for all applicants in good shape. All he asks is that requests be sent in early, that appli-cants may be assigned without confusion. The badge of the encampment is in the good hands of Courade William O. Russell. It will be unique and will be highly prized by the visitors. It will be altogether unlike anything seen bereto ore in that line. Post il is pleased to have the honor of furnishing an officer of the guard and the firing squad as guards for the Department Encampment. Post 8 hast Monday night accepted the honor of escoring the Department Commander on the opening day of the encampment.

He ig-red all technical terms and made every-ing very plain. It was a most interesting down. The next quarter rendered some dress. The post quartet rendered some ections in its usual good style, and the w Post 157 brass band made its first public carance. These attractions with other le and recitations made up a very enter aining programme. After the meeting the new band and a few

day presented few features of special inter-est. The most that can be said was that in field street. If one should guess Second avenue it is likely he would not be far out spite of persistent attacks by the local bear-ish element, prices were well held and few changes of importance are seen. The most striking development of the day was the continued heavy gains shown by the bank tatement-\$5,000,000 in cash and \$11,000,000 in

statement-\$8,000,000 in cash and \$11,000,000 in deposits—and it is unquestioned that the banks are now in a stronger position than in any of the previous years at the same season, excepting possibly 1885. The opening of the market was irregular at slight changes from last night's figures, but the bears attacked the list immediately, paying special attention to Northern Pacific preferred, though Omaha reversed its move-ment of yesterday. On the other hand, a few material advances were made in some of the specialities, Distilters' rising rapidly and Manhattan 1 per cent. The pressure was abated after the first half hour, and there was only here and there a few rallies until the publication of the bank statement, when covering operations assumed large propor-

German Reichstag had voted to reduce the daty on wheat until A pril. This was sub-sequently denied, and assisted in the subse quent depression. The report that Minister Egan had been recalled from Chile was also a bullish feature. The offerings of wheat were moderate and there was good buying by many strong and influential operators. Shorts soon became nervoue and covered freely. May opened at 92%c, sold at 92%c, sugged off slowly to 91%c, recovered to 92c, went off again to 91%c, ouring the last hour, but on a report that 100,000 bushels had been taken for ex-port through Baltimore at about May prices, there was a rally to 92%c. A break on weak closing cables took the price to 91%c again, but the market again firmed up on covering by shorts who feared to let their trades stand over on account of the strained Chilean situation, and the close was firm at 92%c.

strained Chilean situation, and the close was firm at 92%c. Corn was fairly active and firm, due partly to a reaction after the break of the past two days, and partly to heavy exports, which aggregated 3,891,000 bushels for the week.
