The Coffee Situation.

It will be seen by reference to our home market column that package coffee has been reduced be per pound. T. is was one of the unexpected things that occasionally happens. At latest reports from sources of suppens. At latest reports from sources of supply, markets were reported active and strong, and our dealers have been looking tor an advance rather than a drop. The following from Monday's issue of the Boston Herald indicated strong markets: "Saturday's Rio cable reports receipts at that point of 7,000 bags, with receipts at Santos of 14,000 bags. The total stock is now reported at 232,000 bags; last year 182,0.0 bags. The weekly Rio cable reports the market firm, with exchange at 12d. The dully average of receipts for the week were 9,000 bags; shipments to Europe, 50,000 bags; to the United States, 15,000 bags.

"Late reports make the Rio coffee market strong and steady in New York, with assortments poor and desirable coffees hard to find. The Maracaibo market, outside of the fear that the President may proclaim the duty on it of 3c P B, is steady. The next steamer, due on the 23d, has about 10,000 bags. Good coffees of this class, in fact, all good Central American coffees, are scarce and very hard to find. The entire stock of Maracaibo in first hands is now but 1,310 bags, and all undesirable coffees. There are no washed Bucks, Bogotas nor Guatemalas in first hands.

"Spot stock of Java coffees are somewhat reduced, and prices are some 1/2c higher this week. All the fancy coffees are very firmly held." Heavy Exports of Leather.

## HOLIDAY DULLNESS.

Grain Operators Closing Up Their Dea's Before the Christmas Vacation, Which Lasts Until Monday-All Grains Weak-Provisions Start Well, but Sag Off.

CBICAGO-Duliness and weakness were the leading features of the trading in all the pits to-day. The near approach of the holidays and the disinclination on the part of operators to do more than even up the lines which they already had out, were responsi

which they already had out, were responsible for this state of affairs. This is intensified by the fact that at the close of business. Thursday the board will adjourn until the following Monday, and operators deem it imprudent to have out unprotected trades in the meantime, either short or long.

Wheat was dull and weak almost from the opening till the close. Nearly all of the news favored the bears, and the extreme narrowness of the market tended to depression. The opening cables were ½d. lower for Liverpool and all domestic markets showed a downward tendency. New York taking the lead. Longs were more discouraced than ever and sold freely, while the buying was slow and cautious, concessions being necessary in order to attract buyers.

aged than ever and sold freely, while the buying was slow and cautious, concessions being necessary in order to attract buyers. The Mark Lane Express, in its review of the British grain trade, however, gave the bears some comfort. It said that the reduction of 8d. in the price of wheat during the past week, was due to the inferior quality of the receipts and that there was a shortage of 16,000,000 bushels in the supply owing to the cutting off of Russian wheat, but that America was expected to make this up. There were some attempts to check the weakness by the circulation of crop damage reports, but they had little or no effect.

May opened at 95%c, against 97c at the close yesterday; touched 95%c a moment, sagged off without material reaction to 96c, reacted slightly and closed steady at 96%c. The receipts of corn were about 200 carloads in excess of the estimates, and the late improvement in the grading was continued. This, together with the weakness which ruled in the other pits, caused depression. Longs were disappointed at the failure of the anticipated squeeze in December, and threw their holdings over, while short selling was also free and at times aggressive. The weakness increased as the seasion progressed, under increased liquidation by longs, and the close was about at the bottom figures of the day. December shows a loss of 24c. Oats dull and without feature.
The light receipts of hogs, together with higher prices at the yards, lent a temporary appearance of strength to the market for hog products at the opening, and lard had the additional stimulus of an advance of 3d in Liverpool; but packers offered freely, and the grain markets turning weak provisions followed and slowly sagged off during the remainder of the session, closing at about the lowest prices of the day.
The leading futures ranged as follows, as corrected by John M. Oakler & Co., 45 Sixth street, members of the Chicago Board of Trade.

