#### How the Orders Were Given Out.

But I cannot discover that the Secretary took the pains to go so deep into the matter. He sent for Collector Brooks, of the Revenue office, and Collector Cooper, of the Custo office, and gave them orders that neither they nor their men should take part in the primaries contest.

Mr. Cooper appeared to have remained quiet himselt, on the surface, while his men did as their hearts prompted them. Mr. Brooks was at first disposed to do the bidding of the Secretary, but later declared against the administration favorite, Mr. dienry.

Admitting the course of the Secretary was right, as an action which had in view solely the orderly transaction of the Government business, doct any one suppose that if these men had worked for the administration delegates as fervently as they worked against them, there would have been any interference?

### Foster a Victim of Wanamaker.

I may repeat here, however, but I have said before, that from the best information available it is quite well established that Foster was in this affair the victim of Wanamaker. The Postmaster General apparently lacked the courage to take an open and in the fight, and so led Foster into the action, which doubtless only assisted to make more complete the administration disaster of last evening in Philadelphia, which may well be called the first gun for the nomination of Secretary Blaine.

As one eminent politician put it to me to-day, Foster is a man versed in polities, and would not have taken such a step of his own necord.

### Quay's Preposed Investigation.

As to the reported investigation by a Senate committee, into the act of Secretary Foster, that is a matter still in abeyance It is probable that Senator Quay would have introduced a resolution to that effect several days ago, had it not appeared to him and his friends that it might look like ceived at the Navy Department to-day. In a threat, coming before the primaries. It may yet be introduced, and even as soon as to-morrow, if that course be in accord with the wishes of the Senator's friends in Pennsylvania. It may appear to these friends that the rebuke administered at Philadelphia will be a sufficient punishment.

The Senator will go to Philadelphia tomorrow afternoon, and thence to Beaver, for the purpose of attending the trial of his libel suit in Pittsburg, and if the resolution be introduced at all it will probably be before his departure.

### CHILE KEEPING COOL. A Cable Message to Secretary Tracy Con-

tains Not One Word of Any Late Trouble-President Harrison Denies Rumors That He Had Cabled an Ultimatum. WASHINGTON, D. C., Jan. 13,-Secretary

Tracy to-day received a cable message from Commander Evans, of the gunboat Yorktown, at Valparaiso, saying that the last of

the Chilean political refugees who have been under protection at the different legations in Santiago were safely transferred to the Yorktown yesterday. There were seven of these refugees, he says, five at the United States Legation and two at the Spanish Lefaiton. They were accompanied from San-tiago to the Yorktown by the American, Italian and Spanish Ministers, and will remain on the vessel until the 16th inst., when they will be transferred to the Pacific mail aer scheduled to sail for Panama on that date en route for Europe.

> Nothing Reported From Chile. The dispatch says nothing in regard to the ondition of affairs in Chile. It is therefore assumed that there is nothing to report on that subject. There were originally 14 refugees at the different Legations when the resent admistration came into power. Five f these were subsequently allowed to leave

in peace. The remaining nine are now on the Yorktown. The final report of Captain Schley, com-manding the cruiser Baltimore, in regard to the assault on the sailors of that vessel at it Captain Schley makes a positive state-ment that the only interview he ever had with Judge of Crimes Foster, of Chile, on the subject of the attack on the Baltimore's sailors, occurred shortly after that event, and before its full gravity was known and

understood at Valparaise. Fgan at the Bottom of It. At that interview, Captain Schley says Judge Foster expressly stated to him that the cause of the attack was the hatred that

the lower class of Chileans had for Ameri-cans because of the belief that the Americans had been on the side of Balmaceda. This expression by Judge Foster is regarded by naval officers as highly significant in view

of his subsequent statements in regard to the Baltimore incident. The interview took place before the report of the President's note calling on the Chilean Government for reparation. In reply to an inquiry as to the truth of a
