THE FINANCIAL TREND.

Indications of a Prolonged Period of Mon-

tary Ease at Home. A fair call for loans and discounts, good

checking and depositing were the features of the local money market yesterday. The of the local money marker yesterday. The influences were favorable for a good week. Funds were easy at 6 per cent as the ruling rate. Bank clearings were \$2,590.549.90 and balances \$460,507.83. The situation outside is thus summarized: Easy at Boston, plentiful at Philadelphia, in excess of the demand at Chicago, easier at Omaha, but in good demand with banks be-coming more conservative at New Orleans. Time loans are 4½ to 6 per cent in the East, 6 to 7 per cent generally at interior centers and 7 to 8 per cent farther West and in the South. The Financial Chromicle calculates that in the last half of 1891 we imported a little more than half of the amount of gold at \$20 000.690, which would make the years and it estimates the net production of gold at \$20 000.690, which would make the year's net loss of gold from the United States \$15,550,00]. movement. The weakest point in the mar-ket was Distillers', which steadily declined with the heaviest loss recorded for the day. The opening wasgenerally at insignificant changes from Saturday's prices and consid-erable activity marked the early dealings, with some improvement in prices, though only New Englands displayed any marked strength. The pressure became too much for the decreasing demand. Prices yielded before noon without making any important loss outside of Distillers'. The Richmond and West Point stocks were strong, how-ever, but moved in narrow limits, and among the specialties only Pullman scored a material gun. The whole market rallied after the announcement of the dividends on Reading, but later the selling for Philadel-phia account wiped out the advances and the list never regained its strength during the day. The close was active and weak generally at small fractions below Satur-day's prices, but the only material losses were 25 in Distillers' and i per cent in Read-ing, while Chicago Gas scored a final gain of 1 per cent. The total sales of stocks to-day were 518-223 shares, including: Atchison, 31, 150; Chi-caro Gas, 19,385; Delaware, Lackawanna and

 Railroad bonds displayed the same temper as stocks, and while retaining a great deal of their strength, failed to move outside the narrowest limits, and the into selling of the Reading incomes weakened the general list to an appreciable extent. The transactions reached \$6,032,000, but of this amount 551,000 were Reading seconds and 352,000 Reading firsts; 179,050 Reading thirds, and 237,060 Atchison incomes. Leuisville and Nashville unified 45 lost 22, at 795, and Ohlo Southern 44 2 at 62.

A Shabby Little Game,

A shaby Little Game, Generally foiled by legal measures ere it has attained any degree of success, and that is the paiming off of flery local bitters and trashy tonics as akin to or identical with Hostetter's Stomach Bitters. The genuine bears a vignette of St. George and the dra-gon with a minute note of hand, with direc-tions for use on a bronze label. Hostetter's Stomach Bitters eradicates dyspepsia, liver complaint, kidney and rheumatic troubles, malaria and la grippe.
