IMMENSE OUTPUT AT BRADDOCK.

A Projected American College for Educating the Tanners.

STATISTICS OF THE COFFEE MARKET

OFFICE OF THE DISPATCH, PITTSBURG, TUESDAY, JANUARY 19.

At the Edgar Thomson Works the largest yield of steel rails for any one day of last year was 1,900 tons. The price of rails is about \$1 50 per ton greater than a year ago. Improved machinery has been added to the plant in the past year which has reduced the running expenses about \$200 per day. All the nine furnaces are in full blast, with the exception of furnner A, which has been rebuilt and will be ready to start in the next 10 days.

Orders are now on the books sufficient to take the entire wield of the works for several months to come. With the improved machinery, and all the invoaces pushed to their utmost capacity, there is now no doubt that the steel rail product of the Edgar Thomson for the year 1892 will far exceed that of last or any previous year. It is expected that the daily output of rails It is expected that the daily output of raiss will be over 1,500 tons for the year ahead, and there will be no difficulty in placing the entire yield at the advance of \$1 50 per ton on last winter's prices.

Education for Tanners.

The Molasses Crop.

It will be seen by reference to the market columns that high-grade New Orleans molasses is steadily advancing to a higher level. From sources of samply comes the report of From sources of samply comes the report of greatly diminished supplies as compared with last season. The amount of open ket-tle molasses is slight; as compared with last year it is not more than one-haif. Along with the light samply stands the fact that prices were 2c per gallon higher a year ago than now. Helde's are very firm in their yiews of values, and there is a general ex-pectation among dealers that markets will soon find a higher level.

Mother Mandelbaum, a Well-Known Smuggler, on the Carpet.

HAMILTON, ONT., Jan. 19.-[Special.]-Mother Mandelbaum, the well-known New York fence, who has been living here for the past six years, has been caught again by the Canadian customs' officer smuggling lace and jewelry into the country. A few weeks ago Mother Mandelbaum's daughter visited New York and brought back with her what purported to be a quantity of her household goods. They a quantity of her household goods. They were stored in a warehouse and were billed in Mother Mandelbaum's name. On Friday last the goods were all seized in Her Majesty's name, and among them were found a large quantity of very valuable lace, embroideries, silks, jewelry and other goods goods.

Mother Mandelbaum and her pretty Mother Mandelbaum and her pretty daughter were brought upon the carpet to Collector Kelvert's office. The old woman begged the Collector not to expose her before fler friends in this city, and promised to make everything right if he would only keep the matter quiet. On the charge against the old woman, the Collector fined her \$250, but no decision has been come to in her daughter's case and the mode are still redaughter's case, and the goods are still re-tained by the authorities.

DOGS OF WAR ARE BULLS.

Disgulating Rumors of the Chilean Siination Cause a Eulee in Wheat Near the Close-Corn Dall, but Sympathetic-Oats Unchanged-Provisions Higher.

CHICAGO-To-day for the first time the States had an appreciable effect on the price of wheat in this market. It was near the close of the session, and the result was the of wheat in this market. It was the close of the session, and the result was the rice, which had been ic below the closing neice vesterday, inspect to a point ic above he is fall of disembedded spirits. price yesterday, jumped to a point le above that figure and closed strong.

The market was rather quiet during most The market was rather quiet during most of the session. Nearly everything in the way of news was unfavorable to holders, and the offerings were free with only a lim-ited demand. Cables reported a decline abroad and domestic markets were nearly all heavy and lower. The generous snow-fail in the Southwest had allayed all appre-hension growing out of the cold weather, and the amount on passage showed an in-crease during the week of 2,22000 bushels. There was also a cable from Liverpool, giv-ing an estimate of European wants during the balance of the senson and estimating that the instead Sinzes alone can easily sup-

There was also a cable from Laverpool, giv-ing an estimate of European wants during the balance of the season, and estimating that the united States alone can easily sup-ply them. About the only builtsh feature early in the day was the decrease of 363,000 busiels in the Enrich surply. May opened at Magnumber, against 90 ge at the close restarday, so if of the 90 ge rainted to 90 george and ensed of the 90 ge at noon. A randor was circulated that the owners of Amer can atenners had been not field by the Government not to make any freight en-pagements, but to hold themselves in readi-ness to transport troops. This caused a built flurry, under the influence of which May sold up to 90 ge, and closed strong at 19 ge. Corn was exceedingly dull at prices as ande lower, but firmed mathat in sympathy with the upture in wheat, and closed at yester-day's final figures.

talk. Rea Bros. & Co. were wired that the President's Chilean message would be sent to Congress to-day. This was the cause of a waker tone in New York. It had a conser-active effect here. This was all to the fact that Eastern orders had been preity well filled, and there was no home demand to fail back on. Switch and signal received a fraction from the highest point, but was not notably weak. A material decline is improbable before the issue of the Tractions. New York and Cleveland Gas Coal was a strong feature, advancing to 49 bid, with none in sight. At John D. Balley's auction sale in the
