

A nuntial devoid of all estentation and uniting the fortunes and love of Mrs. Katherine B. Oldshue and Mr. George A. Wilson was celebrated in the parlor of St. Paul's Cathedral rectory, at 6:30 last night, the rector of the Cathedral presiding. The little group of friends who encircled the happy pair during the performance of the clude all members of the club, that the comhappy pair during the performance of the card, and the ben ceremony were: Mr. John T. Wilson, father of the bridegroom; Miss Uhlam, the bride's sister; Mr. Henry B. Passavant, son tee, the invitation is made to every merit of Dr. Passavant, of the East End, and ber, whether in receipt of an invitation or brother-in-law of the bridegroom, and Miss McAlree.

Mrs. Oldshue wore a dark blue cloth going-away dress and low traveling hat with nose yell, and looked both pretty and happy. She carried a handsome bouquet of La France roses, from which was filched the single reschud worn by the bridegroom as a Boutomiers.

After a period of well wishing from the little wedding party Mr. and Mrs. Wilson were driven to the Union station, where they took the train for the East. The honeymoon will be spent in traveling through the East and South. They will not likely return until late in February, when several functions will be arranged in their honor.

BIJOU THEATER. "The Still Alarm" WILLIAMS' ACADEMY.......Hyde's Company WORLD'S MUSEUM-THEATER......Curiosities DAVIS MUSEUM-THEATER......Curjosities duction.

The above are the theatrical attractions for this week.

The farewell visit of the Kendals to this city will be long remembered here with pleasure. The Kendals themselves have the best reason in their pocketbooks, at least, to think kindly of us also. Probably, most probably, s journey across the ocean will have to be taken by those of us who wish to see these delightful actors again. I do not think as some do, that the Kendals have worn out their welcome in this country. They are of the kind that improve immensely upon acquaintance, and I simply do not believe in the sincerity of the blass critics who say that the kenduls make them weary with their sameness in all roles. Of course if we had them always we might desire a change, but candidly it must be conceded that the variety in their performances during the past week is as cospicuous as any other quality, and the range of Mrs. Kendai at all events is wider than any other English-speaking actress I know. They could de-pend upon getting a very hearty welcome in Pittsburg at any time, and the absence of the superb creatures who cannot admire art after they have found out that it has certain satient characteristics which cannot change would not affect the box office receipts by more than enough to buy the hypercritical remnant seats for the reigning farce comedy. quaintance, and I simply do not believe in

The plays in the repertoire of the Kendals are chiefly of the school that is rapidly becoming ancient. "Still Waters Run Deep and "Impulse" are both entertaining speci-

mens of the comedy-dramas which the En-glish public demanded and English dramatists supplied for a quarter of a century or more, but they are not great plays. Mr. Kendal's *Captain Crichton* in the latter play is one of his funniest creations, and an admira-

Mr. Kendal is not so great an artist, but during the last week. Just think over the actors we have who can play gentlemanly he is killed in the fall. Frank Hale makes Beste an offer of marriare, is accepted, and all ends happily. The boiler explosion, the railroad scenes and other scenic effects are aid to be great.

"Niobe," which the Duquesne Theater offers this week, seems a little hard to classify, as to forms, although the authors

classify, as to forms, although the authors calmly call it high-class comedy. Its pur-pose is clear, however, it is all for laughtef. The company which will present it looks very strong, from Isabelle Coe on through the whole cast. The Paultons, who are the authors of the comedy, have chosen a subject which has been handled before by Gilbert and many writers of less repute; but it is said they have treated it in an entirely novel manner, and with such auccess that the press of New York and Boston have styled it "all laugh-ter," a pirmse which the management has not been slow to make use of. The funda-mental idea of the piece, showing Greek civilization in contrast with that of to-day, admits of great possibilities in the treat-ment. Mr. Ben Teal, who is without doubt, the best of American stage directors, will personally stage the comedy here, and he is a "stickler" for getting out all there is in a dramatic work, both in point of acting and accessories, we may expect a thorough da-placte of the New York nerformance. The

accessories, we may expect a thorough du-plicate of the New York performance. The stage of the Duquesne Theater will be cleared entirely of its scenery, property and drapery, and only the material carried by the company will be employed in the pro-duction.

