STANDARD'S BIG MILL.

The Trust to Put Up the Biggest Plate Plant Ever Known.

PREPARING TO MAKE ITS OWN TIN.

Niedringhaus Pushing a Scheme to Rival

DRIFT OF A DAY IN THE LABOR WORLD

the Town of Pullman.

The Pittsburg Tin and Torne in its initial issue to-day will give some interesting facts concerning the tin plate industry in the United States. One of the most important items is one in which the Standard Oil Company is at the back. It is that the Briton Iron and Steel Company of Cleveland had decided to manuare tin plate. The plant will consist of our mills with a capacity of 2,000 boxes weekly. In connection with these works new steel plant, the plans for which are how being prepared by a Pittsburg engineer. This plant will be comprised of two 25-ton open-hearth furnaces and a 140-inch mill for rolling armor plate, besides the usual full equipment of a steel pinut. .

The work of this company will be to make tank material and all kinds of tinware for the Standard Oil Company. The company has purchased 70 neres of land at Newberg, seven miles from Cleveland, and will com nce operations soon after January 1. aggregate cost of the works will be

That paper has also gone to a great deal the tin plate mills in the country, with their capital stock and output weekly. The plants located in Pittsburg are: Fleming & Hamilton, output 300 boxes. The Canonsburg Iron' and Steel Company has making terns and are erecting a third. Shoenberg & Co. are also preparing go into the industry.

Those in Pennsylvania are: Demmler. nited States Iron and Tinplate Manufac toring Company, capital invested, \$250,000; output, 3,000 boxes. P. H. Lauffman & Co., Apollo, capital invested, \$150,000; output, 1,000 boxes. Blairville Relling Tin Prate Mill, expital invested, \$75,000; intended output, 1,000 boxes Ken-ington Tin Plate Works, capital uvested \$75,000, intended output 1,000 boxes: Marshull Bros. & Co., Philadelphia, capital invested \$150,000, output 2,000 Outside of the plants in Pennsylvania there are \$3,000,000 invested in this basiness, with a weekly oniput of \$7,000 b.

The addition to the tin plate mill at Woods' Run is being built close to the wall of the penitentiary, and the company's officials and those of the institution are having some trouble.

Charles Largest Aside from these figures there are more to follow. The Messrs. Niedringhaus, of St. Louis, have just purchased 2,900 acres of land in Illinois, nearly opposite St. Louis, upon which it is intended to establish a town which will rival the famous town of Pullman. The chief industry of the town will be the manufactur of tin plate. At an early day it is intended to erect furnaces, rolling mills, etc., sufficient to supply a tin plate plant equipped

establishment of the kind in the world. A SIMPLE PROCESS.

Some of the Difficulties Overcome in Making Good Nickel Steel Armor Plate -The Rolls Have Superceded the Hammer-Some Points on the Matter.

The recent successful tests of nicket steel

armor plate have arousedla great deal of in-

terest in the subject. There has been much speculation us to the methods used in makde. During the solidification of steel,

become vesicular and honeycombed. Various methods have been employed from time to time to overcome this difficulty, but

negles can cast a perfectly homogenous ingot of any size whatever. The process is a simple one and by it a complete evolution of the gases from the molten metal is ac-complished before the solidification of the mass occurs. There is no reason why a forging from under a steam hammer should be superior to any material produced by the

When the thickness of a forging is moderate, the reaction of the anvil acting upon its under surface has an effect not inferior to that of the hammer on 'the upper side. But with every increase of thickness some of this reaction is lost, and the effect of the blow is more and more con-fined to the other portions of the mass, which thus receive more then their share of treatment at the expense of the central per-tions. On this account the difficulty of ob-taining thick forgings, thoroughly sound

I adjes' Cashmere Shawls and Fig. throughout their substance, is very great, and it seems the limit has been reached beyond which the hammer cannot be advantageously applied for their production. The reason for the superiority of the rolling process is that a certain amount of time is Gents' Underwear. necessary for completing the "flow" of the metal which it is the object of the hammer

Under the continuous pressure of the Gents' Collars and Cuffs. rolls—especially the four-high horizontal and the four-high vertical exclusively used by the Carnegies at their Homestead steel works—working in unison this "flow" can Ladies' Fine Muslin Underwear. take place uniformly throughout the mass, whereas the instantaneous blow of the hammer acts violently on the surface particles, and to a decreasing extent on the adjacent ones is entirely expended before the action has had time to reach those at the center, so that unequal de sity and consequent weak-

THE LABOR DEMONSTRATION.

Congressman Cummings, of New York, Promises to Make an Address.

The most interesting thing with the printers just now is the big labor demonstration of the trades of Allegheny county, to be held the latter part of next week. Arrangements are being made to have speakers from Chicago, New York, Detroit, Philadelphia and Wheeling present. Congressman Cummings, of New York, has consented to speak.

