PFEFFER AND HART HAVE SOME WORDS.

Shany Murphy Talks About His Proposed Battle General Sporting News of the Day.

ISPECIAL TELEGRAM TO THE DISPATCH. NEW YORK, Dec. 4.-There is a lively tug-of-war going on between the Yale football management and the Manhattan Athletic Club relative to the receipts of the big football game on Thanksgiving Day. It is difficult to say how matters will end.

Manager Wright, Waltar Camp and every other advisor and participant in the foot- prizes of ball executive work absolutely refuse to say a word. They have lately shown a misanthropic tendency toward newspapers and say that not until they have settled this football question will its inner workings be her share of the proceeds, and the check of the Manhattan Club for \$14,000 was refused as payment in full. This is \$3,000 more than the Manhattan people evince any inclimation to give up

### They Discussed the Matter.

Manager Wright and Heffelfinger went down to New York last night and conversed long and earnestly with Captain S. J. Cornell, of the Manhattan A. C., but the case is still in a chaotic state, as the glumness of the Yale moguls to-day shows.

Around the college the general sentiment is for sticking up for Yale rights and claiming a squaring up on a basis of an attendance of 32,000 people. Whether the M. A. C. will secure the contract for another year is doubtful. So far there is no sign of yielding on the part of the New Haven end.
Well-informed persons doubt the wisdom

of Yale's action. On the day following the game there was a decided variance in the newspaper estimate of the size of the crowd. One or two journals placed the figures at 40,000. The World estimated the crowd at 30,000, but this estimate included at least 6,000 people on the surrounding bluffs. Undoubtedly there were 1,000 persons, in cluding officials, policemen, players and newspaper men admitted free. This esti-

mate, which is liberal enough, would bring the number of paid admissions down to 23,000. The club has offered to pay the colleges on a basis of 22,000 spectators— \$14,000 each to Yale and Princeton.

They Are Rapacious People, College football managers are rapacious Each one strives to make a better financial showing to the association than the man who preceded him. Last year Manager Sears, of Yale, received about \$11,250 as his share of the Thanksgiving Day receipts at Eastern Park, Brooklyn. Manager Wright this year wanted to im-prove on Mr. Sears' efforts. He did. The lub offered him a check for \$14,000-nearly more than the receipts of a year ago While there is rivalry among the college managers, there is also much sivile among organizations which have grown big enough to accommodate the Thanksgiving Day crowd. This season the Manhattan Atbletic Club, the New York Baseball Club, the Brooklyn Baseball Club and the Berkeley Athletic Club tried to secure the game. Last year the Brooklyn Baseball Club on This year the Manhattan Athletic Club was successful, and as there had been some speculation as to the ability of the club to accommodate the crowd its officials were especially active in impressing upon news-

hat 23,000 people were certainly all who were in the inclosure on the 26th ult. Last night it was said Captain Cornell had gone to the Catskills for a few days Wednesday night he had a conference with Manager Wright and Mr. Heffelfinger, the relebrated left guard. Mr. Heffelfinger's presence aroused some comment. Some body said he came down to work the trick on Captain Sammy-but he didn't

paper men that the crowd on Thankseiving

Day was much larger than the one of last

year at Eastern Park. They overdid the business. The World had three reporters on

### THE MILWAUKEE TROUBLE

President Gillette, of the Ball Club, Re-

quested to Step Down and Out. MILWAUNEE, WIS., Dec. 4 .- At a meeting of the directors of the Milwaukee Base ball Club last night, President Harry Gillette was requested to resign the office, which he did. The trouble had been brew ing for some time. A majority of the directors have been set against Gillette for the manner in which he handled the affairs of the club, and claimed that he was too extravagant when he paid \$6,000 for a franchise in the American Association, as it was well known that Milwaukee could have gotten in free. The directors say they want man at the head of the club who has had

experience in such matters. It is understood that President Gillette's successor will be a very prominent brewer of this city and who has plenty of capital. Gillette announced to-day that he would re-tire from baseball forever, and that all the stock he holds in the Milwaukee club would be disposed of to his successor at 65 cents dollar. Mr. Gillette was elected to the presidency of the club last summe after the resignation of William Furlong. He made himself very popular shortly afterward by engineering the deal whereby Milwankee was admitted to the ranks of the American Association

Fred Pfeffer and Jim Hart Express Opinion

CHICAGO, Dec.A .- [Special.]-Fred Pfeffer and President Hart, of the local League club, thoroughly understand one another nowadays. The first of the month Fred tramped into Spalding's to collect his monthly check. Then he and Hart reached an under

A Representative of the L. A. W. Says

Few Words on the Matter. NEW YORK, Dec. 4 .- [Special.]-Person ally Charles Luscomb, the representative of the L. A. W. on the committee appointed by the Central Board of the A. A. U. to select a class of prizes to be awarded at athletic and bievele meets, says he is in favor

He believes that the word "amateur," as applied in many cases at present, is out of ee, and suggests a rather novel way out of the difficulty. He suggests that the League and A. A. U. form two classes, giving cash prizes to one class of men and medals and certificates to another.