The comedy of "Dr. Bill" will be the attraction at the Alvin, commencing Mon-day. While this will be the first visit to this city of this comedy, it is by no means unknown. Much has been written, and many have already seen the play. It ran in New York for a long time at the Garden Theater, and was spoken of very highly, it being a comedy full of fun and no end of aughter, but all the fun being of a purely legitimate kind, there being no horse play. The public seems to have had enough of the so-called farce comedy, and while they like to be amused, they do not care to see a play full of specialties. From what I have heard of "Dr. Bill" I should judge that heard of "Dr. Bill" I should judge that it is a comedy on the order of "The Private Secretary," "Wilkinson's Widow," "All the Comforts of Home," "Jane" and comedies of that order. It will be presented here in a thorourh manner with a good company. "Dr. Bill" is a three, act comedy by Hamil-ton Aide, which has had long and successful runs in London and New York, and which is a complicated farce comedy of the "con-fusion" school, with a dash of the Parisian suggestiveness that has no doubt the dis-tinct feature of the French playwright to whom the English adapter was primarily indebted. The piece is crowded with awk-ward and absurd complications. The "kan-garoo" attitudinous dancing is quite a feature in the performance, and one which has made considerable talk. The double bill of "Sunset" and the comedy will be given at every performance. The scenery and properties from the Garden Theater given at every performance. The scenery and properties from the Garden Theater will be used.

"One of the Finest" comes to Harris" Theater this week. It is the drama in which Gus Williams made fame and fortune, and has been a winner every season since it has been on the road. Manager Hassan has in been on the road. Manager Hassan has in-fused new life into the piece, and, without chauging the plot, added numerous features at considerable outlay. The first and most important move of Mr. Hassan was to pro-vide entire special scenery for the play. Chief among these is the beautiful Central Park lake scene and the Fall river line pier scene, North river. On the pier a whole variety show is given. The company num-bers 18 people, who have been carefully se-lected.

Kendal's *Captain* Crichton in the latter play is one of his funniest creations, and an admira-ble bit of art. In neither, however, is Mrs. Kendal casts to happliy as in "The Scrap of Paper." It is as *Susan Hartley*, indeed, that I fancey Mrs. Kendal is a ther best. The emp tions which she portrays so defily in this role are those which are most becoming to her, and especially full scope does it afford her for the exhibition of her command of sarcasm, of gentle rail-lery, and the little womanly graces in con-versation. Mrs. Kendal is first of all a comedienne, and if fault is to be found with her work ti is when site leaves her vantage ground of comey for the emotional and fragic. In "Katharine Kavanagh" Mrs. Ken-dal of coarse is an artist still, but I did not find her attempt at pathos affecting, so ther work in lighter modes. I think sunlight and laughter, with a few summer clouds and April showers for con-ality and the completeness of her school-ning, site has no equal among English-speak-ing women to-day, in my opinion. Mr. Kendal is not so great an artist, but

The Duff Opera Company's performance themselves of late as theatrical backers, he is superior to nine-tenths of the men who appear in the roles which he has assumed ciated as much as it ought to have been, for says the Mirrow. on "Cinderella," is not particularly good. Fred Leslie has invented an entirely new story for "Cinderella," omitting all mention of the proverbial glass slippers, making *Cinderella* marry not the Prince but his ser-vant, who is the frince in disguise.

"THE Isle of Champagne," by Charles Alfred Byrne and Louis Harrison, music by George Furst, is getting ready for its production during the summer at the Grand Opera House in Chicago. The scenery is being painted by Hoyt, and the costumes designed by Captain Alfred Thompson. Thomas Q. Seabrooke will sing the principal role.

THE new scenery painted by Mr. Bender for the Duquesne Theater, and used during the Kendal engagement, is very pretty, and especially the drawing room, or is it ball-room? used in the last act of "A Scrap of Paper," with its panels of airly-clad cupids. The stage settings at the Duquesne were generally a feature of the plays last week. THE business of the "Tar and Tartar" throughout the country has been simply phenomenal. Last week at Cleveland was the largest ever played by a comic opera the largest ever played by a comic opera company in the city. Manager Gus Hartz presented Harry Askin, in trust for his baby boy, a handsome silver plaque set in a plush frame and appropriately inscribed. Mr. Askin had the plaque framed and hung in the art gallery of the Eaclid Avenue Opera House, to be taken away only by Master Tom Askin when he makes his first profess-fonal visit to Cleveland.

