NON-UNION LABOR WAS EMPLOYED.

First I'my of the Strike on the Second

Avenue Electric Line. INDUSTRIAL FEATURES OF INTEREST

The new Thirty-first ward schoolhouse is approaching completion, but before it is occupied by the young idea there is likely to rectors and the citizens of the ward. The latter emphatically object to the non-union raising and unique boycott is likely to ensuc. A score of years ago, when the hill districts facing the Monongahela on the Southside, were folded within the loving embrace of Pittsburg by consolidation, the districts referred to were considered subto the residents than the ward number.

The new district had hardly entered into municipal grace when it was discovered that a new schoolhouse was badly nee ed. that a new schoolhouse was badly nee ed. burned down. I do not anticipate any trouble. I do not care to say why the nine accommodate the throng of youngsters then attending, and day by day increasing in So n new building, a frame running of right rooms, was erected on Washington avenue. The rooms were large, nd it was thought the building would be capacious enough for many years to come. But the district grew rapidly, and it was only a few years until the attendance fairly bulged out of the doors and windows, and one accommodation had to be provided. A piece of property was bought on Allen avenue, a short distance above Washington, and a brick building of four rooms built thereon. The architecture of the new structure was neither Corinthian, Doric or Gothic. A citizen rather vaguely termed it a sort of "bere and there" building.

arrived at a critical age crowded in, and it was not long until it was as full and flowing over as the other one. Then rooms in the G. A. R. building on Arlington avenue were rented, and still later more rooms were nequired in Director Charles Magle's house. And still additional pupils kept coming, and the capacity of the four different buildnes was not nearly adequate to the demand ainde upon them. The school directors of the district then took the matter in hand, finally decided to erect a structure to cost about \$40,000, and selected their Allen avenue property as the location.

Then the fun began. Alien avenue at the point adjoining the school property is a verifable tobogran, so far as the grade is

concerned. It is not paved and during the ter senson a bridge would be required to ss it. Then to get at the foundation, the apper end had to be dug out nearly 20 feet to depth and a heavy wall of the same wight placed at the lower side to even It took a large force of men three contas to do the grading. everything went on briskly enough. The

The relief association of this road was organized November 17, 1891. By a
strike since the spring, applied for work
on the building. It is claimed their applications were refused, and howls of wrath
were beend. To use the language of a Mr.

January 1, 1892. By the resolution also Here I am, a property owner and a tax-

payer. I am assessed to pay for that building, and am not allowed to work on it, men from Philadelphia, Johnstown other points are brought on here to do

I shall consider the matter before I will consent to pay a single cent of tribute toward paying for it. I am plainly a vietim of a conspiracy against my rights. I also voice the sentiments of a large number at different emission in the matter. With shool built in such a manner. I shall find means to pay for my children's tuition at some other institution, but go they shall no to a school held within walls built by

Many of the Same Oninion. A number of others were spoken to conrecruing the matter. Not one felt kindly reward the non-union laborers employed. The large area reporter was given to unerstand that a preconcerted movement and he made at the coming election to reand diverge be part where it is or permitted vincent of non-union workmen. The interesting part of the matter is that every rec ars belong to labor organ rations, the President being none other toan M. M. Garland, First Assistant Presion of the Analgamated Association of ron and Sceel Workers. Mr. Garland and Mr. Charle, Magli's terms end the coming rear. Both have hitherto been very popuor in the ward. The labor issue has ready been mised. The bricklayers of the district will make a strong fight, according to their assertions. They will ask outside organizations to aid them.

Mr. Garland was called upon in reference he trouble. He refused to believe that the dissatisfaction amounted to much. He new that it existed, but had not worried imsel, concerning it, as he was confident - board had acted properly in the matter. Efforts but been made to gain the consent of the contractors to employ only union men before the contract was let. The request was conceded in every case, except-ing that of the bricklayers. The attorney for the board was consulted, and he de-cided that they could not legally stipulate in the contracts for union workmanship. Such an action would be exceeding their authority as a factionless body elected by people. Any attempt at coercion would mier them amenable to legal proceedings. was only then the contracts were given

out, and that with reluctance.

