

PLANS OF THE MINERS.

Rea Wants McKinley to Make Him Labor Commissioner of Ohio.

McBRIDE MAY TAKE HIS PLACE.

In That Case a Knight of Labor Will Be Chosen Secretary.

INTERESTING INDUSTRIAL FEATURES

A special telegram received from Columbus says: Hon. John McBride, State Commissioner of Labor, and John P. Jones, President of the Ohio miners, left yesterday for Birmingham, Ala., to attend the annual meeting of the American Federation of Labor.

Mr. McBride and Jones, together with John B. Rea, President of the United Mine Workers, are delegates from the miners' organization, which is affiliated with the Federation.

Mr. Rea has been in Tennessee, and will go from that State to Birmingham. Hon. John McBride has been talked of as a likely successor to Samuel Gompers, the present head of the Federation.

He stated to a DISPATCH representative yesterday that he would not be a candidate, however, for the place.

"Would you not accept it if tendered you?" was the query.

"Well, if the convention would raise the salary to something like \$2,000 a year and consent to the removal of the headquarters from New York to Columbus I might."

Mr. McBride's term as Labor Commissioner will expire in spring, and his successor will be a Republican. There are already a large number of candidates for the place among them John B. Rea, President of the United Mine Workers.

Mr. Rea has declared himself for McKinley during the late campaign, and it is now claimed his influence with the miners was largely instrumental in his election.

It is understood Mr. Rea will make a contest for this place, and that Hon. John McBride will be put forth as a candidate for President of the United Mine Workers.

This is a plan that has been sprung by some of Mr. McBride's friends and they say that if he is not in harmony with the place will be forced upon him.

In event of Mr. McBride being urged for the place both P. H. Penna and John P. Jones, who have been active in the contest, will step aside. The selection of an old Pro-Union man would make the election of a Knight of Labor Secretary in order.

This would be just the opportunity desired by W. B. Wilson, who is looking after his interests in event of a contest. Mr. Wilson is an expert among the Knights.

Reasons for a Change of Date. An effort has been made to have the convention of the Ohio miners, which convenes regularly in January, postponed to April.

At the request of the miners the matter has been submitted to the miners and a vote is now being taken on the question. The claim made by those favoring a postponement of the convention is that any action taken on the matter in January would deprive the operators of the miners' intentions and thereby place the men at a disadvantage.

It is asserted by some that the defeat last spring was due to the fact that the operators had the time to anticipate the action of the miners.

President Jones says the convention will be called in January and the vote will not be completed before the time for issuing the call. He says that about nine-tenths of the miners are in favor of the postponement, as the holding of the convention in April would have a large expense to the local organizations and would probably accomplish as much good.

Will Build a Glasshouse in Dublin. John Dillon, of Dublin, who represents a number of Irish capitalists, has been in the city for the last week, visiting local glasshouses and gathering information about the business. He is stopping at the St. James.

Mr. Dillon is a member of the Irish Industrial Union. He says a company has been formed to build a large glass plant near Dublin and it is the intention of wealthy Dublin people to establish more industries in their city.

Mr. Dillon said he was treated kindly by the Pittsburgh glassmen, and permitted to examine their methods and make drawings of machinery in detail. He has visited the glasshouses of Belgium, but he thinks the Americans are far ahead of the foreigners. Their machinery is newer and their product superior.

Manufacturers at the World's Fair. W. D. Wood & Co., of McKeesport, one of the largest manufacturing concerns in the country, have made application to Commissioner Whitman for space at the Columbian Exposition. Numerous applications and inquiries for space are received daily by the Commissioner. It is understood that the tin manufacturers of the State propose to cover the State building with their material free of charge.

Industrial Notes. The Railway Employees' Union held its regular meeting yesterday afternoon, and the attendance was unusually large.

The trouble between the management and the employees of the Birmingham Traction Company has been amicably settled.

Quite a number of new members have been initiated into the different lodges of the Pittsburgh Knights of Labor.

The Wildest Mining and Smelting Company, of East St. Louis, has changed its name to the Copper Hill Mining Company.

The Tyrone, Pa., Gas and Water Company has nearly completed its new holder, and will have it in operation within a few days.

Commendable. All claims not consistent with the high character of Syrup of Figs are purposely avoided by the Cal. Fig Syrup Company. It acts gently on the kidneys, liver and bowels, cleansing the system effectually, but it is not a cathartic and makes no pretensions that every bottle will not substantiate.

Out of Sorts. Describes a feeling peculiar to persons of dyspeptic tendency, or caused by change of climate, season or life. The stomach is out of order, the head aches or does not feel right.

The Nerves. seemed strained to their utmost, the mind is confused and irritable. This condition finds an excellent corrective in Hood's Sarsaparilla, which, by its regulating and toning powers, soon cures.

Indigestion. restores harmony to the system, gives strength of mind, nerves and body, while it also purifies the blood and removes all traces of Scrofula, Salt Rheum, etc.

Sick Headache. Hood's Sarsaparilla has given me good satisfaction. I have been troubled at times with indigestion accompanied by sick headache. It always affords immediate relief.

Hood's Sarsaparilla. certainly does all that is claimed for it." W. D. Buck, Ticket Broker, Portland, Me.

AVONMORE.

The leading new manufacturing town on line of West Penn R. R. near Pittsburgh. Already nearly 100 houses are up and in course of erection.

An extensive bottle and prescription ware company has secured seven acres and will build works at once.

A large glass house now in full running order.

An excellent machine shop and foundry, almost completed, and will be in operation in a few days.

A fine brick works, planing mill and lumber yard now on the grounds. Also a good hotel, stores and postoffice; public school and churches secured, natural gas and fire clay. The growth and stability of the town, and employment for hundreds and thousands of mechanics and others, is assured beyond a doubt, by reason of the extensive manufacturing plants now located, with others negotiating for position. Those who have seen Avonmore pronounce it the gem of manufacturing towns. The lots are large and cheap at all other places in lowness of price. The figures have been kept down to from \$250 to \$500 a lot. These prices now for choice lots being low, this is the time to buy to secure the benefit of increase in value. Investors will almost double their money invested.
