PRESCRAL TELEGRAM TO THE DISPATCH.] BHOOKLYN, N. Y., Jan. 24.-Talmage's sermon this morning was on the application of religion to the affairs of daily life. His text was taken from I. Corinthians, x., 31:

Whether, therefore, ye eat or drink, or whatsoever ye do, do all to the glory of When the apostle, in this text, sets forth the idea that so common an action as the taking of food and drink is to be conducted to the glory of God, he proclaims the im-

A Present Day Religion Wanted. ropose, this morning, to plead for a relion for to-day. In the first place we want bring the religion of Christ into our conextion. We ought every day to be talk-religion. If there is anything glad it anything beautiful about it, anynously discussing it. I have noticed inst men, just in proportion as their Christian experience is shallow, talk about functions, and graveyards, and tombstones, and lear beds. The real, growing Christian man talks chiefly about his life, and the creat eternity beyond, and not so much choost the insignificant pass between these proportioners. nd vet how few circles there are where

o a circle, even of Christian people, where y are full of joy and hilarity, and talk ant Christor heaven, and everything is and thrist or heaven, and everything is mediately silenced.

y trands, the religion of Jesus Christ is orthing to talk about with a glad hears, is brighter than the waters it is more strut than the sunshine. Do not go und groaning about your religion, when cough to be singing if or talking it in orthit tones of voice. How often is it that find men whose lives are utterly incoment, who attempt to talk religion, and ave make a failure of it! My friends, we stirve religion, or we cannot talk it.

-t rive religion, or we cannot talk it. Cant the Weest Form of Hypocrisy. f a man is cranky, and cross, and unconnial, and hard in his dealings, and then gins to talk about Christ and heaven everyody is reasilled by it: yet I have heard such ien say, in whining toner, "We are uniser-ble sinners:" "The Lord bless you;" "The ord have mercy on you;" their conversa-tion interlarded with such expressions, thick must nothing but cauting; and cantis the worst form of hypocrisy,
gain I remark: we must bring the reon of Christ into our employments,

The Publicly Devont Not the Best There are those prominent in the churches

RELIGION FOR TO-DAY. One lucifer match may send destruction through a block of storehouses. Utilize Well Every Annoyance

Now, be careful to let none of those an novances go brough your soul unarraigned. Compel them to administer to your spiritual wealth. The scratch of a sixpenny may sometimes produce lockjaw, and the clip of a most infinitesimal annoyance may damage you forever. Do not let any annoyance or

a most infinitesimal annoyance may damage you forever. Do not let any annoyance or perplexity come across your soul without its making you better.

Our national Government does not think it belittling to put a tax on pins, and a tax on buckles, and a tax on shoes. The individual taxes do not amount to much, but in the aggregate to millions and millions of dollars. And I would have you, o Christian man, put a high tariff on every annoyance and vexation that comes through your soul. This might not amount to much, in single cases, but in the aggregate it would be a great revenue of spiritual strength and satisfaction. The only way to get prepared for the great troubles of life is to conquer these small troubles.

And I have to tell you, oh Christian men, if you cannot apply the principles of Christ's religion on a small scaie, you will never be able to apply them on a large scale. If you cannot successfully contend against these small sorrows that come down single-handed, what will you do when the greater disasters of life come down with thundering artillery, rolling over your soul?

Again, we must bring the religion of Christ into our commonest blessings. When the autumn comes, Governors make proclamations, we assemble in churches and we are very thunkful.

very thankful.

But every day ought to be a thanksgiving

our blessings.

I do not know but that, among its other instincts, the brute may have an instinct by which it recognizes the Divine hand that feeds it. I do not know but that God is, through it, holding communication with what we call "irrational creation." The cow that stands under the willow by the water-course, chewing its cud, looks very thankful; and who can tell how much a bird means by its som?

ful: and who can tell how much a bird means by its song?

Yet who thanks God for the water that gushes up in the well, and that foams in the cascade, and that laughs over the rocks, and that patters in the showers, and that claps its lands in the sea? Who thanks God for the air, the fountain of life, the bridge of sunbeams, the path of sound, the great fan on a hot summer's day? Who thanks God for this wonderful physical organism—this sweep of the vision—this chime of harmony struck into the ear—this soft tread of a myriad delights over the nervous tissue—this rolling of the crimson tide through artery and vein—this drimming of the heart on our march to immortality? We take all these things as a matter of course.

Sappose Common Bicssings Are Witheld.

Suppose Common Blessings Are Witheld, But suppose God should withdraw these common biessings! Your body would be an inquisition of torture, the cloud would re-fuse rain, every green thing would crumple up, and the earth would crack open under your feet. The air would cease its healthful circulation, pestilence would swoop, and every house would become a place of skulls. Streams would first swim with vermin, and then dry up; and thirst, and honger, and anguish and despair would lift their scepters. Oh, compare such a life at that with the life you live this morning with your families about you!