One of the oddest features of the affair he determination which a number have arrived at to boycott the building. If exressions of opinion can be accepted there to the slightest doubt but that this Some hold such pronounced that they will not, under any reduces, permit their children to be any ununimity in this opinion it is possible the school board of the Thirty first wird will have some improved property to dispose of in the near future.

THE FIRST GRADUATION.

visited place vesterday. The stream of vishors poured into the building to view the work done by the graduating class in the brick-laying department. Three toenths are ten boys, whose ages range from 15 to 20 years, started in as green ands at the business and to-day there are acceptal creditable samples of their work on exhibition. Their work has all been in the line of building ministure house fronts, and the curves, ornamentations, etc., are as well done as veterans in the busines

them diplomas and formally graduate them. The Exchange has secured them work with the best contractors in the city. It will now start another class. The contractors have agreed to give all graduates of the school \$1 per day for the first year, \$1.50 for the second and for the third \$2. The three months spent in the school will be taken off the three years' apprenticeship.

The public is invited to visit the school and inspect the work.

WAR ON THE SECOND AVENUE.

The Company Says There Is No Trouble but the Strikers Tell a Different Story-A Boycott Declared-The New Men Are Hooted.

The Second Avenue Electric Street Railway Company is in the heart of a full fledged strike and boycott, but not a tie up. he war to the knife between the School Di- Yesterday morning about 20 conductors and motormen, in accordance with the decision arrived at the meeting earlier in the mornlabor complayed on the new structure and ing, refused to go to work. The company several other features. A political scalp- was ready for such an emergency and drafted in enough men to operate five cars.
In the afternoon a DISPATCH reporter found Superintendent Barns out at the car sheds, and concerning the strike said: Not Considered a Strike.

"I don't consider this a strike. The fact districts referred to were considered sub-urban. At that time the present Thirty-first ward was called Allentown. The name clings to it yet, and it is better known to the residents that the ward number. but seven cars running, but this afternoon we have 10. This is the largest number that has been in operation since our car stables men were discharged. As I have said be-tore, every employer has a right to employ

and dismiss who ever he wants to."
All along Second avenue the new con ductors and motormen were hooted and called "scabs," but with this exception the crowd was orderly. One of the new con-ductors told a DISPATCH reporter that he had not be molested yet. He said the company had taken every precaution to protect its men, and an officer in citizen's dress would on duty in every night car as long as the strike lasted.

A Striker Tells His Side.

One of the most prominent of the strikers had this to say: "All the union men on the road but four came out this morning. One of this number is Dennis Friel, a well-Structure was neither Corinthian. Doric or Joshic. A citizen rather vaguely termed it a sort of "here and there" building.

Plenty of School Children There.

Nevertheless, the children who had not arrived at a critical age crowded in, and it was not long until it was as full and flowing two as the other one. Then rooms in the case had been as the other one. Then rooms in the case had been as the other one. Then rooms in the case had been as the other one. Then rooms in the case had been and a motorman on the road, who said he would quit work, but this morning when our committee waited on him, he said: 1'll take my car out if I am the only man on the road. Neuton Caseby and C. D. Myers, both officers in our assembly, are alleged to have given the minutes of the meetings to Superingedont Barras. They are working Superintendent Burns. They are working to-day. Michael Brady also claimed to be

with us, but he is working to-day.
"Our committee posted notices up in
Moorhead's mills and all the works along the line, telling the men not to patronize the road. To-night we will post up circulars all over town, asking the people not to travel on the road until the strike is declared off."

The Baltimore and Ohio Railroad officials were seen, and they said that no extra accommodation trains would be put on. In
case that the boycott against the road was
effective they will put on extra cars between Pittsburg and Hazelwood. The road
issues a monthly ticket that makes the fare about 1015 cents for the round trip.

THE FIRST BENEFITS ORDERED. A Kind Act of the Citizens' Traction Relief

Association. There was a special meeting of the Citi-

builders kept right at work and the con-tractors promised its completion several reports before the time specified. The stone-the East Liberty car barns last night. The masons came. They were all right. Then the carpenters. They were all right. Then ing the recent death of two of their number, the carpenters. They were all right. Liberty, the bricklayers. They were "all wrong," to use the phrase of an indignant worker of that craft.

