FEATURES OF MONEY AND SPECULATION

Mr. H. S. A. Stewart yesterday closed the sale of an elegant residence property, corner Negley avenue and Baywood street, East End, for \$17,000. The lot is 65x150 feet and the house a brick two-story Queen Anne, with stone trimmings.

An Interesting Rumor.

It was rumored yesterday that there was a movement on foot by some Eastern business men (going to the fact that they cannot get buildings large enough and sufficiently modern and central enough to accommodate a large business) to lease ground in this city, for the purpose of building a suit for their purposes.

Rapid Transit Development.

In no city in the country is rapid transit so important a factor in material development as in this city. It is the most worked wonder in enlarging the residential area, but still greater results are looked for as the system is extended and strengthened.

Business News and gossip.

New York stock quotations were shortened somewhat yesterday by the snowstorm. In nearly all cases new leases of downtown property are advances over the old rates.

Movements in Realty.

Charles Somers sold for C. Limburg to J. P. Somers, a two-story building on the corner of Biwood street and Pennsylvania avenue, Allegheny, at a price approximating \$20,000.

POULTRY SUPPLY BELOW DEMAND

The first effect of the snowstorm was quieting to trade in this line, but good results are looked for by dealers, if the winter weather happens to have a staying quality. Supply of poultry is scarcely equal to demand all this week, and dressed chickens are particularly firm.

Bank Clearings.

CHICAGO—New York clearing cut at 400 per cent. New York clearing, \$1,400,000. At banks firm, New York clearing, \$1,400,000.

SIXTH SOIL FOUND.

IT WAS STRUCK IN HITE & BROTHER'S WELL, NEAR LAUREL HILL. The Golden Farm Well Shows Oil in the Fifth Sand—Two New Gordon Sanders Brought in Yesterday—Big Wells Suddenly Stop Flowing.

There were several wells drilled to the sands in the McDonald field yesterday, but the sensation of the day was at Hite & Brother's well, on the Covick lot, north of Laurel Hill, where a light oil was struck in the fifth sand and the well was determined to drill on to the sixth sand.

More Gordon Soil.

King Street well, south of the Hill, located on the north side of the railroad between McDonald and the Nickel Plate tipple, also tapped the Gordon soil.

Two Wells Quit Flowing.

A remarkable feature about this field is the suddenness with which some of the big wells cease flowing entirely. There are at least 400 wells in the field, and it is estimated that while it was doing from 25 to 40 barrels an hour, this record has been broken by the Oakland Oil Company's No. 4 on the Mevay farm.

Grain, Flour and Feed.

At the regular call there was little spirit shown. Buyers were not very active, and their views, and no sales were made. All cereals are weak, with a tendency to lower prices.
