"The voicing of this organ is noteworthy each stop has its characteristic quality, the flute is really flute-like and the clarine preserves the peculiar wooden character of the original. Most remarkable is the close approach of sound to the pipe organ, not many of the latter being the equal in qual-ity of tone to the Vocalion Church Organs. Last, but not least, the light, quick action and never varying accuracy of intonation deserve special mention. Yours truly, "WALTER L DAMROSCH."

Mr. Damrosch is one of the highest mu-sical authorities in America, and his testimony must be accepted as final and conclu-sive. The Messra H. Kleber & Bro., 506 Wood street, are the exclusive Western agents, and they sell this wonderful church organ even below manufacturers' price.