When the time came for operations to When the time came for operations to The relief association of this road was or-

were heard. To use the language of a Mr. Elcock, a citizen and union bricklayer, who death of one of their number, and \$37.50 \$150 was to be paid to the family at the death of one of their number, and \$37 50 for the death of a child of one of their number

Neither Clark nor Corry were members of the Association, but had applied for membership, and would have been installed to-day. The meeting was called to reconsider the resolution concerning the time of payment. The resolution was considered, and it was decided, on account of the destitute condition of the deceased men's families to pay the full amount \$150, to each of the deceased men's wives. It was also decided to pay to R. J. Caldwell, who recently lost a child \$37 50. To each of these sums John G. Holmes added \$10.

ELECTRIC CARS TO M'KEESPORT.

The Birmingham and Second Avenue Traction Companies Heading That Way. Two through electric roads from Pittsburg

to McKeesport are on Pittsburg's possibility slate. One of them at least seems to be a certainty. It is well known that both the Pittsburg and Birmingham and the Second Avenue Traction Companies are going to run lines to Homestead. The Birmingham has already received the right of way to run through the town and the Second Avenue Company will in a few days. It was reported yesterday that both companies would eventually get through lines to McKeesport. H. Sellers McKee, of the Birmingham Company, was asked whether the report was true, and he said: "It is too soon to talk about it yet," but added with a significant look, "it's cooking, and I can tell you more about it again.

Superintendent Burns, of the Second Avenue line, verified the report to the ex-tent that his company had been out looking over the ground, and he thought it would eventually get a line to McKeesport.

Largest Chimney Works in the World. Theodore Langenbecker, manager of George A. Macbeth & Co.'s Ellwood chimney house, who has spent the week among former Southside friends, will return to Ellwood to-day. He says the factory has been closed down for the holidays but will resume operations on Monday. Some im-provements in the shape of a new furnace are talked of, and when they are made Mac-beth & Co. will have the largest chimney establishment in the world.

The Price of Airbrakes Tumbles. The Westinghouse Airbrake Company has reduced the price of its airbrakes for locomotives and freights. The principal reduction was in the quick-acting brakes for freight ears, they having fallen from \$45 to \$40 per set. The reduction is due to the new machinery and increased facilities of the Wilmerding works.

A CROWDED CAR SUIT.

A DESCRIPTION OF THE PERSON OF

The Injuries Caused by a Crush the Rasis of a Damage Case.

CHARGE MADE BY JAMES E. RILEY

A Man Fjected From a Train After the Fennsylvania Company.

THE PROCEEDINGS OF THE COURTS

James E. Riley yesterday entered suit against the Citizens' Traction Company for \$2,500 damages. Riley states that on December 5, 1891, he got on a car at Fertyfirst street to go to town. The car was crowded with more passengers than seats could be provided for, and Riley had to stand. At Thirty-ninth street, as the car was turning a corner with great speed, it is alleged, Riley was thrown off and into the gutter. His spine was injured and he was otherwise severely hurt.

Charles Read yesterday entered suit against the Pennsylvania Railroad Company for \$2,000 damages. Read states that on December 17 he was engaged by Michael-Wolf & Son, of Baltimore, to go with a carload of horses and mules shipped from Pittsburg to Baltimore. The car was shipped that day and Read went in the car, having been authorized by the railroad company to do so. He reached Marysville all right, but crews were changed there and the conductor put him off the train. He only had 20 cents when put off the train. He walked 15 miles through the rain, when he was enabled to get on a freight train and

ride to Altoona.

There he was near getting arrested as a tramp. He then footed it from Altoona to Pittsburg, arriving here on Christmas night. He was sick from exposure and a cold had settled on his lungs from which he believes he will never recover.

The Reports of Viewers.

The reports of viewers on the assessment for the construction of a number of sewers were filed yesterday. They were confirmed nisi to become absolute in 20 days unless exceptions are filed. The sewers in question are those on Ann and Marion streets Webster avenue and Kirkpatrick street, Hemans and Kirkpatrick streets and Center avenue, Henry street, Kirkpatrick street, Wright's alley, Shipton street, Spring alley, Boquet street and Craig and Forbes