At a meeting of the printers' committee last night the idea of establishing a club-room was discussed and committees appointed to inquire into expense, etc. It is the desire to have a room fitted with billiard and pool tables, chess and checkers, where the boys can spend their evenings. The papers were served in the injunction suit vesterday. The attorneys for V. B. Williams in his suit against Murdoch, Kerr & Co. will ask that the defendants' bonds be increased to cover the amount of damage

Starting a Cast Iron Pipe Association. George Miles, of the United Pine Foundry at Scottdale, returned yesterday from a meeting of Eastern manufacturers in Phila. delphia. He says the preliminary steps were taken to start an association something after the plan of the stove founders, whose organization has been very successful in preventing rate cutting and maintaining a feel-ing of confidence between the makers. About 35 were present, but the number of east iron men in the country is large. Many of the foundries are located in the South where pig iron is cheap. While only Eastern makers were present, and it was in tended originally to confine the association east of the Ohio line, the question of ex-tending the organization was discussed, but

national, and will take in all the manufacturers.

BLAIRSVILLE'S TIN PLATE MILL. It Will Be Doubled in Capacity as Soon as

Put in Running Order. D. M. Fair, one of the managers of Blairsville's Rolling Mill and Tin Plate Company, was in Pittsburg vesterday on business concerning the new company. While here he closed up a deal with the Leechburg Foundry and Machine Company for a 28x48 Corliss engine, a 20-ton fly mill and all the ecessary appliances. In speaking of the

new industry Mr. Fair said: "The company was organized entirely of home capital, and has a paid up stock of nearly \$100,000. We expect to have the plant in operation by April 1 next, and will start with about 250 men. As soon as the mill is in good running order it is the intention of the company to double its capacity. We are now figuring on another industry for Blairsville, but I cannot talk of it now."

Probably a Long Fight.

The breach between the Knights of Labor and the Federation of Labor in the Alvin Theater musician fight is widening. Master Workman Dempsey thinks his course to be a wise one, as it is pretty generally receiving the support of the Knights of Labor. It looks as though there would be a long-drawn fight. The M. M. P. U. men are just as confident as the K. of L.

The Semi-Monthly System.

The Bell Lewis and Yates Coal Mining Company, near Reynoldsville, the most extensive mining corporation in this district, has adopted the semi-monthly pay system. That paper has also gone to a great deal trouble in preparing a correct list of all new system, and their thousands of employes

> Industrial Notes. sembly 3851 initiated 25 new members last night.

THE Railway Employes' Union will give ball on January 13. The proceeds will be for the benefit of the order. THE Bethlehem Iron and Steel Company

will put in rolls similar to those of Carnegie Phipps & Co., to roll armor plate. THE Derwent Foundry Company of Pittsburg will erect a plant at Elwood for the manufacture of stoves and brass castings. THE four blast furnaces of the Pennsylva nia Steel Company, at Steelton, are now in blast. Three stacks are running on Bes-semer iron, and the fourth is making

been appointed by President Welle, of the Amalgamated Association of Iron and Steel Workers, to fill the position on the Excou-tive Board left vacant by the promotion of Edward Kell to the treasurership. BOYAIRD & SEYPANG, of Pittsburg, manufacturers of oil well supplies, who also have

works in Bradford, have been granted a charter of incorporation under the style of the Bowsird & Seyfang Manufacturing Com-pany, with a capital stock of \$500,000. Too Ill to Try Murderer Graves, DENVER, Dec. 4.-Judge Rising, presiding in the Graves-Barnaby poisoning case, is ill. Court was adjourned until Saturday.

no conclusion was reached. The indications are that the association will be made

Loss, \$75,000.

treated by the Rev. George Hodges in THE DISPATCH to-morrow.

A Boller Explosion Kills Three Men. HORNERSVILLE, Mo., Dec. 4.-By boiler explosion at Pope & Pulley's mill,

WINNIPEG, MAN., Dec. 4.-The snowstorm which commenced yesterday still rages, and it is the worst known in Manitoba for many years. All outgoing trains are cancelled and incoming trains are many hours behind time.

Sores. Cared by Caticurs Remedies, Total Cost \$1,75.

I have been afflicted with a sore limb, which the dectors called eczenna. My limb from the knee to the foot was one mass of running sores. The dectors bandaged it every day for a week, and every time the bandage was removed a large scab would come off, and the blood pour down. I got one bottle of CUTICURA RESOLVENT, one box CUTICURA, and one cake CUTICURA SORP, and they cured me. I told a lady who was similarly afflicted to use it, and it cured her also. I gratefully acknowledge that it was CUTICURA that cured me. MRS, KATE BEARD, Orange Valley, N. J.

