around Laurel Hill and between that point and Noblestown, have fallen off very fast in the last three or four days. The owners of nearly all of them are making prepara-tion to tube and pump them. The best Gordon sander in that locality at present is Nolan & Co.'s on the Robbins lot. Green-lee & Forst should reach the fifth to-day in their No. 11, on the Mevey farm, which is located on the southern part of the farm near the Noblestown road. Bartlett & Co., on the Couch lot, will be in the third sand some time to-day if they have no bad luck. The Forest Oil Company's No. 1, on the Margaret McGregor inrm, north of Oakdale, is almost through the fifth sand and practically dry. The same company is spud-ding in its No. 1, on the Sam Sturgeon farm, northeast of Oakdale and just south farm, northeast of Oakdale and just south of the Kemp farm. The Matt Crouse well, at Oakdale, belonging to Gardiner, Snyder & Co., is through the fifth and will not be better than a four or five-barrel well.

Nearly 6,000 Barrels Production.

HARMONY-This section of Butler county is again rising in the estimation of oil producers. It is being thoroughly drilled, and ducers. It is being thoroughly drilled, and it may yet have a production which will rival some of its jealous neighbors. Already it is putting out about 5,635 barrels a day, or nearly double the present production of Wildwood. It is only within the last two or three months that this field has come into general months that this field has come into general notice. For a while last spring and even into the summer it was scarcely deemed worthy of notice, but the opening of the pool to the northwest of Harmony and northeast of Zelienople gave it a decided boom. The following is a list of the wells in the field and their daily production: Kennedy & Co.'s No. 1 Eicholtz; 60; No. 2 Eicholtz, 100. McKinney & Co.'s No. 1 McCurdy, 80. Lockwood & Patterson's No. 1 Eicholtz, 150; No. 2, 200; and No. 3, 200. The Evans City Oil Company's No. 1 Eicholtz, 90; No. 2, 100; No. 3, 200. Sutton & Co.'s No. 1 Eicholtz, 60; No. 2, 100; No. 3, 200. Guckert & Steele's No. 1 Eicholtz, 150; No. 1 Stauffer, 200; No. 3, 480. Golden & Co.'s No. 1 Schiever, 110; No. 3, 960; No. 2, 480. in Alexander & Co.'s No. 1 Schiever, 175, Neice & Co.'s No. 1 Schiever, 400; No. 1 Pfeiffer, 250. Guckert & Steele's No. Schiever, 200, Donaghy & Co.'s No. 1 Halloman, 150. Younkins & Co.'s No. Halloman, 200. Campbell & Co.'s No. 1 Frederick, 150; total, 5,635. Younkins & Co.'s Holloman farm well shows a widening of the pool to the west.

The Marletta Well a Fake.

Last Thursday a report was sent out from Marietta to the effect that a well on the Dyc-Brooks farm, 15 miles from Marietta, near Archer's Forks, was making 12 barrels an hour. Scouts were immediately sent down from Pittsburg. They returned yesterday and reported that the story was a fake, and that there is not the slightest indication of oil at the well.

Gauges and the Runs.

Wells which are not making 20 barrels an hour are not included in the following gauges. The production of the wells mak-ing 20 barrels an hour or more yesterday was as follows:

The South and Trade.

The South and Trade. The Manufacturers' Record has this to say of business prospects in the South: "The past week has shown a very decided in-crease in the number of industrial enter-prises organized and projected throughout the South, and a careful study of the whole interface and of the plans that are being situation and of the plans that are being matured for many others seem to indicate a tendency to a more general activity than has been seen for many months. It is true that there is considerable complaint of dullness and of slow collections in some places, but the outlook apparently shows that the South, in sympathy with the whole coun-try, is gradually entering upon a period of renewed activity, the full force of which will not, however, be seen until after the first of the year, and possibly not until the
