Mr. Kerr, of the local baseball club, states

that if the new League directors refuse to

allow either Grimm or Lyons to play in

Pittsburg next season, the court will be ap-

pealed to. Efforts will be made to prevent either of the players from playing in Penn-

It may and may not be the intention of the local club to act as stated by Mr. Kerr, but going to court is a very important matter and will in the long run do no good, because if the Pittsburg club was to get the players the League could make matters worse than they ever were.

Counselman Case a Stunner.

WASHINGTON, D. C., Jan. 12.-The de cision of the Supreme Court of the United States in the Counselman case is the subject of much discussion to-day, and popular aquiry turns to the question of whether in the light of this decision the inter-State commerce law can even be so amended as to give it the efficiency that was intended by its framers. Bills are being prepared for introduction in both Houses designed to correct the defects of the law, but the opinions of prominent lawvers of the two Houses are divided as to the possibility of framing an amendment which will afford

the remedy desired and at the same time be Hon. W R. Morrison, the member of longest service on the Inter-State Commission, does not view the situation with the discouragement that has been manifested by some of the other friends of the inter-

Mr. Dolph said to-day that the bill had been amended in committee, and that as reported it only carried an appropriation of \$100,000,000-\$10,000,000 to be available the first year, and 89,000,0.0 a year for ten years. It

was the most economical proposition in regard to coast defenses that had ever come before Congress. Mr. Chilton, nnother member of the Comand Canton, another member of the Committee on Coist Defenses, said that he concurred with Mr. Berry in his opinion of the report. Mr. Perkins introduced a bill to remove the statute of limitation in respect to chains under the eight-hour law. Referred.

The Senate then took up the calendar and passed the following bills: Appropriating 80,000 for a public building at Bradford, Pa.: to authorize the construction of a bridge across the fied river of the North at Dray-ton, N. He Wishes Members of Congress Knew More About His Department.

WASHINGTON, D. C., Jan. 12 .- In reply to a nestion as to what he thought of the respution of Representative Simpson, introduced yesterday, providing for the appoint-

ment of a special committee to inquire into the workings of the Department of Agriculture, etc., Secretary Rusk to day said:

"All I have to say about the resolution of Simpson, to which you call attention, is I heartily welcome anything which compel members of Congress to learn about this department than many of

them now know. I should be glad for my own sake, for the department's interest, and for the sake of the farmers, to have the workings of this department more thoroughly understood and appreciated by members of Congress and our citizens generally than they are. Singularly enough, although Mr. Simpson, I understand, owes his election to farmers' votes, and poses as distinctively a representative of the farming interest, he has paid but little attention to this department and its work. I am quite satisfied that the better he becomes acquainted with it the more he will appreciate it. This has been my experience in the case of all those who have sought a more intimate knowledge of the work we are doing and how we do it."

The Secretary denied in toto what he designated as the "old charges," that statistical information had been conveyed to Boards of Trade and others ahead of its communication to the farmer. BILLS TO REPAIR THE DAMAGE

BASEBALL SEASON PROBABLE

ISPECIAL TELEGRAM TO THE DISPATCH. NEW YORK, Jan. 12 .- The Board of Control met at its headquarters in the Cumber land, Fifth avenue and Twenty-second street, this afternoon. There was a very long and highly entertaining session, although little leaked through to the public. The bookmaker question was discussed, but nothing was settled in the matter. James Rowe formally accepted the position of official starter, and the license of Jockey

McDermott, who rode at Guttenberg, was revoked. The following jockeys were granted li-censes: George Evans, Jr., William Blake, Anthony Hamilton, Joseph Connolly, Jacob Abrams, William Sweeny, William Harrison, Edward Mosher, George Barbour, Reginald Harris, George W. Withers, John Weber, Charles Weber, Fred Littlefield, Andrew Dorsey, Conrad Walker, George W. Newton, Frank McCabe, Mathew Feakes, W. H. McCarthy, W. B. Jennings, Walter Rollins, K. K. Alcock, C. F. Van-dewater, Green B. Morris, S. W. Street, W. J. Spiers, F. T. Miller, Henry Harris, John V. Elliott, Peter Weber, R. W. Wal-den, Peter Walden, C. Littlefield, C. Little-field, Jr., C. Boyle, William Lakeland and W. P. Brassler

It is understood in horse-racing circles here this evening that very stringent measures are to be enforced during this year to purge the tracks of fraud. Bookmakers will be under rigid supervision. The mem-bers of the Board or Control are satisfied that winter racing has been dealt a blow that will soon kill it. They mean to fight it to the death. It is not likely that Hugh Penney, the jockey signed by Captain S. S. Brown, will get a license.

A LONG SEASON. Most of the New League Clubs Favor 154

Games Ench. CHICAGO, Jan. 12 .- [Special.]-The next great work to be done in the baseball world is the building of a schedule for the new league. This may seem an easy task to some, but only the initiated can appreciate the trouble in store for the committee hav-ing the matter in charge. President Jim Hart, of the local cinb, is a member of the committee, and he lies awake of nights now

thinking of the work ahead of him. The majority of the members of the league favor a schedule of 154 games for each club, or 14 with each of its rellows. This may be or I with each of its reliows. This may be all right, but Jim has figured out that in order to play that many games the season will have to be started April 7 and kept open until October 10. The mere idea of baseball here April 7 draws an involuntary shudder from a local crank, who has sat and shivered in the bleachers May I. President Hart thinks, however, that the lake cities might be given a wide berth until the sunny days of May, and that the season could be opened easily enough early in April in days of May, and that the season could be opened easily enough early in April in Washington, Baltimore, Louisville, St. Louis, Cincinnati and Pittsburg. He believes the clubs could be kent moving on a circuit made up of those cities until late in April. Then the Chicago club could work East if necessary, and thus delay the opening of the season here until late in May, which would be just as well. Experience has shown that May 1 is entirely too early to open in the lake cities, and for that matter October 10 is entirely too late to close in them. The schedule promises to give the league some trouble.