Every one in his own place. So our every step in life shall be a triumphal march, and the humblest foorstool on which we are called to six will be a conqueror's throne.

FEATURES OF TRADE.

The Week's Volume of Business Fails to Show Improvement

IN LINES OF GENERAL PRODUCE.

Some Signs of Reviva! in the Grocery and Provision Trade.

OFFICE OF THE DISPATCH, PITTSBURG, SATURDAY, JANUARY 23. The situation in trade lines is essentially as it was a week ago. In lines of country produce there have been no changes worthy of note since the year 1892 entered upon its career. Last January when fruits and vege-tables were selling at about the same price career. Last January when trinis and vege tables were selling at about the same price per bushel as they now sell by the barrel, trade was more active than it is at present. Commission men, with entire unanimity, report this as one of the slowest Januarys on record. It was hoped and expected that the cold wave which arrived in the early part of the week would prove helpful to trade, but so far the results from this source have proved very meagre. The fresh egg market has gained in strength, and prices are a shade better than at the beginning of the week. Fancy Elgin creamery and select grades of New York cheese are reported firm, but the expectation of a rise, cherished by dealers a week ngo, has been doomed to disappointment. Our jobbers are well stocked up with cheese and if they were not, they would find it difficult to lay in supplies at present prices and sell the goods at a profit. Tropical fruits have proved heavy stock to our dealers for the week past, and bananas are specially duil, demand having fallen off very much since the arrival of the cold wave.

than they were a year ago.

Pork packers report a fair demand for their products, and, as will be seen by reference to our home market column, mess pork and shoulders are ndvanced in price.

Hides and Leather. promptly taken at a shade better prices than prevailed a week ago. Sales were made last week at 1/2 lower than would be accepted at this time. Sheepskin pelts are moving freely, and dealers find no difficulty in disposing of all they can obtain. Harness leather for some cause, which our tanners do not attempt to give, has hardly been as active as it was two weeks ago. Collar and betting leather are in good demand and products move out as fast as they are ready for markets.

"The feature in the boot and shoe trade is a bigger movement, but at easier prices. It will be remembered that it was mentioned will be remembered that it was mentioned last week that a large number of salesmen with samples were out from the boot trade, and that a desperate attempt would be made to obtain orders. Such was the trae state of the case, and the orders have been obtained, but the business has been done at lower prices. Orders have been taken for boots at all the way from \$1 to \$2 per case on split and kip boots below the figures that were obtained for like goods a year ago. It is claimed in the trade that some houses have taken orders for boots at from 10 per cent to 12 per cent in price below the figures obtained last year. Those houses that have not taken such orders claim that it is not possible to make the goods at such prices with any profits whatever. But, on the sther hand, it must be remembered that some grades of leather are lower than a year ago, though the item of labor is costing fully as much as a yearage, and prominent houses claim that labor is even higher. Beltknife splits are selling for fully \$ per cent less money than a year ago, while union splits in the best grades are worth fully as much as a year ago, some grades of leather are lower prices than a year ago, and about the same is true of wax leather.

But, in spite of the fact of somewhat lower leather, many of the boot and shoe manuracturing trade are a good deal disturbed over the fact of lower prices. They feel that the competition can scarcely be met, and yet, if one is in the trade, it must be met. last week that a large number of salesmen

SATURDAY'S PRODUCE MARKETS THE HOME MARKETS.

CHICAGO—Wheat was nigher to-day. The opening was ½c up, and then ½c was gained. There was a recession to yesterday's price at one time, but the market again arose and closed with an advance of ½c. There were a number of bullish items of early news. The chief one was the statement that the German Reichstag had voted to reduce the duty on wheat until April I. This was subsequently denied, and assisted in the subsequent depression. The report that Minister Egan had been recalled from Chile was also a bullish feature.

The leading futures ranged as follows, as corrected by John M. Oakley & Co., 45 Sixth street, members of the Chicago Board of Trade:

A STRONG BANK STATEMENT

IS THE LEADING ITEM OF INTEREST ON WALL STREET.

Banks in a Better Condition Than in Any Previous Year Except 1885 - Shares Rather Reactionary Until the Statement 'Is Published-No Marked Changes.

NEW YORK, Jan. 23.—The stock market to day presented few features of special inter-est. The most that can be said was that in spite of persistent attacks by the local bear ish element, prices were well held and few changes of importance are seen. The most striking development of the day was the continued heavy gains shown by the bank statement-\$8,000,000 in cash and \$11,000,000 in deposits-and it is unquestioned that the

deposits—and it is unquestioned that the banks are now in a stronger position than in any of the previous years at the same season, excepting possibly 1885.

