IT is said there yet may be a union effected between the first week of the year, the week of prayer of the Presbyterian Church and the 40 days of Lent of the Episcopal Church. The social world would regard a nuptial of this kind in the light of an economical arrangement, by which one week, at the height of the senson, would not he lost to that large contingent belonging to the Calvinist persuasion, nor Episcopalian hostesses be obliged to postpone their functions during that time, or else lose the pleasure of the preseace of their Presbyterian friends. Of course, the whole difficulty will lie in the matter of whether the 40 days will be permitted to swallow the seven or if the seven days will attempt the more colossal bite. But as relatives have teur boards this season. seldom been known to agree entirely on those delicate matters concerning an affaire du coenr, it will not be a matter of wonder if they fail to do so on this occasion.

The Debutante and Matrimony.

On dit the debutante of this season is to be classed according to the scripture among the seven foolish virgins. She is away beyond her sister of three or four winters ago, who would have been shocked, had the close of the season which saw her debut, not rumored, announced or consummated her marriage. The foolish young virgin of today, when, by the way, the word "toolish" has evolved itself into "wise," is not usually out for marriage; declining to look upon that event as the some of her happiness, and rather considering it as a side station where one is shunted off from the main road of a good time. The debutante is not a marry-lug girl. Her relatives do not want her to have particularly. They say "let her silk was particularly striking. Miss Smith fug girl. Her relatives do not want her to marry particularly. They say "let her gain a little experience and know her own mind," which is the feminine form "of sowing wild onts," that vaguely expressed period of existence into which her brother

plunged a few years later. The girl who blossoms this winter is out for all the flowers, theater parties, dinners, pink or otherwise, balls and every other social adornment of such an existence, excepting a busband. She will take him when nil else palls; when she, in her own fashion, s as blase as he is. This comes in about three years' time, and after many violent attacks of so-called love. Each have had affaires des eœurs. They are not too fondly attached to each other; he has stowed away the memories of other eves and months, and she recollects possibly, since she has a conscience, with little theills of self-repreach, other manly forms and other fas-cluating mustaches. And that's marriage between the citizen and citizeness of the

BLIOU TREATE .The Solicitor GRAND OPERA HOUSE Dail's Opera Co DAVIS MUSEUM-THEATER Laloo, etc The above are the theatrical attractions for this week.

The coming of "Alabama" and its merits were hardly advertised enough to evoke the enthusiasm the play deserved in its first reception bere. Mr. Palmer is an excellent manager, perhaps, in a well-e-tablished house with a fixed clientele, but he hasn't any conception of what is needed to push a new play in the provinces. The play is a remarkable one undoubtedly, especially considered as a departure from established rules and customs in play-writing. But it has greater merit than

rules and customs in play-writing. But it has greater merit than being a courageons entry upon a new field; it has the positive merit of being true to nature, of telling a simple and pretty story effectively and yet without straining after effect. The characters in the play are better than true to nature, they are agree ble American types in a natural environment. Angustus Thomas has given us a play in "Alabama" that is easily the most thoroughly American yet withon. The fiber of the play belongs to and is of this people, and there isn't even a trace of foreign influence or example in his work. As to the value of "Alabama," taken strictly as a drama to be acted, the faste of the pudges will decide the question in the absence of the usual points upon which dramas are judged. The play really has no particular climax in it, and the our-tain fails upon the weakest situation of the act as often as not. If you think a truthful, appealing, fittle story of American life, very little more romantic than every dav brings to most of us, without violent conflicts be-tween good and evil-in fact, very little evil at all, for there is no thorough-going villain in "Alabama"-if you think such a story put into reasonable action by good playors is sufficient, then you will take "Alabama" as a good play, in fact, the best ever written by an American. But, if you are wedded to the dramatic system that has flourished since the theater began, you will say that "Ala-bams" is a wish, washr, intermediate, non-descript thing unworthy of serious con-sideration. You may be right in thinking either way, but humbly I addrave to the faw and is tep out of the beaten path, and for creating a good foundation for a native drama in which American life and character shall be preserved for the delight and information of posterity as well as of ourser.

ourselves.

It is not always unmixed good fortune to see a play performed by a company of tran-scendant strength. It is delightful at the time, of course, but when later on you see the same play acted by a company not quite so good, it is dampening to one's enthusiasm. Keeping the best wine till the end of the feast, in spite of exalted ruling to the contrary, seems to be good policy to me. In Chicago last summer I saw "Alabama" at Chicago last summer 1 saw "Alabama" at McVicker's Theater, and the leading parts were taken by such men as Stoddart, Hol-land, and Harris, who are now playing in New York. Miss Eustace was the only one in that production who appeared in her original role here last week. She is an admir-

original role here last week. She is an admir-able actress, belonging to the most artistic school of America. Now Holland by nature seems to have been cut out for Colonel Mo-berley, and upon him has slipped the delic-iously gentle courtliness of an old warrior. Mr. McIntosh in the same role was very clever, and the feat perilaps is greater for Mr. McIntosh than for Mr. Holland-but when you fall to comparing the men it is not satisfactory. I do not intend to proceed to any comparison. Mr. McIntosh has made a great stride forward, everyone is agreed, and the performance of the company as a woole was artistic, with excellence in the

comedy than anything Mr. Dixey has pre-viously essayed. Of English origin, it scored as immediate hit in London, where it is still a reirning success. Americanized, it was produced by Mr. Dixey, who brings it here fresh from a successful run of a hun-dred nights in New York. Had the comedy been written for him especially, it could hardly have been made to fit more so-corrately Mr. Dixey's special talents, it is said. The part gives the artist abundant opportunity for the display of his marked talent as a comedian, for the play abounds in rich situations. Preceding "The Solicitor" will be given "A Tangled Skein." a bright one-act farce by Benjamin F. Roeder. Mr. Dixey will have the support of Miss Virginia Buchanan, Miss Josephine Plows-Day, Miss Enie Bucklin, Mr. Louis Baker, Mr. Robert Hickman, Mr. Josephi Frankan, Waiter Granville, Samuel Opstein, Fred Owen Baxter, J. W. Glennon and others.