The Officials of the Local Club Favor Three Trips to Each City. Secretary Scandrett yesterday returned the local club's answers to the questions sent out by the Schedule Committee referred to in this paper yesterday. The club is in favor of three trips, that is, to play three games the first trip at each city, and two on each of the next trips. This arrangement it is considered will be beneficial to Pittsburg. The Secretary also requested that the Pittsburg team play in Boston Decoration Day and Bunker Hill Day; that New York, Eoston or Brooklyn play here on July 4; that games be played here Labor Day, and that Chicago or St. Louis open the season in this city. It will be seen that plenty has been asked for, but there is nothing for being shy nowadays. games the first trip at each city, and two on

DAVE SANFOND, the one time famous catcher of the Central City team. Syracuse, champions in their day, was in the city yesterday. Dave was a great man behind the bat, and still takes a great interest in the national game. NEW York has east off Catchers Burrell and Clark, and Pitchers Sullivan and Coughlin, who took such a prominent part in the Beston hippodrome games, are siated to go. So, for that matter, are twirlers Taylor, Sharrott and Van Zaut. ter, are twiriers Taylor, Sharrott and Van Zaut.

ONE error in President Young's official list of baseball players has been discovered, and thut, too, in favor of the New York club. Catcher Moran, who pinyed with the Joliet, (III), club hast year and who was signed by Mutrie in September for the Giants, was assigned to St. Louis by the League committee according to all published accounts. But President Young, of the League, a day or two ago wrote to the local officials that Moran belonged to them and would play in New York next season or nowhere. Moran is a clever youngster who has an excellent record.

COLLUM—A 5-year-old daughter of Frank
Collum, of Minersville, poured a can of coal
oit into the fire and an explosion followed,
the oil being thrown over the child's clothing. She was seriously burned and her life
is despaired of.

Kelly—Edward Kelly fell off a scaffold at
Carnezie's Thirty-third street mill yesterday and broke three ribs.

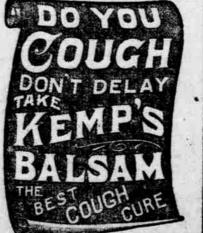

Willony—Henry Willoby, the janitor of
the Anchor Bank building, while walking
about the basement struck his head against
an electric wire and was severely shocked.
He was removed to the West Penn Hospital.

"40 ORANGE STREET,

"BROOKLYN, N. Y., February 11, 1870.

"I have used ALLCOCK'S POROUS PLASTERS for some years for myself and family, and, as far as able, for the many sufferers who come to us for assistance, and have found them a genuine relief for most of the aches and pains which flesh is heir to. I have used Allcock's Porous Plasters for all kinds of lameness and acute pain, and by fre-quent experiments find that they can control many cases not noticed in your circulars.

"The above is the only testimonial I have ever given in favor of any plaster, and if my name has been used to recommend any other it is without my

authority or sanction." George Augustus Sala writes the London Daily Telegraph: "I especially have a pleasant remembrance of the ship's doctor—a very experienced maritime medico indeed—who tended me most kindly during a horrible spell of brouchitis and spasmodic asthma, provoked by the sen-fog which had swooped down on us just after we left San Francisco. But the doctor's prescriptions, and the increasing warmth of the temperature as we neared the tropics, and, in particular, a couple of ALL-cock's Porous Plastress clapped on—one on the chest and another between the shoulder-blades—soon set me right."

Russell Sage, the well-known financier, writes: " 506 FIFTH AVENUE,
" New York City, December 20, 1890. "For the last twenty years I have been using ALLCOCK'S POROUS PLASTERS. They have repeatedly cured me of rheumatic pains and pains in my side and back, and, whenever I have a

cold, one on my chest and one on my back speedily relieve me.
"My family are never without them." Marion Harland, on page 103 of her popular work, "Common Sense for Maid, Wife, and Mother," says: "For the aching back ALLCOCK's POROUS PLAS-Ter its an excellent comforter, combining the sen-sation of the sustained pressure of a strong, warm hand with certain tonic qualities developed in the wearing. It should be kept over the seat of the uneasiness for several days—in obstinate cases, for

"New YORK, January 14, 1891.
"About three weeks since, while suffering from ere cold which had settled on my chest, applied an Allcock's Portus Plaster, and in a short time obtained relief.

Henry Thorne, Traveling Secretary of the Y. M. C. A., writes: "EXETER HALL, STRAND, "London, February 2, 1888.

"I desire to bear my testimony to the value of ALLCOCK's POROUS PLASTERS. I have used them for pains in the back and side, arising from rheumatic and other causes, never without deriving benefit from their application. They are easily applied and very comforting. Those engaged, as I am, in public work which involves exposure to sudden changes of temperature, will do well to keep a supply of ALLCOCK'S POROUS PLASTERS in their portmanteaus."

I applied them to my chest and between the shoulder-blades, and in less than a fortnight was entirely cured." Henry A. Mott, Jr., Ph. D., F. C. S., late Government chemist, certifies:

"London, December 10, 1888.
"I think it-only right that I should tell you of how much use I find Allcock's Poncus Plas-TERS in my family and amongst those to whom 4 have recommended them. I find them a very breastplate against colds and coughs." W. J. Arkell, publisher of Judge and Frank Leslie's Illustrated Newspaper, writes:

"In my opinion, these plasters should be in every household, for use in case of coughs, colds, sprains, bruises or pains of any kind. I know that in my case the results have been entirely satisfac-tory and beneficial."
