THE MONEY PROFITS ARE SMALL,

Hog Products Weak, With a Tendency Toward Lower Prices.

COFFEES PROMISE TO GO UP HIGHER

OFFICE OF PITTSBURG DISPATCE, }
TUESDAY, Dec. 15.

Last year was one of short crops to the farmers of this country, and yet the yield brought more money to the farmer than the previous year when there was a bountiful harvest. The year 1890 was a year of scarcity, but producers of farm and garden products, with lighter work had larger receipts of money. The corn crop last season was one-third less than the previous season, but prices advanced from 28c to 51c per bushel, and the money value of receipts was increased \$150,000,000. Oats also declined one-third in volume, but prices rose from 23c to 42c per bushel, and farmers' receipts increased \$50,000,000, notwithstanding light crop. The yield of wheat last season was only 20 per cent below that of the previous season, and prices advanced from 70c to 84c per bushel. Receipts of money were about the same for both years, namely, \$340,000,000. This year's yield is even greater than that

of two years ago, and yet prices are little different from those of last year. A summary published in the New York Evening Post furnishes some interesting statistics, indicating that the three principal cereals will be 5 cents per bushel higher this year than last, and that farmers' receipts will, as a result, be increased from \$1,300,000,000 to \$1,700,000,00. Upon the most moderate estimate, our farmers will receive for these three crops \$300,000,000 more than last year, and \$500,000,000 more than in 1889. It is the Northwest which chiefly profits by this increase, the two States of Kansas and Iowa receiving one-fourth of the whole; the Southern States do not share at all in the gain. These are chiefly dependent upon the cotton crop, and this year the yield is a little less than usual and the prices also less.

The Coffee Markets.

The statistical reports point to an elevation in prices. Our home markets are very firm, and, while there has been no advance in prices, all signs point to higher prices. Following is the outlook as viewed from a Boston standpoint:

The tone of the Rio and and Santos coffee The tone of the Rio and and Santos coffee markets is considered firmer. Unexpectedly at this season, the world's visible supply has been found to have decreased during the nast month, when usually it shows an increase. Again, it is estimated that fully one-half of the Santos crop of coffees has been marketed, and nearly one-half of the Rio crop, though the crop year has not yet half expired. Hence it would seem that, in spite of the big crop, a market is being found for all of the coffee, and without the decline that was generally expected to have begun

for all of the coffee, and without the decline that was generally expected to have begun before the late autum months. There is no world's surplus of coffee, and there has been mone for a couple of years.

Recent reports indicate that statistically the coffee market has made some gains in firmness. Saturday's New York market showed a gain of some 10 points from the opening. The Rio daily cable gave receipts at Rio of only 8 600 bags for the day, though with receipts at Santos of 18,000 bags. The total stock at Rio is now 254,000 bags, against 182,000 bags for the same time last year. The market is cabled dull, with exchange at 12d. The weekly Rio cable gives the daily average receipts at Rio for the week at 12 500 bags; shipments to Europe, 22,000 bags;

average receipts at Rio for the week at 2500 aggs; shipments to Europe, 22,000 bags; to the United States, 26,000 bags.

The New York total visible supply of coffee is now figured at 461,356 bags; same time a year ago, 261,180 bags; same time in 18-9, 453,654 bags. The total receipts of coffee at Rio on the crop, up to December 11, have been 2,024,000 bags; same time in 18st year, 1,273,000 bags; same time in 18st, 357,000 bags. In Business Lines.

In the line of hog products general drift of markets is toward a lower level. The reasons for this are obvious. Receipts of hogs are immense at all live stock centers. Last week there were received at Westera centers 105,000 more than were received for the corresponding week of last year. Re-ceipts for one day in the last week of November at Chicago were 67,000 head, the largest for any one day in the entire history of the yards. Provisions are not moving as freely as they were a week or two ago, the effect of poultry and game consumption being very marked at this time. Until the holiday season is over expectations of pork packers will not be great. The decline in bacon and shoulders noted in Monday's DISPATCH is fully justified by events, and all signs point to a reduction in lard.

