IN PITTSBURG'S HANDS

Rests the Price Fluctuation of Pig Iron at the Present Time.

NO MOVEMENT IN THE MARKET.

Enles of Stee! Fails Not Likely to Cause Much Excitement.

THE FOREIGN MARKET EQUALLY DULL

PRESENTAL TELEGRAN TO THE DISPATORAL New York, Jan. 7.-The Iron Age will to-morrow review the metal markets as

American Pig-As yet no movement of nny consequence has taken place in the market. There seems to be less pressure to sell Bessemer and special irons, on account of the reported advance in Pittsburg. That advance does not, however, appear to be thoroughly established yet, since \$15 has been named within three days, when the parties negotiating came down to close business. Southern iron continues business. Southern from continues fregular, with pressure to sell. We Northern brands: \$16 75@18 00 for No. 1: 810 006816 50 for No. 2, and \$14 00@14 50 No. 1: \$10 005240 30 for No. 2, and \$11 00524 30 for gray torge. Southern iron sells at \$16001 for No. 1: \$15 25016 03 for No. 2 and \$15 75014 30 for gray forge. The production of coke iron, including the stacks so grouped by us in our mouthly reports, was 3,500,000 tons; that of authoracite pig, \$75,000 tons, and of charcoal, 250,000 tons, unking a total of 4,655 000 cross tons, or, roughly, 5,200,000 net tons—the net ton being unfortunately used by some statisticians.

- no movement whatever in foreign spiegel-ssen, while in foreign ferro the market is as andstill. Importers cannot meet the ces being made in the West by domestic purfacturers, who take all the business in that section, which consumes the largest quantity of ferro. Importers claim that they cannot do better than \$22.00362.50 for ferro, \$23.00623.50 for 10 and 12 per cent, and \$26.75627.00 for 29 per cens.

The littsburg Advance Not General.

Billets and Rods-It is reported that considerable sales have been made in Philadel-phia territory, while little has been closed in this vicinity. The Pittsburg advance does not seem to be general with the producers of that district. When it is a question of reaching into Eastern competitive terri-tory there is some disposition to make old prices. We learn that \$24 has been shaded a quotation on orders emanating outside e l'ittsburg district. Foreign biliets are sil at nominally \$30 7.56.31 00, and American ire rods are \$37 00.037 50 tidewater nom-

eel Rails-Since the placing of the New steel Rails—Since the placing of the New ork Central order altinded to in our last same, there have been no sales of any magnitude. Among the smaller current transctions we note a lot of 1,800 tons for a Floria road. Some very surprising blunders are been underly the Engineering and Mining Americal in a reference to the statistics of well rail trade. Our cotemporary states that he production in 1800 was 2,005 996 tons, when, a a matter of fact, it was 1,85,307 gross tons in that year. The same statistician places he production of 1891 at 1,690,000 tons, in moranize of the fact that the shipments, is reported by the association, cover only gnorance of the fact that the shipments, is reported by the association, cover only rails of standard section. Up to July 1 of not year the shipments were 454.23 tons, wants, of the first half year, reported a rail and action of 515.78 gross tons. This is a material while overy one in the rail trade is horoughly familiar. The light rail output arries the product up to at least 1,225,000 and. The failing off in product was therefore only 600,000 tons, and not a round milion, as our coteniporary unts it.

Little Doing in Manufactured Material. Manufactured Iron and Steel-Aside from sale of a lot of 300 tons of beams for the incoln deposit building, no transactions of I material, the mills and merchants gener-ly reporting the trade very dull. The fig-ess for the production of American beams

re 2000 runs.

If the price of merchant bar copper there is been a rise to £47.78 6d for prompt deery, tollowed by reaction of about 15s, a Stronger tone and advance in price where parily to speculative buying, some which is said to have been for account of made beloed the market. The decline during the last few days was due to somewhat early rentizations by speculative holders, also of futuace renterial during the past orinight facinde 200 tons Montana matte at sper unit. The visible supply decreased arms and spot stocks 369 tons last month. There has been more inquiry for tin plate, hiefly from San Francisco, without much cural basiness resulting. Ternes and lower rade charcuals are in rather better reject.

The Metal Markets.

