SOME GENERAL INDUSTRIAL NOTES

Yesterday the injunction case of Mur-

dock, Kerr & Co. versus the leaders in the

strike of the printers and pressmen was de-

cided in favor of the plaintiffs, but the de-

fendants will carry it on to the highest

tribunal in the land. The opinion handed

down by Judge Porter was, in short, as

"Workingmen have a right to organize

into associations, and the members, either

as individuals or as an organization have a

a right to stop working for an employer.

They also have the permission to use all

lawful means to induce others to refuse to

work for such employers. It is not lawful

for them to use threats or menaces

positions. When a man or any number of

men so conduct themselves as to commit a

trespass or become a nuisance they may be

enjoined. The affidavits show the defend-

ants have been in the habit of purposely

interfering with the workmen, and in some

instances using force to drive them away

from their work. On a whole the action of

the defendants were a menace to the work-

men of the plaintiffs as well as to the public

This fairly expresses the scenes and sights attending our great special one week's 'Overcoat Sale. Never before did the gentlemen of Pittsburg and Allegheny so liberally respond to an advertisement. When on Monday morning we announced our intention of selling during this one week for \$60,000 an entire manufacturer's stock of \$90,000 worth of Overcoats bought by us on Monday, November 23, for \$57,000, there were many doubting Thomases among our readers. Many, just to see how the big undertaking would start off, came in and on beholding the fine garments and unparalleled low prices, became purchasers. When the doors closed in the evening and 873 overcoats had been transferred from our counters to the frames of as many gentlemen, doubt gave way to hope, and, when yesterday showed up with even increased sales, hope to certainty. Today, we are confident, will break the records of Monday and Tuesday, for every man who has bought an overcoat since the opening of this sale, is to-day our willing advertiser.

Those which attracted more admirers and purchasers than all others are the \$8, \$10, \$12 and \$15 lines described below. Desptte the onslaught made on them, however, they are still unbroken and afford a wide

Printers Will Go to the Supreme Court. "We will take the case to the higher cours," said one of the printer officials. "When our attorneys took the case it was with the understanding that if it was lost in the lower courts it would be taken higher. against such a ruling.
"If we are guilty the employers are just as much in the wrong. We can prove that they have molested our men, and even driven them from the city. Not only have they done this, but they have sent word to all cities and towns where the Typothete has an organization, requesting that union printers of Pittshurg be not employed. If that is not a systematic attempt to molest the men, by starving them, I do not know what is. As to whether there will be other committees appointed to take the place of the gentlemen named, I cannot say."

A NEW SALESMEN'S ASSOCIATION. It Tries to Get the Trade of the Regular

Regular Traveling Men. A circular letter is being sent out of

Pittsburg to the leading tobacco manufacturers of the country from the Salesmen's Industrial Association. It asks for the agency of different brands of tobaccos, claiming to be commercial travelers, representing the different wholesale houses in Pittsburg. It says the association is in a position to place goods on the market that the jobbers do not care to handle, also doing away with the special men employed

W. H. Reed, Secretary of the Pittsburg Commercial Travelers Protective Associa Commercial Travelers Protective Associa-tion, was asked about the circular, and said: "I am a charter member of the asso-ciation and am thoroughly posted in its actions and workings. I can furnish proof that the Salesmen's Industrial Association is in no way connected with the Pittsburg Commercial Protective Association, which is an insurance and accident organization. The names appearing on the circular of the Salesmen's Industrial Association are not members of the Pittsburg Commercial Protective Association."

Cast Iron Pipe Men to Organize. The Eastern cast iron pipe manufacturers

intend to form an association. A meeting for the purpose has been called to be held in Philadelphia to-day. A. C. Overholt, president of the Scottdale pipe foundry, and George Miles went to the Quaker City last evening. The wrought iron peo-ple have been organized for several years, but the cast iron makers never got together. A number of mills are located in the Lebigh Valley and around Philadelphia. The bulk of the cast iron foundries are in the South, and the Northern manufacturers find it tough sledding to compete with them, owing to the low price of their pig iron. A Louisville firm got the last contract to supply Pittsburg with water pipe, and the local companies who put in a bid admitted that they couldn't produce the pipe at Southern rates. The object is not to form a trust, for there are too many plants in the country and they couldn't be controlled. Mr. Overholt said the covanigation will help his business. f the organization will help his business he will join it.
