

THE NEWS LEAD. But Some of Its Important Events are Living Forces in the World's Work.

HISTORICAL REVIEW OF '91. Condensed Chronology of Happenings—Bringing Weal and Woe.

MAINLY PORTRAYING PROGRESS. Valuable as Reference List and a Dispatch Index.

TO PRESENT AND COMING GENERATIONS.

GENERAL CHRONOLOGY.

Another year is dead. To the vast cosmic

view, which takes sweeping cognizance of

great eras and cycles of time, the uni-

verse and of the laws that God

from our whole hand

"The centurial grains of sand," it

is only the vestiges of time, but to

the finite, practical, work-day, world

watching view, it is a very con-

siderable lapse of life that has gone

by, and, in a certain sense, is dead with

the year 1891. Yet, in another sense, the

life that has passed is dead, for the multi-

far experience that has been gained dur-

ing the going by of the year has its influ-

ence in the future of every individual.

Something in the same way the year,

though it has died, has come in as a

fact or events are innumerable, and

the occurrence of one year send their inex-

orable current of cause and effect through

successive ones across the centuries.

Not all are evil in this, but of so

many that possible gravity of effect should

make one respect and study the cause as

it occurs, and endeavor to find the

thoughtful reader will often, in glancing

these broad pages, find that there is much

written between the lines in this "abstract

and brief chronicle of the times."

It is written to facilitate refer-

ence, the condensed review of the year's

history is divided into departments of

chronology, general and local, political hap-

penings and occurrences, and illustrative

chronicles of each day usually chosen from

the mass of news because of value from a

view point of permanent record, of transi-

ent interest, and, the fourth, containing

day by day, the names of those who have

died—that is, the most prominent ones

in the world at large, and the more widely

known of those in the two cities and the

region round about.