New York, Jun. 7.—Pig fron quiet; American, \$15.75=17.75. Copper dull; lake, January, \$0.70. Lead quiet and steady; domestic, \$4.25. Tin quiet; Straits, \$19.90.

Lambs in light supply and firm; common to choice, \$4 00@6 00 per 100 pounds.

WHEAT FALLS BACK AGAIN.

The Government Crop Report the Last Straw Which Breaks the Camel's Back -Corn Easy-Oats Lower-Hog Products

Fluctuating With the Grains. CHICAGO-The bull feeling which prevailed in the wheat pit yesterday all evapo-rated over night, and the sentiment to-day was decidedly bearish. The close was weak at a net loss of 214c as compared with yesnt a net loss of 24c as compared with yesterday's. There were several bearish pieces of news, but the potential one was the Government estimate on the last season's crop. The market has been for months staggering under the load of the enormous crop—generally estimated at 60,.000,000 bushels—and the Denartment of Agricultuse pilea about 12,000,000 on top of that. May opened 4/c lower at 35/c, fluctuated for some time between 94/c and 99/c; then grew decidedly weak, and without material reaction broke to 35c, recovering some, but closing weak at 35/4c.

Corn was fairly setive, but easier, chiefly in sympathy with the depression in wheat, but there was not the same discouragement. The Government report gives the crop at 2,052,000 000 bushels, or 15 600,000 less than generally computed, and the export demand

2,062,000 000 bushels, or 15 0.0,000 less than generally computed, and the export demand continues good. May started at 41%c, fluctuated down to 41%c and closed at that.

Outs quiet, in sympathy with wheat and corn, and closed with a loss of %c.

Hog products opened lower, but there was fair buying at the reduction, and an advance was scored. This was met by free offerings by packers, and the market sagged off again.

There were some further fluctuations within

There were som a narrow range, losses compared The leading fu rected by John M, members of the Cl	and the with yes tures rang Oakley &	close sterency red as f Co., 40	was nt ollows. Sixth	as cor-

GOOD LUCK AT BLAIR.

The T. Campbell Company's Gas Strike Opens New Territory.

OUTSIDE BUSINESS SHUT OUT. No Material Change in Rents for Dwell-

ings Expected This Year.

FEATURES OF MONEY AND SPECULATION The gas well struck on Wednesday at Blair station by the T. Campbell Glass Company is a regular roarer. It can be heard for half a mile. Gas was struck at a depth of 1,200 feet, and is regarded as the lively vaporings of a large pool further down in the regular gas stratum. The well will consequently be drilled deeper. This is the only gas well in that vicinity, and derives special importance from the fact that it promises to open up an extensive gas field to supply fuel for the industries located thereabouts by the Blair Land Company. A number of capitalists are awaiting the

utcome of this strike with great interest. Business Heavily Handicapped. The publication in this column yesterday of a report, apparently reliable, that certain Eastern business men, unable to secure suitable quarters in this city would lease ground on long time and build to suit them-selves, caused considerable talk among owners and agents of down-town proper.y.

owners and agents of down-town proper.y.
One of the latter sand:

"This is an important matter. Owners talk about and rejoice over Pittsburg's material growth, but do nothing to help it along. The business area is large enough, if it could be fully utilized. But there are so many worthless buildings occupying commanding sites and locations, fit for scarcely anything, that there is a positive famine in this line. These places are occupied for the most part by small traders, doing a business of a few thousands a year. If they were replaced by modern stores large interests would take the place of small ones, which would do as well on side streets, ones, which would do as well on side streets, and the volume of trade be greatly increased. The pressure for business space is greater at this time than ever before. Almost every real estate agent has applica-tions from outsiders for stores and ware-house. Inability to meet this demand is a serious obstacle to the welfare of the city. No other city with which I am acquainted

is thus handicapped."

The fact that outside capital and enterprise are seeking entrance denotes faith in the stability of Pittsburg's activities, and should be an incentive to owners to make reasonable exertion to accommodate all who desire to come in and contribute by their means and skill to the general prosperity.