LIVE STOCK MARKETS.

Receipts, Shipments and Prices at East Liberty and All Other Yards. OFFICE OF PITTSBURG DISPATCE,)

TUESDAY, Dec. 15. CATTLE-Receipts, 360 head; snipments, 260

head; market slow at yesterday's prices; no cattle shipped to New York to-day. Buffalo — Cattle — Receipts, 31 loads through: 10 sale; heavy, very dull and 8 to 10 loads unsold. Hogs—Receipts, 6 loads through: 5 sale; dull and 5c lower; heavy grades, \$5 90@4 00; medium weights, \$5 80 £3 85.

JUST LIKE THE WEATHER.

A Dull, Depressing, Bearish Day in the Grain Pits-Wheat Weak With a Moderate Loss-Corn Lower on Large Recelpts-Oats Without Festure,

CHICAGO-Wheat was quite weak during a considerable portion of the day, but the close was at only a moderate loss as compared with yesterday's last quotations. In the early trading most of the influence was on the hear side. Cables were lower, domestic markets tended downward and the local feeling was heavy. May wheat wen

The bulls had some things in their favor, and especially the decrease of \$25,000 bush els in the amount on passage and the gloom; reports concerning the condition of wheat in Kansas and Illinois, but it did not help much, and was entirely overshadowed by the weak factors. The demand was sluggish, no one seemingly having the courage to buy except the shorts, who put out liberal lines some days ago, and opened on the break to secure profits. There was a stop in the downward course, bowever, when the export clearances of nearly 1,000,000 bushels

export clearances of nearly 1,000,000 bushels at New York was made known, and a vally of Mc followed. Late cables were weak, however, and the advance was lost during the last hour. The close was about Mc lower than yesterday's.

Corn was weak, partly in sympathy with the break in wheat and partly owing to the larger receipts than expected and the improvement in the inspection. Prices gradually declined. December opened ic lower at Mc, sold off to Mc, within the first two hours, rallied some, but weakened to bottom figures again during the last hour, strengthened with a loss of Mc, but May was only be lower.

Outs your All and standing the May was only be lower.

Oats very dull and steady without feature. Hog products were inclined to firmness. Hor receipts were large, but the buying was sharp. The close shows only slight advances over yesterday's figures.

The leading futures ranged as follows, as corrected by John M. Oakley & Co., 45 Sixth street, members of the Chicago Board of Trade.

A Good Movement and Healthy Condition All Along the Line.

THE CENTRAL WILL USE TRAILERS.

Installment Plan of Selling Homes Working Well at Valleyview.

MARCH OF SOUTHSIDE DEVELOPMENT

There seems to be a large element of truth in the report of the sale of the Lockhart property on Negley avenue, Nineteenth ward-three seres for \$50,000. C. H. Love and Major Glover had intimation of the deal on Monday. The name of the purchaser has not been authoritatively divulged. Attorney J. McF. Carpenter signed the agreement. It is understood that he represented Mr. C. W. Hubbard, of Hubbard, Bakewell & Co.

South-ide Developmant. Southsiders entertain high hopes of the introduction of rapid transit into the hill district at an early date With adequate transportation facilities, such as the East End enjoys, they claim, and rightly, too, that Mount Washington and Duquesne Heights, and even the broad stretches beyond, would soon be covered with comfortable homes. The necessity for rapid transit on that side of the river is so apparent and pressing that, now that it has become fixed in the minds of the people, there is every assurance that some of the many schemes which have been projected will be consum-mated without unnecessary loss of time.

Will Use Trailers. The business of the Central Traction road has increased so much that the management has decided to put on a number of trailers, six of which have been ordered. This is another straw showing that the street railways of Pittsburg have not only increased their earnings, but are putting themselves in a position to do still better.

