SAGE NEARLY WELL.

The Many-Millionaire Not Seriously Injured by the Explosion.

HE WILL BE AT WORK TOMORROW.

The Few Pieces of His Would-Be Assassin Yet Unidentified.

MANY THEORIES AS TO WHO HE WAS.

SPECIAL TELEGRAM TO THE DISPATCH. NEW YORK, Dec. 5.—Russell Sage, whom a bomb thrower yesterday tried to kill, had almost entirely recovered to-day...

When Inspector Byrne's men were carrying the severed head of the bomb thrower out of Mr. Sage's house last night, in a basket, they followed the Inspector and Dr. Mann into the back parlor, and a large number of visitors among them several young ladies, crowded around the Inspector and eagerly asked questions...

The bomb thrower lay all day in the operating room at the morgue. They were in the usual wooden coffin, and were arranged, as nearly as possible, in the position in which they were found...

Hugh R. Wilson, of the firm of Wilson & Hochberg, whose firm card, it is now said, the bomb thrower handed in at Mr. Sage's office, looked at the head, and said positively that it was not the head of the Western man who was the subject of the explosion...

The bomb thrower was not Hiram D. Wilson, of New Falls, as was first supposed. This man is now in the St. Louis Hospital at St. Louis. In Kansas City it is supposed the victim of his own plot is Hugh R. Wilson, of that city, a real estate man...

A SENATE BULWARK.

Interposed Between Free Silver Adherents in the House and a Bill Worse Than the Bland.

A POLL OF CONGRESS ON FREE SILVER.

THE MAJORITY IN THE HOUSE LARGE ENOUGH TO OVERRIDE VETOS.

REMARKABLE OPERATION FOR THE CURE OF IDIOTCY.

THE BONES OF THE SKULL HAD UNITED PREMATURELY, CONTRACTING THE BRAIN—THE DOCTORS HOPE FOR RELIEF BY ENLARGING THE CRANIUM—PATIENT BEING TREATED BY PHILADELPHIA. Dec. 5.—[Special.]—A very delicate operation was performed at the Hahnemann Hospital to-day where it is hoped to restore the mental faculties of a 3-year-old child who has been an idiot almost from birth...

With a view to overcoming this defect the operation of linear craniotomy was performed by Dr. John James to-day. The boy was etherized and a strip of bone six inches long and a little less than half an inch wide was removed from the forehead back from the top of the forehead by means of an instrument very like a dental saw...

The skull was then re-covered and several delicate operations were performed, and finally the brain was then covered with iodiform. The patient was resting easily to-night and was very hopeful that the operation will be successful.

WORK OF CATHOLIC CONGRESS. Questions that will be discussed when it meets. Two years hence. St. Louis, Dec. 5.—The committee having in charge the work of the proposed Catholic Congress in 1893 have held important meetings during the week. Their work has been submitted to the Cardinal and Archbishops, who have approved the suggestions of the committee. The report provides that the Congress will be held in St. Louis, Mo., in 1893...

THE SENATE IS THE BULWARK OF SAFETY. It is Republican by a majority of 9—not large enough to prevent the first passage of a free coinage bill, but quite large enough to make certain the defeat of any bill vetoed by the President.

THE NEW EDGAR THOMSON SCALE. Carnegie's Workmen Object to Twelve Hours Labor for Eight Hours Pay. BRADDOCK, Dec. 5.—[Special.]—The first serious hitch in the new Edgar Thomson scale occurred to-day in the finishing department. PROCTOR LEAVES THE WAR DEPARTMENT. WASHINGTON, Dec. 5.—Secretary Proctor severed his connection with the War Department this afternoon and took official leave of all the officers. He will take his seat in the Senate Monday, and will soon thereafter be called on to act on the nomination of his successor in the Cabinet.

A NEW ATHLETIC COURSE. Harvard Means Not to Behind Yale in Training Athletes. CAMBRIDGE, Dec. 5.—[Special.]—Harvard, as well as Yale, is to have a new athletic course, although as yet no instructor has been decided upon. Up to the present time there have been six ways of setting a degree of S. B. in the Lawrence Scientific School. Inasmuch as a student wished to devote himself to civil engineering, chemistry, geology, biology, electrical engineering or general science, he could take one of six prescribed courses of study.

WINSLOW ON WATER.

His Analysis of the Allegheny Product Proves It to Be Vile.

AND HE PREDICTS AN EPIDEMIC.

He Tells Just How the River is Polluted and How Poisoned.

Dr. W. H. Winslow, who has been devoting considerable time to analyzing the water supplied to the people of Pittsburgh, said yesterday that an epidemic must necessarily follow unless purer water is supplied to the city. He contends that the water supply of Pittsburgh has been pregnant with filth for about 18 months and he says the discovery was only made by the people after he called attention to the matter two weeks ago.

