GLADSTONE'S HEALTH

The Subject of More Solicitude to the Tories Than to Himself.

If His Programme for the Coming Week or Two Is Any Pointer.

HE'S A PRETTY HEARTY INVALID,

THE GREAT LAND REFORM CONFERENCE

BY CABLE TO THE DISPATCH.

LONDON, Dec. 5 .- [Copyright.]-"Mr. Gladstone," says a writer in a Tory newspaper, "is really in very poor health, suffering still from the effects of the influenza, which has so enfeebled his constitution that the doctors have ordered him to refrain from all exertion during the winter

Disregardful of the feelings of this mendacious journalist the Grand Old Man is once more demonstrating to his delighted followers his marvelous intellectual versatility and physical vigor. Last night he talked to the Hawar-Volunteer Regiment about the condition of the army and military matters generally with the confidence of a field marshal and the knowledge of a war minister. To-day he left Hawarden on a round of visits previous to starting for Italy at the end of next week, and it may be predicted with confidence, doctor or no doctor, that during the next seven or eight days he will make quite half a dozen speeches.

Mr. Gladstone, who, of course, is acempanied by his wife, is a guest until Monday at the residence of one of his nephews, near Liverpool. On Monday he will visit Lord Ripon, at Studley, and from Wednesday until Friday he will be the guest of Lord Roseberry, at Epsom, near London.

The Great Land Reform Conference. The great conference on land reform will commence in London next Thursday. Five actual agriculturist laborers, will be present, and 750,000 tillers of the soil will be directly represented, as well as various societies interested in rural reforms. Mr. Gladstone will breakfast with the delegates Friday morning, and will deliver a speech. to which the greatest importance tuched, alike by friends and foes. gether, it is pretty evident that Mr. Glad-stone's "enfeebled constitution" has still enough vitality in it to furnish a physical outfit to half a dozen fairly robust elderly

Mr. Goschen's announcement of his scheme for issuing pound notes has con-siderably fluttered the financial world, and has been the subject during the week of an-imated controversies. The balance of opinon seems to be with the Chancellor of the Exchequer, but some critics handle him roughly on the ground that he is resorting unnecessarily to "American methods of

Pil-Metallism in the Big City.

It is very generally believed that the issue of pound notes will soon be followed by a period of inflation, and a consequen enormous increase in the amount of speculative business, but experts declare that many years must clapse before any considerable amount of the new notes can be got into cir-culation. The bi-metallists do not attempt to conceal their satisfaction, and they pray that the present Government may be given another lease of power, and with good rea-son, in view of the fact that several of its members, including Mr. Goschen, Mr. Bal-four and Mr. Chaplin, are bi-metallists more

little has been heard in London stely of the Bi-Metallic League, but it has with, it is claimed, a large amount of success, especially in Lancaster, where the staple industries are most injuriously affected by constant fluctuations in the value against her by Marius. He makes Arthur Cohen, sub-editor of the Financial News, codently got hold of the Textile Factory Workers' Association, an important body which recently issued a manifesto pract cally calling upon the workers to vote only for bi-metallist candidates at the Parliamentary elections. Mr. Moreton Frewen and other astute silver men who started the agitation here only a few years ago and have since kept it going at considerable expense to themselves now begin to see a prospect of getting some return for their

WELSH TINPLATE MEN ANGRY.

They Are Down on the Suicidal Policy of Some Manufacturers.

THY CABLE TO THE DISPATCH. 1 LONDON, Dec. 5. The decision of the Welsh tin plate workers against the proposed shut-down for a month was due to the belief that there is to be a great inerensed demand and a rise in prices very soon. The feeling is also gaining ground in the trade that shut-downs are a mistake. and that in the future difficulties caused by over-production should be met by a more sensible regulation of the output, the men in particular favoring a scheme by which a week's work should commence at 6 o'clock Tuesday mornings and end at 6 Saturday

In proof of the superior merits of this scheme—which, by the way, would reduce the output by about 20 per cent—it is pointed out that since the shutdown last June many men have since been in uncertain employment and others have emigrated to America. The men are very indignant at the "suicidal" action of some manufac-turers in supplying black plate for coating in the United States.