Supplying a Want. The demand for small houses is being answered with great liberality, but the supply continues inadequate. Major A. J. Pentecost is putting the finishing touches to the last of 18 erected by him this season at Valleyview, on the Chartiers Railway. Others have done almost as well. Building outlook for next year is good in this locality. The expectation is that 30 or more houses will be commenced early in the spring. Valleyview is being settled very fast, which is due in large part to the system in yearse among expers of selling tem in vogue among owners of selling houses and lots on the installment plan.

Plate Glass Protection. There are seven plate glass insurance companies doing business in Pittsburg. They carry policies on about 2,800 store fronts, premiums on which aggregate upward of \$28,000. Of the total policies the Metropolitan has 600. Doors and windows of a large number of residences are also in-

Some Tall Buildings. Pittsburg has no sky-scrapers, but will probably have a near approach to one next year at Fifth avenue and Grant. As con-templated, it will be 12 stories high. Bostemplated, it will be 12 stories high. Boston has a number, but they do not compare in point of height with Chicago's tall office buildings. The Fiske building in Boston is 214 feet in height, the Ames building is just 189 feet high, the New York Life building 200 feet, the Bell Telephone building 125 feet, and the Farlow building 120 feet. The Masonic Temple in Chicago is 254 feet high, the Ashland block will be 215 feet, the Unity is 210, the Monadnock is 215, while the Chicago Title and Trust building is the the Chicago Title and Trust building is the same height as the Unity.

Almost Ready to Close. Probabilities are that three real estate dickers, aggregating \$175,000, will be closed this week. One is a business and the others
East End residence properties. Another
transaction, one of the largest for years, is
hanging fire on 234 per cent of the cost
price. The demand for high-class proper-

ties is better than it was a year ago. Business News and Gossip. It is thought by most persons who have spoken on the subject that Mr. Rowand's hid for the Government's Pennavenue prop erty will be accepted.

Baltensperger & Williams have sold 20 lots in the Weinman plan, Mt. Washington, with-

in a week.

Street improvement is being prosecuted with almost as much vigor as during the summer. Pittsburgers are determined to keep out of the mud.

North Homewood, in the vicinity of the driving park, promises to be the scene of extensive building operations next season. Several capitalists are talking of 10 to 20 houses each.

houses each.
At the last call yesterday 94 was bid for Duquesne Traction bonds. Electric scrip was offered at 90.
Charters were issued at Harrisburg yesterday to the Eighth United States Excelsior Building Association, of Pittsburg, capital \$500,000, and to the Clifton Building and Loan Association, Allegheny, capital \$1,000,000.
The most important or three building permits issued yesterday was for three dwell-

mits issued yesterday was for three dwellings to cost \$2,700. The others aggregated \$3,400. Friends of Duquesne Traction are talking

Friends of Duquesne Traction are talking of still higher prices for the stock.

According to the compilation of Robert J. Stoney, Jr., Pittsburg national banks hold \$1,25,487 in excess of the 25 per cent as required by law, or 58,53 per cent of net deposits.

Work on two additional office buildings will begin as early as possible next spring. One of them will be on Wood street.

The high prices for farm products can only result in highly stimulating the general range of industries. range of industries.

The strength of the stock market fulfills the expectations of those who have been predicting higher prices.

Plans have been completed for a large apartment house on Emerson street, in the heart of East Liberty.

Movements in Realty. J. R. Larkin & Co. sold to Joseph A. O'Neill for M. J. Becker a two-story and mansard brick house of ten rooms, No. 8 Sherman brick house of ten rooms, No. 8 Sherman avenue, Ailegheny, for \$12,000.

S. A. Dickle & Co. sold for L. B. Richards to Mrs. K. L. Brown a property on Edwin street, near Alder, Twentieth ward, 60x120 feet, with a two story frame dwelling, for \$7.400.

