Printers' Cause Discussed. LEADING LABOR ORATORS' LOGIC.

Repeal of the Conspiracy Labor Law Is Etrongly Advocated.

STATE LEGISLATORS-ARE DENOUNCED

The big trades meeting last night in Lafavette Hall was ushered in with a parade of all the union printers and pressmen of the two cities. The line was headed by the Cathederal Band and extended down Fifth avenue from Smithfield to Market streets. After marching over several of the principal streets of Pittsburg the procession filed into Lafsyette Hall, which filled rapidly with people of all classes, and when the meeting was called to order there were fully 1,500 people packed between its four walls. The meeting was called to order with the election of Chairman Phillips, of the Trades Assemblies of Western Pennsylvania, as president, and a long list of prominent

labor men as vice presidents. F. A. Lewis was the first speaker, and he briefly explained the strike from its start to the present time. Letters of regret were then read from the following gentlemen: President Gompers, of the Federation; John McVicker, Michigan; John B. Lemon, New York; Morgan M. Sheedy, Pittsburg; William Weihe, Pittsburg; W. J. Brennen, New York; W. J. Dillon, Pittsburg, and

P. J. McGuire, Philadelphia. The Conspiracy Law Den

Frank K. Foster, of the Boston Typographical Union, opened the speech-making. He said: "I may be detained in Pittsburg, as I understand that here you have a law that enjoins people on the slightest provocation, but up in Massachusetts we do not have any conspiracy laws, and I may talk too freely to-night. When it comes to dealing out judge-made law, it is time for the peeple to stand together and test the matter. Those who are in trouble with the laboring people only need to appeal to the judiciary to achieve their ends. This has been shown too often, and it is now

time that the wage-earners of the country stand together and fight for the repeal of this conspiracy law."

Jeremiah Dougherty, of Pittsburg, was the next speaker. His remarks were mostly upon the recent decision handed down in the injunction case. He said. the injunction case. He said:
"I think it is all right to take the case to

the higher tribunals, but when a law is bad there is but one way to semedy it, and that is by repealing it. It is time for the wage-earners to go to the polls and cease voting for the 'wall-flowers,' 'space-fillers' and 'chair-warmers' whom the people of Allegheny county have been sending to the Legislature. There are a couple of men in the county who make the laws. It is hard to change this, but it can be done. The Pittsburgers all know it will be done. The Pittsburgers all know it will be a difficult task to oust Magee and Flinn, for in the past when you have asked the aver age man to vote against them they have re plied: 'When I was on a little jag last summer and fined \$8.40 my fine was remitted, and I could not go back on the ring

Sharpsburg Murderers Roasted. He then spoke of other decisions which had been handed down against organized labor. He cited the case of the Sparpsbury murder, and said the men were acquitted because they were "rate."

Rev. Dr. Robertson, of Allegheny, was next on the list. "I would not be here to-night," said he, "if I did not think the present strike a just one, and that the par-ticipants are being wrongfully dealt with. The question in the injunc-tion case is whether it was a fair decision. There is another more important question, and that, whether rightly or s fair one? I congratulate the printers in the way they are handling the matter in appealing it to the supreme court of the people, which is really a bet-ter court than that of the United States. In the United States courts the laws are decided, but in the court of the people the laws are made. I hope the pubic will join with the printers in condemn J. Hamilton Burtt followed in a few well-

osen words along the same line as Rev. Mr. Robertson, The meeting adopted a set of resolutions approving the course of the strike.

Industrial Notes.

The different railroads of the country ordered over 25,000 freight cars during the month of October.

THE works of the Bellefonte Nail Company, Bellefonte, Pa., are shut down for the present. Rumors are current of the embarrass ment of the company, owing to the unsatis factory condition of the nail business for some time.

THE SIXTY-first meeting of the American Institute of Mining Engineers will be held at Baltimore, beginning Tuesday evening, February 16. The mining, preparation and athination of phosphates will be the special topic of discussion.

POLAR expeditions and the puzzling phenomena to be encountered at the poles is a special feature of THE DISPATCH to-

Open every evening.

THE FLOUR OUTPUT LARGER.