SLASHED THE MAID, TOO.

Baroness Dellard's Murderer Was After Plunder and Was Desperate.

PARIS, Dec. 5 .- The investigation into the murder of Baroness Dellard, the mother the murder of Baroness Dellard, the mother of a high official in the Ministry of War, who was found yesterday with her throat cut in a room at her residence, has revealed which it is the duty of the Government to the fact that the maid, whose throat was also cut, came upon the murderer while he was doing his bloody work.

She had been to the market and when she returned home she saw her mistress lying on the floor with the murderer standing The man grasped the maid and attempted to kill her to prevent her from giving an alarm. The man who committed the crime was evidently in search of

Two New Cardinals Created. HOME, Dec. 5 .- The Secret Consistory is fixed for December 14 and the Public Consistory for the 17th. The Pope's decision to create two cardinals was quite unex-preted. Mgr. Sepiacci is to be one of the new cardinals.

BRITISH WORLD'S FAIR EXHIBITORS.

They Object to Paying for Space for the Privilege of Displaying Their Goods. LONDON, Dec. 5 .- An order in Council has been issued declaring that the conditions of the patent act, by which an application for a patent will not be invalidated by the exhibition of the invention at an international exhibition, will apply to British inventions of discoveries exhibited at the Chicago Columbian exhibition. Complaints have been made that the Royal Commission, though it obtained space at Chicago free, is charging intending British exhibitors a price for space that will realize a profit of £50,000.

Replying to these complaints the Com-

Replying to these complaints the Commission states: "We cannot make the British section a success without selling space. The Government grant of £25,000 is wholly insufficient to meet the expense. which reference has been made in THE DIS-PATCH, is prospering exceedingly. Its membership steadily increases, and it has now a nice mosque, in which three mar-riages have taken place within the last few weeks. The last of these was celebrated yesterday, when Sheikh Meeran Buksh, a young barrister educated in Labore and Lond'n, and a scion of one of the oldest Moslem families in the Punjaub, was united to Miss Amely Davis Bright, a young English woman whom the Sheikh had converted to the faith of his fathers. The bride wore a blue dress trimmed with gold braid, but she was quite put in the shade by the bridegroom, who shone resplendent in an Indian costume weighed down with bullion trimming and surmounted by a jeweled

LONDON'S NEXT SCANDAL

This Time It Affects People Well Known is Theatrical Circles.

LONDON, Dec. 5 .- London is certainly having a surfeit of separation and divorce cases. This time, however, the parties involved do not belong to the peerage but are well known to the theater-going public of England and the United States. The parties to this suit are Miss Florence St. John, the actress, and Du Plany Maurius, and the charges made against the latter are the only ones on which an absolute divorce can be obtained in Eng an absolute divorce can be obtained in England. The case came up to-day before Mr. Justice Jeune, of Her Majesty's High Court of Justice. Sir Charles Russell appeared for the prosecutor, and Mr. C. F. Gill for the respondent. OHIET PREVAILS IN BRAZIL

The National Guard Reported to Be Dis arming in the Provinces.

LONDON, Dec. 5 .- A dispatch from Brazil was received to-day after a silence of four days. The intelligence just received shows that affairs in the State of Rio Grande Do Sul are assuming a more pacific appearance. To-day's dispatch comes from the city of Rio Grande Do Sul and states that Senor Castillo has declined to accept the Governorship of the State. Senor Castillo, it will be remembered, was Governor of the State at the time of the insurrection there and resigned and placed the conduct of affairs in the hands of the Provisional Junta.

Subsequent to the overthrow of the Die Subsequent to the overthrow of the Dic-tator the new Government ordered that Senor Castillo be reinstated in the office he had resigned. This order created great ex-citement in Bio Grande Do Sul and for a time trouble was feared. The National Guard was mobilized and it was thought that the order of the Government would be resisted by force. Senor Castillo's action in declining the Governorship has caused a much better feeling to prevail. The National Guard is disarming, and quiet is being restored throughout the province.