Comfort for Tenants. Several of the leading real estate brokers spoken to vesterday advanced the belief that rents for small and medium-sized dwellings will not be increased much, if any, this year. The supply of such houses is limited, but as they are occupied by a class whose ability to pay more is ques-tionable, it is thought that owners will be content with present rates. Some particular districts may be affected,

may rest assured that there will be no general advance. Business News and Gossip. It was reported yesterday that an offer of \$3,500 a foot had been made for a property on Fourth avenue, presumably between Wood and Smithfield streets. Nothing more could When outsiders have to erect their own

but from all that can be learned tenants

business stands it is high time owners be up and doing. It is thought the Gusky subdivision on Perrysville avenue will be sold out and built up this year. There is no finer residence lo-cation on the avenue.

The railroads are earning big money and putting a large portion of it into construc-tion work and improvements. Shareholders have solid grounds for expecting large re-turns this year. turns this year.

Property on Bailey avenue, Thirtieth ward,
Mt. Washington, is held at about \$70 a foot The avenue is unpayed.

front. The avenue is unpaved. This is nearly on a level with Oakland prices. The National Cordage Company will to-day declare its usual quarterly dividends of 2 per cent on the preferred stock and 234 on the common.

The statement of the earnings of New York Central is almost a new revelation of the especity of railroads to earn money, namely, \$40,000,000 for the year, against \$33,000,000 two years aro.

Louis Walzer has sold a business property on Main street, Sharpsburg, lot 20x90, to George Hahn, for \$5.600.

At the last call yesterday Birmingham bonds were wanted at \$334. The stock was offered at 18%.

bonds were wanted at 180%. The stock was offered at 181%.

New York was strong and active yesterday. Distillers and Cattle Feeders' Trust advanced 1 per cent.

The annual meeting of the stockholders of the Pittsburg Plate Glass Company will be held at Creighton Tuesday, January 26, at 11 Three building permits were issued yes-terday for the same number of small im-provements, the aggregate cost being \$2,250. The American Iron Building and Loan Association, of Pitsburg, capital stock \$100,-000, was chartered yesterday.

Movements in Realty. A. J. Pentecost sold two more houses and lots in his Valleyview plan, Chartiers Eailway. He reports a good call for property in

that locality. Baxter, Thompson & Co. sold two lots in Ruch Place plan, both of which will be improved in the spring.

Black & Baird sold to Julia Rehmann lots
Nos. 314 315 and 316, in the Alta Land Company's plan on Duquesne Heights, for \$270
cash.

D. Dennison sold lot 57x109, on Margaretta

street, Nineteenth ward, for Joseph F. Sultzner to Edwin M. Hill, for \$3,650 cash; also placed a mortgage on East End property for \$5,000, and one on Wilkinsburg for \$3,500.

FUNDS IN ABUNDANCE. Indications of an Easy Market for a Long Time. Ease and abundance were the features of the local money market yesterday, and this was a true reflection of the situation at all

outside points. The supply of loanable funds at New York is excessive. Interest rates at Chicago have is excessive. Interest rates at Chicago have been dropped from 6 to 5 per cent. Every indication points to an easy market for some time to come.

There was a moderate call for loans and discounts, and counter business was fairly active. The usual 6 per cent rate was maintained as a rule, but some shading was reported by individual capitalists. Bank clearings were \$2,303,222 17 and balances \$539,941 59.

At New York vesterday money on call was easy, ranging from 25 to 35/2 per cent; last loan 3; closed offered at 3. Prime mercantile paper, 44,06 per cent. Sterling exchange quiet and firmat 44 82% for 60-day bills and \$4 84% for demand.

Buffalo, N. Y. and Phila Lehigh Valley Northern Pacific, Northern Pacific, pref. Lehigh Navigation QUITE A SPURT OF ACTIVITY, WITH Boston Stocks-Closing Prices. More of the Big Traction Company Stock Wanted Than Offered - Philadelphia Down and Luster Up-New York and There was comparatively heavy trading on 'Change yesterday. Each of the three calls contributed. Sales aggregated 1,290

Electric Stocks,

shares and \$2,000 bonds. Of these, Duquesne Traction furnished 1,000. The stock showed no weakness under this pressure, and the demand was unsatisfied. It is now evident that the deal with the l'ittsburg Traction is bearing good fruit. Investors seem to regard the road as on a paying basis. It is surmised that the buying is by a syndicate formed to bring the stock more prominently

HOME SECURITIES.

