

**CHILE'S BAD GRUDGE.**

It is Said to Have Taken a Fresh Start Against the Americans.

**ANIMUS OF THE REFUGEE DISPUTE.**

The Junta's Sole Purpose Seems to Be to Annoy Minister Egan.

**A BALMAEDA MINISTER MURDERED.**

SPECIAL CORRESPONDENCE OF THE ASSOCIATED PRESS.

SANTIAGO, Oct. 28.—There was some indication two weeks ago that the strong feeling which was manifested against Americans just after the close of the recent war was commencing to subside; but the feeling has been revived within the past week, and the press and the Chilean public generally have renewed the agitation against America, and especially against the official representatives of America in Chile.

Ever since the arrival of the last New York mail, which brought advices to September 20, the newspapers of Santiago and Valparaiso have been publishing American press comments in regard to Chilean affairs, and particularly articles relating to Minister Egan. A majority of the papers here continue to criticize the American officials.

Among other things they have revived the charges against Admiral Brown in connection with the visit of the fleet ship San Francisco to Quintero at the time of the landing of the Congressional troops there.

**BURNED AT THE DOCK.**

Two Men Lose Their Lives in the Fire, and a Woman Narrowly Escapes.

CLEVELAND, Dec. 2.—The steam barge Edward S. Pease, which came into port from Lake Superior Tuesday, caught fire about noon and was nearly destroyed. There were two men and the cook in the after cabin, which was burning, and only one of the three, the cook, Anna L. Bannan, escaped. She makes her home in this city during the winter. She was in the kitchen when the fire was discovered, and endeavored to rescue her personal belongings but was unsuccessful. She was compelled to drop everything except the captain's overcoat and work in her own way through the smoke and flame she managed to reach the side of the boat and jump to the dock.

**ALLEGED EVIDENCE AGAINST BROWN.**

They published a dispatch from Admiral Vial, the former Intendente of Valparaiso, to Balmaceda, which has just been discovered. The dispatch was sent to Balmaceda on Santiago on the day after the landing of the troops at Quintero, and in it Admiral Vial informed Balmaceda that Admiral Brown had expressed the belief that the Congressional troops would not re-embark. At that time the Government forces were inclined to believe that the landing of the troops at Quintero was merely a feint and that they intended to re-embark and effect another landing south of Valparaiso.

**THE BALTIMORE AND LEGATION INCIDENTS.**

The most striking illustration of the present feeling in Chile toward Americans was afforded in the recent attack upon sailors of the Baltimore. Minister Egan has expressed the great indignation of the United States State Department and demanded an immediate explanation. This civility has had the effect of adding further complications to the already unpleasant situation of affairs in Chile.

**POLITICAL ENEMIES OR CRIMINALS.**

The authorities of the Junta Government declined to discuss the matter, but the most general opinion advanced by those who support the Government is that the men in the legation have been guilty of criminal acts, and that they should be surrendered to the courts for trial. If this is the view taken by the Junta it has never advanced such a claim in any communication to Minister Egan. The question has been raised at all times on the assumption that the men are political refugees, and that it has been merely for political reasons that the Junta Government desired to obtain possession of them.

**GOVERNOR CAMPBELL LIL.**

He is Confined to His Home by a Severe Attack of the Grip.

COLUMBUS, Dec. 2.—Governor Campbell returned this morning from Chicago, where he went to deliver the annual address before the Ohio Society in that city.

**THE GOVERNOR RETURNED TO THE CITY SUFFERING FROM A SEVERE ATTACK OF THE GRIP, AND WAS TO-DAY CONFINED TO HIS HOME AND UNDER THE CARE OF HIS PHYSICIAN. HE WAS ILL DURING ALL OF LAST NIGHT ON THE TRAIN.**

**SAN DIEGO'S SUSPENDED BANK.**

SAN DIEGO, CAL., Dec. 2.—Bank Examiner Chamberlain finished a compilation of his report of the condition of the recently suspended California National Bank, and sent the report to the Comptroller of the Currency at Washington yesterday. He says he is not permitted to make public the substance of the report. Any information must come from the Comptroller. He will leave to-day to inspect other banks in his district.

**INDIANA MINERS WIN THEIR STRIKE.**

WASHINGTON, IND., Dec. 2.—The strike isended here at last. At a meeting to-day of Cabel & Co. and the representatives of their men an agreement was reached on the basis of prices—25 cents a ton for screened coal, and other coal accordingly and laborers proportionately advanced. This is a virtual concession of the miners' demands. There will be an advance of coal to compensate the mining operators for increased wages.