Baltensperger & Williams sold for A. L. Watkins to George O. Moose, a new five-roomed house on Belonda street, Mt. Washington, for \$2,000 cash.

Black & Baird sold for Mrs. E. Wainwright a double two-story and manaard brick

Black & Baird sold for Mrs. E. Wainwright a double two-story and manaard brick dwelling, situate on the northeast corner of South Negley avenue and Howe street, with lot 8kx180 feet, for \$13,800. A prominent East End physician was the purchaser. Reed B. Coyle & Co. sold for J. C. Kirkpatrick another lot on Observatory avenue, being 24x131 feet, running through to Division street, for \$1,500 cash. The purchasers of both lots will improve with handsome residences.

A QUICK RALLY IN ALLEGHENY VAL-LEY RAILROAD STOCK.

It No Longer Goes Begging for a Market-Unlisted Tractions Maintain Their Supremacy-Trading of Respectable Volnme and the Tone Generally Strong.

The sale of the Allegheny Valley Railroad, and the probability that it will soon be put in a position to earn something for the

and the probability that it will soon be put in a position to earn something for the stockholders, caused an advance in the stock yesterday from 10 cents to 20, without bringing any of it out. At the afternoon board, after the sale, it was offered at 50.

All the features of the market were good. Trading was comparatively active and prices strong. It begins to look as if the revival had come to stay. The broadening tendency of the dealing is an encouraging omen. There was a good display of figures in the bank and insurance sections of the list, but they were not on a satisfactory basis, and nothing was done.

The unlisted tractions maintained their ascendancy, Duquesne losing none of its group. Central developed additional strength. The others were steady. Philadelphia Gas finished with a slight loss. Luster was down nearly a point. Switch and Signal and Airbrake were stronger.

Sales at first call were 65 shares of Airbrake at 101, 80 Duquesne Traction at 18½, 30 Luster at 10, 10 Citizens Traction at 18½, 30 Luster at 10, 10 Citizens Traction at 18½, 30 Luster at 10, 10 Citizens Traction at 18½, 30 Luster at 10, 10 Citizens Traction at 18½, 30 Luster at 10, 10 Citizens Traction at 18½, 30 Luster at 10, 10 Citizens Traction at 18½, 30 Luster at 10, 10 Citizens Traction at 3½, 30 Luster at 10, 10 Citizens Traction at 3½, 30 Luster at 10, 10 Citizens City. 100 La Noria at 30, and 3 Iron City National Bank at 85.

Bids and asking prices at each of the three calls are given in the subjoined table:

BUYING FOR INVESTMENT.

CHICAGO GAS STOCKS FIGURE THE MOST PROMINENTLY.

ew York Central Also Active and Strong-The Share Market Barren of Other Fea tures-A Northwestern Railroad Deal-Bonds Comparatively More Active.

New York, Dec. 15 .- The stock market to day was still only moderately active, and, for the amount of business done, exhibited less feature than for any day for some time The strength, however, remained unimpaired throughout the session, and while the advances are not marked, except in one or two cases, they are general and uniform. The Vanderbilts, the Grangers and the specialties monopolized the marked movements, while the general list moved slowly and quietly throughout the day.

The feature of the transactions was the continued buying for investment and the activity and strength in New York Central. The expectation has become quite general that 6 per cent will be declared on the stock for the year. The final deal between the Milwankee, Lake Shore and Western and the Northwestern caused the selling of the latter to some extent, but without making any impression on the price, while the for-The strength, however, remained unim

the Northwestern caused the sciling of the latter to some extent, but without making any impression on the price, while the former advanced another 1½ per cent on the actual transactions. There was large buying of Rock Island, but the realizing sales were sufficient to prevent its getting much above 87, while the trading in other Grangers was very moderate and marked by no feature of interest. The movements in the other Vanderbilts were not specially important, and while Canada Southern and Michigan Central were strong they were kept within comparatively narrow limits. The strong point in the list to-day, however, was Chicago Gas, which was not only the most active, but scored the most important gain of the day. The baving was largely for the long account, and while the traders were inclined to take profits on the advances the demand was most urgent and the advance rapid, especially during the jorenoon.

torenoon.