Inherited Scrofula.

My nose was of a most pronounced crimson bue, the result of inherited scrofula. I suffered untellable mortification daily, and tried enough remedies to stock a drug store without deriving the slightest beneft. I tried the CUTICURA REMEDIES, and the most flattering results followed their use. I am all right now, and I cannot find encombums enough to bestow upon what I know to be the greatest and grandest gifts given by science to man. Please accept the most sincere and grateful thanks of one who has suffered. C. STEVENS O'MAHONEY, 8 E. 67th St., New York, N. Y.

Cuticura Resolvent The new Blood and Skin Purifier and purest and best of Humor Remedies, Internally (to cleame the blood of all impurities and poisonous elements, and thus remove the cause), and CUTICURA, the great Skin Cure, and CUTICURA SOAP, an exquisite Skin Beautifier, externally (to clear the skin and scalp, and restore the hair), speedily, permanently, and economically cure every disease and humor of the skin, scalp and blood, with loss of hair, whether itching, burning, scaly, pimply, scrofulous, or hereditary, when all other remedies fail.

Sold everywhere. Price, CUTICURA, 50c; SOAF, 25c; RESOLVENT, \$1. Prepared by the POTTER DRUG AND CHEMICAL CORPORATION, Boston. 4878-end for "How to Cure Skin Diseasts," 54 pages, 50 illustrations, and 100 testimonials. PLES, black-heads, red, rough, chapped, and olly skin cured by Cuticuna SOAP.

PAINS AND WEAKNESS Of females instantly relieved by that new, elegant, and infallible Antidote to Pain, Inflammation, and Weakness, the CUTICURA ANTI-PAIN PLASTER. The

> SYMPTOMS OF CHRONIC MALARIA. It would be well for those suffering fro It would be well for those suffering from bronchitis, cough, expectoration, pains in the chest, diarrhœa, simple fevers, alternate attacks of heat and cold, headache, intolerances of light, facial or general neuralgic pains. "rheumatic" pains, skin harsh, dry, muddy, or greenish yellow hue most noticeable in face, neck and arms, foul tongue, bad breath, capricious appetite, loss of strength and energy, loss of flesh, temper irritable, mind depressed, to know that some or all of these symptoms attend chronic malaria and that one may have his system saturated with malarial poison without ever having a chill.

Complaints.

chill.

But the organs mostly affected with mala-

with maintria poison without ever having a chill.

But the organs mostly affected with malarial poison are:

First—The Spleen, which becomes permanently enlarged, constituting the so-called ague cake and where the red blood corpusoles are destroyed.

Second—The Liver, first enlarged, congested, then contracted and changed to a bronze chocolate slate color with symptoms of dyspepsia, bad breath, foul tongue, disturbance of the bowels, with alternate attacks of constituation and diarrhoza.

Third—The Heart. In this organ the pigmentary granules are deposited between the muscular fibers, impair their nutrition and lead to fatty degeneration, the most dangerous and least curable form of heart disease. The pulse is feeble, irregular and intermittent. There is great oppression and distress and often very severe pain felt in the region of the heart, some time faintness and loss of consciousness. When these symptoms exist rupture of the heart and immediate death may well be dreaded.

Fourth—The Lungs. The dark granular pigment is freely distributed in the lungs. On examination diffused congested patches may be found. In time these patches harden, then soften, break down and lead to the formation of cavities. In this condition there is pain, shortness of breath, night sweats, clubbing of the finger ends, loss of fiesh, cough, and expectoration of yellowish, purulent or rusty mucus, often tinged with sovere and exhausting hemorrhages. This brief outline will be recognized by thousands of persons of the course, progress and train of symptoms that attend chronic malaria poisoning.

Mr. Thomas Robinson's Case. "I have been a terrible sufferer, as have any others from the after effects of La

四四

many others from the Grippe," says Mr. Thomas F. Robinson, the well-known boat builder of this city, who lives on Lafayette street, Hazelwood, Twenty-third ward.
"I was attacked with facial neuralgia, and have suffered since such tortures as man uch tortures as man eldom suffers from pain, continuous and

pain, continuous and almost crazing, in my face and head. I was also afflicted with lumbago, accompanied by Mr. Thomas Robinson, its usual terrible pains and aches. The constant strain upon me finally resulted in complete nervous prostration and insomnia or sleeplessness, that nearly set me crazy. "The pains in my head were so severe and continuous that I could neither eat nor sleep. It was in this condition that I applied to the physicians of the Electropathic Institute, 507 Penn avenue. I was under treatment less than a week when I began to grow better, and I am now completely cured."

The Charges for Treatment at the Electropathic Institute, 507 Penn Avenue, Are Six Dollars a Month and All Necessary
