fact, are governed entirely by commercial considerations, the most encouraging feature of the situation being the appearance of a fairly large demand for shipment to the East, although the London market is kept well supplied by shipments from this country and Mexico, the exports from the latter quarter, both of bars and dollars, being remarkably large."

At New York vesterday money on call was easy, ranging from 3 to 4 per cent; last loan, 3: closed offered at 2 per cent. Prime mercantile paper, 5@5½ per cent. Sterring exchange quiet and firm at \$4.81 for 60-day bills and \$4.84 demand. change quiet and firm bills and \$4 84 demand.

OFFICE OF PITTSBURG DISPATCH, TUESDAY, Dec. 1.

COUNTRY PRODUCE (Jobbing Prices)-At the Monday sales of creamery butter at Elgin an advance of 1c per pound was maintained. The rise will be due here on Friday. So far markets here are quiet, both for creamery and country butter. All along country produce lines markets are slow since Thanksgiving. Poultry is particularly slow. Receipts of Florida oranges are very heavy of late and prices have found a still lower level, as our quotations will disclose. Fancy lemons and choice bananas are very firm at prices quoted. Vegetables are weak and slow. Potatoes, cabbage and turnips are in bounti-Potatoes, cabbage and turnips are in bounti-ful supply and markets are in favor of the buyer. Strictly fresh eggs are in very scant supply and the few offered are promptly taken at outside quotations. Cold storage stock is in fair demand at our quotations. Cheese continues firm at quotations.

HYGIENIC SUGGESTIONS. (Family Doctor.) Take an hour of exercise to every pound of food.

We are not nourished by what we eat, but by what we digest.

Dyspepsia is a poor pedestrian. Walk at the rate of four miles an hour and you will soon leave it behind. soon leave it behind.

If your stomach is out of order, your digestion weak, or you fuel chilly at any time, bear in mind that you need a stimulant.

Do not be deceived in regard to stimulants; there are many, but there is only one known to the world to-day, which combines pure medicinal qualities, with the best efficiency. That is Duffy's Pure Malt Whiskey.

You can well afford to remember this carefully and act upon it constantly, as it may mean to you, as it has meant to so many others, health, happiness, strength and a long lease of life.