DUOUESNE AS LEADER.

Cleveland Gas Coal a Feature.

surmised that the buying is by a syndicate formed to bring the stock more prominently before the investing public on the theory that the higher it is the more interest will be taken in it.

One of the strongest features of the market was New York and Cleveland Gas Coal, which advanced to 45 bid, with none in sight. A leading broker said of this stock: "I think it will go still higher in sympathy with the general improvement in the coal trade. I doubt if it can be bought under 52. I have been chasing it from around 34, and am still a buyer. Reports show that the company is making money."

Luster moved up and Philadelphia Gas down. This reversal of position caused some comment. Perhaps the cold snap had something to do with the weakness of the latter. Central Traction fluished the day with a slight gain. Pleasant Valley declined a fraction. At the last call Birmingham was offered at 18½. With few exceptions final prices were the best of the day.

Sales at first call were 160 shares of Monougahela Water Company at 274, 400 Daquesne at 185, 25 Pleasant Valley at 22 and 50 Laster at 85, second call, 10 Luster at 85, 20 at 835, and 100 Duquesne at 183, 10 Philadelphia Gas at 123, 25 Pleasant Valley at 22, 50 Luster at 834 and 2,000 Duquesne bands at 233, and 22,000 Duquesne bands at 233, and 22,000 Duquesne bands at 233, and 22,000 Duquesne bands at 234. Bids and asking prices at each call are

A BIG SLUMP IN STOCKS.

WALL STREET IS TREATED TO A DE-CIDED SHAKING UP. The Bear Raid Made in the Waning Hou

of the Day-Sellers, Who Are Anxious to Become Buyers, Combine and Break the Market.

31.525: St. Paul and Omana, 4 045; Union Pacific, 17.690.
Railroad bonds were also more active than at any pravious time, and the total sales reached 5.240,000, but,unlike stocks, there was no severe slump in final dealings, although some of the more active of the speculative issues, like the Richmond and West Point bonds and some others, yielded slightly. The Kansas and Texas bonds were the special strong features, but all the more prominent issues were advanced more or less, and the Readings and the Richmond and West Points were very active.

The following table shows the prices of active stocks on the New York Stock Exchange yesterday. Corrected daily for THE DISPATCH by WHITTELY & STEPHENSON, oldest Pittsburg members of the New York Stock Exchange, 57 Fourth avenue.

THE WATER SUPPLY DIMINISHED BY THE COLD WEATHER, One Big Well Brought in Yesterday and Another Stopped Flowing-That Sixth

WORK ON WELLS CHECKED.

Sand Sensation-The Woods' Venture Showing Oil in the Fifth Sand. A genuine blizzard swept over the MeDonald oil field all day yesterday. Across
the high and unprotected hilltops and down
the valley from McDonald to Oakdale the
wind blew a steady gale. The buoyant snowflakes were battered and tossed and chased
along parallel with the ground, except
in places where they encountered obstacles, when great drifts were formed. The
intense cold froze the water pipes and
brooks, forcing many contractors to shut
down on account of a shortage in the water
supply. For the same reason many pumping wells were stopped, and the larger wells,
which have been agriated almost daily, were
not disturbed. In consequence of this condition of affairs the production dropped
from 34.500 to 33.000 barrels, which is lower
than it has been for several months.

One big well was developmed wetsign. 56660e a pair; dressed chickens, 18604e 7 fb; dressed turkeys, 18605e 7 fb.

POLATOES—Carload lots, 356640e on track; from store, 40664c a bushel; Southern sweets, \$15060 75 a harred, Jorseva, \$3 00632 25.

SEEDS—Western recleaned medium clover lobybing at \$5 20; mammoth, \$5 55; timothy, \$1 45 for prime, and \$1 20 for choice; blue grass, \$2 6562 80; orepard grass, \$1 75; millet, \$1 00; German, \$1 15; Hungarian, \$1 10; fine lawn, 25c \$2 lb; seed buckwheat, \$1 4661 50.

TALLOW—Country, 4c; city rendered, 5c.
TROPICAL FRUITS—Lemons, \$1 0564 50; Ffords oranges, \$2 5062 75 a box; bnanas, \$1 7562 00 firsts, \$1 2561 50 good seconds per bunch; Malaga grapes, \$5 50610 00 a half barrel; new layer figs, 18610c per fb.