**STATE BUILDINGS WILL BE INSURED.**

HARRISBURG, Dec. 2.—[Special.]—The State buildings in Harrisburg, including the Executive Mansion and the Arsenal, are to be insured. Until the present there has been no insurance upon any of these buildings, which includes the State Library with over \$300,000 worth of rare books. The total insurance will be about \$1,500,000.

**JEALOUSY CAUSES A MURDER.**

A Woman Shoots Her Husband Three Times While He Back Is Turned.

BUFFALO, Dec. 2.—[Special.]—John R. Hyer, a prominent German and large dealer in small plants and cut flowers, was shot by his wife on the street here this afternoon. Mr. Hyer was driving when he met his wife, with whom he has not lived for over a year. Hyer did not notice her and passed on. As soon as his back was turned, his wife pulled a revolver from the folds of her dress and crept stealthily up behind him and fired three shots into his back. He fell from the seat, and some police officers who had been attracted by the shooting appeared on the scene and arrested the woman.

**SELECTING POLLING APPLIANCES.**

The Ballot-Box Will Probably be One of Pittsburgh Invention.

HARRISBURG, Dec. 2.—[Special.]—The Commission, consisting of the Secretary of State, Secretary of Internal Affairs, and the Auditor-General, whose duty it is to select a style of polling booth and ballot box for use in this State, has not yet arrived at a conclusion, and will hardly do so before next week. Auditor General McCann said to-day that the first cost of the polling booths which will be borne by the State, may reach \$200,000, if a style is chosen in which iron and steel enter largely into its construction. There are others, however, built of wood and canvas, which would cost less. Another large item of expense under the new law will be the polling places. These must be 50 by 35 feet, and the interior arrangements must be in accordance with certain specifications. This will, in many instances, perhaps in nearly every case, necessitate the renting by the year of suitable rooms or the purchase of movable polling places that may be taken to pieces and stored away between elections. This means a large expense to the County Commissioners.

The commission will suggest a style of ballot box to be adopted, but the expense, which may reach another \$200,000 or more, will fall directly upon the counties. The next meeting will be held in this city on "Safety," the invention of a Pittsburgh man. It is of glass and registers each vote. It is claimed for it that it is impossible to tamper with the votes, except by the convenience of the entire Election Board, each member having the key to a separate lock; and, furthermore, that it does not wear out.

**EXPORTS HAVE GREATLY INCREASED.**

Canada sent nearly ten times as many horses to England this year as last year. Canadians have lost considerable sums by the increased duty on barley. The result is shown that the growth of the two-rowed barley, encouraged by the Government, is going to enable Canada to compete with California and Russia in the British market. Poultry is going to Great Britain in hundreds of tons, in greater quantities than were anticipated. Chickens are still increasing in the volume of its provision for British needs. In pork products, owing to the protection which precludes the American hog from driving out the Canadian breed is animal, our export has been greatly stimulated; and 400,000 more swine are to be found in Ontario alone than was to be met with in 1889.

**OFFICERS OF THE BOARD OF CHARITIES.**

HARRISBURG, Dec. 2.—[Special.]—The regular monthly meeting of the Board of Charities was held to-day. President Mahlon Dickinson was re-elected. George W. Ryan, of Shamokin, was appointed a member of the Western Executive Committee.

**BANKING SUPERINTENDENT FILES HIS BOND.**

HARRISBURG, Dec. 2.—[Special.]—E. C. Sherif C. H. Krumbhaar, of Philadelphia, the newly appointed State Superintendent of Banking, filed his bond to-day, and will organize his department at once.

**LAND BILL ALLEN'S FUNERAL.**

Though He Died in the Poor House He Was Buried in State.

COLUMBUS, Dec. 2.—[Special.]—An unusual scene was presented to-day in the funeral of "Land Bill" Allen, who died in the poor house. The body lay in the rotunda of the State House from 10 to 1 o'clock and thousands passed by to review the remains. The flag was at half mast on the Capitol. A contribution box asking for money for the Allen fund set near the casket, and a large sum was realized. There was some indignation that a man should be permitted to die in the poor house and then be given such an expensive funeral.

**ROYAL BAKING POWDER CO.**

106 Wall St., New-York.

**HOUSEKEEPERS ARE WARNED** against the impositions of a company of females, who, under the lead of a male agent, are now infesting the kitchens of this city, performing a trick which they pretend is a test of baking powders.

It having been intimated that these persons are the paid agents of the Royal Baking Powder Company, this is to advise all concerned that this Company has no relation whatever to them, that their so-called test is a sham, and that the females are instructed and employed to perform these tricks and make false statements in all kitchens to which they can gain access, by concerns who are trying to palm off upon housekeepers an inferior brand of baking powder through the operation of fallacious and deceptive methods.