"As the matter now stands," said Mr. Luseomb yesterday, "the League gives prizes of pianos, wash bills and other things which no man who is an amateur should compete for. In my opinion racing men would much rather ride for money than any other prize.

#### JOHNNY MURPHY'S VIEWS.

The Boston Pugilist Talks About His Pro posed Fight With McCarthy.

BOSTON, Dec. 4 .- [Special.]-Speaking the Olympic Club of New Orleans offer of a \$2,000 purse for a fight between himself and McCarthy, Johnnie Murphy says: "I have been considering proposals from the California Club which, though not so tempting as this New Orleans purse, are still in the air. I should not care to decide this last matter off-hand. I would prefer to wait until something was done out West. As a matter of fact, I have been talking with friends in New Orleans of a fight with McCarthy for a \$2,500 rurse, and I think the fight is well worth the money. We have fought before, are evenly matched, and as a fight it would be one of the finest in the business. There will be no trouble

arranging the fight, though.
"As I said before I cannot say anything about it now. I would want about three weeks to train. The California business promised to be interesting. There was talk of an unknown, whom I thought might be Billy Murphy, of Australia, being pitted against me. He would just be my meat, and if there is anything in it I don't want

### WILL GO TO ENGLAND.

Campbell, the Lawn Tennis Champion, t Tackle the Britishers.

Boston, Dec. 4 .- Oliver S. Camppell, the champion lawn tennis player of America, has decided to cross the water about the middle of this month, with several other New York tennis men. Campbell will meet all the crack players

of England, France and Ireland.

A game for the championship of the world will probably take place. The best judges of the game in this country consider our players slightly inferior to those abroad, but are of the opinion that if they improve in the next five years as fast as they have in last five, American tennis players be ahead of all others.

Campbell will probably meet W. J. Hamilton, champion of England and Wales, and also E. W. Lewis, the Irish champion. Campbell will naturally play under a dis advantage, as he will not be accustomed to foreign courts, and the disagreeable climate will also have its effect on him.

### Sports at Homewood To-Day,

There will be lots of sport out at Home wood Park this afternoon. There are three events on the programme. Kirwin and Blackley will run a 150-vard foot race for \$100 a side; there will be a live-bird shooting handicap, and a quarter-mile foot race handican. If the weather is fine the attendance will doubtless be large.

BOOMING

Trade Is Reported Quite Lively in Half a Dozen Large Cities.

ALL IN THE WEST EXCEPT BOSTON.

Slight Decrease in the Volume of Business at Pittsburg.

BOTH IRON AND STEEL STILL FIRM

(SPECIAL TELEGRAM TO THE DISPATCH.) NEW YORK, Dec. 4.-Special telegrams o Bradstreet's report quite an irregular movement of general trade. The more favorable advices are from Boston, Chicago, Kansas City, Omaha, Minneapolis and San Francisco. In Nebraska the late cold snap caused country merchants to send in mail orders freely. In Missouri and Kansas, ributary to Kansas City, the volume of usiness is fairly large, and is held well up. From Boston are received more encouraging advices, sales of drygoods, woolens boots and shoes, leather and rubber, as well of wool, having increased, with the prospect of the improvement continuing into the

new year. San Francisco reports a fairly active trade, although heavy rains have cut into it, while encouraging the agricultural regions of California by preventing a re-currence of a dry season. It is stated that California wheat prices will probably be lower; wines promise to be higher, owing to short yield.

Trade Only Moderate Elsewhere

Almost all other cities report only moderate volume of business. At Memphis it is only fair; at Cincinnati it is sluggish, groceries and provisions, clothing and boots and shoes particularly; at Savannah trade s quite dull, as at Galveston, New Orleans and Baltimore, slow collections and continued depression in the price of cotton tending to affect interior buying.

There is also some decrease in the volume of trade at Pittsburg, where Bessemer pig has declined to \$15 25 per ton. The cently added firmness in iron and steel is visible, but not much more may be claimed Pig iron buyers are inclined to hold aloof from the market, and makers, who are turn-ing out more iron than ever before, continue to pile up iron. The condition of the stee rail industry is rather better, as a good volume of orders have been placed for 1892 de Anthracite coal is firm, and with future

tons this year, the heaviest on record. Few Changes Among the Staples. Prices of staples this week have no shown marked variation. Wheat is off 134 cents, corn 7 cents, and oats are up 2 cents Raw cotton is 1-16c less on a moderate and and free receipts, while wool sold so freely relatively at a recent cut at Boston that the price soon became firmer. Coffee is unchanged. Prices of live cattle and hogs are lower on freer receipts at Western packing points. Rubber quotations are

