SUNDAY SCHOOL CHILDREN MADE HAPPY Bright Musical Programmes Prepared for To-Day'

Special Services.

Christmas, preceded by the meanest kind of weather and sloppy streets, came in last midnight on scheduled time just as quietly and peacefully as Christmas has come for the past 18 centuries or more. The stars did not sing, or, if they did, they were so hidden by the clouds that their songs were only for other worlds. Despite this direliction on the part of these astral orbs last evening the lights from scores of churches shone out, and from within came a song of happiness and a knashing of teeth on last summer's crop of peanuts and candy kisses. ing musical programme for St. Andrew's Episcopal Church this morning. His Neighborhood Happy.

All day yesterday, and, in fact, all week, the streets have been almost impassible, and yesterday they were hardly able to hold the immense volume of people. They overran the stores, and all was bundles and people as far as the eye could reach. The day had been a great one for the shopkeepers, and when, long after 11 o'clock, they closed their doors and looked from the empty counters to the overflowing caffers, each counters to the overflowing coffers, eac heaved a sigh of contentment and classically remarked: "Let her Chris!"

James Sterling, the Author, Will Feast.

To day will be one out of the usual for all. The meek and lowly saloon, as well as the high-spired church, will take on its holiday attire, and a new happiness in some form will come to everybody. The inmates of each institution will enjoy a red letter day. At the workhouse Christmas will be the brighter, because each man under discipline will be released. Even James Sterling, the author, will be called from the white house and his diet of bread

and water to enjoy himself with turkey and plum pudding. Such will be a part of Christmas presents Superintendent Hill will give to the inmates of that institution. There will be special services to-day in all the churches. The musical features will be

unusually good and the decorations will be beyond anything ever known here before on Christmas day. Yesterday there were dis-tributions of candy and presents in many of the common schools, while at night the church celebrations were held.

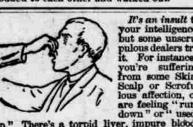

The East End, with its usual advancement, will be prettily represented at the Shady Avenue Baptist Church. Near the Shady Avenue Baplist Church. Near the pulpit has been built the home of old Kris Kringie. Everything within is arranged true to all the lore that has been handed down for centuries about this famous phildown for centuries about this famous phi-anthropist. Even a bright fire will burn in the fireplace through which he is to come down. As the house is not big enough to hold the presents there is also a Christmas tree. The service will be held there this evening and will consist of a vocal and literary entertainment.

The prettiest feature was the fireplace. Each brick was hollow and filled with candy, and at the close of the entertainment it was torn down and distributed. The great feature of the evening was the long-distance telephone over which came at regular intervals bulletins as to the progress of Santa Claus. Nearly 1,200 children were treated last evening at the Butler Street M. E. Church, J. W. Fulson, Assistant Superintendent, made an address, after which a chorus of 550 little children sung a Christmas hymn. Rev. Mr. Oldham distributed the presents, and then each of the children laid on the platform an offering for the poor of Law-renceville. These gifts will be distributed this morning by Mrs. S. THE POSTOFFICE RUSH.

All the Records Broken in the Amount of Business Done,

The heaviest holiday basiness ever done at the Pittsburg postoffice was that of the past ten days, particularly yesterday. Postmaster McKean says the postoffice handled more stuff yesterday than all the express companies in the city combined. When it is considered that none of the postal packages weigh over 40 pounds, and that few weigh more than one pound, the enormous number required At the Smithfield Street M. E. Church to make a tonnage equal to one express company's business can only be imagined. The special delivery business was also ex-traordinary. In one half-hour a count was kept, during which 140 special delivery letkept, during which 140 special delivery let-ters to go out of town were mailed. The rate for the greater part of the day was about the same. The special delivery for the city surpassed any previous record, the total for the day being about 600 packages. Notwithstanding the enormous increase in the business it has been handled with better suitification to the part flow mark better satisfaction to the postoffice people and the public than ever before. Not a single complaint has been made for the past ten days, an unusual circumstance at this season. For more than a week past 15 men have been taken from their regular places

have been taken from their regular places in the postoffice and located in the corridors to assist people in mailing and sending away mail packages. Long tables were placed in convenient places in the corridors with pens, ink and blotters. The corridor men were provided with scales and weighed packages, stating the amount of postage required, and one was only required to step up to one of the numerous stamp windows and ask for the proper number, thereby saving much time proper number, thereby saving much time and annoyance. This convenience pleased the people, and commendations of Post-master McKenn's thoughtfulness were numerously heard. The Postmaster himself numerously heard. The Postmaster himself with his assistants, Edwards and Colville, were in the corridors all day yesterday assisting people with the mailing of their Christmas packages. The employes were all on double duty, working 24 hours without rest, and they will welcome the rest they will receive to-day.

The Expressmen Had to Hustle.

The Adams Express Company handled 150 cars of express matter each day since Monday at the Union station. This is the Monday at the Union station. This is the largest amount ever handled at the Christ-mas season, and Superintendent Glenn says in regard to it: "We have been working night and day with an extra force. The large number of Christmas gifts being ex-changed is an evidence that the people are prosperous and plenty of money is in circu-lation. We will handle much extra matter until after New Year's which will mainly be sent persons in return for favors from unexpected sources."

Donations for the Poor.

Yesterday was a busy day at the office of the Society for the Improvement of the Poor. A very large number of donations were received, consisting of groceries, fruit, nuts, clothing and other articles. They were confined almost exclusively to private individual contributions. One exception was from the Sunday schools of the city. These were filled with the same articles.