### THE GOULDS TURN BULLS.

MISSOURI PACIFIC LEADS IN A STRONG SHARE MARKET,

Every Stock but Richmond and West Point Buoyant -- Monday's Realising Sales Retard the Advance in the Morning-Vanderbilts, Grangers and Special-

NEW YORK, Dec. 22.-The stock market was again decidedly strong to-day. While the amount of business done was maintained at the largest figures, the result of the day's operations being to lift the entire list, many of the active shares and several of the less prominent stocks were advanced heavily. The day was marked by a renewal of the late buying for inside ac-count in many of the leading groups of stocks, the Goulds being specially conspicu-ous for strength, the effect was enhanced ous for strength, the effect was enhanced by their late sluggishness in the face of the general strength of the market. The parties who are in control of those properties were credited with entertaining a much more bullish feeling on the market than of late, and rumors of negotiations looking to the sale of the Treasury assets of the Missouri Pacific in order to wipe out the floating debt and so open the way for a resumption of dividends were circulated with some effect yesterday.

The realizing sales of yesterday had their effect this morning in sales apparently largely for European aecount, but this movement was of comparatively short duration and the offerings were quickly absorbed, when the whole market gathered strength and the upward movement then inaugurated

ment was of comparatively short duration and the offerings were quickly absorbed, when the whole market gathered strongth and the upward movement then inaugurated lasted till the close of business.

There was fresh bullish talk from the Grand Central depot and New York Central for a time led the advance, when it reached nearly to the best price of the year. The buying by the West was most noticeable, and the Grangers were again very prominent in the dealings, and among the low-priced shares Omaha was the leader in point of advance. The Richmond and West Point securities were more or less prominent in the market than for a few days past, but the common stock and the bonds were active, while the stock showed some weakness after its substantial position of yesterday. The Cotton Oil stocks were again strong and reached the best prices since the reorganization, notwithstanding the denial of the rumor of a dividend on the preferred at an early date.

rumor of a dividend on the preferred at an early date.

The general list opened down on the heavy pressure to sell, and while most stocks yielded small fractions, Delaware and Hudson lost I per cent. The market was held well, however, and evidences of support in the leading shares early became apparent. The whole list gradually gathered strength, and before noon the upward movement was in full swing, with Missouri Pacific easily the leader. The Vanderbilts, Grangers and specialties joined in, and the last to show the effects of the new buying were the Villards, Northera Pacific preferred becoming the special feature of the market in the last hour.

the special feature of the market in the last hour.

Everything but Richmond and West Point shared in the movement, and the market finally closed active and strong at the highest prices of the day. The final gains are generally for substantial amounts, and dissouri Pacific is up 3½; Chicago Gas, 1½; Northern Pacific preferred, 1½; Burlington, 1½; Cotton Oil, 1½, and New England and Union Pacific, each 1 per cent.

The total sales of stocks to-day were 385, 685 snares, including: Atchison, 17,180; Chicago Gas, 18,055; Delaware, Lackawanna and Western, 8,350; Eric, 31,810; Louisville and Nushville, 3,500; Missours—Pacific, 43,930; Northwestern, 4,183; North American, 8,771; New York Central, 3,580; Northern Pacific, preferred, 27,450; Reading, 5,825; Richmond and West Point, 25,564; St. Paul, 39,500; St. Paul and Omaha, 9,380; Union Pacific, 11,235; Western Union, 4,991.

Railroad bonds were still largely traded in at advancing prices, but the upward movement was not quite so pronounced as that of yesterday. The marked gains were many and substantial. The sales reached \$3,014,000, out of which \$315,000 were in Richmond and West Point 5s, \$215,000 in Northern Pacific 5s, and \$167,000 in Atchison incomes. Chicago and East Illinois 6s rose 2½ to 122½.

OFFICE OF PITTEBURG DISPATCH, TURSDAY, Dec. 22. COUNTRY PRODUCE-(Jobbing Prices)-The steady drizzling rains of Tuesday proved adverse to trade in this line. Markets are amply supplied with everything in fruit and vegetable lines, with the exception of poultry. Of the latter there is plenty pointed in this direction, and there are no fears of a famine. In the meantime prices are a shade higher, as our quotations will disclose. At the Monday sales at Elgin prices of last week were maintained. Country butter continues to be a drug on the market, and prices of low grade stuff are merely nominal. There is still a plethora

of Florida oranges, with markets in favor of the buyer. Other tropical fruits are fairly steady, and choice bananas are very firm. APPLES—\$1 50@2 00 per barrel.

There is nothing in a physician's life that gives him more satisfaction than seeing the prompt effect of Scott's Emulsion of cod-liver oil in bringing back plumpness and color to thin and pale children.

"Poor baby!" Everybody sees the sad picture. No one but the physician appreciates it. He knows what dangers threaten thin children.

Let us send you a book about thinness.
