TALK ON TARIFF REFORM.

Springer Again Expounds His Piece-meal Policy, and Gives HIS OWN IDEAS ON RECIPROCITY.

BRICKENRIDGE ON CAMPAIGN ISSUES

NEW YORK, Jan. 16.—The annual dinner of the Reform Club took place to-night at Sherry's. E. Ellery Anderson, the presiding officer, in a brief address extended a greeting to the dinner-guests of tariff reform, and hoped for the Presidency would be the choice of the people of the State of New York. He then introduced Senator William F. Vilas, of Wisconsin, who responded to the toast of "The Presidency in 1892."

Mr. Vilas recommended organization, the use of all proper means, the enlistment of all justifiable influences. He deprecated impractical methods, and said Democrats should be organized in a frank and open manner by Republicans. [Applause.] He held of the many ugly things for which the Republican party was responsible, finally charging them with flooding the country with \$2 bills.

Tariff Reform and Silver Not Twins. The way to win the National Government is the good, old-fashioned Democratic way or honestly asserting that trust at the hands of the people. Tariff reform and free silver coins are not twin brothers. [Prolonged cheer.]

Perhaps the most important speaker, owing to his position in which recent Congressional events have placed him, was William M. Springer, Chairman of the Committee on Ways and Means. Mr. Springer began his remarks by pointing out the difference between the Ways and Means Committee of the House of Representatives and the Ways and Means Committee of the House of Commons in England.

I presume, however, that you are not concerned so much about the history of the committee as you are about the opinions of the members of the committee in the present House of Representatives. I have no authority to speak for them, but I can tell you that the committee has reported a bill which, in my opinion, is the best that has ever been reported by this Congress.

The Committee's Piece-meal Policy. They will at an early day bring forward a bill which will be a piece-meal measure in reference to the tariff as well as in reference to the silver question. The committee will not in their judgment best meet the requirements of the situation and respond to the demand of the country for a genuine reform of the tariff by a piece-meal measure. It is a political question, which will pass through the hands of the committee, and it is probable that it will be reported by the committee in the next session. A definite action has been taken by the committee, and it is probable that the committee will report a bill which will be a piece-meal measure.

YEAR before, an increase of 10 per cent, and for the same period the futures have increased 10 per cent. It is a radical reform. It is a large, open, gentlemanly, to benefit the people most important operation, which will bring about a general prosperity, and will be a great benefit to the country.

Hon. M. D. Hart, of Ohio, spoke of the silver question. He said volume was the least important factor in any currency. If we keep our standard of money where it should be, and enforce absolute stability in it, we can never have too little money, for then we are able to draw as we need it from the world's great stock.

Representatives of Most of the Great Cities in Washington.

WASHINGTON, Jan. 16.—A delegation from Chicago will open its quarters at the Arlington to-morrow, and members are wondering whether that city is really bustling for the Democratic National Convention. Milwaukee is already receiving, Kansas City and Indianapolis will open Monday, and Cincinnati and New York will start on Tuesday. A large delegation of citizens of St. Paul, headed by Mayor Smith and Messrs. Doran and Kelly, arrived at the Arlington on Tuesday. A large meeting of the citizens of St. Paul will be held on Wednesday. The city of St. Paul is the place for holding the next Democratic National Convention. Mayor Summers, of Milwaukee, has accepted the invitation to attend the convention in the Arlington in the advance of the Milwaukee delegation.

A BIG POLITICAL BANQUET.

Seats for 1,200 to Be Held by the Lincoln Club of Columbus.

COLUMBUS, O., Jan. 16.—Preparations are about completed for the 45th annual Lincoln banquet of the Ohio Republican League of Clubs, to be held here February 12. It is expected this will be the largest political banquet ever held in the West, and will be one of the grandest of the Democratic party in the country.

CATHOLICS GETTING ALL THEY WANT

BRILLIN, Jan. 16.—In the course of the discussion in the Reichstag to-day on the question of the proposed German exhibit at the World's Fair at Chicago, Dr. von Rottenburg, Secretary to the Chancellor, said that, while a large number of manufacturers in some trades, such as silk and leather, would be represented at the fair, others, notably the owners of iron works, had refused to send exhibits.

The House then proceeded with the debate on the budget. Dr. Witte said he hoped the Government would come to a decision on the budget by the end of the month. The industrial associations differ as to whether the exhibition should be national or international. Some in opposition to the exhibition were not so much interested in the exhibition as they were in the money to be raised by the sale of the bonds.

ENGLAND'S WAR CLOUD. Queen Vic's Redeemers May Have to Teach Blackskins a Lesson—Consul General Johnston's Terrible Bad Mess of the Slave Trade Affair.

LONDON, Jan. 16.—Consul General Johnston, who has often referred to the colonizing methods of the Germans in Africa, has apparently taken a leaf out of their book and has made poor use of it. He has been defeated by the Arabs, and there is for the moment an uneasy feeling about that "British prestige" may have to be vindicated in the customary fashion, by sending red coats and blue jackets to shoot the Queen's Redeemers.

AN ALADDIN'S CAVE. Discovered by a Mining Syndicate in Frontenac County, Ont.

WINDSOR, Ont., Jan. 16.—A story which would make Rider Haggard turn pale with envy is being circulated in Windsor by Harry M. Poussett, a well-known business man of Sarnia. Mr. Poussett's story, which is well substantiated, goes back to the dim vistas of the past, long before the British conquest of Canada, when Frontenac and other French military pioneers ascended the St. Lawrence and founded the fort and settlement of Frontenac at its source.

The Frenchmen were dazzled with the discovery of a mine of silver, and they were the source of so much wealth, but beyond vague hints about a mammoth cave, lined and roofed with precious metals, they were not able to say anything. Some of the old men, tradition has it, were so far from being an Indian, carry him to a lonely ravine, and put him to torture, but no earthly could drag the secret from him.

SKIMMED MILK LAW. A Philadelphia Judge Maintains That Taking the Cream Off MAKES THE FLUID ADULTERATED.

PHILADELPHIA, Jan. 16.—In the Quarter Sessions Court yesterday, Judge Arnold handed down an interesting opinion refusing a motion for a new trial and an arrest of judgment in the case of John J. Hough, who was recently convicted of exposing for sale and selling adulterated milk. He defines skimmed milk as an adulteration within the terms of the act of the Pennsylvania Legislature, 1885, and says that the law says: "Legislation for the protection of the people from being imposed upon by impure, unwholesome, adulterated, diluted or skimmed milk was frequently adopted in this State. Such legislation is quite commendable, but whether it has been reasonable and consistent is not free from doubt."

Hough, who was recently convicted of exposing for sale and selling adulterated milk. He defines skimmed milk as an adulteration within the terms of the act of the Pennsylvania Legislature, 1885, and says that the law says: "Legislation for the protection of the people from being imposed upon by impure, unwholesome, adulterated, diluted or skimmed milk was frequently adopted in this State. Such legislation is quite commendable, but whether it has been reasonable and consistent is not free from doubt."

PHILADELPHIA, Jan. 16.—In the Quarter Sessions Court yesterday, Judge Arnold handed down an interesting opinion refusing a motion for a new trial and an arrest of judgment in the case of John J. Hough, who was recently convicted of exposing for sale and selling adulterated milk. He defines skimmed milk as an adulteration within the terms of the act of the Pennsylvania Legislature, 1885, and says that the law says: "Legislation for the protection of the people from being imposed upon by impure, unwholesome, adulterated, diluted or skimmed milk was frequently adopted in this State.