VEGETABLES—Cabbages, \$1 0064 00 a hundred; yellow Danyer onlons, \$2 2562 56 a harrel; fornatoes, \$2 00 per bushel; celery, 25650c per dozen; turnips, 30c@\$1 00 a barrel. from 34.500 to 33.000 barrels, which is lower than it has been for several months.

One big well was developed yesterday which came in with some of the energy characteristic of the old timers. It is the Oakdale Oil Company's No. 1 Hutchinson, and last evening was making 40 barrels an hour. This well is located about 2,000 feet northwest of the original Matthews farm well. Guffey, Jennings & Co.'s No. 1 Herron suddenly stopped flowing while producing 12 barrels an hour. There was a report last evening to the effect that their Matthews No. 1 had also stopped, but this could not be confirmed. The No. 4 Matthews, of Guffey, Jennings & Co., was due to get the fifth sand last night.

Still Drilling in the Sixth. Become Buyers, Combine and Break the
Market.

Greenlee & Forst's No. 10 Mevey at the Willow Grove, and they are rigging up at No. 11. Greenlee & Forst's No. 10 Mevey at the Willow Grove, and they not have a started to drill at their mumber 10 on the Sturgeon farm, near Willow Grove, and they not have a started to drill at their mumber 10 on the Sturgeon farm, near will be minished up to-day. There should be a started to drill at the Grove of the Willow Grove of the Wil

put down at this place for the Guekenheimer Brothers reached the 100-foot sand to-day at a depth of about 1,300 feet. The drillers report that just after entering the sand they struck a fine showing of oil, with a vein of salt water, as has invariably been found in the 100-foot wells in Butler county. They are now about 50 feet in the sand, and still drilling in the hopes of striking a lower pay streak. A great deal of interest is being taken in the result of the test.

tion better than the opening. February started at 61½c, advanced to 61½ fell back to 61½c, rallied and finished at 61½c. Daily average runs were 85,569; daily average shipments, 55,430; clearances, 12,609 barrels. A broker said: "I am confident of a higher market. I am satisfied McDonald will do less than 22,600 barrels before the month is over. Consumption is none greater than production. What more is needed to lift the market:" New Yone, Jan. 7.—Petroleum opened stendy, rallied i.c., declined i.c. then became dull and remained so till the close. Pennsylvania oil—Spot, sales none: February option, opening, 61%; highest, 61%; lowest, 61c. closine, 61c. Lima oil—No sales. Total

There were but 7 carloads received, as bulletined at the Grain Exchange this morning. By Pittsburg, Ft. Wayne and Chicago Railway: 2 cars of oats, 1 of hay, 1 of shorts, 1 of staw. By Pittsburg, Cincinnati and St. Louis: 1 car of corn, 1 of hay. Sales on call: 1 car sample car corn, 50c, spot: 1 car, 50c, 5 days; 1 car brown middlings, 316 50, 5 days; 1 car wheat straw, \$6 25, 5 days. Hay and oats are firm at a slight advance on former prices. Wheat, flour, corn and milled are quiet.

Receipts in this line have been very light

all the week, and to-day's receipts were the

According to newspaper reports, a celebrated American surgeon received \$5,000 for removing a little wen from a wealthy lady's scalp. The papers fail to state the exact amount of free advertising the doctor managed to obtain.—National Advertiser.

Let's reason together.

Here's a firm, one of the largest the country over, the world over; it has grown, step by step, through many years to greatness. try over, the world over; it has grown, step by step, through many years to greatness.

This firm pays the newspapers good money (expensive work, this advertising!) to tell the people that they have faith in what they sell, so much faith that if they can't benefit or cure they don't want your money.

Dr. Pierce's Golden Medical Discovery is sold on this liberal plan. If it doesn't benefit or cure, it costs nothing. It cures Skin, Scalp and Scrotulous affections, as Eczema, Tetter, Salt-rheum, Fever-sores, White Swellings, Hip-joint disease and kindred ailments.

It's the cheapest blood-purifier sold, through druggists, no matter how many hundred doses are offered for its price (\$1.00 a bottle), since you pay only for the good you get.