The close was quiet, but firm to strong at or about the highest prices of the day. Almost all the active stocks are fractionally higher, but Chicago Gas is up 1½ per cent, and Milwaukee, Lake Shore and Western

preferred, 1½.

The total sales of stocks to-day were 232,021 shares, including: Atchison, 11,710; Canada Southern, 6,700; Chicago Gas, 31,090; Eric, 15,-185; Louisville and Nashville, 4,505; Missouri Ro. Louisvuite and Nashville, 4,565; Missouri Pacific, 5,800; Northwestern, 5,029; New York Central, 4,480; Northern Pacific preferred, 12,900; Richmond and West Point, 9,090; St. Paul, 10,300; Union Pacific, 7,500. Railroad bonds were comparatively more Railroad bonds were comparatively more animated than stocks, and the dealings showed the usual wide distribution without showed the usual wide distribution without any special prominence in any one issue outside of the Chicago and Erie incomes, which contributed \$249,000 to the day's total business of \$2,000,000. The bonds mentioned were especially strong and scored a net gain for the day of 2½ per cent, closing at 47c, the highest price they have attained. Many other marked advances were made, and Hocking Valley 8s rose 2½ per cent to \$2½ Louisville, \$8. Louis and Texas firsts, 2 per cent to \$85; Norfolk and Western, C. V. 5s, 5 per cent to \$4½, and some others of a like character.

The tollowing table shows the prices of active stocks on the New York Exchange yesterday, Corrected daily for Yuz Disparcin by Whitney & Stephenson, oldest Pittsburg members of New York Stock Exchange, 37 Fourth avenue.

THE GROCERY SITUATION UNCHANGED

OFFICE OF PITTSBURG DISPATCH, 1 TUESDAY, Dec. 15. COUNTRY PRODUCE (Jobbing Prices)-The weather this morning proved adverse to trade. Tuesday is, as a rule, one of the good days of the week in produce lines, but a steady drizzle this morning was an unpropitious factor, and as a result transactions were light. A decline of 1c per pound on creamery butter is reported from Elgin. The drop brings prices to where they were two weeks ago, showing that the leadvance last week was ill-timed. As our dealers did not change prices last week on the ad-vance, there will be no change in prices this week. The tone of markets in tropical fruit lines shows improvement as holidays draw near. Apples are heavy stock at prices quoted. The same is true of vegeta-bles. Poultry is in fair supply and prices are barely steady.

APPLES-\$1 50@2 00 per barrel.

CATMEAL \$1 90% 00,

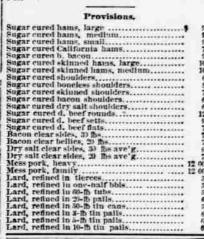

Grain, Flour and Feed. There was a single sale on call at the Grain

Exchange to-day, namely, a car of No. 2 timothy hay, \$10 50. Receipts as bulletined, 36 cars, as follows: By Pittsburg, Ft. Wayne and Chicago Railway, 2 cars of oats 1 of ear corn, 7 of hay, 1 of malt, 3 of flour. By Pittsburg, Cincinnati and St. Louis, 4 cars of hav 2 of corn, 1 of cats. By Pittsburg and Lake Erie, 1 car of cats, 2 of hay, 4 of flour, 1 of wheat. By Pittsburg and Western, 7 cars of wheat. The cereal situation is practically as it was at last report. Wheat and flour are quiet, oats firm and corn fairly steady. Mill-teed is dull at quotations. Choice grades of lay are steady, in spite of large receipts, but common and low grades are weak and lower. Following quotations are for carload lots on rack. Dealers charge an advance on these prices