The Royal Baking Powder Company in no case employs such agents, and whenever the name of this Company is used to gain entrance to houses, the applicant, no matter how respectable in appearance, should be regarded and treated as an imposter.

Tenders are Being Issued for the New Atlantic Mail Service.

**HOW THE M'KINLEY BILL ACTS.**

Products Diverted From America Into British Channels.

**AN INCREASE IN THE EXPORTATIONS.**

SPECIAL TELEGRAM TO THE DISPATCH.

OTTAWA, Dec. 2.—A cable from London says that tenders for the new Atlantic mail service were being issued yesterday from the office of the High Commissioner for Canada. Sir Charles Tupper, on being interviewed on the subject, said that the new service is considered necessary in order to fulfill the pledges made to the Imperial Government by the Government of the Dominion when the subsidy was given to the China and Japan service. The use of the new steamers as armed cruisers by the Imperial authorities will entitle the new Atlantic and Australian services to receive about \$100,000 a year from the home Government. It is said, however, that seeing the great importance of the highway to the East, the British Government will make the subsidy \$200,000.

**AN AMERICAN CONSUL INSULTED.**

He Refuses to Recognize the French Protectorate Over Madagascar.

CHICAGO, Dec. 2.—Thomas Wilkinson, an English merchant in Madagascar, said in an interview here to-day that the United States Consul in that island has been repeatedly insulted by French officials, who claim that their Government has a protectorate over the country. The American consul is Mr. Miller, a colored man. Consul Miller deals directly with the Queen of Madagascar, not recognizing the existence of the alleged protectorate. The matter has not heretofore become public. Wilkinson says he has seen the American firms having an actual commercial monopoly in the island seek to prevent general attention being directed to the affairs of Madagascar, one object being to thereby discourage American or others from going there. Accurate knowledge of gold fields on the island, which Mr. Wilkinson claims to know will prove among the greatest in the world, is said to have been thus suppressed. The French protectorate, he says, is upheld by Germany and England in exchange for French recognition of Germany in Africa and of the English claims to Zanzibar. Mr. Wilkinson was a "forty-niner" in California, and is one of the few survivors of the American filibustering expedition to Central America led by General Walker.

**THE FIRE RECORD.**

At Sterling, Ill., the Spies works, employing 150 hands. Loss, \$100,000; insurance, \$30,000.

At Chicago Tuesday night, the Adams Express Company building was damaged to the extent of \$400,000.

At Sandusky, the Lake Erie and Western round house, with three locomotives. The blaze started in the oil room.

At Lincoln, Neb., the Lincoln Paint and Color Company's brick factory building. Loss, \$90,000; insurance one-half.

At Beaver Falls, the dwelling of Fred Holtschuld. Loss, \$1,200, partly insured. Cause and time pressure during the night. The family barely escaped with their lives.

A crowd of boys set fire to a pile of rubbish in Mrs. Santer's garden on Mt. Oliver street yesterday afternoon. A firm alarm was sent in from station 17 and the blaze extinguished before it had done any damage.

At Olympia, Wash., Tuesday evening, the steamship Eastern Oregon arrived and went in dry dock. Soon after she caught fire from burning grease in the gallery. The steamer, valued at about \$180,000, is a total loss. Insurance unknown.

**TRAIN ROBBERS WITH INFORMATION.**

They Evidently Know What Train to Attack and What Was in the Safe.

ST. LOUIS, Dec. 2.—Facts in regard to the express robbery, which came to light only to-day, make it appear that the robbers were evidently informed as to the value of the contents of the express safe before the train left the St. Louis station. The through train to San Francisco, which carried the bulk of the money to the coast, is the one which the robbers would naturally select, rather than the slow train which was robbed. Another peculiar incident is that the express messenger was in possession of a key which unlocked the through express safe. The "Prisco" is the only road running west that has not provided his express cars with stationary safes which have special combination locks and are opened only at the terminus of the road, the messenger having no key to them and having no occasion to open them. These facts were probably well known to the robbers who selected the train, one of all other roads, on which to work their scheme. The officials of the road are endeavoring to discover why the train, a through one, left the station 30 minutes late. The Adams Express Company, it is now stated, will lose about \$75,000 by the robbery of the "Prisco" night express car near Glendale, Monday night, by six masked men. The safe of the express company was completely rifled, and although yesterday Superintendent Damself placed the loss in the neighborhood of \$20,000, it is now known that the safe contained far more than that amount.
