BULLS BRACING UP.

The Weakness of a Fortnight in Wheat Gives Place to Strength-The Market Invaded by Crowds Attracted by the

CHICAGO - The feeling of weaknes

The loss of lc of yesterday was entirely re-covered. The strength was largely due to a local bull sentiment. Public cables quoted prices lower, but private ones said the feel-ing in the markets abroad was better. But the most bullish factor came later in the day in the decrease of nearly 1,600,000 bushels day in the decrease of nearly 1,600,000 bushels in the available supply reported by Bradstreets. Of this decrease, however, only 128,000 bushels were on the Atlantic slope, the Pacific coast slowing a decrease of 1447,000. The steady drop of 8 to 10c during the last week or so has brought a good many buyers into the unaker. May started at 200,000 per second of cattle on sale this week at the East Liberty yards against 95 loads last week. The offerings this week were 25 per cent more than our trade calls for at this season of the year. Quality of beeves on sale was considerably below late average. Weather provided allowed allowed and the surface of the surface profits at the advance, and shorts having already pretty well covered, there was little demand. May went off at 205,000 and the average of nearly 1,600,000 bushels in the available supply reported by Bradstreets. Of this decrease of 1447,000. the same position. Homestead is unable to house all the people desiring to take up their residence there. Sharpsburg is no better off, This, with all the building of the last lew years, shows remarkable accessions to the population of the surrounding districts, and should convince capitalists that they can put their money to no better or more profitable use than in erecting homes for the people, such as persons of moderate

means can afford to buy or rent. Backward and Ahead. Recollections of old citizens, no matter what direction they take, are always interesting. A gentleman still prominent in business, whose knowledge of Pittsburg covers a period of 60 years or more, said yesterday: "When I look around I can vesterday: "When I look around I can scarcely realize the change that the city has undergone since my boyhood. Then vacant spaces were numerous, and people grew vegetables on ground that is now worth \$3,000 a foot front. Ground was literally 'dirt cheap.' My grandfather sold a lot on Fifth avenue for a few hundred dollars that is now worth a fortune. Nearly all the places of note 50 or 60 years ago have disappeared. Fields where cattle browsed and linen was laid out on the grass to dry and linen was laid out on the grass to dry are now closely packed with houses. Mag-nificent buildings, fine conceptions in ma-sonry have taken the places of many of the original structures. The city has been pushed out into what was then a wilderness full of game. Business has kept pace with this expansion. Pittsburg has achieved greatness in a single lifetime. What new marvels are awaiting us it is impossible to conjecture. All signs and influences point to continued prosperity and growth.'

Business News and Gossip. It begins to look as if this will be a Traction year. Banks and insurance companies have trimmed their craft for another year's sailing. May it be less stormy than the last. The Citizens' Traction people are about to adopt a system of incandescent lighting—the patent of an Allegheny man—on all their cars, Experiments just concluded were highly satisfactory. Car No. 119 is already equipped with this light.

SLOW AND EASY. Bankers Looking Forward to the Employ-

ment of Idle Funds. The demand for money from commercial and manufacturing sources continues quite moderate, but it is increasing, and by the time the spring trade is fairly on will no doubt come up to expectations. Such is the indication, and unless the unexpected shall happen there is no reasonable doubt of happen there is no reasonable doubt of actual employment for the bulk of the finances now lying idle.

The movement at the city banks yesterday was rather slow and featureless. The weather was the bearish factor. The discount rate was steady at 6 per cent, outside capitalists being the only ones to shade, Good real estate collateral was in demand. A cashier said home mouse was so plantiful Good real estate collateral was in demand. were plentiful.

Manchester Traction was the feature. At the last call Mustin, having orders for it, shied his caster into the ring and scooped in 400 shares at 40-an advance of \$3 a share over the best bid of the previous day. The cause of this jump was due mainly to expectations that at the meeting on the 18th the company will make one of the best statements it has ever promulgated. Large and steadily increasing earnings were also an important factor in forcing the advance. Philadelphia Gas was again interesting. Outside orders were plentiful, and it sold up to 15% closing strong at that figure, and with the demand unsatisfied. A sale was reported in New York at 15%. Central Traction and Pleasant Valley were fractionally higher. Luster continued its upward movements on rosy reports by President Gamble. The rest of the list was steady to strong, with no important changes for better or worse.

Judge Barrett's action in New York was the subject of some talk. He granted an injunction in the suit of Mr. Frank against the Edison Electric Light Company, restraining that company from paying a preferred dividend of 80 per cent in collateral trust bonds. Judge Barrett bases his decision on the ground that it is unlawful for a corporation to issue bonds in order to raise money to declare a dividend.

Sales at the first call were 10 shares of Switch and Signal at 10%, 20 Pleasant Valley at 22%, 120 Philadelphia Gas at 15, 60 at 15%, 50 of which was b. o. 10. Third call, 400 Manchester Traction at 40, 10 Central Traction at 22%, 150 Philadelphia Gas at 15, 60 at 15% Between calls, 100 Philadelphia Gas at 18.

Railroad bonds were more active to-day, and on the whole displayed a much better tone, but the strength and the activity were in a large measure due to the transactions in the Kansas and Texas seconds, which furnished 920,000 out of the total day's business of 3,641,000, and rose 2½ per cent to 52. The stimulus to the securities of the road was given by the statement that 2 per cent would probably be declared on the seconds.

Weather continues adverse to trade in this line. At all events the movement is slow, and prices, which have been down to hard pan for weeks past, are practically unchanged. Poultry is scarce and firm, and the same is true of fancy butter. Supply of Elgin creamery butter of high grade is not equal to demand, but common and low grades are very dull. As to country butter, it is hard to sell at any price. Eggs are slow stock, and our quotations are being

It does not develop any new territory as there are other good wells drilled on this property. The production advanced yesterday from 28,600 to 29,500

barrels. One well completed yesterday was not a success as an oil producer. It belongs to the Forest Oil Company, and is their No. 2 on the John McDonald-Glenn farm. The sand found in the well was of an excellent quality, but it had evidently been drained. When the drill entered the fifth sand, the oil, which had been standing in the well from the Gordon sand, disappeared, and is supposed to have gone by a subterranean passage to some other company's tanks. Operators in this field declare that a big producer such as the Matthews, Baldwin or Elliott will open immense passages through the sand. The rush of gas to the well from the surrounding rock forces holes through it. As a consequence the first well secured a grip which others do not seem to be able to break. One well completed yesterday was not a

By Pittsburg, Cincinnati and St. Louis: 1 car of middlings, 1 of corn. and St. Louis: 1 car of middlings, 1 of corn. By Pittsburg and Lake Erie: 1 car of oats, 1 of middlings, 1 of flour. By Pittsburg and Western: 3 cars of oats. The situation in cereal lines is in general favorable to the buyer. Receipts are large and demand is light. Hay has declined from the highest point reached a few days ago. The advance brought plenty of stuff to the front. It seems to be impossible to bull grain and hay markets for any length of time, owing to the abundance in the land. Following quotations are for carload lots on track.
