New Church for Mansfield.

There was a congregational meeting last night of the First Presbyterian Church of Mansfield to take action upon a site for a new edifice, the growth of the membership lemnoding greater accommodations. The trustees had obtained options on three properties, which they recommended. The most prominent and popular of these is a lot at the corner of Main street and Washington recurse, and it will probably be selected. It is volued at \$10,000. Owners in this bushing borough seem to be fully aware

that the tendency of real estate is upward.

Confidence in the Future.

Real estate transactions so far this year are of exceptional significance, as showing ors of large means have such conthe future of the city that they not afraid to not their money in lands houses. In this view of the case, intending bayers should not let grass grow ander their feet. Certainly not hing can be gained by delay.

Cuticura Remedies.

If the thousands of little pables who have been cured of agonizing, ltching, burning, bleeding, scaly, and blotchy skin and scalp diseases could write, what a host of letters would be received by the pro-prietors of the CUTICURA REMEDIES. Few can appreciate the agony these little once suffer, and when these great remedies relieve in a single appli-cation the most distressing externa and itening and burning skin diseases, and point to a speedy and permanent cure, it is positively inhuman not to use them without a moment's delay.