At the Grand Opera House this week we are to have the Duff Opera, Company in an opera entirely new to Pittsburg, "The Queen's Mate," by Leccoq. Mr. Duff has brought his organization to Pittsburg many times in past seasons and has always been noted for getting together an excellent comic opera company. A glance at the artists who form this year's organization shows that he has equalled his previous efforts.

His prima donna is Miss Helen Bertram who will be remembered for excellent work here with other companies. Two other wellknown artists are Miss Bettina Gerard, for-meriy known as Bettina Padeiford. Richard F. Carroll, who is one of the few comedians that actually possesses a voice, will bear the brunt of the mirth-malting work upon his shoulders. Mr. Carroll will be remembered for his clever work as *Rneemcaig* "Erminic" here with Pauline Hall. W. H. Clark, who is one of the best basso profundos on the American operatic stage today, is also a member of the company. Mr. Duff has with him this season Miss Gussie Cogan, who is a dancer of rare excel-lence and whose work, while differing from the ordinary skirt dancer, forms one of the most unique and original features of the performance. On Saturday evening Mr. Duff will present known artists are Miss Bettina Gerard, for

On Saturday evening Mr. Duff will present another new opera to Pittsburg, "Paola," by the authors of "Erminie."

At Harris' Theater this week the clever actor James H. Wallick will appear in his favorite drama, "The Bandit King." He will be supported by a strong company includ-ing a number of pleasing specialty people. The horses introduced are rated as the best that have ever participated in a drama and that have ever participated in a drama and the plays will be handled in a realistic man-ner. The repertoire for the week is as fol-lows: Monday, Tuesday and Wednesday matinees and Thursday, Friday and Satur-day nights "The Bandit King;" Monday, Tuesday and Wednesday nights and Thurs-day, Friday and Saturday matinees "The Mountain King."

At Harry Williams' Academy the Trwin Brothers' Comedy and Vaudeville Company promise an amusing show. There are the Three Judges, and La Mondue, and Lottie Glisen, and the National Trio. Tanner and Dowley do an exceedingly funny act as "Convict and Jaller." Ids Lillian Abrams is handsome and entertaining, and Lillie Beach is capital in her songs and dances. The two Lillies are bright stars, and there are several special features on the pro-gramme also. gramme also.

Mr. William B. Gross stopped long enough in this city yesterday to tell the good news that it is possible that the Pitou Stock Company may return to Pittsburg earlier than has been expected. Maybe we shall see this admirable organization, whose

shall see this admirable organization, whose great strength comparison with others con-tinues to strengthen, in February at the Duquesne Theater. Miss Seligman, Miss Stuart, Mr. Thompson and the whole com-pany is making the impression I prophesied they would early in the season, and only the lack of a play of commanding power seens to be holding them back. A new comedy called "The Last Straw," will be given when the company plays here. HEPBURE JOHNS.

Harry Davis' Museum-Theater.

It is doubtful if there has ever been an at traction at a museum in this city that has occasioned so much advance talk as the coming of Laloo at Harry Davis' Museum Theater, this week. Laloo is a wonderful freak of nature. He, or she, was, or were, born in Hindostan 19 years ago. Lalco is a boy and a half girl. Unluckily his little sister was born at the same time as he and with her head imbedded in his and with her head imbedded in his chest, her body, legs and arms pro-truding from the breastbone. Laloo's case has baffled the medical world and the learned doctors and scientists of two conti-nents have with one accord pronounced him the wonder of the nineteenth century. They have been unable to offer any reasonable solution of his strange double being. Laloo once bad the smallnox, so did his slater and

The music of the sleigh bells has drowned everything else in Sewickley. The man with a cutter and a steed surpasseth him who hath all the graces of mind and body, in the eyes of the average Sewickley maiden. The snow, especially during the last half of the week, has afforded good sleighing on the valley roads, and every horse with four whole legs and everything that could be set on runners and called a sleigh have been called into service. To enumerate the eleighing parties and the individuals who made them up would be to print a list of all the unmarried Sewickleyaus under 30 and a big sprinkling of married tolks and elders generally as well. For instance, on Thursday evening 75 Sewickleyans were taking supper at one time or lounging about the hotel in Economy, after the dri ve down in all sorts of vehicles on runners, from nativ cutters to wagon beds in disguise as bobsieds. If the snow lasts a few days longer, the sleighing senson will have been the best and the longest Sewicklev has enjoyed for years. It shows how our winters have changed when one week of good sleighing is a genuine sensation.

One of the merricst sleighing parties of the week was engineered by Messra. Frank Hopper and Oliver S.