Smith. The decorations of the church and the order of the ceremonies were similar in character to the decoration and ceremonies at the marriage of Mr. Playford's oldest daughter, the late Mrs. Carey, of Bal-timore, who was married ten years ago. The bride's gown was of heavy white benga-line; her vell, thrown simply over her head, reached to the end of her long train. She wore no jewelry and carried a white vellum prayer book with silver markers. A tiny spray of likes of the valley, half hidden in the chiffon on her bodiee, was the only orna-ment. The bridemaids' gowns were alike and were of like creve de chene with short trains. They wore like Prince of Wales feathers in their hair and carried large bon-quets of white hyacinths and maiden hair fern. The five ushers, Mr. Charles Play-ford. Mr. Flumer Austin, Mr. Haldeman, Mr. R. W. Playford and Mr. Evans Bawson, came slowly up the aisle while Prof. Mayers played the wedding march from "Loken-grn." As they reached the foot of the chancel the four bridemaids, Miss Frances Boyle, Miss Beeson, Miss Dawson and Miss Bankin, came from the vestry room and, passing between the ushers, met the bride, who came with her father, the Hon. W. H. Flayford, preceded by her maid of honor. Miss Shouse, of Cincinnati. They walked to the chancel together, where the bride was met by the bridgeroom and his best man and brother, Mr. Charles E. Boyle, After the ceremony the bridai party left the church to the march from "Camen," the bride and room leading the way, followed by the mail of honor and the best man. Then came the bridemaids and atter them. Then came the bridemaids and after th the ushers. A reception was given by Mr. and Mrs. Bayford from 7 to 10. At 9 Mr. and Mrs. Boyle loft on a special train, amid a shower of rice. They will spend the rest of the winter in Colligencia the winter in California. One of the delightful events of the week

Card playing was the main feature of the evening, after which an elegant luncheon was served. Dancing was then indulged in. Those present were the then indulged in. to permit his wife to enjoy greater promi-nence. I think Mr. Kendal is, like his sponse, at his best as a comedian, although his maniness is so marked and sympathetic that he carries heroic scenes with ease, and charms men and women alike-avery rare faculty. His art is not the perfect and poi-ished thing that his wife's is. At times he is slovenly and careless about what may seem triffes, but which accumulate into a distinct blemish upon his performance. An ex-supple in point: When he was playing Coloral that he carries heroic scenes with ease, and charms men and women alike—a very rare faculty. His art is not the perfect and pol-ished thing that his wife's is. At times he is slovenly and careless about what may seem trifles, but which accumulate into a distinct blemish upon his performance. An ex-ample in point: When he was playing *Colonel Blake* in "A Scrap of Paper," in the last act for two or three minutes Mr. Kendal appar-ently forgot what he was playing and lapsed into the very different though amazingly funny character of *Cuptich Crickton*, which he had played the night before in "Im-pulse." The change was unmistakable. He walked with the cavalry soldier's roll and

he must played the hight before in the pulse." The change was unmistakable. He walked with the cavalry soldier's roll and peculiar hitching of the trousers, and began to "Haw! haw!" in approved dandy style-just as he did as *Captain Crichton*. He re-membered himself in a minute, and doubt less only those who had seen Mr. Kendal as *Captain Crichton* knew that he had been napping. Only a little thing, you'll say-yes, but it is the looking after these little things that makes a great artist.

Mr. Dodson is an actor who is bound to make a big name for himself one of these days. His old men in the Kendal repertoire were all distinct types, and all studies in the best way of humanity. He is a young man, and that he has abundant talent in other directions besides the personation of senili ty his performance of the amiable cripple crippl in "Katharine Kavanagh" is proof enough. The rest of the Kendal company shows what can be done by hard drilling, for the maerial is hardly anywhere above mediocrity

Plays may come and plays may go, but "The Still Alarm," which comes to the Bijou to-morrow night, like Tennyson's Brook, seems destined to go on forever. Each visit to this city finds this play, with its sensational episode of real fire engine and rea corses, as attractive as ever. The story deals with topics and events of every-day life in any community. It gives an insight to the way the gallant fireman passes his life and performs his duties in a great city. The scenic effects are thrilling, situations

are impressive; and in these days, when are impressive; and in these days, when there is a demand for realism and natural-ness on the stage, it is safe to say that never has there been anything presented so mar-velously real. People like the stirring ac-tion of melodrama. It is like an exciting novel, which holds the attention from be-ginning to finish. An interesting love story; the triumph of right over wrong, and an insight into the home of the gallant fireman, showing him both in repose and on duty, are reasons for

both in repose and on duty, are reasons for the success of the play, as well as the realistic features. It is well that such scenes should be so well done as to be popular. They en-courage a healthy, hearty spirit; they call attention to the excellent work and disci-pline of a brave set of fellows, and whether the scene be set in New York or London, it is an admirable picture of a vigorous phase of man's duty. The company this season is said to be by far the best that Manager Arthur has ever brought here.