Business failures in the United State this week aggregate 306, against 242 last week. The total from January 1 to date is 11,240, against 9,501 in a like portion

of 1890. The movement in drygoods at Eastern cities, notably Boston, is more active. The Christmas trade has created a good demand for fancy dress fabrics, prints and ginghams. In plain and colored cottons there is, also, better inquiry. For new prints and ginghams some large contracts have been made. Woolen and worsted goods are more active, but the demand is not as strong as expected. Farther West no improve-ment is noted. Philadelphia woolen manufacturers report inquiry dull and prices

unsatisfactory The Effect of Goschen's Announcement. Share trading at New York shows a firm tone and an advancing tendency on moderate activity, the market sympathizing with the improved speculative conditions a London, due to the announcement of the Chancellor of the Exchequer's plans in regard to increasing the English note circula tion. Increasing railroad traffic and earnings and the prospect of larger dividends also have an effect. At the same time the Gould shares show weakness, and Richmond Terminal has declined on apprehension of a reorganization. In the early part of the week the market was disturbed by the peculiarly bad failure of a stock house. Bo and investments are in increasing demand. Silver is active at a sharp advance in quotations, both speculative and export demand being stimulated by the favorable in-terpretation of Mr. Goschen's utterances in regard to silver. Foreign exchange is firme on demand for January 1 remittances and

decreased supply of commercial bills. Frac-tional concessions were recorded after the explosion of a dynamite bomb in the offic of Russell Sage. Movements of Wheat Here and Abroad. The total wheat available in the United States and Canada, both coasts, November 28, equaled 74,371,521 bushels, more than 11,000,000 bushels in excess of the total reported one month ago; fully 17,00,000 bushels larger than was reported December 1, 1890; 11,700;000 bushels more than two years ago, and 16,400,000 bushels more than December 1, 1888. Stocks of wheat east of the Rocky Mountains are 41,000,000 larger than on July 1. In the like five months of each of the proceding years the net gain of like available wheat stocks was

as great. There was no corresponding increase on the Pacific Coast. Stocks of wheat in Europe and affoat, therefore, on December 1, were 14,500,000 bushels larger than on November 1.

The total available wheat in the United States and Canada affoat for and in Europe, as cabled to Bradstreet's shows an increase of 25,500,000 bushels in November against 22,260,000 bushels increase in October, and as compared with 25,000,000 bushels increase

in September. The week's exports of whea and flour from 11 ports equal 5,662,000 bushels, a noteworthy increase. The Bank Clearings for Last Month, November's total volume of bank clearings at 44 cities is \$4,880,698,304, or 5.6 per cent less than in November, 1890. This decrease is not quite as great proportionately as was the decline of clearings generally during October last, as compared with that month in 1890. New York City's November clearings total was \$2,948,260,909, or 8 per cent less than in November, 1890. The activity in the sbare market in November and December last year due to financial complications abroad, produced a volume of ransactions not likely to be exceeded in a

like portion of this year. For 11 months bank clearings at 44 cities aggregated \$50,-140,194,810, or 8.4 per cent less than in a like portion of 1890. R. G. Dun & Co.'s weekly review of trade says: The only change observable in the condition of business is a gradual im-provement of many branches of trade, and ome improvement is quite satisfactory. One sign of an unfavorable character is that collections at some points are slower and parder than usual, particularly where the low price of cotton leads holders to defer

selling as long as possible.
Collections Satisfactory in the West. Chicago, St. Louis, Cincinnati and St. Paul
—collections are very satisfactory. The
larger trade centers report most tavorably
in that respect, and there is less difficulty
in Eastern cities, though at the South some embarrassment continues. Money is not particularly stringent anywhere, though ather close at Nashville and Montgomery. The official reports show that the fall kinds of currency in actual circula tion was \$1,577,000,000 December 1, against \$1,564,000,000 November 1 and \$1,505,000,000 a year ago. The increase, both for the month and for the year, has been mainly in the form of gold certificates and new treas-

downward, on the whole, although wheat is unchanged in price, with sales of 28,000,000 bushels here during the past week, and the receipts continue at the rate of over 7,000,-

Wormwood Is the Chief Constituent and Bad Alcohol Goes In.

it is good, for it contains a high percentage of alcohol. Many distillers simply macerate the wormwood and other herbs and steep them in cold alcohol made of beets or of grain, by which means the poisonous oils are ex-tracted from the herbs. These poisonous qualities and the bad alcohols necessarily have a bad effect and produce that rapid and dangerous state of intoxication that drinkers of absimble have often noticed in regard to themselves. ## LOWEST PRICES

THESE THREE GRADES EVER REACHED.

The greatest auction sales ever held by Eastern Carpet manufacturers took place in New York City on November 10 to 13. Buyers were present from every large city in the Union, and the goods were knocked down to the highest bidder in every instance. We bought 40,000 yards of the above grades-the largest quantity purchased by any dealer in Pennsylvania. The goods are now coming in, and will be placed on sale, beginning Wednesday,