"What is the real trouble with the water?" was asked. "It is simply filthy," was the answer. "It is filled with poison and many of the deaths in Pittsburgh within the year have been due directly to the poisoned water. When a man dies suddenly the verdict is fatal failure. This is probably correct, but heart failure is caused by disordered stomach and the stomach is disordered by the water he drinks."

"Several of my friends have complained to me that they have been compelled to buy distilled water, milk and even beer to drink since they learned of the condition of the water supplied by the city. One gentleman wrote me that I should have called upon the mill owners to have some arrangement with them to divide profits before I exposed the real condition of the water. But while it may be expensive it is better to drink the distilled water, milk or beer than it is to drink the water."

"In your investigations have you discovered just where the trouble with the water lies?" "Yes, certainly. Freeport is just about 30 miles from here. Between here and there we have no less than 15 towns, all of which drain their filth into the river. Only four miles away, we get all their filth. The talk of water purifying itself is simply absurd. The truth is experiment with rapidly flowing currents have positively demonstrated that water will not purify itself. In fact, it is so filthy that it is not safe to drink it. It is simply filthy. The water supply of Pittsburgh is just about 18 months old, and about every two miles between Pittsburgh and Freeport, and we have people who are always complaining about the water. Why, we are getting water from the river and pumping into our reservoirs the undiluted filth from the towns above us, and if that is not enough to alarm us, then I don't know what I am talking about."

Water From Lake Chautauque. "Physicians will tell you that many of their patients are troubled with affections of the stomach, dizziness and a general sick feeling. The doctor is unable to prescribe for the sufferer. No medicine reaches the spot, no drugs have any effect and the only remedy is to stop drinking water. I myself I am a great water drinker, but I am not foolish enough to drink the water supplied to Pittsburgh."

"I would suggest, first, that we be supplied with pure water. We cannot get that out of our rivers, and we must, therefore, get it from some other source. Of course it would be expensive, but we could have water pumped from Lake Chautauque. This is at least one remedy that I can suggest. There are others, but suggestions are all I can give."

STRAIGHTOUTS IN TROUBLE. Seven Suits Entered by Clerks in the Last Campaign. Straightouts yesterday entered against the Straitwore Republican organization by seven of the clerks employed during the campaign for money due for clerical work. Captain John N. Gill is one of the men pushing the cases and last night said: "We have made repeated efforts to get our money, but we were always met with a promise. Patience at last ended to be a virtue and we commenced proceedings. I entered suit before Alderman McKenna. The amount of my claim is \$33.50. The other suits were brought by James O'Hara Black and five of the lady clerks who claim to be entitled to the same. Alderman Black, the defendants named are Thomas Fleson, Frank Anderson, Dr. W. C. Roman, W. M. Locher, John Roy, John Sloan, William Arnold, Charles Dalzell, William Black, Scott, David Hall, Captain S. J. Brauff, William J. Trimble, Morgan Z. Evans, David Smith, W. J. Nesbitt, John N. Durr, Thomas A. Watson, James T. Ritchey, William J. Nesbitt, William Black, Captain T. S. Freeland, John Moffatt, Samuel Leary, J. O'Hara Black, Alfred H. Black, Charles Arbogast, Captain J. D. Wall, Abram Faust, and J. H. Walling will take place Saturday evening. The claims of the girls range from \$9.50 to \$30."

Sherrard Appointed on McKinley's Staff. STUBENBURG, Dec. 5.—[Special.]—An appointment which gives general satisfaction in this county is that of Colonel Harry Sherrard, of this city, who has been ap-

pointed by Major McKinley as one of his staff. He filled the same position under Foraker. Colonel Sherrard is captain of the Station Club, a Republican organization of this city, and also a member of the American Club.

Major Karb Orders Them to Shut Up Shop and Leave Town. COLUMBIA, Dec. 5.—[Special.]—Mayor Karb issued an order, this evening, closing all gambling places in order to observe the tariff and silver scores of bills concerning both will be introduced. The final passage of any tariff bill by the present Senate has not been considered possible by leaders of either of the parties, but the result of the free silver agitation, hardly second in importance to the tariff, has been doubtful. The President's veto of the bill, because of the disposition of a free coinage bill must finally depend upon that body alone. Most of the replies were either "yes" or "no," and the result appears in the table:

Senate—For free coinage, 18 Republicans, 2 Democrats. Against free coinage, 30 Republicans, 4 Democrats. House of Representatives—For free coinage, 20 Republicans, 13 Democrats. Against free coinage, 22 Democrats. Majority in the House, 48 Two-thirds vote, 222.

ROCHESTER, Dec. 5.—[Special.]—The many friends of the "Pentland" have found on the Ft. Wayne track last below Freedom this evening. Miss Pentland was 72 years of age, and was one of three unmarried sisters who lived at Freedom for many years.
