SWINDLED INTO SIN.

The Insidious Snares Set for Young Men by Their Tempters.

TALMAGE'S SEEMON TO THE STUDENTS

PARENTAL TELEGRAM TO THE DISPATCE. 1 ANN ARBOR, MICH., Dec. 15. - This night a vast audience greeted Rev. Dr. Talmage, who preached a sermon to young men, especially to the students of the Michigan University. His text was Proverbs i., 17, Surely in vain the net is spread in the

sight of any bird." Early in the morning I went out with a owler to catch wild pigeons. We hastened brough the mountain gorge and into the forest. We spread out the net and covered up the edges of it as well as we could. We arranged the call-bird, its feet fast and its wings flapping in invitation to all fowls of beaven to settle down there. We retired ito a booth of branches and leaves and forthow.

After awhile, looking out of the door of the booth, we saw a flock of birds in the sky. ey came nearer and nearer, and after a were about to swoop into the net. when soldenly they darted away. Again we waited. After a while we saw another ock of birds. They came nearer and nearer uitil just at the moment when they were about to swoop they darted away. The lowler was very much disappointed

well as myself. We said to each other, "What is the matter ?" and "Why were not these birds cought ?" We went out and exmined the net, and by a flutter of a branch f a tree part of the net had been conspicuis exposed and the birds coming very ir had seen their peril and darted away. When I saw that I said to the old fowler. that reminds me of a passage of Scripture: Surely in vain is the net spread in the sight ird." Now the net in my stands for temptation.

Temptations Over and Under Ground. There are two classes of temptations-the uperficial and the subterraneous-those

ove ground, those under ground. If a man suld see sin as it is, he would no more emwe it than he would embrace a leper. Sin s a daughter of hell, yet she is garlanded od robed and trinketed. I want to point out the insidious tempta-

ous that are assailing more especially our sung men. The only kind of nature comtively free from temptation, so far as I udge, is the cold, hard, stingy, mean in the task hard, hard, sating, mean innt. What would Satan do with an If he got him? Satan is not oget a man who, after a while, may ith him the realm of everlasting . It is the generous young man, at young man, the warm-hearted young man, the warm-hearted the social young man, that is in

and her look there will be the prophecy of wors that are coming; want that will shiver in need of fire, hunger that will ory in vain for bread, cruelties that will not leave the heart when they have crushed it, but pinch it again, and stab it again, until some night she will open the door of the place where her companion was ruined, and she will fling out her arm from under her ragged shawl and say, with almost omnipotent elo-quence:

shawl and say, with almost omnipotent elo-quence: "Give me back my husband! Give me back my protector! Give me back my all! Him of the kind heart and gentle words and the man't brow-give him back to me!" And then the wretches, obese and flithy, will push back their matted locks, and they will say, "Put her out! Put her out!" O! self-rightcous man, without God you are in peril. Seek atter Him to-day. Amid the ten thousand temptations of life there is no safety for a man without God. But I may be addressing some who have gone astiny, and so I assault that other pronosition that the dissolute cannot be re-claimed. Perhaps you have only gone a little astray.

little astray.

An Invitation to Reclamation. While I speak are you troubled? Is there

a voice within you saying, "What did you do that for? Why did you go there? What did you mean by that?" Is there a memory in your soul that inskes you tremble? God only knows all our hearts. Yea, if you have gone so far as to commit inightles, and have gone through the whole catalogue, I in-vite you back this hour. The Lord waits for

have gone throng the whole character is the vite you back this hour. The Lord waits for you. "Rejoice: O, young man, in thy youth, and let thy heart cheer thee in the days of thy youth; but know thon that for all these things God will bring these into judgment." Come home, young man, to your father's God. Come home, young man, to your mether's God. O: I wish that all the bat-teries of the Gospel could to day be unlim-bered against all those influences which are taking down so many of our young men. I would like to blow a trumdet of warning, and recuit until this whole addience would march out on a crusade against the evils of society. But let none of nis be disheartened. O: Christian workers, my heart is high with hope. The dark horizon is blooming into the morning of which prophets spoke, and of which poets have dreamed, and of which painters have sketched. The world's bridsh hour advances. The mountains will kiss the morning radiant and effulgent, and all the waves of the sen will become the erystal keys of a great organ, on which the fingers of everlasting joy shall play the grand march of a world redeemed. Instead of the thorn there shall come up the fit tree, and of the biorn there shall come up the fit tree,

grand march of a world redeemed. Instead of the thorn there shall come up the fir tree, and instead of the briar there shall come up the myrtle tree, and the mountains and the hills shall break forth into singing, and all the trees of the wood shall clap their hands!

The Woodland Oil Company drilled its No. 3 Gambler into the fitth sand and it is producing about 20 barrels an hour. A. Weish & Co.'s well on the Miller lease at Laurel Hill nipped the Gordon sand and it also making 20 barrels an hour. The Royal Gas Company drilled its No. 2 Mary Robb deeper into the fifth sand, and it increased from 30 to 60 barrels an hour. Sordner, Snyder & Co.'s well on the malt house lot at Oakdale struck fifth sand, and it increased from 30 to 60 barrels an hour. Gordnier, Snrder & Co.'s well on the malt house lot at Oakdale struck a pay at eight feet in the fifth, and the well made several strong flows. It will be drilled deeper to-day. The Moorhead well of the Venture Oil Company was shot, and is now making 250 barrels a day. Guffey, Jennings & Co.'s No. 3, Matthews, reached the Gordon sand and is good for 300 barrels a day from that sand. As an offset to these the Forest Oil Company's No. 5 W. C. Herron and the Oakdale Oil Company's No. 2 Baldwin and No. 2 Morgan heirs were reported to be drilling in the fifth sand and showin r very light. These three wells were expected to make hig producers, but as they are all close to big wells which have been flowing stoadily for the past three or four months, it is believed the sand under them has been drained. Kennedy & Gordnier's No. 4 on the Mertz farm should be in the fifth sand to-morrow. Guffey, Jennings & Co. have a big gasser in the Gordon at their No. 9 Mevey, which was reported dry in the Gordon, struck a pay in that sand Saturday afterneoa, and it will make a fair Gordon well. They are fibing for a baller in the Gordon to-day. "Ex-Div. Changes in the Gauges.

The continued strength in foreign ex-change and the interpretation that there is selling of American securities by foreign holders, renders two parties possible in the stock market, and the bears are both active and aggressive from time to time. To day the feature was the persistent pressure to sell by the professional element, and while Mis-souri Pacific received most attention at first and was used to start the ball rolling, other stocks scored equally as heavy net losses, which was accomplished in the face of an-other encouraging bank statement. The only really strong points in the mar-ket to day were the low-priced specialties, and the losa Central shares were most prominent. As a rule, however, the list was devoid of special features, moving with un-usual uniformity. Health has its weight. We cannot go far above or below our healthy weight without disturbing health. We cannot keep health and lose our weight.

It is fat that comes and goes. Too much is burdensome; too little is dangerous.

Health requires enough fat for daily use and a little more for reserve and comfort. That keeps us plump.