The opening of the market was irregular at slight changes from last night's figures, but the bears attacked the list immediately, paying special attention to Northern Pacific preferred, though Omaha reversed its movement of yesterday. On the other hand, a few material advances were made in some of the specialties, Distillers' rising rapidly and Manhattan I per cent. The pressure was abated after the first half hour, and there were only here and there a few rallies until the publication of the bank statement, when covering operations assumed large proportions and most of the list were brought up beyond the opening. tions and most of the list were brought up beyond the opening.

In this movement New England, Omaha and the Industrials were specially prominent, but in railroad stocks the late dealings showed again a reactionary tendency. The market fibally closed active and firm, generally at insignificant changes for the day. Distillers is up 2 per cent, but no other marked changes occurred.

The following table shows the prices of active stocks on the New York Stock Exchange yesterday. Corrected daily for THE DISPATCH by WHITNEY & STEPHENSON, oldest Plitsburg members of the New York Stock Exchange, 57 Fourth avenue.

The Dispatch Complimented. Brack & Baird sold Saturday morning for Harsy F. Davis to Moses Himmelrich, of Market and Diamond streets, the property No. 160 Fayette street, Allegheny, lot 24x124 feet, for \$6,500. Messrs. Black & Baird received this property for sale on Tuesday, advertised it as a "quick seller" in Wednesday's Disparch, and closed the sale as above. The purchaser will remove the present house (a small brick) and begin the erection at once of a ten-room stone-front dwelling for his own use. This property was sold to Mr. Davis just two years ago, by the same firm.

A SMUGGLER'S DODGE

He Secures the Arrest of American Inspect ors on a Conspiracy Charge. MONTREAL, Jan. 24.—United States Customs Inspector E. A. Twohey, Special Treasury Agent J. Converse Smith and W. Sorrensky were arrested last night at the instance of J. J. Milloy, a merchant tailor, on the charge of conspiracy. They appeared in the police court to-day and were remanded till Monday. The affair appears in the light of a dodge on the part of Milloy, who has already been arrested for smuggling goods. Milloy is supposed to be on the ocean at present, and a story goes that he is to be arrested on his arrival at New York or any other United States port at which the vessel he is on touches.

The Treasury Department has had suspicion that a large quantity of clothing was

picion that a large quantity of clothing was annually being smuggled into the United States. This clothing came principally from Montreal. Attempts have been made at different times to secure evidence against the guilty parties, but the officers invari-ably met with failure. Still they perse-vered in their efforts and Milloy's arrest was to be one of the results. It is said one of the points which will be raised by the prosecution is the right of the United States Treasury Department officials to act as de tectives in Canada.

day. We do not recognize the common mer-cies of life. We have to see a blind man led by his dog before we begin to bethink ourselves of what a grand thing it is to have eyesight. We are so stupid that nothing but nisfortunes of others can rouse us up to

Take this practical religion I have recommended into your every-day life. Make every day a sabbath, and every meal a sacrament, and every room you enter a boly of holies. We all have work to do; let us be willing to do it. We all have sorrows to near; let us cheerfully bear them. We all have bottles to fight; let us conragoously fight them. If you want to de right you must live right. Negligence and indolence will win the hiss of everlasting scorn, while faithfulness will gather its garlands, and wave its scepter, and sit upon its throne, longather this earth has put on ashes, and eternal ares have begun their march.

Groceries and Provisions.

The movement in both lines has shown mprovement the past few days. From the first to the middle of the month groceries moved very slowly, but a better day has evimoved very slowly, but a better day has evidently dawned and all signs point to a heavy trade during the balance of the month. The only changes worthy of note are the advance in sugar of \$\frac{1}{2}\epsilon\$ per lb and the steady upward movement of canned tomatoes and corn. Open kettle New Orleans molasses is reported very firm at sources of supply. The yield is not above half what it was last searon and very limited as a part of the proper are nown a badde lower. on, and yet prices are now a shade lower

The market for green hides is still quiet and dull, with prices practically unchanged. Receipts of calfskins are now very light, and the few that come to the front are promptly taken at a shade better prices

COUNTRY PRODUCE—Jobbing Prices—There is little doing in this department of trade, and hence little to report. Commission merchants repeat the same old story of quiet trade since the beginning of the year. Vegetables of all kinds are particularly slow. The cold wave has had a stimulating effect on the egg market, and strictly fresh in single cases find ready sale at 25c per dozen. Dairy products of fancy grade are teady, and common grades are weak at nominal prices. Supply of turkeys is large and prices have slightly weakened within a day or two. Dressed chickens are in short supply and firm.