Willer says:

Ffirst of the Grain Blockade at Chicago Upon Production. MINNEAPOPIS, Dec. 11.-The Northwest

The improved water power enabled the mills to increase their output last week, the aggregate production for the week being 181,290 barrels—averaging 30,215 barrels daily—against 173,050 barrels the previous week; 114,600 barrels for the corresponding time in 1890, and 146,900 barrels in 1889. The weather 114,600 barrels for the corresponding time in 1830, and 146,900 barrels in 1839. The weather continues to favor the water power, and while it is by no means very good, there is quite a little flour being ground by water. There were 17 mills running to-day, grinding at the rate of about 29,000 barrels daily.

The grain blockade at Chicago is being felt here, and it is anticipated that a serious time will be experienced in two or three weeks to get cars for moving the product of the mills. While the flour market has not been very active for a week back, most of the mills report sales not far from their manufacture. Both domestic and foreign trade has been fair, the latter mainly for parent. Baker's is not in very good demand, and low grades are even less sought after. Some of the local firms state that the strength shown in wheat this week has had the effect of sending in a good many orders. British buvers made bids for some big lots of patents, but they were about 9d below miller's views, and had to be rejected. The highest cost of wheat has induced quite a number of mills to advance flour about 10 cents per barrel. Through ocean rates from Minneapolis are quoted at 52 cents per 100 pounds to London, Liverpool and Glasgow. The exports of flour last week were 89,340 barrels; against 80 230 barrels, the proceeding week. London quotations per 280 pounds C. I. F. are: Patents, 31s, 946,33s: baker's, 29s, 64,630s; low grades, 18s, 64,630s; box grades, 18s, 64,675 etc.

WILSON DE MEZA'S design for the cover of the Christmas number of the New York Ledger is a gem of Ghristian art. At all news stands. Price, 5 cents.

APE-LIKE proclivities of bables is the subject of an interview with Dr. Robinson, of England, to be published in THE DIS-PATCH-to-morrow.

MR. T. W. LITTLE'S CASE.

Among the many recent converts to the treatment by electricity there are none more enthusiastic in its praise, and justly so, than Mr. T. W. Little, the well-known carpenter, who resides at No. 59 Federal street extension, Allegheny. His statement follows below:

"I had been feeling quite poorly for several years," says Mr. Little, "but managed to get along until last May, since which time I grew rapidly worse. My greatest trouble was partial paralysis of the lower extremities. I got so I could hardly walk on the smoothest surface, and not at all over rough

hardly walk on the smoothest surface, and not at all over rough pavements, and I suffered the most exoruciating pains in my loins, hips, knees and fleshy portion of my legs, while my left knee was badly swollen and painful. I passed many sleepless nights from nervous depression and was so tired in the morning I could hardly get up. "Finally I realized that something must be done and that quickly, and as I had read of the good work being done by the physicians of the Electropathic Institute, at 507 Penn avenue, I concluded I would try a course of electricity. The relief afforded was almost instantaneous, and under the stimulating effects of the electric current, aided by such medicine as was prescribed for me, I improved rapidly, until now I can work all day, can walk as fast as anyone and haven't an ache nor pain about me. "I am certainly a convert to the treatment of such diseases as mine by electricity, as scientifically and skillfully applied by Dr. l'avis and hisassociates of the Electropathic Institute."

The lowest charges. The most skillful treatment. The most extensive and thoroughly equipped Electrical Institute in Pittsburg.

ELECTROPATHIC INSTITUTE. 507 Penn Av., Pittsburg, Pa.

Dr. L. G. A MOST WONDERFUL STORY. Mr. PAUL H. HACKE, (of Messrs, Hughus & Hackel, Writes: "I know the facts set forth below and true, Mr. Patrick Higgins is in my employ.

PITTSBURG, Nov. 21, 1861.

PITTSBURG, PA.,

Gestlemen:—I was completely prostrated with Rheumatism for five weeks. I suffered with it in the arms, hands, legs and feet. My hands became twisted out of shape, and my feet swelled out of all proportion, and I could not walk. When Mr. Paul Hacke procured for me a bottle of "Rheumaticura" and I had only taken three doses of it before I could walk as well as ever. Went out to the race track and exercised my horses that I have in training at this place. Thanks to "Rheutraticura," I am now cured and have not an ache or pain.

Yours very truly.
